The Mayor and Public Improvement Commission have approved the discontinuance of Brattle square, Boston Proper district, as a public highway, from Brattle street to Elm street.

The project is described as follows:

A highway named Brattle square is hereby discontinued as a public highway from Brattle street to Elm street.

Said Brattle square as hereby discontinued is bounded:

Southerly by Brattle street as discontinued under an order of the Public Improvement Commission and Mayor dated November 27, 1962, forty and 11-100 feet; westerly by the westerly line of Brattle square as hereby discontinued, one hundred twenty-nine and 50-100 feet; northerly by the northerly line of Brattle square as hereby discontinued, eighteen and 97-100 feet; northwesterly by the northwesterly line of Brattle square as hereby discontinued, by three measurements, one hundred five and 25-100 feet, 34-100 feet, and thirty-three and 84-100 feet; northeasterly by Elm street as discontinued under an order of the Public Improvement Commission and Mayor dated November 27, 1962, twenty-nine and 84-100 feet; southeasterly by the southeasterly line of Brattle square as hereby discontinued, one hundred thirty-seven and 36-100 feet, and easterly by the easterly line of Brattle square as hereby discontinued by two measurements, twenty-six and 19-100 feet and ninety-seven and 14-100 feet, containing nine thousand five hundred twenty-one square feet, more or less.

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Brattle square, Boston Proper district, from Brattle street to Elm street, under an order of the commission of November 27, 1962, and awards no damages.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES

The Mayor and Public Improvement Commission have approved the following:

That the amount of \$1 is awarded to Ardis E. Corbin for all damages sustained under the order of the Public Improvement Commission and Mayor of February 15, 1961, for the widening and construction of West street, Hyde Park district, at the southwest corner of Central avenue.

That the amount of \$261 is awarded to James M. and Ellen T. Quinn for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,500 is awarded to Thomas E. and Gertrude C. O'Donovan for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,815 is awarded to Webster J. Mansour for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,940 is awarded to Mary A. Thompson for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

IMPROVEMENTS VOTED

The Mayor and Public Improvement Commission approved the following:

That permission be granted to G. D. Steinberg to erect and maintain an illuminated sign at No. 152 North Beacon street, Brighton district, substantially as shown on a plan entitled "Dunlop Tire Sales, North Beacon Street, Brighton, Mass., Donnelly Electric and Manufacturing Company, 35 Pontiac Street, Boston, Mass., October 30, 1962," and on file in the office of the Commissioner of Public Works.

Four Police Bureaus Provide Modernization

Newly Created Units Implement Quinn Tamm Report

Police Commissioner Edmund L. McNamara has announced creation of a new organizational structure for the Boston Police Department to become effective Wednesday, January 2, 1963.

The survey recently completed by members of the Field Service Division of the International Chiefs of Police Association has provided a 450-page report which has been carefully studied and evaluated by the Police Commissioner, his Administrative Staff, and the Department Planning Board.

The recommendations and suggestions made by this professional survey team under the direction of Quinn Tamm represents the best in modern police administrative techniques. The Police Commissioner has carefully considered all facets of their report in making his decision to take this most important step towards modernizing and streamlining the structure of the Police Department. Modifications have been made in those areas where legislative amendment is necessary.

The announced reorganization represents the most extensive and progressive change in the Boston Police Department operations in its long history and provides a substantial departure from existing procedure.

FOUR BUREAUS

Under the over-all direction of the Police Commissioner the present duties of the Office of the Superintendent of Police and all other departmental activities will function under four separate bureaus, each under the command of a Bureau Chief. The newly created units are: the Bureau of Inspectional Services; the Bureau of Field Operations; the Bureau of General Services, and the Bureau of Personnel and Training.

A series of interviews, conferences, and tests were conducted by the members of the survey team as part of an evaluation program to fit department personnel to potential assignments. The results of this program have been utilized by the Police Commissioner in making his appointments and assignments implementing the recommendations of the Survey Report.

DIRECT AUTHORITY

Under the new organizational plan, all police activities directed toward a common purpose are assigned to a single bureau. All lines of authority will be definite and direct and there will be unity of command throughout the entire department.

The Police Commissioner stated that it was his desire to develop a compact, mobile, well-trained, dedicated police organization and to attain this goal he would apply every sound principle of modern police administration.

With a new sense of purpose and direction, the Boston Police Department will go forward to meet the future needs, requirements, and challenges of a modern law enforcement agency.

Police Commissioner Edmund L. McNamara has issued the following, dated December 31, 1962, in connection with the reorganization of the command structure:

GENERAL ORDER NO. 164.

The Rules and Regulations of the Boston Police Department are hereby amended, as follows, effective as of 7.45 o'clock A.M., Wednesday, January 2, 1963:

On Pages 11 and 12, strike out Rule 2 in its entirety and insert in place thereof the following new Rule:

Rule 2—Organization, Task Assignments, and General Responsibilities.

1. The organizational structure of the Boston Police Department shall consist of the following major functional units and related subdivisions:

BRATTLE ST. DISCONTINUANCE *Boston Proper*

The Mayor and Public Improvement Commission have approved the discontinuance of Brattle street, Boston Proper district, as a public highway, from Scollay square approximately 345 feet easterly.

The project is described as follows:

A highway named Brattle street is hereby discontinued as a public highway from Scollay square approximately 345 feet easterly.

Said Brattle street as hereby discontinued is bounded:

Westerly by Scollay square, forty-seven and 73-100 feet; northerly by the northerly line of Brattle street as hereby discontinued, by two measurements, two hundred twenty-one and 76-100 feet and seventy-seven and 75-100 feet; again northerly by Brattle square as widened under an order, forty and 11-100 feet; easterly by another portion of Brattle street, forty-eight and 65-100 feet, and southerly by the southerly line of Brattle street as hereby discontinued, by three measurements, twenty and 63-100 feet, sixty-nine and 98-100 feet, and two hundred sixty-eight and 67-100 feet, containing fifteen thousand seven hundred twenty-two square feet, more or less.

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Brattle street, Boston Proper district, from Scollay square approximately 345 feet easterly, under an order of the commission of November 27, 1962, and awards no damages.

BRATTLE SQ. DISCONTINUANCE *Boston Proper*

The Mayor and Public Improvement Commission have approved the discontinuance of Brattle square, Boston Proper district, as a public highway, from Brattle street to Elm street.

The project is described as follows:

A highway named Brattle square is hereby discontinued as a public highway from Brattle street to Elm street.

Said Brattle square as hereby discontinued is bounded:

Southerly by Brattle street as discontinued under an order of the Public Improvement Commission and Mayor dated November 27, 1962, forty and 11-100 feet; westerly by the westerly line of Brattle square as hereby discontinued, one hundred twenty-nine and 50-100 feet; northerly by the northerly line of Brattle square as hereby discontinued, eighteen and 97-100 feet; northwesterly by the northwesterly line of Brattle square as hereby discontinued, by three measurements, one hundred five and 25-100 feet, 34-100 feet, and thirty-three and 84-100 feet; northeasterly by Elm street as discontinued under an order of the Public Improvement Commission and Mayor dated November 27, 1962, twenty-nine and 84-100 feet; southeasterly by the southeasterly line of Brattle square as hereby discontinued, one hundred thirty-seven and 36-100 feet, and easterly by the easterly line of Brattle square as hereby discontinued by two measurements, twenty-six and 19-100 feet and ninety-seven and 14-100 feet, containing nine thousand five hundred twenty-one square feet, more or less.

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Brattle square, Boston Proper district, from Brattle street to Elm street, under an order of the commission of November 27, 1962, and awards no damages.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES

The Mayor and Public Improvement Commission have approved the following:

That the amount of \$1 is awarded to Ardis E. Corbin for all damages sustained under the order of the Public Improvement Commission and Mayor of February 15, 1961, for the widening and construction of West street, Hyde Park district, at the southwest corner of Central avenue.

That the amount of \$261 is awarded to James M. and Ellen T. Quinn for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,500 is awarded to Thomas E. and Gertrude C. O'Donovan for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,815 is awarded to Webster J. Mansour for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

That the amount of \$2,940 is awarded to Mary A. Thompson for all damages sustained under the order of the Public Improvement Commission and Mayor of June 29, 1960, for the widening, relocation, and construction of Centre street, West Roxbury district, from Grove street to the Dedham boundary line.

INVITATION FOR PLUMBING ALTERATIONS AT THE HORACE MANN SCHOOL, KEARSARGE AVENUE, ROXBURY, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for plumbing alterations at the Horace Mann School, Kearsarge avenue, Roxbury, Mass.

General bids will be received up until twelve o'clock noon, Monday, January 21, 1963, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid specifications and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the specifications furnished to the bidder is a true and complete copy of the specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

1963 Hailed as Great "Year of Decision" by Mayor Calls for "Action Now" to Speed Great Advances

Herewith is the complete text of Mayor Collins' annual address delivered January 7 in the Council Chamber at City Hall.

1963 is a year of bright hope for Boston. It may also be a year of fateful decision for our beloved city.

This year will determine whether we have just concluded the third successful lap in a race against time and blight — or whether we have merely been pacing on a treadmill all the while.

1963 will decide whether the city will continue to go forward — on the course which we have charted — toward the realization of its fondest dreams — or whether our municipal ship will be permitted to founder on the rocks of fear, indecision, and petty political strife.

1963 may also determine the ultimate fate of all the cities and towns of the Commonwealth, for 1963 will demonstrate whether the state government is finally willing to assume the functions and expenses which properly should be borne by the Commonwealth and furnish fair and just relief to cities and towns so that they may have the wherewithal to fulfill their necessary municipal objectives.

BRIGHT PROSPECTS

Three short years ago Boston was at the edge of fate — its outlook bleak, its prospects gloomy, its future dark. To compound the difficulties of its many problems, the sidelines did not lack for professional mourners ready to officiate at its graveyard rites.

Yet, today, our municipal condition is healthy, our outlook cheerful — our prospects

bright and optimistic — so bright indeed, that we can realistically look forward to the actual creation, in the second half of the twentieth century, of one of the great cities of the twenty-first century.

Today, the city that all of our critics were ready to bury in the dismal sands of failure and obscurity is one of the finalists in the *Look Magazine* national competition for the title of "All-American City."

Today, the city that seemed destined for financial and political bankruptcy holds its head high, with the encouraging feel of cash in its pockets.

ABCD Names Two to Board of Directors

Massachusetts Health Commissioner Alfred L. Frechette and John J. Broderick, President of the Building and Construction Trades Council of Metropolitan Boston, have been named to the Board of Directors of Action for Boston Community Development, Inc.

In announcing the appointment of the new Board members, Dean Charles I. Schottland of Brandeis University, ABCD President, said that Dr. Frechette will fill the vacancy created by the resignation of Dean Francis Keppel of the Harvard Graduate School of Education. Dean Keppel resigned to take the position of United States Commissioner of Education.

Dean Schottland also announced the appointment of Dr. Clarence E. Sherwood, Consultant on Youth and Work with the New York State Division for Youth, as ABCD's Research Director.

The names of ten other professional appointments to the ABCD staff were also made public by Dean Schottland.

ABCD is a private, nonprofit organization financed by grants from the Ford Foundation, the Federal Government, and local foundations. Its purpose is to develop a community-wide attack on social problems.

Dr. Frechette has been Commissioner of Public Health for the state since 1959, prior to which he had been, for nine years, Director of the Health, Hospitals, and Medical Care Division of United Community Services of Metropolitan Boston. He is currently President of the Massachusetts Health Research Institute, Inc., and of the Medical Foundation, Inc., of Boston.

Mr. Broderick, who lives at 5 Lewis Drive, Randolph, has been business representative of the Glaziers Local Union No. 1044 since 1955. He was elected President of the Construction Trades Council a year ago.

He is a graduate of St. Peter and Paul Grammar School and Boston English High School.

Dr. Sherwood, who was Director of the Crime Prevention Project in the Morningside Heights district of New York City from 1955 until 1961, is a graduate of New York University where he earned his doctoral degree in Sociology. He is a former teacher of Columbia University, City College of New York, NYU, Brooklyn College, and Bellevue Hospital.

During the past year he designed and put into action eight programs for Youth and Work Training in major New York cities. He will be in full charge of all research for ABCD and will assist in the formulation and evaluation of new programs.

Other ABCD staff members named by Dean Schottland were Vincent F. Ciampa, director of District Operations; William H. Wells, Administrative Officer and Director of Public Relations; Mrs. Eloise B. Wade, Program Assistant; and eight community organization field workers.

The field workers are Joseph Vilimas, Jr., and James E. Brady in Charlestown; Albert F. Mitchell and Dorothy S. Abramson in Roxbury; Joseph F. Dee, Jr., in Dorchester; Daniel F. Clifford in Parker Hill-Fenway; Joan Langhorn in South Boston; and Langley C. Keyes, Jr., in the South End.

Mr. Ciampa was, for five years, director of community organization

for United Community Services until his appointment to the ABCD staff. A graduate of Fordham University and the Boston College School of Social Work, he is in full charge of ABCD's Field Program in the city's neighborhoods.

Mr. Wells, who is on leave from the Boston *Globe* where he was City Hall reporter, served as a reporter on the Boston *Herald* and the Norfolk-Virginian *Pilot*. A graduate of Tufts College and the Columbia University School of Law, Mr. Wells is a former president and administrative secretary of the Newspaper Guild of Greater Boston —AFL-CIO and former New York State director of the United World Federalists.

Mrs. Wade, former research assistant for the New England Council of Higher Education, was assistant to the director of the Marshall Court Project in Rochester, New York, for four years and director of the Housing Bureau in Wickford, Rhode Island. She has participated in research and planning projects at Harvard University and Radcliffe College and is former Director of Volunteers at Massachusetts General Hospital.

Boston's "Year of Decision" . . .

(Continued from front page)

Today, the city that seemed fated for physical unattractiveness and cultural oblivion is rapidly regaining its leadership in city planning and the propagation of the arts.

Today — believe it or not — our critics are asking "whether the city is not moving too fast" — not realizing that municipal blight, if not attended to, has a built-in speed of its own.

EXCITING CITY

And how have we been able to work this transformation — this change from dejection and discouragement to courage and confidence?

By turning to Boston's greatest natural resource — the resource that has always in the past carried it through every crisis in its history — the inexhaustible natural resource of its people — people of courage, good will, and enterprise — people of talent, energy, and imagination — men and women who know not the meaning of fear, and who have never been long deterred by any challenge — the people of Boston who have always made this the exciting city that it is, by the daring, the boldness, and the inventiveness with which they have eventually met and conquered every challenge.

Yes, ladies and gentlemen, the great improvement in the health of Boston's body politic, and in the dynamism of its spirit, has come about through the inspiring demonstration, during the last three years, of the creative possibilities inherent in the unselfish union of citizen efforts — of the vast accomplishments which can be achieved through the enthusiastic, unstinting, nonpartisan cooperation of people planning with people — of people working with people — for the common good of Boston and all of its people.

Housewife and teacher — tradesman and lawyer — businessman and artisan — we owe them all a great and permanent debt, for all they have done and helped us also to perform.

OUR TAX OUTLOOK

In surveying the prospects for the year, paramount in the minds of many citizens is the question of our 1963 tax rate.

The real estate tax rate will always depend first, on what we can do locally to create new

valuations and effect internal economies; and second, on what the state will finally do to relieve local real estate from some of its unnecessary burdens.

However much we may accomplish in the first direction, no truly substantial tax reduction can be achieved until we make real progress in the second direction.

On the local level, no matter how high our January hopes, our good intentions are at best an informed estimate of what we can actually do in June.

Such estimate must take into consideration built-in increases in anticipated expenditures and known decreases in revenues formerly enjoyed, while at the same time being limited to more or less hopeful speculation as to increased revenues and reimbursement from state sources.

On the debit side, so to speak, we have the known loss in valuations resulting from takings by the Massachusetts Turnpike Authority, amounting to some 15 million dollars, and takings by the Boston Redevelopment Authority. While these takings are made in the public interest, and will eventually result in greater substituted tax revenues for the city, the temporary loss in revenues is immediate and substantial. We also have the continuing trend of acquisitions of previously taxable property by tax-exempt institutions, averaging 3 million dollars a year. This is a serious and growing problem which requires intensified study in the interest of all citizens.

In addition, we have the built-in increases in pension costs, Blue Cross and Blue Shield expenses, and School Department costs, and some unavoidable increases in Departmental Appropriations. It is also anticipated that MDC assessments will rise. If, as I hope and intend, the Jacobs compensation and classification plan for city employees is put into effect, this will cost an additional 2 million dollars. Similarly, if, as I expect, substantial pay increases are granted to our uniformed forces, another 2 million dollars will be required. Without taking into account rising costs of public assistance, these items alone total more than 9 million dollars, and if not offset would require a tax rate increase of about 6 dollars per thousand.

(Continued on next page)

Boston's "Year of Decision" . . .

(Continued from previous page)

On the other hand, our financial house is in good order, and we look forward to decreases in debt and interest costs, to substantial savings in the Police Department, and to increased hospital revenues. Our MTA assessment will fortunately be reduced, and 1963 will show the first significant increase in revenues from new construction.

Looking at the entire picture cautiously but hopefully, there is a very good chance that I will be able to announce, this coming June, the fourth successive tax reduction since 1959, and in an amount which may be greater than the first three combined.

STATE MUST AID

There are two things on which all citizens are agreed, regardless of party persuasion or economic philosophy:

First, that the state must furnish substantial relief to the cities and towns, to the extent of at least 100 million dollars.

Second, that we must do more for education on the local scene.

Everybody agrees about these matters, but, as in the case of the weather, no one seems to do anything about them.

A way appears in which both objectives can be accomplished, to the satisfaction and with the support of all citizens concerned.

I refer to a limited tax on sales with the proceeds exclusively devoted to educational purposes in the cities and towns.

It is difficult to exaggerate the local need for tax relief for real estate. It is also difficult to exaggerate the local need of increased educational facilities and the pressure for improved standards of compensation for teachers. As matters stand, the pressure of each results in further burdens on real estate, without adequate satisfaction of educational needs.

In the City of Boston, for example, School Department expenditures will amount to nearly 40 million dollars in 1963, or about 28 dollars in our tax rate. Every increase in this appropriation, no matter how necessary, defeats our

efforts to minimize the real estate tax rate. If financial urgency dictates elimination or postponement of otherwise desirable educational appropriations, we almost certainly risk harm to our educational system and resources.

ACTION NEEDED NOW

The situation of the City of Boston in this respect does not differ, fundamentally, from that of the other cities and towns.

A limited sales tax for local educational purposes would solve both problems: The proceeds would permit an immediate substantial reduction in local tax rates, and our expanding local economy would provide, I am confident, a gradually but constantly increasing source of funds for our expanding educational needs.

The important thing, I submit, is that the time for action by the state is now. There is no time for further studies and reports. Fortunately, there is no need for further studies and reports.

I have the most complete confidence that all citizens will support legislation which has as its dual purpose the provision of funds for education of our children and the reduction of local tax rates.

FISCAL HIGHLIGHTS

Once again I am glad to report good progress by the city in the field of its fiscal affairs:

Budget: As compared with 1959, the combined 1962 city and county budgets have hardly varied, despite the fact that we have had to absorb more than 6 million dollars (\$6,196,201) in increases in wages, holiday pay, health insurance, pension costs, and other fringe benefits. Indeed, were it not for increases in the County budget over which the Mayor and Council have minimal control, the 1962 budget would show an actual decrease from 1959.

Our success in this regard is principally due to careful adherence to the "No Hire — No Fire" policy with regard to city employment, under which we have succeeded, since January, 1960, in eliminating 1,063 permanent positions, 1,038 of which were in departments under the Mayor's direct control, and only 25 of which were in city and county departments not so controlled.

It is estimated that faithful adherence to the "no hire — no fire" policy has enabled us to save nearly four and one-half million dollars annually in the city's budget.

Our budgetary success rests also, however, on the care with which our department heads have managed to get the most out of each dollar, by rendering increased services at less than previous costs.

The numerous activities of our Public Works Department, for example, were carried out in 1962 at a cost which was 570,000 dollars (\$570,572) less than in 1959, and I am firm in my belief that the performance of the Public Works Department this past year was the most outstanding in a decade.

PURCHASE ECONOMIES

The Purchasing Division continues to find new and fertile fields for cost-cutting. The dual policies of unrestricted "open door" bidding and bulk buying have resulted in savings of as much as 50 per cent from former prices, especially in the areas of medical, hospital, and food supplies.

In these connections, it is interesting to note that since April 5, 1962, when the Legislature returned budgetary and other control over the Boston Police Department to the City of Boston, the Police Department has been able to reduce its permanent staff by 138 positions, and that the Purchasing Department has been able to effect startling savings in prices, as compared with prior Police Department purchase prices.

For example, raincoats formerly costing \$12 each have been furnished for \$8.59; tire chains costing \$7.15 have been bought for \$4.53; lubricating oil with a previous cost of 83 cents a gallon, now costs 56 cents a gallon, and certain breathing apparatus formerly rented at an annual rental cost of \$54 is now bought outright for \$49.

Our ability to make such quick and substantial savings in costs of manpower and supplies in the Police Department certainly confirms the representations made by us to the Legislature that budgetary control of that department should be returned to the city.

I may add, in this connection, that it is the policy of the Mayor's Office essentially to leave

the internal affairs of the Police Department in the capable hands of its commissioner, who has already taken steps to implement the Tamm report and whose forward strides in police management and reorganization have been widely and favorably noted.

COLLECTIONS UP

Collections: I am also able to report that 1962 also showed improvement in every area of collection of sums due the city for taxes and services.

Each year since 1959 has shown an improvement in the percentage of real estate and personal property taxes collected for the current year. Part of the 1962 record results from our improved billing procedures, which enabled us to send out all real estate tax bills one month earlier than in 1961, and two months earlier than in 1960. This in turn has reduced the necessity for temporary loans in anticipation of taxes, with resulting savings in interest paid.

Motor vehicle excise collections increased 2,400,000 dollars over 1960, and with improved methods and cooperation from the Registry of Motor Vehicles we look forward soon to becoming fully current in billing for this excise.

In the matter of collection and foreclosure of tax titles, 1962 was a banner year. The total collected in cash or in the book value of foreclosed properties was nearly 3 million 150 thousand dollars (\$3,144,688), or almost double the total realized in 1959. Of this amount, more than \$2,230,000, or 71 per cent was in cash, whereas the amount of cash collected in this manner in 1959 was less than 33 per cent of the total realized. The strict, uniform and impartial policies followed by the Law Department during the last three years have thus been successful in two important respects: they have not only brought in more dollars in total, but have saved the city further incidental expenses by proportionately reducing the number of properties which the city has been forced to take over in satisfaction of these tax obligations.

In turn, cash collected from rentals of foreclosed property have increased 19 per cent over

(Continued on next page)

Boston's "Year of Decision" . . .

(Continued from previous page)

1959, and cash realized from sales of foreclosed property increased to nearly 650,000 thousand dollars (\$646,450) in 1962, or more than four and one-half times the sum realized in 1959 from this source.

Collections both of fees and rentals from parking facilities likewise showed a progressive trend in 1962.

DEBT GOES DOWN

Debt, Interest Costs and Credit: 1962 saw further important reductions in the city's permanent debt, with a result that the city's net debt has been decreased almost 7,814,000 dollars since 1959 — or more than $7\frac{1}{2}$ per cent — while the city's gross debt went down in the same period by 18,065,000 dollars, or more than $11\frac{1}{4}$ per cent.

Temporary loans issued in 1962, in the amount of 25 million dollars, were the lowest in amount since 1947. Such loans, which were as high as 90 million dollars in 1957, still amounted to 55 million dollars in 1959, but have been successively reduced by 10 million dollars each year since 1959.

The resulting cost of interest has not only been correspondingly decreased, but in 1962 was more than offset by interest received by the city from temporary investments of surplus city funds in United States obligations.

This illustrates the salutary effect of legislation which the city succeeded in obtaining in 1960. Prior to 1960, if the city had surplus funds remaining on hand from time to time after redemption of temporary loans, it was nevertheless forbidden to invest such funds in income-bearing securities, but was forced to hold the same in cash. Since 1960, the city has been permitted to invest such surplus funds in treasury bills. Income received from such investment of 1962 surplus funds amounted to more than 213,000 dollars, or more than 36,000 dollars in excess of the entire cost of interest on 1962 temporary loans, which was only 176,000 dollars, as compared with \$1,403,000 dollars, as recently as 1957.

1962 also marked a further improvement in the city's financial credit. The acid test of our credit is always determined by the rate of interest we have to pay on our permanent borrowings. That our credit has steadily improved in the financial community is forcefully demonstrated by the fact that in each year since 1959, we have been called upon to pay a decreased rate of interest.

In 1959, the net interest rate to the city was 3.83 per cent — in 1960, it was 3.46 per cent and 3.38 per cent. In 1961, it was 3.14 per cent, but on October 24, 1962, it was only 2.71 per cent — lower by a full percentage point than in 1959 — and the lowest rate enjoyed by the city since 1956.

DEPARTMENTAL ADVANCES

Time does not permit a report, however brief, of all departmental accomplishments. A few highlights are, however of special interest.

If statistics are a test, then the reorganization of the Assessing Department and its adoption of uniform assessing standards have been successful, as judged by the fact that average abatements decreased by more than 50 per cent in the last three-year period, dropping from an average of \$12,515,000 in 1957-1959, to an average of \$6,189,000 in 1960-1962. Moreover, the number of applications for abatement fell 945 from 1961, and 2,196 from 1959 — a reduction of $28\frac{1}{2}$ per cent since 1959.

CONSTRUCTION DOUBLED

The Building Department reports that new construction permits more than doubled in 1962, from 37 million dollars in 1961 to nearly 79 million dollars as of December first. Taxable construction and alterations almost exactly doubled from 1961, and represented more than two thirds of the total.

The Public Works Department reports that 1962 highway reconstruction increased almost 50 per cent over 1961 and increased more than 210 per cent over 1959. It also reports that equipment modernization continued in 1962 by the replacement of approximately 75 pieces of major streetcleaning and snow-fighting equipment.

URBAN PLAN TOPS

By far the major accomplishment of the past year — indeed, of the past three years — has been our performance in the fields of redevelopment and rehabilitation.

In this respect, I believe that Boston has the most outstanding, the soundest, and the most creative urban renewal program in the United States, if not in the entire world.

I congratulate the members of the Boston Redevelopment Authority, the Development Administrator, and you, the Honorable Members of the Boston City Council, on the industry, intelligence, and energy which have attended your efforts in this vastly important field.

The purpose of this program is not merely to improve the shelter and facilities of our inhabitants, but to add to their enjoyment of life itself, by adding to the social and aesthetic amenities of their environment.

But the key to the program — and the foundation of its success — is and will remain the concept of planning with the people, and for the people, and according to the people's own enlightened desires.

Moreover, the program is highlighted by these three advanced fundamentals of policy: early acquisition, to prevent irreparable economic injury to those displaced; reimbursement of relocation costs, for those displaced; and, most important, a stepped-up program to provide, in advance, adequate, low-cost residential facilities for families unavoidably relocated.

To every program, no matter how well conceived, there will always be voices of dissent, however misinformed or insincerely influenced. We shall of course do nothing to prevent or suppress dissent, because we know, that through the democratic process of public hearing and testimony, no urban renewal program has had or will have your approval unless it is plainly in the public interest and for the public benefit and has the informed support of the public at large.

I think that in the future years, you and I will derive the greatest satisfaction from such projects as the Washington Park Urban Renewal Plan — which will involve the gradual

transition of an entire area of our city from a condition of increasing blight to a condition of constantly increasing pride in citizenship in Boston. Planning with the people themselves, the redeveloped area will provide better homes, better schools, better neighborhood facilities for those very people, and within their means.

Similar projects, involving advance construction of privately-financed attractive low-cost relocation housing are planned for Charlestown and other areas of the city — but always, in consultation and planning with the people affected.

Other plans, are in process for other districts, such as the South Cove, the South End, the Central Business District, the North Terminal area, the Waterfront and others. Indeed, there is hardly a section of the city that is or will remain untouched by the beneficial effects of rehabilitation, redevelopment, and renewal.

Examples already exist — and soon will abound — of the favorable results to the city from the union of initiative, enterprise, and co-operation which has created a new spirit in Boston.

Just a few years ago, and because of many technical difficulties, it seemed that the hopeful plans for the Prudential Center would never get off the boards. Nevertheless, thanks to the determined cooperation of numerous public and private agencies, we today can see the Prudential Tower reaching skyward.

Just a few years ago, it seemed that the Charles River Apartment Project would never get off the ground. Yet today, the first two units in that project are completed and rented, and two more are under construction — further evidence of the vitality of the city.

PRIVATE CONSTRUCTION

Numerous other privately-financed buildings are under construction throughout the city, adding perceptibly to our taxable property.

Just last month the White Fund Trustees received first payment of rent on Tremont Street property which had been untenanted for more than half a decade, but which now not only is productive of income to the White Fund but has also

(Continued on next page)

Boston's "Year of Decision" . . .

(Continued from previous page)

been restored to the city's tax rolls, as the site of a new 25-story apartment and specialty-shop building.

Construction is expected in 1963 of the new British-sponsored building on Pearl street.

These are examples of private construction that have been stimulated by the new spirit in Boston. As our plans proceed, we can look forward with confidence to additional private construction running into the hundreds of millions of dollars in the next decade.

Our new Municipal Auditorium and Convention Hall will be well under construction in 1963. Already 26 national groups have selected this building for future conventions.

At the same time, 1963 will see the start of construction, in our great new government center, of a new federal building, a new state office building, and a new city hall — each a source of permanent architectural pride and a monument to the people of Boston.

BOSTON WANTS BEST

Boston has a special character, a special spirit, a special pride. It always will. Bostonians know it, and non-Bostonians acknowledge it. I think they also envy it.

Boston has great universities, great hospitals, great museums, and a great symphony orchestra. Boston is also unique among large cities — as recently noted —

in having no racial violence, little juvenile gang warfare, and little teenage narcotics traffic.

Boston has a special tradition and a special character because it has special people.

These people — regardless of race, religion, economic background, or party affiliation — want what's best for Boston. They believe in the programs that have come before you. They are grateful to you for speeding these programs on their way.

But they are as watchful as they are hopeful. This year, there will come before your Honorable Body numerous new and necessary proposals. These proposals have been carefully planned and worked out with the people themselves — otherwise they would not be permitted to come before you.

Neither you nor I can permit any harm or delay to befall these great proposals — nor to let them sink into the graveyard of indifference and indecision, or into the mire and morass of petty or personal politics — lest we incur the people's censure or disapproval. I am confident that you and I share our citizens' concern, and will not disappoint them in their plans and hopes for our beloved city.

As the new municipal year begins, we pray once more to Almighty God for guidance and inspiration, and devoutly express our gratitude for the efficacy of our prayers during the past three years.

Over Million Attracted By 1962's Festival

The 1962 Christmas Festival attracted more than 1,000,000 persons from all parts of New England and beyond, according to Director Paul Hines, as he directed the dismantling of the great religious and electrical displays on Boston Common.

"It was without the least doubt," said Mr. Hines, "the greatest in our 13-year history."

"Reports from Chairman Richard P. Chapman of the Finance Committee and Treasurer Ralph M. Binney reveal that sufficient money

has been raised among leading business institutions and other friends of the Mayor to pay all festival financial obligations and to leave a small surplus. A total of upwards of \$22,000 has been raised with more in sight.

"Through adding pieces of religious figures and electrical equipment from year to year, and through sound maintenance the festival agency now has in its custody for the city assets with a replacement value of more than \$50,000.

"All of the religious figures as they are dismantled today will be sent to the studio of the maker where in keeping with festival

policy they will be repaired where needed and completely repainted and then together with the electrical equipment put in storage for the year.

"Although all of the equipment is insured against fire, theft, and weather damage or destruction, to which it is constantly exposed while on the Common, up to date, despite the heavy winds of the past week, it has suffered no damage other than ordinary wear and tear."

When Nigeria offered cash prizes for the words and music for its national anthem both prizes were won by English women.

Mayor Orders Aid for Retired Hero

Mayor John F. Collins, in a precedent-making move, has approved a resolution calling for an annual payment of \$3,500 for medical expenses to a retired Boston Fire Department lieutenant.

Recipient of the unusual payment is James F. Flahive, formerly of 7 Egerton road, Arlington, now a patient at Holy Ghost Hospital, Cambridge. Lieutenant Flahive was pensioned at full pay under chapter 293 of the Acts of 1949. Carbon monoxide gas he inhaled at a fire in 1946 caused the deterioration of his brain cells so that as early as 1949 he was totally helpless and required the constant care of his wife, who has reached an age when she is no longer able to provide proper care.

Michael J. Drohan

A Solemn Requiem Mass was celebrated by Rev. Athanasius, C.P., of Our Lady of Sorrows Monastery, West Springfield, at St. Mary's Church, Winchester, December 31, for his father Michael J. Drohan, 88, retired Boston & Maine executive and signal engineer.

He was the father of Edward W. Drohan, public relations director at Boston City Hospital. Other survivors include a daughter, Sister M. Athanasia, S.S.J. of the Regis College faculty, Weston, and two sons, Walter M., registrar of the Lowell Technological Institute, and John M., of the Auditing Department of the Boston & Maine.

A little known outfielder named Don Grate of the Minneapolis Millers of the American Association is believed to have created an all-time baseball throwing record when he heaved a regulation ball 445 feet, 1 inch, during a Field Day at Minneapolis in 1956. The following year he retired.

Walter Johnson was considered over the hill and beyond the apex of his brilliant career before he pitched a no-hitter. It came here in Boston on July 1, 1920, when he defeated the Red Sox 1-0 at Fenway Park.

General Laws, chapter 41, section 100B, which provides generally for the city to indemnify retired fire fighters for hospital and medical expenses incurred after retirement, by its express terms does not apply to a person retired under a special act relating to only one person.

The Mayor said: "The extenuating circumstances which called for the full-pay pension would seem to call likewise for some reimbursement for hospital or nursing expenses. The resolution calls for an amount not exceeding \$3,500 in any calendar year. This amount plus the application of a third of his pension would approximate the yearly cost of his hospitalization in an institution such as the Holy Ghost Hospital in Cambridge.

"The 1949 Act provides that in the event of his death, two thirds of his pension will continue for his

widow; so that application of one third to hospital costs is rational in the circumstances."

Mayor Collins, said he thought it only proper that the City of Boston should recognize the plight of the hero fire fighter, adding that Lieutenant Flahive, although still alive has in reality given his life in the highest tradition of a Boston fire fighter.

Lieutenant Flahive was injured and two other fire fighters were killed in a 1946 blaze in a Bedford street fur shop.

A petition to indemnify Lieutenant Flahive was brought by Boston Fire Fighters Local 718.

The U. S. Indian population of the United States was estimated at 332,000 by the Census Bureau in 1930. In 1890 it was figured at 248,000. Back in 1492 the entire population of Redmen was placed around 800,000 by anthropologists and historians.

DIMES MEAN A LOT — During the Christmas-New Year holiday period a party is held at City Hospital for out-patients of the famed Shortell Unit's polio follow-up program. These handsome children were stricken while babies, only months and even weeks before the Salk breakthrough. They are shown with (left to right) Mrs. Mary Collins, wife of the Mayor and chairman of this year's March of Dimes for this area; Miss Kathleen O'Donnell, R.N., long identified with the program; and Deputy Mayor Henry A. Scagnoli. This year the March of Dimes remains one of the greatest of all humanitarian projects. It helped turn back the horrendous scourge of polio when it was reaching to ever greater heights. Today the March has turned the guns of research and study upon another great enemy — the birth defects that handicap for life many thousands of infants born each year.

1962 Was Healthy Year for Bostonians

Public health-wise the year 1962 was another good one for Boston. Dr. John T. Foley, Boston Health Commissioner, announces that preliminary statistics for the year indicate the city had a resident birth rate of about 21.4 per 1,000 live births—close to the 1961 resident birth rate of 21.6. Deaths from all causes also remained about the same as in 1961, the 1962 resident death rate being about 13.4. The five leading causes of death were similar to those throughout the United States, being heart disease, cancer, vascular lesions of the central nervous system, all forms of pneumonia, and diseases of the arteries.

There were no major epidemics in 1962. "For the fourth successive year there were no deaths of Boston residents from poliomyelitis," said Dr. Foley. He added that there was one death from measles and one from cerebrospinal meningitis. As elsewhere in the nation there was a marked increase in the number of infectious hepatitis cases. By early December, 377 cases had been reported as compared with 187 in 1961 and 32 in 1960. There were three deaths from infectious hepatitis during the year.

"Tuberculosis control still is a major problem in Boston," said Dr. Foley. In 1962 the Health Department received an \$86,360

federal project grant from the Public Health Service for the department's tuberculosis program. These funds were for the employment of a case register specialist, six clerks, and ten additional public health nurses to work on the tuberculosis program in both clinics and the field. "It is anticipated," said Dr. Foley, "that final 1962 figures will show a slight decrease in the number of new resident cases of tuberculosis and a slight increase in the number of resident tuberculosis deaths as compared with 1961 figures."

"To further improve tuberculosis case finding," added Dr. Foley, "a Heaf tuberculin testing program was conducted in Grade I of all Boston public and parochial schools. The Heaf method of tuberculin testing is a multiple puncture method, using an automatic punch Heaf gun with a six-pronged head or plate. This is an efficient, rapid, and almost painless method of tuberculin testing. With the consent of their parents, 83 per cent or 10,953 Grade I pupils were tuberculin tested."

City's Polio Vaccine Program Opens January 14

Dr. John T. Foley, Boston Health Commissioner, announced that the 1963 Sabin Oral Polio Vaccine Program in Boston will begin this month. During this program, Types I, II, and III Oral Polio Vaccine will be made available to preschool and school children.

Last spring 93 per cent of Boston's school children and 78 per cent of Boston's preschool children received Types I and III Oral Polio Vaccine. Boston public, parochial, and private school children who did not receive Type I vaccine last spring and whose parents sign the consent forms, will have opportunity to get Type I vaccine in school January 14 through January 28.

The Health Department is setting up special clinics for preschool children six weeks of age and up. Preschoolers who have not had Type I should get their "drink" of Oral Polio Vaccine at one of the 18 clinic locations (see attached schedule) from 1 P.M. to 4 P.M. on Wednesday, January 16 and 23, Thursday, January 17 and 24, and Friday, January 18 and 25.

Dr. Foley urges all parents to see that their children get protection against polio with Sabin Oral Polio Vaccine regardless of the number of Salk shots they have had. Dr. Foley further emphasized that children who received Type I and Type III last spring will need only Type II vaccine which will be given in March, according to the Health Department schedule.

Patrolman Thomas J. Regan, Division 2.

Patrolman Richard J. O'Meara, Crime Prevention Bureau (detailed to Division 10).

December 28.

General Order No. 163.

Chapter 786 of the Acts of 1962, the so-called "Visible Parking Tag Law," which amends Chapter 90 by inserting Section 20C, a copy of which was forwarded in Superintendent's order dated November 7, 1962, provides that, in the City of Boston, on and after January 1, 1963, every police officer who takes cognizance of a violation of any provision of the parking regulations established by the Boston Traffic and Parking Commission, shall forthwith give to the offender a notice, which shall be in tag form as provided by the statute, to appear before the Clerk of the District Court having jurisdiction of the offense, within twenty-one days of date of violation and

pay fine as directed. Arrangements may be made to pay fine by mail, or by an authorized person.

Commanding officers will make arrangements to obtain a supply of the new parking violation notice books from the court or courts within their jurisdictions. Commanding officers will be responsible for the care and issuance of these books to their personnel and will maintain a record and inventory of both issued and unissued notices. All such records and books will be safely stored to be available for future audit.

The new tagging forms are printed in triplicate and prenumbered, each book consisting of twenty-five sets of notices with a wrap-around cover. Officers will be responsible for every book of notices issued to them. Officers shall examine each book when issued to insure that the book is complete, and, if not, the book will not be used but will be returned to the court of issue.

After being properly filled out by the officer, the offender's copy of the new tag form shall be securely affixed to the motor vehicle by placing it under the windshield wiper and attaching it thereto by means of the string loop provided for the purpose. It will be noted that as used in Section 20C, the words "motor vehicle" shall, so far as apt, include trailer, semitrailer, and semitrailer unit.

DISTRIBUTION OF NOTICES.

No. 1—Top copy to the Clerk of Court.

No. 2—Middle copy for police files.

No. 3—Bottom copy (tag) offender's copy, to be affixed to motor vehicle involved.

Copy No. 3, the offender's copy, may be easily detached from the book, leaving copies No. 1 and No. 2 in the book. The upper wrap-around cover of the book will be folded over the completed forms remaining in the book while the officer makes out each new violation. The card stock, or lower wrap, will be inserted under each set of notices while the officer makes out each new violation to prevent impressions being made on the underneath blank forms.

At or before the completion of each tour of duty each officer will give to his commanding officer those copies of each notice of violation issued during his tour of duty. Commanding officers will retain and safely preserve the police copy and at a time not later than the beginning of the next court day deliver the court copy to the Clerk of the Court before whom the offender has been notified to appear.

INSTRUCTIONS FOR FILLING OUT PARKING NOTICES.

Officers shall use ballpoint pen, enter all information legibly, and make no erasures or changes on the notice under any circumstances.

WELFARE COSTS FOR NOVEMBER

Following is a summary of the Welfare Department report for November:

During November the caseload showed an increase in all categories with the exception of Disability Assistance. This is consistent with past experience and appears to be due to seasonal unemployment. However, an opposite situation occurred with expenditures which decreased slightly. The departmental costs for the month were \$3,809,830 for assistance rendered to 28,597 cases. There were 1,313 applications approved while 1,038 cases were closed, a net rise of 275 cases. In addition, 317 requests for assistance were denied or withdrawn.

Old Age Assistance: Expenditures for this category amounted to \$1,120,415 and represented approximately 30 per cent of the total costs. The greater portion was in the form of payments made to the client. The average cost per case for the month was \$90.67. The caseload rose from 11,652 to 11,704 as of the end of the month.

Medical Assistance for Aged: Even though there were 5,667 clients in this category during the month, only 4,449 or 78 per cent received aid. The balance had no medical expenses paid on their behalf. Of the 418 applications serviced within the month, seven out of ten were approved. Those rejected were, for the most part, classified as "Voluntary Withdrawals". Expenditures amounted to \$863,125 which were basically for medical services.

Aid to Dependent Children: The largest caseload increase for the month occurred in this category with 377 cases added and 286 closed for a rise of 91 cases. There were 6,805 families who received a total of \$1,225,399 for an average of \$180.04. This was the largest number aided under this category in any month.

Disability Assistance: This category experienced a drop in both caseload and expenditures. There were 85 requests for assistance which were approved, 125 cases closed, and 64 applications rejected or withdrawn. Expenditures were \$456,531 or \$13,889 less than the previous month. The average cost per case was \$138.67 of which almost one half was in the form of vendor payments for medical care.

General Relief: Seasonal unemployment resulted in an increased caseload from 1,476 to 1,555, a net 79 cases. The turnover was consistently high with 362 applications approved and 283 cases closed. Expenditures were \$144,360 for an average of \$74.81 per case. This category is composed primarily of unattached persons who receive weekly grants in accordance with a schedule rather than the budget system.

POLICE DEPARTMENT ORDERS

(Continued from page 33)

(a) If a motorcycle or motor scooter, enter a check mark in the block marked "Cycle." If not a cycle leave the space blank.

(b) If the motor vehicle is an out-of-state registered vehicle, cross out the abbreviation for Massachusetts and enter the name of the state involved.

(c) Enter the numbers of the registration starting from the left-hand space, using one block for each number, the unused blocks to be filled in with a hyphen.

If an R/P plate, enter the letters R and P one above the other in the first block. The same rule for similar plates.

(d) "Date of violation"—Calendar date—month—day—year.

(e) "Violation code number"—Refer to violation codes on the back cover of the book.

(f) "Zone" "A" or "B", enter in zone block if violation is in the Boston Municipal Court jurisdiction. Outside Boston Municipal Court, every area will be Zone "B". The Zone "A" boundaries will be the same as are existing at this time.

(g) "Location of violation"—Street name and number, if any, if not, note side of the street, as north side, etc.

(h) "Space marked officer"—Full signature of the police officer.

(i) "Division No."—The officer's division.

(j) "Badge No."—The officer's badge number.

(k) "Meter number"—If a meter violation the meter number must be noted.

(l) "Time of violation"—Two times required except in the case of meter violation, fee unpaid, code No. 25 and meter space, code No. 26.

Overtime must show more than two hours consecutively. A.M. and P.M. must be indicated by a check mark.

(m) "Fine due"—The fine will be determined from the schedule of fines on the back of each book and correctly noted on the notice by the police officer.

NOTIFICATION FROM COURT FOR CRIMINAL ACTION.

Should any person notified to appear under the law fail to pay the fine provided for the offense, the Clerk of Court will notify the officer concerned, who shall forthwith make a complaint against the registered owner of the vehicle and follow the regular procedure established for criminal cases.

UNLAWFULLY TAMPERING WITH TAG, ETC.

Section 20D, provides a penalty for unlawfully tampering with or removing a parking violation notice from a motor vehicle, or for unlawfully changing, mutilating, or destroying any notice affixed to a motor vehicle in accordance with law.

VOIDED NOTICES.

In the event that an error is made in filling out a parking notice, do NOT

erase, change or write-over. Ticket will be marked VOID, signed by the officer concerned and also by his commanding officer. All three copies of the voided notice will be returned to the court of jurisdiction.

Commanding officers will submit a daily report indicating the number of parking violation notices issued by members of his command for the previous 24-hour period.

All previous orders on this subject are hereby rescinded.

HEALTH DEPARTMENT.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ALTERATIONS AND REPAIRS TO HEALTH DEPARTMENT UNIT AND SEVEN GEORGE ROBERT WHITE UNITS, BOSTON, MASS.

The City of Boston, acting by the temporary Health Commissioner, Boston, Mass., herein-after referred to as the Awarding Authority, invites sealed general bids for alterations and repairs to Health Department unit and seven George Robert White units, Boston, Mass.

General bids will be received up until twelve o'clock noon, Thursday, February 7, 1963, at the office of the Awarding Authority, Haymarket square, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid, shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$2,500. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon Thursday, January 31, 1963, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding

Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Waterproofing and Caulking.....	\$100
Miscellaneous Metal and Fire Escapes.....	\$150
Roofing and Flashing.....	\$600
Elevators	\$400
Heating	\$700
Plumbing	\$200

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications may be had at the office of the Awarding Authority, Haymarket square, Boston, on and after January 14, 1963.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON.

Proceedings of City Council.

Monday, December 17, 1962.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President IANNELLA in the chair. Absent, Councillor Foley.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Eternal God, Who art the source of our faith and our hope, our joy, and our strength, bless us through the hours of this day. With a vivid sense of Thy nearness may we never surrender to moods, doubt or denial. May the whole purpose, the passion, and the power of our life find their highest fulfillment and freedom in a complete and joyous obedience to Thy holy will. With courage and with confidence, with patience and with perseverance let us take up the work before us for the glory of God, and the progress of our venerable city. Thy blessing we ask through the merits of Christ Jesus whose birthday we commemorate at Christmas.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

SURVEY AND PLANNING APPLICATION FOR SOUTH COVE URBAN RENEWAL PROJECT.

The following was received:

City of Boston,
Office of the Mayor, December 7, 1962.
To the City Council.

Gentlemen:

Enclosed herewith for your consideration is a survey and planning application approved by the Boston Redevelopment Authority for a planning advance and federal capital grant reservation for the proposed South Cove Urban Renewal Project.

The planning advance requested is for \$751,158. The federal capital grant requested is \$8,916,101.

Also enclosed for your consideration is a development plan submitted by the Tufts-New England Medical Center and approved by the Boston Redevelopment Authority. The plan has been prepared at this time in order that the city may obtain more than \$900,000 in Section 112 credits which otherwise under the law would be lost. These credits may be obtained without any city expenditure. The plan as presented largely represents a recognition of the property acquisitions which have already taken place by the Medical Center and indicates in a very preliminary way the proposed elements of the Medical Center's future development. There are additional credits amounting to approximately \$2,700,000 contained in the South Cove survey and planning application for later eligible expenditures made by Tufts.

Because of the benefits which urban renewal activity can hold for both the South Cove area and the adjacent Central Business District, I look forward to your favorable consideration of this matter.

Sincerely,
JOHN F. COLLINS, Mayor.

APPLICATION FOR SURVEY AND PLANNING.

South Cove Urban Renewal Project, Boston Redevelopment Authority.

Resolution of applicant approving application (Code No. R-144):

Whereas, Under Title I of the Housing Act of 1949, as amended (herein referred to as "Title I"), the Housing and Home Finance Administrator is authorized to extend financial assistance to local public agencies in the elimination and prevention of the spread of their slums and urban blight through the planning and undertaking of urban renewal projects; and

Whereas, It is desirable and in the public interest that the Boston Redevelopment Authority make surveys and prepare plans, presently estimated to cost approximately seven hundred fifty-one thousand one hundred fifty-eight dollars (\$751,158), in order to undertake and carry out an urban renewal project of the character contemplated by Section 110(c) of Title I, in that area proposed as an urban renewal area, situated in the City of Boston, County of Suffolk, and State of Massachusetts, which is described as follows:

Beginning at the intersection of Stuart and Clarendon streets and running easterly and southerly along Stuart and Kneeland streets to the intersection of Kneeland street with the Massachusetts Turnpike Authority right of way; thence turning and running southerly and westerly by the Massachusetts Turnpike Authority right of way to the intersection of said right of way with Clarendon street; thence turning and running by Clarendon street to the point of beginning; and

Whereas, The Tufts University School of Medicine, the Tufts University School of Dental Medicine, the Boston Dispensary and Rehabilitation Institute, the Boston Floating Hospital for Infants and Children, the Pratt Clinic-New England Center Hospital are institutions meeting the eligibility requirements of Section 112 of the Housing Act of 1949, as amended; and

Whereas, These institutions, acting jointly as the Tufts-New England Medical Center, have undertaken plans and studies for their necessary expansion in the area and have proposed and submitted a development plan for approval, in accordance with the provisions of said Section 112, by the Boston Redevelopment Authority and the Boston City Council after public hearings; now, therefore

Be it resolved by the Boston Redevelopment Authority:

1. That the proposed urban renewal area described above is a slum, blighted, deteriorated, or deteriorating, area appropriate for an urban renewal project and that the undertaking by the Boston Redevelopment Authority of surveys and plans for an urban renewal project of the character contemplated by Section 110(c) of Title I in the proposed urban renewal area is hereby approved.

2. That the financial assistance available under Title I is needed to enable the Boston Redevelopment Authority to finance the planning and undertaking of the proposed project.

3. That it is cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with federal financial assistance under Title I, including those relating to the relocation of site occupants, to the provision of local grants-in-aid, and to the requirement that as a condition to the execution of a contract for a loan or capital grant for an urban renewal project the locality present to the Housing and Home Finance Administrator a workable program, as set forth in Section 101(c) of Title I, for utilizing appropriate public and private resources to eliminate and prevent the development or spread of slums and urban blight; and that it is the sense of this body (a) that a feasible method for the relocation of families displaced from the urban renewal area, in conformity with Title I, can be prepared, and (b) that local grants-in-aid can and will be provided in an amount which will be not less than one third of the net project cost of the project and which, together with

the federal capital grant, will be generally equal to the difference between gross project cost and the proceeds or value of project land sold, leased, or retained for use in accordance with the urban renewal plan.

4. That the filing of an application by the Boston Redevelopment Authority for an advance of funds from the United States of America in an amount not to exceed seven hundred fifty-one thousand one hundred fifty-eight dollars (\$751,158) for surveys and plans for an urban renewal project in the proposed urban renewal area described above is hereby approved, and that the Development Administrator and the Deputy Development Administrator is each hereby authorized and directed to execute and file such application with the Housing and Home Finance Administrator, to provide such additional information and to furnish such documents as may be required by the Administrator, and to act as the authorized representative of the Boston Redevelopment Authority.

5. That the development plan dated September 1962, proposed and submitted by the Tufts-New England Medical Center on November 5, 1962, be and hereby is approved, and it is hereby found and determined that said development plan conforms to the general plan for the development of the City of Boston, that in addition to the elimination of slums and blight from the urban renewal area described above, and the adjoining New York Streets Land Assembly and Redevelopment Area, the undertaking of urban renewal projects in such areas has and will further promote the public welfare and proper development of the Boston community by making land in such areas available for disposition, for uses in accordance with any urban renewal plan, to Tufts-New England Medical Center, for redevelopment in accordance with the use or uses specified in such plan, and/or by providing, through the redevelopment of these areas, in accordance with any such renewal plans, a cohesive neighborhood environment compatible with the functions and needs of said Tufts-New England Medical Center.

APPLICATION FOR SURVEY AND PLANNING,

South Cove Urban Renewal Project, Boston Redevelopment Authority.

Resolution of governing body of locality (Code No. R-145):

Whereas, Under Title I of the Housing Act of 1949, as amended (herein referred to as "Title I"), the Housing and Home Finance Administrator is authorized to extend financial assistance to local public agencies in the elimination and prevention of the spread of their slums and urban blight through the planning and undertaking of urban renewal projects; and

Whereas, It is desirable and in the public interest that the Boston Redevelopment Authority make surveys and prepare plans, presently estimated to cost approximately seven hundred fifty-one thousand one hundred fifty-eight dollars (\$751,158), in order to undertake and carry out an urban renewal project of the character contemplated by Section 110(c) of Title I, in that area proposed as an urban renewal area, situated in the City of Boston, County of Suffolk, and State of Massachusetts, which is described as follows:

Beginning at the intersection of Stuart and Clarendon streets and running easterly and southerly along Stuart and Kneeland streets to the intersection of Kneeland street with the Massachusetts Turnpike Authority right of way; thence turning and running southerly and westerly by the Massachusetts Turnpike Authority right of way to the intersection of said right of way with Clarendon street; thence turning and running by Clarendon street to the point of beginning; and

Whereas, The Tufts University School of Medicine, the Tufts University School of Dental Medicine, the Boston Dispensary and Rehabilitation Institute, the Boston Floating Hospital for Infants and Children, the Pratt Clinic-New England Center Hospital are in-

stitutions meeting the eligibility requirements of Section 112 of the Housing Act of 1949, as amended; and

Whereas, These institutions, acting jointly as the Tufts-New England Medical Center, have undertaken plans and studies for their necessary expansion in the area and have proposed and submitted a development plan for approval, in accordance with the provisions of said Section 112, by the Boston Redevelopment Authority and the Boston City Council after public hearings; now, therefore,

Be it resolved by the Boston City Council:

1. That the proposed urban renewal area described above is a slum, blighted, deteriorated, or deteriorating, area appropriate for an urban renewal project and that the undertaking by the Boston Redevelopment Authority of surveys and plans for an urban renewal project of the character contemplated by Section 110(c) of Title I in the proposed urban renewal area is hereby approved.

2. That the financial assistance available under Title I is needed to enable the Boston Redevelopment Authority to finance the planning and undertaking of the proposed project.

3. That it is cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with Federal financial assistance under Title I, including those relating to the relocation of site occupants, to the provision of local grants-in-aid, and to the requirement that as a condition to the execution of a contract for a loan or capital grant for an urban renewal project the locality present to the Housing and Home Finance Administrator a workable program, as set forth in Section 101(c) of Title I, for utilizing appropriate public and private resources to eliminate and prevent the development or spread of slums and urban blight; and that it is the sense of this body (a) that a feasible method for the relocation of families displaced from the urban renewal area, in conformity with Title I, can be prepared, and (b) that local grants-in-aid can and will be provided in an amount which will be not less than one third of the net project cost of the project and which, together with the federal capital grant, will be generally equal to the difference between gross project cost and the proceeds or value of project land sold, leased, or retained for use in accordance with the urban renewal plan.

4. That the filing of an application by the Boston Redevelopment Authority for an advance of funds from the United States of America to enable it to defray the cost of the surveys and plans for an urban renewal project in the proposed urban renewal area described above is hereby approved.

5. That the development plan dated September 1962, proposed and submitted by the Tufts-New England Medical Center on November 5, 1962, be and hereby is approved, and it is hereby found and determined that said development plan conforms to the general plan for the development of the City of Boston, that in addition to the elimination of slums and blight from the urban renewal area described above, and the adjoining New York Streets Land Assembly and Redevelopment Area, the undertaking of urban renewal projects in such areas has and will further promote the public welfare and proper development of the Boston community by making land in such areas available for disposition, for uses in accordance with any urban renewal plan, to Tufts-New England Medical Center, for redevelopment in accordance with the use or uses specified in such plan, and/or by providing through the redevelopment of these areas, in accordance with any such urban renewal plans, a cohesive neighborhood environment compatible with the functions and needs of said Tufts-New England Medical Center.

Referred to the Committee on Urban Redevelopment, Rehabilitation and Renewal.

(The plan referred to in the foregoing communication is annexed hereto.)

DISPOSITION OF PARCEL 5, GOVERNMENT CENTER PROJECT, TO UNITED STATES OF AMERICA.

The following was received:

City of Boston,

Office of the Mayor, December 14, 1962.
To the City Council.

Gentlemen:

The General Services Administration of the federal government which is to build the federal office building in the Government Center area has indicated that it would like to advertise for bids for construction of the building soon after the first of the year, and for this purpose would like the Redevelopment Authority to be in a position to transfer title to the proposed site when requested in the near future, in advance of the approval and adoption of the urban renewal plan for the Government Center project. The Authority has approved the disposition of Parcel 5 in the project area, containing approximately 198,529 square feet, for redevelopment and use in accordance with certain land-use provisions and building and other requirements which the Authority intends to include in the urban renewal plan to be adopted and approved for the area. Such disposition, under chapter 121 of the General Laws, and under the Housing Act of 1949 as amended, requires appropriate consents by the Mayor and City Council, as well as the State Housing Board and Division of Urban and Industrial Renewal. The Federal Housing and Home Finance Agency has already approved the disposition.

Accordingly, the following documents are submitted herewith for your consideration:

1. Proposed resolution for consideration and adoption by the City Council, after due notice and public hearing;
2. Form of notice of such public hearing;
3. Consent by the city, to be executed by the Mayor after authorization and approval by the City Council;
4. Copy of resolution passed by the Authority approving the disposition; and
5. Map of the area showing the parcel to be sold.

Approval of these documents by your Honorable Body, and the subsequent state approvals, will permit construction of this \$30 million development to begin in the early spring.

JOHN F. COLLINS, Mayor.

RESOLUTION OF BOSTON CITY COUNCIL

Whereas, The Boston Redevelopment Authority (hereinafter called the "Authority") has taken and acquired the area in the City of Boston known and referred to as the Government Center Project Area (hereinafter called the "Project Area") and described in an order of taking, dated October 25, 1961; and

Whereas, The Authority is presently preparing an urban renewal plan for the Project Area; and

Whereas, The Authority desires to dispose of a part of the Project Area known, and hereinafter referred to, as Parcel 5 (containing approximately 198,529 square feet and bounded and described as set forth in Exhibit A attached hereto) to the United States of America, acting by and through the General Services Administration, to be redeveloped and used as the site of a federal office building and related facilities in accordance with the land-use provisions, and building and other requirements set forth in Exhibit B attached hereto, which provisions and requirements will be included in the urban renewal plan upon its approval and adoption; now, therefore

Be it resolved by the City Council of the City of Boston as the governing body of said city, after due notice and a public hearing, as follows:

1. That the land-use provisions, and building and other requirements set forth in Exhibit B attached hereto, which provisions and requirements will be included in the urban renewal plan for the Project Area upon its

approval and adoption, conform to the general and comprehensive plan for the locality as a whole and are hereby approved;

2. That the redevelopment and use of Parcel 5 as the site of a federal office building and related facilities in accordance with the aforesaid provisions will promote the public welfare and are necessary and desirable for, and will promote, the proper development of the community;

3. That the proposed disposition of Parcel 5 by the authority to the United States of America is hereby consented to; and

4. That the Mayor of the City of Boston be, and he hereby is, authorized and empowered to approve the land-use provisions and building and other requirements set forth in Exhibit B attached hereto and, in the name and behalf of the City of Boston, to consent to the proposed disposition.

In City Council, , 1962. Adopted.

Approved by the Mayor , 1962.

Pay Hikes, Fringe Benefits Ordered by Mayor

\$4 Million Increases in New Compensation Plan

Mayor Collins this week earmarked \$4 million over the next two years for pay hikes and a broad schedule of advanced increments and fringe benefits which will enable Boston and Suffolk County to retain and attract to their service the finest type employees.

Added to what has been generally described as the finest municipal health and insurance plans in the country will be the adoption of salient points of the Jacobs Company survey report dramatically advancing the status of some 8,000 public employees.

Every single worker will be benefited with the final adoption of the survey recommendations approved by the Mayor, excluding the Fire, Police, Library, Welfare, and School Departments and the Finance Commission. School personnel, library, and welfare workers are generally covered by other plans.

Previously earmarked by the Mayor was an additional \$2 million for pay raises this year to members of the Police and Fire Departments.

Gaining the Mayor's approval this week was the Jacobs' recommendation which will bring salary increases totaling to 10 per cent of the city's employees and 48 per cent of those of Suffolk County.

Three extremely important compensation features will be added to the over-all compensation picture.

They are:

1—Provision for premium pay for employees working on evening and night shifts.

2—Provision for a four-hour minimum pay recompense for employees called back to work in emergencies.

3—Provision for premium pay for all hours in excess of a 40-hour week.

Two recommendations offered in the Jacobs report failed to obtain the approval of the Mayor and will not be contained in the final schedule draft. Further, the Mayor compressed "longevity steps" so that workers will get "bonus" raises earlier.

In one instance, the Jacobs firm recommended that a change be made in the present method of handling appeals on compensation matters. The changes would be made in the composition of the so-called Compensation Review Board.

The survey proposed that appeals on compensation be handled by the Director of Administrative Services,

who, after consultation with the Supervisor of Personnel, would recommend to the Mayor such action as might be deemed advisable.

Mayor Collins rejected the proposal on the grounds that employees would have no voice in such a setup. He directed the retention of the present system whereby a board of three appointees—two from management and one from the employees be continued.

Concerning this the Mayor said, "It is my feeling that the labor member feature of compensation review be preserved."

A second Jacobs proposal not approved by the Mayor recommended that on the request of department heads, subject to approval by the Director of Administrative Services, employees' work week could be extended from 40 hours up to but less than 45 hours.

A handsome "Lamp of Knowledge Award" was presented to Mayor Collins January 10 at the annual Presidents' Night Banquet of the New England Chapter of the Public Relations Society of America at the Algonquin Club.

The award was made "In recognition of a public servant whose statesmanship in the arts of government and civic diplomacy has led the billion dollar resurgence program for 'The New Boston.'"

Speakers included President Elliott B. Knowlton, of the New England Chapter; President Paul Newsome of Newsome & Co., Inc.; President John W. Berriger of the Pittsburgh & Lake Erie, Railroad, and the Mavor.

The classical Greek Lamp of Knowledge with book, lamp, and laurel symbolizes exceptional achievement benefiting the public. Its personal presentation identifies the motives and aims of the recipient with his accomplishments. It is given yearly to a person who has significantly contributed to the New England area in a manner exemplifying high public relations principles and standards.

Twenty American Presidents wore military uniforms during their life time. Lincoln served in the Black Hawk War, McKinley in the Civil War, and Tyler in the War of 1812.

Announcement of the intention of the United Fruit Company to locate main offices from the 20th to the 29th floors (the 21st will be skipped, since it holds only mechanical equipment) in the new Prudential Building won wide acclaim here.

The United Fruit, which once centered its mainland office operations in the Hub, will eventually employ 400 persons when its new offices are opened. The offices will be the firm's major purchasing headquarters. Formerly the headquarters had separate locations in New York, New Orleans, and other cities.

"The Prudential Center," said Thomas E. Sunderland, head of the vast company, "typifies the New Boston and United Fruit is proud to be associated with it."

Granted the boon of an early spring smile by the weatherman the 1963 17th of March parade in South Boston could be the finest on record. Chief marshal will be Joseph M. Walker who will have the complete support of Mayor Collins and the Allied War Veteran Council.

Mayor Collins Leads Suffolk Drive In Vital, All-Out Battle Against Polio

At an important meeting held at the office of Mayor Collins in City Hall on January 14, plans were laid for an all-front drive on polio with a county-wide immunization program bigger than anything ever before attempted in New England.

Attending the meeting were health, medical, and municipal officials. Immediate object of the drive was the immunization of every possible potential victim in Boston and the rest of Suffolk County, the Mayor pointed out. More far-reaching was the attainment of a goal which would banish polio completely.

Mayor Collins estimated 300,000 adults, 19 to 50 years of age, will take three drinks of the Sabin oral polio vaccine at neighborhood clinics in the four communities during a five-month period. The two-week campaign for the first drink, Type I vaccine, begins Friday, January 25.

The program of distributing oral polio vaccine will be a joint venture of the Suffolk County District Medical Society and health departments of the four communities.

Vaccine immunization for adults will come at the end of the current statewide distribution of vaccine for young people 3 months of age through 18 years.

Vaccine for young people from 3 months to 19 years is free and distributed at schools and preschool clinics.

Vaccine for adults will be offered on a voluntary basis at 25 cents a drink in community clinics. It was stressed by the medical group sponsoring the clinics that vaccine will be free to all persons not able to make the 25-cent donation.

Potential Year

The campaign in Suffolk County was prompted for two reasons, announced Dr. Helen Sinclair Pittman, President of Suffolk District Medical Society. She said one out of four polio cases is an adult; and that a warning has been made by Dr. Alfred L. Frechette, Massachusetts Commissioner of Public Health, who said "1963 may be a cyclic or repeat polio epidemic year."

Boston and Suffolk County listed 927 polio victims during the 1955 epidemic, Mayor Collins points out.

Details of the program and clinics were outlined during a conference called by Mayor Collins. Mayor Frank G. Fiore, Jr., of Revere,

Chelsea Mayor Alfred R. Voke, and Winthrop Selectmen Melvin T. Carver, Walter A. Van Dalinda, and Henry F. O'Connell, Jr., attended.

Dr. Frechette, Dr. Foley, Acting Commissioner of Boston Health Department; Dr. Harry H. Schwartz of Revere Board of Health; Thomas A. Salvi, Executive Health Officer of Chelsea Board of Health; Ralph E. Sirianni, Winthrop Health Officer, and Dr. Nicholas J. Fiumara, Director of the State Department of Public Health, Division of Communicable Diseases, presented details on the programs as they pertain to state, city, and town.

Boston has the largest number of citizens in the age group from 19 to 50 years of age. (Older persons are invited to participate in the program.) Boston has 270,000, Revere, 16,000, Chelsea, 13,000, and Winthrop, 7,500.

Mayor Collins pointed out the 25-cent voluntary charge is "a contribution. The drink would cost much more if taken from your private physician." He repeated his statement that "the vaccine is free to those unable to pay the 25-cent contribution."

Dr. Pittman said "there is no section or neighborhood in Suffolk County without a reminder of past polio epidemics. Families should be protected as a unit and this is

Praises Tufts Medical Role at City Hospital

The long and highly profitable association of the Tufts University Medical School and Boston City Hospital is traced by Dr. John F. Conlin, the hospital's director, in a feature article in the *Tufts Medical Alumni Bulletin*.

The article points out that Tufts medical men have played a major role down through the years in helping to maintain City Hospital's role as an outstanding research and teaching hospital.

Peter Hines Elected City Council President

Peter F. Hines was elected president of the Boston City Council at a meeting on January 14. The vote was unanimous.

Peter Hines is 35, an attorney, and he has been a member of the Council since September 15, 1958. He makes his home at 235 Independence Drive, Hancock Village. Last June he married the former Dorothy Hicks of Malden. He is associated in the practice of law with Samuel S. Careido and Michael R. Pizziferri.

Polio Battle

why we advocate immunization against polio with the vaccine for father, mother, brother, and sister."

Complete Elimination Goal

Dr. Frechette, Massachusetts Commissioner of Public Health, joined with Dr. Pittman in citing the need to protect the adult population, "about one in four polio cases is an adult. One of the common misconceptions or long held beliefs is that polio is exclusively a childhood disease."

Dr. Foley, of Boston, said the success of the program "could eliminate any future possibility of a polio epidemic."

Dr. Fiumara, of the State Division of Communicable Diseases, said "the disease will die out without victims. It can't long survive without a human host."

Boston joined with her sister communities in the first statewide oral polio vaccine program last year. One out of four citizens, 1,250,000, now is protected with Type I and Type III vaccine. This group composed of preschoolers, school children, and adults who got their vaccine either from the state, private physicians, or community sponsored programs must return this March for Type II vaccine.

The monthly programs will be Type I, January; Type II, March; Type III, May.

What is Polio?

What Does the Vaccine Do for Me?

Poliomyelitis is an infectious viral disease which paralyzes one out of 100 infected persons. The extent of paralysis varies with individual cases.

The infection is prevalent throughout the world, with paralytic cases more frequent in the more developed countries of the temperate zone (better sanitation in the advanced countries postpones infection and the severity of the disease is apparently more serious with increased age).

It is important to get protected before the polio season. About 80

per cent of polio occurs from August 15 to October 15.

It is a highly contagious disease which may cause damage to parts of the nervous system which control muscular movement. Without vaccine protection a person can contract polio from any infected person even though 90 out of 100 such persons show no symptoms.

There are three different types of polio—Type I, Type II, and Type III. All three behave in the same way and all three can cause equal damage.

The polio virus still is a mystery germ. When magnified 50,000 times with an electron microscope, it appears as a pinhead size mothball and this tiny size makes it difficult to study.

Medical and scientific authorities are in dispute as to whether viruses are "living" or "dead." They do agree that the virus has no life of its own until it infects a human body (it will continue to live for some time in sewage or liquids contaminated by a human). It must borrow life from a living cell so that it can continue to exist.

It is the supreme parasite in that it lets a living host cell do most of the feeding and digesting (metabolism). The virus has a defective metabolism and must be a parasite. While living this life of Riley the host cell does all the work—it damages the cell and damage of many cells causes paralysis or death in the case of polio viruses. By multiplying and spreading to other cells, this damage can be extensive.

However, when a person drinks oral polio vaccine he trains his body to defend itself against an invasion of polio viruses. The body develops trained antibodies or a special protein in our blood serum and this is what we call immunization. Then when the polio virus gets into our body the antibodies recognize the polio virus as an enemy and immobilize him either by paralyzing, poisoning, or blocking reproduction (the method used depends on the virus and the matching antibody). White cells then eat up the immobilized "bodies" of the invading viruses and the person is saved from sickness.

ENCORES GALORE—These devoted, talented entertainers put on a show recently for elderly occupants of the Pond Street Housing Project in Jamaica Plain. The result? Dr. Foley Urges No Child Miss Vaccine

Following is how Boston's polio vaccine program will be handled:

The Boston Health Department's special clinics for Type I oral polio vaccine for children six weeks to high school age got under way last week with clinics at Health Units and substations of the Boston Health Department on Wednesday, Thursday, Friday, January 16, 17, 18. Next week the clinics will be held Wednesday, Thursday, Friday, January 23, 24, 25, from 1 to 4 P.M.

Dr. John T. Foley, Health Commissioner, explained that most Boston children had their Type I and Type III polio "drink" in the spring of 1962, as the Boston Health Department program provided vaccine for all children three months of age through high school, while the programs of most Massachusetts communities provided vaccine only for children up to seven years of age.

Dr. Foley said that with 93 per cent of Boston's school children and 78 per cent of Boston's preschool children receiving the vaccine last spring, "We have only a relatively small number who missed getting Type I polio protection. It is, however, important that every child six weeks through high school have oral polio vaccine regardless of the number of Salk shots he may have had. School children whose parents sign consent forms, will get their vaccine in school. The special preschool clinics this week and next week provide opportunity for every child who missed getting Type I polio vaccine last year to get it NOW."

The Health Commissioner urged all parents whose children missed getting their polio "drink" last May to make a very special effort and see to it that they get it now while it is available at our special January clinics on Wednesday, Thursday, Friday, January 16, 17, 18, from 1 to 4 P.M., and again the following week, Wednesday, Thursday, Friday, January 23, 24,

25, from 1 to 4 P.M., at one of the 18 special Boston Health Department preschool clinics. List of clinic locations attached.

Polio Clinic Schedule

Remaining dates for Free-Type I polio clinics for preschool children (six weeks of age or older) are Wednesday, Thursday, and Friday, January 23, 24, and 25. The hours are 1 to 4 P.M.

Dr. Bannister Concludes Study at City Hospital

Dr. Roger Bannister, first man in track history to break the four-minute barrier for the mile run, has completed his year of training under Dr. Derek E. Denny-Brown, famed head of the neurological service at City Hospital.

The personable Englishman made many friends during his year's research fellowship here. He was extremely impressed not only by City Hospital's neurological service but by others at City Hospital. Now a dedicated scientist in his chosen medical field, he returns to National Hospital, Queen's Square, London, on January 26.

ABCD Studies Work Of Other Communities

Seven key leaders of Boston's schools and social agencies participated in an eight-day tour of four American cities and Puerto Rico.

The tour financed by the Ford Foundation and conducted by Action for Boston Community Development, Inc., included visits to New York, Chicago, Cleveland, Detroit, and San Juan.

Participating in the tour were Campbell G. Murphy, Director of the Special Programs Department of United Community Services; James A. Travers, Director of the Youth Activities Bureau, City of Boston; Dr. John C. Coughlan, Chairman of the Massachusetts Youth Service Board; Rev. Alfred W. Low, Archdiocesan Superintendent of Schools; Charles O. Ruddy, Assistant Superintendent of Schools, and Charles W. Liddell, Director of United South End Settlements. Accompanying the team were Joseph S. Slavet, Executive Director, and Robert Perlman, Director of Program Development, both of the ABCD staff.

William J. Brooks

William J. Brooks, retired Boston Fire Department captain died at the Veterans Hospital at Bedford. He was 74.

He was a member of the Boston Firemen's Post, American Legion, Redberry Council, Knights of Columbus, and the Boston Lodge of Elks.

He leaves a wife, two sons, Rev. William J. Brooks, Jr., O.M.I., of Washington, and Robert D., of Chelmsford, a brother, John A., and three sisters, Esther W. Brooks, Irene G. Brooks, and Lillian N. Brooks, all of Arlington.

All team members participated in a three-day series of meetings in New York where they were joined by Daniel I. Cronin, Program Director for the Boston Youth Opportunities Project, and Dr. Clarence E. Sherwood, ABCD's Research Director.

The purpose of the trip was to introduce the Boston team to demonstration programs in education, employment, housing, and social welfare in other cities, for possible future application in Boston.

THE YEARS ROLLED BACK These charming elder citizens of the Pond Street Housing Project, Jamaica Plain, got a big kick out of a fine entertainment program organized for them during the holiday season by Gene DiBenedetto of the Traffic Commission.

Pay Hikes

(Continued from front page)

The employees would be paid for the longer work week at straight time pay.

Also eliminated, under the Mayor's wish, will be the first of three "longevity steps."

Under original proposals, so-called "white collar workers" had four annual steps to reach "maximum" basic salary, plus three merit steps after 7, 12, and 18 years. Now, the seven-year step will become a fifth base pay increment and longevity raises will be given after 7 and 16 years.

So-called "blue collar workers" had two base steps with longevity at 5, 10, and 16 years. Now they will have but three base steps and will reach longevity at 7 and 14 years.

Eliminated, too, will be a rule requiring workers with more than 18 years of service to wait at least a year in a lower grade before achieving top longevity pay.

The entire compensation schedule will be put into operation after a review by the Director of Administrative Services, the Law Department, and the Civil Service Commission.

Hero Fireman Wins Top Monthly Award

Firefighter John J. Gaddis of Ladder 4, severely burned in the rescue of two elderly women from a fire in Roxbury just before Christmas, has been named "Firefighter of the Month" by the Boston Fire Department Award Board. The board's decision was unanimous.

With the award went a \$100 cash appreciation award from the Hearst papers of Boston and a citation signed by Fire Commissioner Thomas J. Griffin and Publisher Harold G. Kern of the *Record-American* and *Sunday Advertiser*.

The hero makes his home in South Boston. He's married and has a 16-year-old daughter, Maureen.

DPW's Efficient Work on Severe Ice Conditions Hailed

The work of the Public Works Department was hailed as the most efficient in a dozen years by an executive of one of Boston's major taxicab firms during the severe icing and freezing rain conditions during the last week in December and early January.

"We had a single comparatively minor accident up to January 14," he declared, "and potentially the hazards were among the very worst we've encountered in years."

"The Public Works Department not only had their new, highly efficient equipment on the roads but the personnel which manned them were not completely familiar with their use. They were adequate in number to deal with the problems."

"I have found that others directing big motor vehicle fleets are in agreement with me. The sleet and freezing rain which coated the streets offered a real occasion for apprehension in the matter of safety."

"The Public Works Department was not only on the job quickly in every instance but it was able to meet not only the tough conditions on the main arteries but on side streets as well. I personally visited the city yards as the new equipment went to work. It was an example of excellent teamwork backed up by men who had the know-how."

New City Hospital Decor Winning Real Attention

Winning attention of visitors to the Administration Building of City Hospital is the sprightly modern decor of the building's mezzanine floor which serves the nursing, personnel, and executive offices. The decor is part of the reconstruction program for the Administration building which will include the main reception area.

Law Department Rejected 143 Claims During 1962

During the past year the city Law Department disapproved of 143 claims made against the city, according to Corporation Counsel Arthur G. Coffey. The departments and the number of claim disapprovals were Building Department, 1; Fire Department, 24; Hospital Department, 14; Housing Authority, 1; Parks and Recreation, 7; Licensing Board, 1; Police Department, 11; Public Works Department, 74; Real Property Department, 5; School Buildings Department, 2; School Department, 1, and Traffic Department, 2.

Henry Knox of Massachusetts served under President George Washington as the first U. S. Secretary of War.

VII. HIGH COMMENDATION.

At 1:18 A.M., December 27, 1962, the department responded to a fire at 20

Magnolia street, Dorchester. Upon arrival of Ladder Company 4, a man was seen at a third floor front window from which heavy smoke and fire was issuing.

Ladder Company 4 raised a ladder to the window and Fire Fighter John J. Gaddis ascended to the third floor window and without any protection for his face and hands he reached into the room and lifted a man out of the window and passed him to other members of the department who were on the ladder. During this action Fire Fighter Gaddis sustained burns to his face, nose, throat, and hands.

After removing the man from the window, Fire Fighter Gaddis descended the ladder and entered the building where he made his way to the second floor through a hallway which was charged with heat and smoke. He entered a front bedroom where he found another man in bed in a semi-conscious condition and, without any assistance, he carried the man, who was very heavy, out of the bedroom, down the stairs, to the street. After performing the second rescue, Fire Fighter Gaddis who was in an exhausted condition and suffering from burns and smoke inhalation was taken to the Boston City Hospital for treatment.

Fire Fighter Gaddis performed the rescue work without benefit of a gas mask, while lines were being placed in operation, and with only limited ventilation. Because of the great risk to which he exposed himself, without regard for his own safety, in rescuing the two men, the Fire Commissioner is pleased to commend him highly, and his case is referred to the Board of Merit for further consideration.

VIII. COMMENDATION.

Fire Captain James M. Finn of Engine Company 36 is hereby commended for his quick action in preventing a man from jumping from the Mystic River Bridge at approximately 4:57 P.M., December 25, 1962. It was necessary for Captain Finn to climb up on the superstructure, at great personal risk, in order to dissuade the man from jumping. After a time Captain Finn was able to lead the man down a ladder to the roadway of the bridge.

CLAIMS APPROVED

Mayor Collins has approved the following votes of the City Council Committee on Claims, on recommendation of the Corporation Counsel:

Roddie McInnis, 117 Sycamore street, Roslindale, for damage to property on March 23, 1961, as the result of the Water Department shutting off the water while making a change of meter and failing to make proper final adjustments before leaving the location which caused water to flow and flood the premises, causing damage thereto, by payment of \$70.

Oliver Von Langille, 51 Pine street, Peabody, for damage to car on September 27, 1961, while driving on Bay State road and when in front of No. 208 he drove over a broken water shutoff valve cover, causing damage thereto, by payment of \$210.43.

Catherine Lebaron, 25A Sixth street, Cambridge, for personal injuries sustained on September 20, 1961, while walking on La Grange street, and when approximately in front of No. 12 she was caused to fall as the result of a hole in the sidewalk at that location, by payment of \$485.

James D. Regan, 40 Sturbridge street, Mattapan, to be reimbursed as the result of an accident on December 17, 1960, while in the performance of his duties as an employee of the Fire Department, Engine 13, he was operating a city-owned vehicle on Washington street, at the Dorchester Courthouse, when he struck a parked car owned by Joseph Gurman, causing damage thereto, by payment of \$90.

Joseph I. McGrath, 1623 Tremont street, Roxbury, to be reimbursed as the result of an accident on August 6, 1962, while in the performance of his duties as an employee of the Fire Department, Ladder 10, he was operating a city-owned vehicle on Seaverns avenue, at Alfred street, Jamaica Plain, when he struck a car owned by Velma Wilthow, by payment of \$117.05.

James L. McCarthy, 160 Temple street, West Roxbury, to be reimbursed as the result of an accident while in the performance of his duties as an employee of the Highway Division, Department of Public Works, he was operating a city-owned vehicle on School street, Boston, when he struck a vehicle owned and operated by John D. Kelley, causing damage to said vehicle and personal injuries to the operator, by payment of \$466.

EXTENSION OF CONTRACTS

The Mayor has approved the extension of the time limit on completion of the following contracts:

DEPARTMENT OF SCHOOL BUILDINGS.

Contract with D. Antonellis, Inc., for alteration work at the Joseph Tuckerman School, extended from October 31, 1962, to May 1, 1963, in order to determine that work has been completed as per specifications and drawings, it will be necessary to check work under extreme weather conditions.

Contract with Lentine Electric Service for modernization of fire alarm systems in various schools in District 3, extended from December 31, 1962, to May 31, 1963, due to delay of manufacturers to deliver the necessary material to complete work.

Contract with Northeastern Sales Corporation, doing business as Northeastern Electric Company, for electrical work at various schools, extended from December 28, 1962, to May 31, 1963, because of delay of delivering material required for this project.

Contract with DeMambro Sound Equipment Company for furnishing and delivering sound equipment to Charlestown High School, extended from October 31, 1962, to February 1, 1963, because of delay in acquiring control panel of console, due to factory redesign.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for the rental of uniforms and overalls for the period April 1, 1963, through March 31, 1964.

Proposals will be received until twelve o'clock noon, Tuesday, February 5, 1963, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Business Office, Boston Public Library, Copley square, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and enclosed in an envelope, sealed and plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority designated above and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of a certified check payable to the City of Boston in the sum of one hundred and fifty dollars (\$150), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications for the work may be obtained on and after Monday, January 21, 1963, at the Business Office of the Boston Public Library, Copley square, Boston, Mass.

A performance bond, issued by a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful bidder.

The Awarding Authority reserves the right to accept or reject any or all bids, and to award the contract as it deems for the best interests of the city.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty God, Creator of the universe and Ruler of the destinies of every one of us, we acknowledge Thy supreme power and are ever conscious of our absolute dependence on Thee, the Author and Giver of all that is good and beneficial. We humbly seek Thy aid and benign influence on the elected Councillors of our city. O God, enlighten the minds of those whose august duty it is to direct the destinies of our people. Pour into our hearts, O Lord, the love of truth and the spirit of fraternal charity. Dispel from our hearts the darkness of error and misunderstanding, so that all our thoughts, our actions, and our words may be directed to Thine honor and glory and to our own eternal salvation, which we seek through Thy Son, Jesus Christ, Our Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

TRAFFIC LIGHTS AT BLUE HILL AVENUE AND FAIRWAY STREET, MATTAPAN.

The following was received:

City of Boston,

Office of the Mayor, December 17, 1962.
To the City Council.

Gentlemen:

I transmit herewith further communication from the Traffic Commissioner concerning your order of May 14, 1962, relative to the installation of traffic lights at Blue Hill avenue and Fairway street, Mattapan.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Traffic and Parking Department,

December 10, 1962.

Hon. John F. Collins,
Mayor of Boston.

Dear Sir:

This is in further reply to Council order dated May 14, 1962, requesting that the Traffic Commissioner proceed with the installation of traffic lights at Blue Hill avenue and Fairway street, Mattapan.

A survey indicated a problem of coordinating this installation with the signals at Mattapan square. However, this problem has been solved and these signals will be installed as part of our next signal contract.

There is no money available at the present time for the installation of new traffic signals.

Very truly yours,

THOMAS F. CARTY, Commissioner.

Placed on file.

PROPOSED SALE OF FORT HILL WHARF.

The following was received:

City of Boston,

Office of the Mayor, December 17, 1962.

To the City Council.

Gentlemen:

At your meeting on February 13, 1961, you received from me and referred to your Committee on Public Lands a communication, with accompanying order, authorizing the sale to the Sheraton Building Corporation of Fort Hill Wharf on Atlantic avenue (between the estate at the corner of Northern avenue and the Sheraton Building) for \$50,000 with collateral agreements to assure early removal of the unsightly abandoned refuse disposal structure now standing thereon and to provide for reconveyance should it develop that the site is needed for public purposes in the near future.

Mr. Ernest Henderson, President of the Sheraton Corporation of America, has written me under date of December 5, 1962, that Sheraton is still very much interested in acquiring this site and would like to have its proposal considered at the earliest possible date.

I renew my recommendation that you adopt the order transmitted with the above-mentioned message in February, 1961; and I respectfully urge that you give the matter prompt consideration.

Respectfully,

JOHN F. COLLINS, Mayor.

Referred to the Committee on Public Lands.

ORDINANCE RE FEES FOR LICENSES UNDER COMMON DAY OF REST LAW.

The following was received:

City of Boston,

Office of the Mayor, December 17, 1962.

To the City Council.

Gentlemen:

It has come to my attention that while the repeal of the Lord's Day Law, so called, made obsolete the provision in clause (298) of section 1 of chapter 30 of the Revised Ordinances of 1961 fixing \$3 as the fee for a license granted by the Mayor under the former G. L. c. 136, s. 4A, to maintain and operate a shooting gallery on a specified Sunday, chapter 11 of the Ordinances of 1962 striking out of those ordinances provisions made obsolete by such repeal omitted mention of clause (298). To correct this omission, I recommend adoption of the ordinance transmitted herewith.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston.

In the Year Nineteen Hundred and Sixty-two. An Ordinance Striking Out of the Revised Ordinances of 1961 a Further Provision Made Obsolete by the Repeal of the Lord's Day Law, So Called.

Be it ordained by the City Council of Boston, as follows:

Section 1 of chapter 30 of the Revised Ordinances of 1961 is hereby amended by striking out clause (298).

Referred to the Committee on Ordinances.

LEGISLATION AUTHORIZING CITY TO BORROW \$20,000,000 FOR PUBLIC OFF-STREET PARKING FACILITIES.

The following was received:

City of Boston,

Office of the Mayor, December 17, 1962.

To the City Council.

Gentlemen:

The Boston Redevelopment Authority as successor in function to the City Planning Board

has emphasized the need for more public off-street parking facilities accommodating an additional 10,000 vehicles at a cost of more than \$20,000,000. These new facilities would be located not only in the downtown business district and along the waterfront, but also in the territory between downtown Boston and Massachusetts avenue and in areas which became part of Boston with the annexation of Roxbury but which today are not generally spoken of as Roxbury.

The Commissioner of Real Property, recognizing that the city's current bond authorization for off-street parking facility purposes would be exhausted by the construction of such a facility in the Government Center Project area, seasonably petitioned the incoming General Court for an additional \$20,000,000 outside-the-debt-limit bond authorization for public off-street parking purposes; but under the Legislature's rules this petition and accompanying bill (photocopy of which is enclosed) will not receive attention until approved by your Honorable Body. Concurring in the wisdom of an additional \$20,000,000 outside-the-debt-limit bond authorization for this purpose, I respectfully request that you adopt the resolution transmitted herewith so that the Legislature may consider the matter.

Respectfully,

JOHN F. COLLINS, Mayor.

The Commonwealth of Massachusetts.

In the Year One Thousand Nine Hundred and Sixty-three.

An Act to Provide Further for the Establishment of Off-Street Parking Facilities in the City of Boston.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Chapter 474 of the acts of 1946 is hereby amended by inserting after section 5B, inserted by chapter 450 of the acts of 1955, the following section:—Section 5C. To provide for the purposes of this act, funds in addition to the funds provided by sections five, five A and five B, the city may borrow from time to time, not exceeding in the aggregate under this section twenty million dollars, and may issue and sell at public sale serial bonds or notes of the city therefor, which shall be registered or with interest coupons attached as the collector-treasurer of the city may deem best. Such bonds or notes shall bear on their face the words, City of Boston, Parking Facilities Loan, Act of 1963. Each issue shall constitute a separate loan, and such loans shall be paid in not more than twenty years from their dates. Debt incurred from time to time under this section shall not be included in determining the limit of indebtedness of the city as established by law, but shall, except as herein provided, be subject to the provisions, applicable to the city, of chapter forty-four of the General Laws, exclusive of the limitation contained in the first paragraph of section seven thereof. Said collector-treasurer may issue temporary notes of the city payable in not more than one year from their dates, in anticipation of the issue of serial bonds or notes authorized by this section, but the time within which such serial bonds or notes shall become due and payable shall not, by reason of such temporary notes, be extended beyond the time fixed by this section. All notes issued in anticipation of the issue of such serial bonds or notes shall be paid from the proceeds thereof.

SECTION 2. This act shall take effect upon its passage.

Resolved, That the petition of James J. Sullivan, Jr., Commissioner of Real Property of the City of Boston, for legislation authorizing the City of Boston to borrow twenty million dollars outside its debt limit for public off-street parking facility purposes be, and the same hereby is, approved.

Referred to the Committee on Appropriations and Finance.

LEGISLATION AUTHORIZING CITY TO BORROW \$5,000,000 FOR REMODELING BUILDINGS IN HOSPITAL DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, December 17, 1962.
To the City Council.

Gentlemen:

A modernization of the physical facilities of the Boston City Hospital commenced with an expenditure of \$2,600,000 under chapter 364 of the Acts of 1955 as supplemented by a further \$3,000,000 under chapter 668 of the Acts of 1958. Much, however, remains to be done.

The Supervisor of Budgets, taking into account the city's current fiscal situation and the long-term value of the improvements involved, came to the conclusion that the City Hospital modernization program could best be continued under a new \$5,000,000 outside-the-debt-limit bond issue, and on December 5 petitioned the Legislature for the necessary enabling act (photocopy thereof is attached hereto); but under the rules of the General Court, before this petition can be considered, your Honorable Body must adopt a resolution approving it. I transmit such a resolution herewith and urge its adoption because I agree with the Supervisor of Budgets that such a bond issue is the best method for financing continued improvement of the hospital's physical facilities.

Respectfully,

JOHN F. COLLINS, Mayor.

The Commonwealth of Massachusetts.

In the Year One Thousand Nine Hundred and Sixty-three.

An Act Authorizing the City of Boston to Borrow Money Outside Its Debt Limit for Remodeling, Reconstructing and Making Extraordinary Improvements and Repairs to Buildings Owned by Said City and in the Custody of the Board of Trustees in Charge of Its Hospital Department.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. The city of Boston, by a two-thirds vote, as defined in section one of chapter forty-four of the General Laws, may borrow from time to time such sums as may be necessary, not exceeding, in the aggregate, five million dollars, for remodeling, reconstructing or making extraordinary improvements or repairs to buildings owned by said city and in the custody of the board of trustees in charge of its hospital department. Such bonds or notes shall bear on their face the words, City of Boston, Extraordinary Repairs Loan, Acts of 1962. Each authorized issue shall constitute a separate loan and shall be paid in not more than ten years from the date of issue. Debt incurred from time to time under this act shall not be included in determining the limit of indebtedness of the city as established by law, but shall, except as herein provided, be subject to the provisions, applicable to the city, of chapter forty-four of the General Laws, exclusive of the limitation contained in the first paragraph of section seven thereof.

Resolved, That the petition of Henry T. Brennan, Supervisor of Budgets of the City of Boston, for legislation authorizing the City of Boston to borrow five million dollars outside its debt limit for remodeling, reconstructing and making extraordinary improvements and repairs to buildings owned by said city and in the custody of the Board of Trustees in charge of its Hospital Department be, and the same hereby is, approved.

Referred to the Committee on Appropriations and Finance.

COMPENSATION FOR ELECTION SUPERVISORS.

The following was received:

City of Boston,

Office of the Mayor, December 27, 1962.
To the City Council.

Gentlemen:

Under authority contained in General Laws, chapter 54, section 23, Supervisors of Election were appointed by the Governor with the advice and consent of his Council to serve in Ward 4 on the day of the State Election. The law provides that the compensation of supervisors shall be determined by the City Council, subject to the approval of the Mayor, and I respectfully recommend the adoption of the accompanying order.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Board of Election Commissioners,
December 18, 1962.

Hon. John F. Collins,
Mayor of Boston.

Dear Mr. Mayor:

This is to advise you that Supervisors of Election were appointed by the Governor with the advice and consent of his Council (G. L., chapter 54, section 23) to serve in Ward 4 on the day of the State Election. Two appointments were made for each of the ten precincts in said ward (1 Republican and 1 Democrat).

This Board feels that they should initiate payment for them and recommend the amount of \$15 per day for each supervisor. This amount is subject to approval by the City Council (Boston) as provided in the section cited above.

May I point out that the last time we had supervisors in Boston was in 1947 and this is the procedure that was followed at such time.

Very truly yours,

BOARD OF ELECTION COMMISSIONERS,
DAVID LASKER, Chairman.

Ordered, That the rate of compensation of supervisors of elections appointed under the provisions of General Laws, chapter 54, section 23, be fixed at \$15 per diem each, to be paid from available funds, or to be raised by taxation, \$300.

On motion of Councillor Foley, the rules were suspended and the order was passed.

PETITIONS REFERRED.

The following petitions were received and referred to the committee named, viz.:

Claims.

Joseph B. Conley, for compensation for damage to vehicle, caused by Public Works Department vehicle.

Charles Fraser, to be reimbursed as result of accident which occurred while in performance of duty as employee of Public Works Department.

William H. Goldblatt, for compensation for damage to car caused by police horses.

Richard D. Occhiolini, for compensation for damage to property at 75 Highland street, Hyde Park, caused by backing up of sewage.

David G. Pettiti, for compensation for damage to car caused by an alleged defect at 37 Mt. Vernon street.

Esther M. Regan, for compensation for injuries caused by an alleged defect on Preble street, Boston.

Teresa A. Stanton, for compensation for injuries caused by an alleged defect at 77 Alicia road, Dorchester.

Harry Sutelman and Aberdeen Wine Company, for compensation for injuries and damage to property caused by city truck.

INTERIM REPORT OF COMMITTEE ON URBAN REDEVELOPMENT, REHABILITATION AND RENEWAL.

Coun. McDONOUGH, for the Committee on Urban Redevelopment, Rehabilitation and Renewal, submitted the following interim report:

There are a number of other matters still pending before the Committee on Urban Redevelopment, Rehabilitation and Renewal and most of those will remain in committee. Four of them are communications from the Boston Redevelopment Authority containing information which the committee thinks should be kept in committee and ready and available for reference by the committee next year.

The fifth is a resolution which would require the Boston Redevelopment Authority in housing which they are responsible for to be made with wider lath plastering rather than dry wall. We had a hearing on this and we heard from the Plasterers Union and Mr. Logue. At that hearing it developed that the Development Administrator has hired some consultant to study this problem. As a result of our meeting the Plasterers Union is going to consult with the consultants and see if they can arrive at some sort of mutually satisfactory arrangement. For that reason the matter is kept in the committee.

The resolution approving the urban renewal plan for the Mattapan renewal area will be left in the committee. It is the committee's understanding Mr. Logue had indicated he would like further opportunity to hold hearings in the area affected by this project in order that he might develop a little more local support than he has had up to the present time. In compliance with the expressed desire of Mr. Logue, it is the committee's intention to delay action on this matter.

There is another resolution relative to the application for planning advance and federal capital grant for the South Cove urban renewal area. The committee took no action on this matter because at the hearing held last week, it developed it was not entirely certain, at least the committee was not entirely satisfied that the Chinese community which would be affected by this planning and survey

application was fully apprised of the significance of the plan that might be developed for their community, and until the committee decides to hear from other elements within the Chinese community, it would prefer not to act on this matter. It is hoped after hearing from them to the effect that they would be in favor of this application, the matter would then be acted upon.

There is one other matter pending before the committee which it is the committee's intention to report out as soon as we are sure what the committee's wish is, whether it be a favorable or unfavorable report.

The Committee on Urban Redevelopment, Rehabilitation, and Renewal now wishes to report the resolution approving the planning for the North Harvard urban renewal area favorably. The committee is divided on this question. There is considerable sentiment for the view that this application should be disapproved. Though I am Chairman of the Committee and as such am reporting the will of the committee, I dissent from the committee's report. I voted to disapprove the application. There are other members of the committee who voted along with me on this and I am sure they will indicate that when the matter is under discussion.

PATRICK J. McDONOUGH, Chairman.

The interim report was accepted.

REPORT OF COMMITTEE ON URBAN REDEVELOPMENT, REHABILITATION AND RENEWAL.

Coun. McDONOUGH, for the Committee on Urban Redevelopment, Rehabilitation and Renewal, submitted the following:

1. Report on resolution (referred September 24) to formulate policy concerning use of 221 d 3 FHA Mortgage Guarantee Law—recommending that the resolution be adopted.

The report was accepted, and the resolution was adopted.

2. Report on message of the Mayor and resolution (referred December 17) re disposition of Parcel 5 in Government Center

Project Area to United States of America—recommending that the resolution be adopted.

The report was accepted, and the resolution was adopted.

3. Report on message of the Mayor and resolution (referred October 1) approving urban renewal plan and feasibility of relocation re North Harvard Project—recommending that the resolution be adopted.

The report was accepted.

Coun. PIEMONTE requested that it be noted that he dissented from favorable action on the North Harvard Renewal Project.

MINORITY REPORT OF COUNCILLOR PIEMONTE RE NORTH HARVARD URBAN RENEWAL PROJECT.

Coun. PIEMONTE submitted the following minority report:

I must dissent from the majority in this approval which takes the homes of hundreds of families in direct contradiction of their expressed wishes to this Body. How can one support a proposal which destroys a community for the benefit of a few?

These families are living in harmony and reasonable comfort. They possess homes which are within their means financially. They are proud home owners. Now you would dispossess them so that an institution which was unwilling or unable to gain expansion property on the open market can now take possession of this property through urban renewal. I ask you—is this planning with people? My answer is that this is a cynical and hypocritical act.

In answer to a direct question put by me, the Urban Renewal Director admitted that there had not been one single violation of the minimum code for dwelling units reported in this entire project area, nor did he give any evidence of any such violations.

We have areas in the city—such as the Erie Street section of Dorchester—where there is flagrant and open violation of the minimum standards for dwelling units, where a large number of the parcels are an open menace to the safety and welfare of the community, a section whose public officials and responsible community groups are requesting urban renewal and where an urban rehabilitation program can be carried on producing its fullest benefits for the citizens of Boston without the problem of relocation. Yet the BRA shuts its eyes to this plight and these pleas and instead turns its guns upon a peaceful community that has violated no codes, where no violations have been reported or given evidence of, and where the primary aim of such a project seems to have as its purpose the aiding and abetting of an institution to acquire land for its program.

GABRIEL F. PIEMONTE, Member,
Committee on Urban Redevelopment,
Rehabilitation and Renewal.

Placed on file.

MINORITY REPORT OF COUNCILLOR FOLEY RE NORTH HARVARD UR- BAN RENEWAL PROJECT.

I feel I must put upon the public record two matters upon which I find myself in disagreement with Councillor Piemonte's minority report.

1. The number of families involved is about 70, not hundreds.

2. The purpose of the project is to see that Harvard University does not acquire this property (resulting thereby in a nontaxable use) rather than otherwise.

WILLIAM J. FOLEY, Jr.,
Member, Committee on Urban Redevel-
opment, Rehabilitation and Renewal.
Placed on file.

MINORITY REPORT OF COUNCILLOR McDONOUGH RE NORTH HARVARD URBAN RENEWAL PROJECT.

This project embraces 9.3 acres including streets. There are 52 major structures to be taken. Two of these are nonresidential. Seventy-two families are to be uprooted.

The BRA among the documents which it submits for our consideration relative to this matter recites that the local contribution will consist of \$115,735. If that were the real local contribution I would not hesitate to vote approval. But \$115,735 is not the real local contribution. The real contribution is people. The real local contribution is families. I am unwilling to pay this price for this project. I therefore urge that this resolution be rejected.

opment, Rehabilitation and Renewal.

REPORT OF COMMITTEE ON CONFIRMA- TIONS.

Coun. PIEMONTE, for the Committee on Confirmations, submitted the following:

Report on message of the Mayor and order (referred October 1) for appointment and confirmation of John Patrick Ryan to be a member of Boston Redevelopment Authority for the term expiring September 17, 1967—recommending that the appointment be confirmed.

The report was accepted, and the order was passed, confirming the appointment of John Patrick Ryan.

REPORT OF COMMITTEE ON LICENSES.

Coun. COFFEY, for the Committee on Licenses, submitted the following:

1. Report on applications (referred December 10) for commercial use shellfish permits for Vincent Bradley and Leonard W. D'Amico—recommending that the permits be granted.

The report was accepted, and the licenses were severally granted under the usual conditions.

Coun. TIERNEY in the chair.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. HINES, for the Committee on Public Lands, submitted the following:

Report on message of the Mayor and order (referred September 10, for sale of portion of St. Stephen street to Northeastern University—recommending that the order ought to pass, and submits the following report:

Since September 10, 1962, the City Council Committee on Public Lands has had under consideration an order submitted by the Mayor authorizing him to sell at private sale to Northeastern University a portion of St. Stephen street and to discontinue this portion of St. Stephen street, between Opera place and Forsyth street, in the Back Bay area of the city. By this order Northeastern would acquire 21,175 square feet of land (all of this footage being the discontinued portion of the street) for which the purchaser would pay the amount of \$56,119 and will also convey 2,442 square feet of land adjacent to Opera place which will facilitate a widening of Opera place, between St. Stephen street and Forsyth street. Northeastern University owns the land on both sides of St. Stephen street and the proposed sale would permit the University to plan for more efficient land use of its campus.

At a public hearing held on Thursday, September 27, duly advertised in the Boston newspapers, officials of Northeastern University, including its president, appeared in favor of the proposal and certain officials of the City of Boston, notably the Public Works Commissioner who certified to a hearing and study by the Public Improvement Commission and the approval of that board to the proposed discontinuance, the city of course retaining easements for sewer and water purposes. Opposition was voiced by members of the Legislature from the vicinity and some abutters and neighbors. The majority of the City Council Committee, as a result of its deliberations and hearing, has arrived at the following conclusions:

1. Northeastern University presents a strong case for adoption of the order which will allow it to expand its facilities by the construction of two (2) new buildings, notably a four-story structure for a dormitory for women students attending Northeastern University, some of whom will also attend the Forsyth Infirmary with whom Northeastern is conducting a joint program of training in the field of Dentistry. For this construction Northeastern University has received final approval of a \$2,600,000 loan from the Housing and Home Finance Agency of the United States Government. Plans are completed and a spring land breaking is anticipated if the City Council now approves this order. The height and design of the building would be similar to Northeastern's present facilities and would project 25 feet into the present street.

2. The proposed discontinuance would permit the University to construct ultimately a 1,000-car garage on Hemenway street on property now owned by the University and would permit students unhindered walking access to this area where the University, in conjunction with other properties is making a commendable effort to handle the tremendous problem of parking for faculty and students, the overwhelming majority of whom live in the Metropolitan Boston area.

3. Objection was made that the University now owns land on the Columbus Avenue side of Huntington avenue and that the University should expand in that direction. University officials showed models and plans of the State Department of Public Works, etc., which show the probability of Northeastern losing in the future much of this property for expressways, etc., and therefore claimed this would be unfeasible. However, the committee notes that Senator Richard Caples of the Back Bay made the interesting and provocative suggestion that universities and other tax-exempt institutions in the Boston area should consider most carefully new air-right type buildings over public roads to alleviate the city's undoubted and unquestioned difficulty of coping with the expansion programs of tax-exempt institutions. For this reason the City Clerk is hereby directed to forward a copy of this report to the Administrator of the Boston Redevelopment Authority as it is the planning board of the City of Boston.

4. Certain abutters and neighbors made objections concerning minor nuisances to them resulting from student activities although there was no allegation of wrong-doing or maliciousness and therefore it appears that the University should take every step within its means to cooperate with its neighbors, residents of the district, to reduce to a minimum the friction of this matter and to cooperate with its neighbors in this regard.

5. This proposal would not take any property off the tax rolls of the city nor remove any land from the park system. If such were the result, the report of the committee might be in opposition rather than in approval of this proposed conveyance.

6. The Mayor and the City Council of Boston approved a similar expansion device namely, discontinuing and selling a street, to Harvard University two years ago.

7. As Northeastern University fulfills to a great extent the role of a municipal college, saving the city millions of dollars per year, it comes with good grace to seek approval of

this transaction. Northeastern University has a present enrollment of 23,000 full and part-time students—8,000 of whom are residents of the City of Boston and 80 per cent being residents of Metropolitan Boston.

The majority of the Committee on Public Lands recommends adoption of the order.

FOR THE COMMITTEE,

PETER F. HINES, Chairman.

Pres. IANNELLA in the chair.

The foregoing report was accepted. The question came on giving the order its first reading and passage. The order was rejected (6 votes being required for passage), yeas 5, nays 4:

Yeas—Councillors Coffey, Foley, Hines, Kerrigan, Sullivan—5.

Nays—Councillors Iannella, McDonough, Piemonte, Tierney—4.

Coun. FOLEY moved reconsideration of the foregoing motion, and reconsideration prevailed.

On further motion of Councillor Foley the foregoing order was referred to the Committee on Public Lands.

THE NEXT MEETING.

On motion of Councillor Hines, the Council voted that when it adjourn it be to meet on Monday, January 7, 1963, at 10 A.M.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. HINES, for the Committee on Ordinances, submitted the following:

Report on message of the Mayor and ordinance (referred December 10) relative to annual charge for use of common sewers—recommending that the ordinance ought to pass.

The report was accepted, and the ordinance was passed.

PRESENTATION OF GAVEL TO PRESIDENT IANNELLA.

Coun. HINES, on behalf on the members of the Council, presented President IANNELLA a gavel in appreciation of his services as President of the Council for the municipal year 1962.

President IANNELLA expressed his thanks and his appreciation of the consideration and cooperation throughout the year of the members of the City Council, the Council attachés, and the members of the press. (Applause.)

PROPOSED SALE OF PORTION OF CARTER PLAYGROUND.

Coun. HINES called up, under unfinished business, No. 1 on the Calendar, viz:

1. Order for sale of parcel of land, Carter Playground, Camden street, to Floyd E. Bliss et al.

On December 3, 1962, the foregoing order was read once and passed, yeas 7, nays 2.

The order was given its second reading and passage, yeas 7, nays 2:

Yeas—Councillors Coffey, Foley, Hines, Iannella, Kerrigan, Sullivan, Tierney—7.

Nays—Councillors McDonough, Piemonte—2.

Adjourned at 4:09 P.M., on motion of Councillor Hines, to meet on Monday, January 7, 1963, at 10 A.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

Adult Phase of Polio Clinics is Under Way

The Boston Health Department in cooperation with the Suffolk County Medical Society is planning Type I oral polio vaccine clinics for adults 19 years and over according to an announcement by Health Commissioner Dr. John T. Foley.

Dr. Foley said, "The Boston program providing free vaccine for pre-school and school children was completed January 25. Clinics were then opened for the adults and a voluntary contribution of 25 cents will be collected. Boston's Health Units and Substations will be open from 10 A.M. to noon on Saturday, January 26, and Saturday, February 2, for the convenience of people who work during the week. The Type I polio vaccine will also be available at Boston City Hall and the Boston Health Department Building, Haymarket square, Boston, between 11 A.M. to 2 P.M. each day, Monday, January 28, through Friday, February 1.

"Although preschool children are more susceptible to polio, any one, regardless of age, can get the disease and everyone should get oral polio protection against the Type I, Type II, and Type III polio virus." Asked about Salk shots, the commissioner said, "Even with the full Salk series, periodic booster doses are required or one loses immunity. The oral polio vaccine provides better protection as it remains effective for many years."

Adults who are conscientious about getting protection for their children frequently neglect getting protection themselves, forgetting that they too could be victims of polio. For family protection, every-

WELCOME CALLER -Accompanied by his parents and Mrs. John F. Collins, 1963 March of Dimes Chairman, 5-year-old Jimmy Boggess of Arkansas, National Dimes Boy for this year's drive, called at the Bill Cunningham Birth Defects Center at City Hospital. Three little patients extended a welcome. Left to right: Dr. Sydney Gellis, head of the unit; Jimmy's mother, Shirley, model and finalist in Miss America Contest; Jimmy's father, former star with the Louisiana State football team, and Mrs. Collins, wife of the Mayor.

Officials Agree Poll Tax Impractical Levy

Legal experts and tax officials representing various cities and towns joined with Attorney Paul Burns, legislative agent for the City of Boston, in urging repeal of the \$2 poll tax on male residents of the Commonwealth.

There was general agreement that the cost of collection, particularly the burden placed on the tax machinery of the various local communities was not justified by the income.

State Associate Tax Commissioner Edward Wilson, who appeared with others before a legislative committee on hearings on a repeal bill declared it is a common rule of taxation that a levy that costs more than 5 per cent to collect is impractical.

Newspapers Needed By Society Today

"We are knowing a day when the place of journalism in our society is not only one of tremendous import," Mayor Collins wrote this week in a letter of congratulations to General Manager John P. Fichter of the Back Bay *Ledger-Times* which is observing the 25th anniversary of its founding this week.

"Today our press meets a need no other media can fill in a modern era so dependent upon communication."

New MTA Rapid Transit Cars in Service by May

Two test cars—the first of 92 produced for the MTA by the Pullman Standard Company of Chicago—are expected to go on experimental runs over the Ashmont-Harvard Square Rapid Transit line February 4. Tests will be made during the early morning, nonoperating hours.

The new cars, to be purchased at a cost of \$10,097,000 will replace 135 old cars now in service. The MTA hopes to have the entire fleet of modern replacements in operation by May 22.

Both in appearance and equipment features the cars will be a radical departure from the obsolete carriers now in service. They will

be painted blue, white, and gold. They will accommodate 322 passengers at top capacity.

The cars are constructed of steel and by the use of curved sides will permit an additional 8 inches of aisle space.

The interior will feature fiberglass seats, incandescent lighting, a two-tone vinyl asbestos floor tile, fans to handle dead and dry air, and picture windows.

The car will have four doors on each side compared to the present total of three.

November 11 is known as Remembrance Day and observed as a national holiday in Canada.

AID FOR FIRE HERO SIGNED—Mayor Collins had Mrs. James F. Flahive as his City Hall guest when he signed an order calling for an annual payment of \$3,500 for medical expenses of her husband, now a patient at Holy Ghost Hospital, Cambridge. Lieutenant Flahive was pensioned under full pay under chapter 293 of the Acts of 1949. Carbon monoxide he inhaled while fighting a fire in 1949 rendered him totally helpless and in need of constant care. Standing (left to right) are Joseph Hardiman, Firefighters Local 718, Fire Commissioner Thomas J. Griffin, and Fire Chief John A. Martin.

General Order No. 170.

Subject: Parking Violation Statistics.
Reference: General Order No. 163, December 28, 1962.

In order that the department may have available certain data pertaining to parking violations, General Order No. 163 is hereby amended as follows:

Strike out the third paragraph appearing therein at the bottom of page one and insert the following paragraph:

"Commanding Officers shall forward the police copy to Central Records, Data Processing Unit of the Bureau of General Services, by morning police mail on the day following violation date so that they may be utilized for statistical purposes. Such copies shall be safely preserved by Central Records in the event that they may be required for

regular criminal proceedings should any persons notified to appear fail to do so within the prescribed time."

The daily report referred to on page three shall be discontinued.

Commanding officers shall instruct all officers under their command that upon being notified by the court of the failure of persons notified to appear under the parking violation law and pay the fine indicated, to forward such notifications of the court to Central Records, Data Processing Unit, where provisions will be made to obtain the name and address of registered owners at the Registry of Motor Vehicles and such information together with corresponding police copies will be supplied to the officer concerned for use in applying for court process.

All police copies of parking violation notices issued during 1963, presently on file at the several districts, shall be forwarded immediately to Central Records, Data Processing Unit.

BEECHMONT STREET PUBLIC HIGHWAY

Hyde Park

The Mayor and Public Improvement Commission have approved the laying out and construction of an extension of Beech street, Hyde Park district, as a public highway, from Asheville road to Sherrin street, with the name of Beechmont street or some other distinctive name.

The project is described as follows:

The highway named Beechmont street is hereby laid out from Asheville road to Sherrin street, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for highway purposes is hereby taken, is bounded and described as follows:

Southeasterly by Sherrin street, forty-four and 67-100 feet; southwest by the southwesterly line of Beechmont street as hereby laid out, by four measurements, three hundred fifteen and 00-100 feet, ninety-nine and 05-100 feet on a curve of five hundred thirty-five and 57-100 feet radius, four hundred fifty-three and 73-100 feet, and forty-one and 99-100 feet on a curve of sixteen and 15-100 feet radius; again southwesterly by Asheville road, fifty-two and 31-100 feet; again southwesterly by the southwesterly line of Beechmont street as hereby laid out, one hundred and 00-100 feet; northwesterly by the northwesterly line of Beechmont street as hereby laid out, forty-nine and 15-100 feet, and northeasterly by the northeasterly line of Beechmont street as hereby laid out, by four measurements, forty and 52-100 feet on a curve of one hundred eighty and 19-100 feet radius, five hundred twenty-eight and 39-100 feet, ninety-one and 66-100 feet on a curve of four hundred ninety-five and 67-100 feet radius, and two hundred ninety-five and 11-100 feet.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty (30) days following the city's entry for construction purposes.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Beechmont street will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan heretofore referred to and on file in the office of this commission.

LIBRARY DEPARTMENT.

INVITATION FOR PROPOSALS FOR CLEANING, POLISHING, AND MAINTENANCE SERVICE.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for cleaning, polishing, and maintenance service for the period April 1, 1963, through March 31, 1964, at the Central Library building, Copley square, Boston, Mass., as specified in the specifications.

Proposals will be received until twelve o'clock noon, Monday, February 11, 1963, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Business Office, Boston Public Library, Copley square, Boston, Mass. Each copy of the proposal shall be properly filled out, signed, and enclosed in an envelope, sealed, and plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of a certified check payable to the City of Boston in the sum of one thousand dollars (\$1,000), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Specifications may be obtained on and after Monday, January 28, 1963, at the Business Office, Boston Public Library, Copley square, Boston, Mass.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful bidder.

The Awarding Authority reserves the right to accept or reject any or all bids, and to accept or reject any portion or portions of the bids and to award the contract as it deems for the best interest of the city.

INVITATION FOR GENERAL BIDS FOR FURNISHING AND INSTALLING CONDUCTIVE LINOLEUM FLOORING IN OPERATING ROOMS, X-RAY SUITE, WARDS AND CORRIDORS OF DOWLING BUILDING AND SHORTELL UNIT AT BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of the Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for furnishing and installing conductive linoleum flooring in operating rooms, X-ray suite, wards and corridors of Dowling Building and Shortell Unit at Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Standard Time), Tuesday, February 12, 1963, at the office of Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,250. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above, and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the plans and specifications on file as aforesaid.

Plans and specifications and other contract documents may be obtained at the office of the engineer, Jackson & Moreland, Inc., 600 Park Square Building, Boston 16, Mass., on or after twelve o'clock noon, of Monday, January 28, 1963, upon deposit of a certified check, payable to the City of Boston, in the amount of \$25 per set of plans and specifications. The amount of the deposit, per set of plans

and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the engineer, Jackson & Moreland, Inc., 600 Park Square Building, Boston 16, Mass., not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, of chapter 149, of the General Laws, as amended.

INVITATION FOR GENERAL BIDS FOR ALTERATIONS TO ENTRANCE LOBBY AND WAITING ROOM, ADMINISTRATION BUILDING, BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON 18, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for alterations to entrance lobby and waiting room, Administration Building, Boston City Hospital.

General bids will be received up until twelve o'clock noon (Eastern Standard Time), Monday, February 18, 1963, at the office of the Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston 18, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,250. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation, will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address, before twelve o'clock noon (Eastern Standard Time), Monday, February 11, 1963, at which hour and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid is submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

- | | |
|----------------------------|-------|
| 1. Painting | \$100 |
| 2. Special Coatings..... | \$250 |
| 3. Resilient Flooring..... | \$100 |
| 4. Electrical Work..... | \$100 |

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority, second floor of the Sears Building at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass., on or after Monday, January 28, 1963, upon deposit of a certified check payable to the City of Boston in the amount of \$25 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the Awarding Authority, not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

DEPARTMENT OF SCHOOL BUILDINGS.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ALTERATIONS AT THE WILLIAM MCKINLEY SCHOOL, ST. MARY'S AND MOUNTFORT STREETS, BOSTON, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for alterations at the William McKinley School, St. Mary's and Mountfort streets, Boston, Mass.

General bids will be received until twelve o'clock noon, Monday, February 18, 1963, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,600. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon Monday, February 11, 1963, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: Title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Painting	\$300
Plumbing and Gasfitting.....	\$500
Heating and Ventilating.....	\$200
Electric	\$200

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications may be had at the office of the Awarding Authority.

A performance bond, and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON.

Proceedings of City Council.

Monday, January 7, 1963.

First meeting of the City Council for the year 1963 held in the Council Chamber, City Hall, at 10 A.M., Councillor Coffey, Senior Member, presiding, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

In the name of the All Holy and Eternal God, to Whom be all praise, glory, and thanksgiving, we open this new session of the Boston City Council.

This moment is Thine, O God, as we invoke Thy benediction on this assembly before the deliberations begin. Thou alone are invincible in power, and infallible in wisdom. Share, I pray Thee, these with Thy servants as they face the high demands of this public office as Councillors for our city. From the inexhaustible resources of Thy providence, O God, shower Thy blessings on the Honorable Mayor, and the City Councillors, that they may be prudent in judgment, temperate in speech, just and honorable in action. Grant to them that courage that cannot be shaken; the faith strong enough for the darkness; strength sufficient for their tasks; wisdom to meet the complexities of their duty, and in inflexible loyalty to Thee and Thy most holy will. For this first day and for the unknown tomorrows may Thy light be theirs; Thy service their joy, and Thy peace their inheritance. These we ask through Thy Son Christ Jesus our Redeemer.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

ESCORT TO MAYOR COLLINS.

Chairman COFFEY—His Honor, the Mayor, John F. Collins, will deliver the annual address. The Chair will, therefore, appoint Councillors Iannella and Kerrigan to escort the Mayor to the Council Chamber.

The Chair now declares a short recess while we await the arrival of his Honor the Mayor. (Short recess.)

The committee appointed to escort Mayor John F. Collins to the chamber retired and presently returned in company with the Mayor, who was greeted with applause upon his entrance.

Chairman COFFEY—Members of the City Council, invited and honored guests, I am pleased to present the Honorable John F. Collins, who will now deliver his annual address. Mayor Collins.

ANNUAL ADDRESS OF HON. JOHN F. COLLINS, MAYOR OF BOSTON.
Honorable Members of the City Council and of the School Committee, Distinguished Guests, Ladies and Gentlemen:

1963 is a year of bright hope for Boston. It may also be a year of fateful decision for our beloved city.

This year will determine whether we have just concluded the third successful lap in a race against time and blight—or whether we have merely been pacing on a treadmill all the while.

1963 will decide whether the city will continue to go forward—on the course which we have charted—toward the realization of its fondest dreams—or whether our municipal ship will be permitted to founder on the rocks of fear, indecision, and petty political strife.

1963 may also determine the ultimate fate of all the cities and towns of the Commonwealth, for 1963 will demonstrate whether the state government is finally willing to assume the functions and expenses which properly should be borne by the Commonwealth and furnish fair and just relief to cities and towns so that they may have the wherewithal to fulfill their necessary municipal objectives.

Three short years ago Boston was at the edge of fate—its outlook bleak, its prospects gloomy, its future dark. To compound the difficulties of its many problems, the sidelines did not lack for professional mourners ready to officiate at its graveyard rites.

Yet, today, our municipal condition is healthy, our outlook cheerful—our prospects bright and optimistic—so bright indeed, that we can realistically look forward to the actual creation, in the second half of the twentieth century, of one of the great cities of the twenty-first century.

Today, the city that all of our critics were ready to bury in the dismal sands of failure and obscurity, is one of the finalists in the "Look Magazine" national competition for the title of "All-American City."

Today, the city that seemed destined for financial and political bankruptcy holds its head high, with the encouraging feel of cash in its pockets.

Today, the city that seemed fated for physical unattractiveness and cultural oblivion is rapidly regaining its leadership in city planning and the propagation of the arts.

Today—believe it or not—our critics are asking "whether the city is not moving too fast"—not realizing that municipal blight, if not attended to, has a built-in speed of its own.

And how have we been able to work this transformation—this change from dejection and discouragement to courage and confidence?

By turning to Boston's greatest natural resource—the resource that has always in its past carried it through every crisis in its history—the inexhaustible natural resource of its people—people of courage, good will and enterprise—people of talent, energy and imagination—men and women who know not the meaning of fear, and who have never been long deterred by any challenge—the people of Boston who have always made this the exciting city that it is, by the daring, the boldness, and the inventiveness with which they have eventually met and conquered every challenge.

Yes, ladies and gentlemen, the great improvement in the health of Boston's body politic, and in the dynamism of its spirit, has come about through the inspiring demonstration, during the last three years, of the creative possibilities inherent in the unselfish union of citizen efforts—of the vast accomplishments which can be achieved through the enthusiastic, unstinting, nonpartisan cooperation of people planning with people—of people working with people—for the common good of Boston and all of its people.

Housewife and teacher—tradesman and lawyer—businessman and artisan—we owe them all a great and permanent debt, for all they have done and helped us also to perform.

In surveying the prospects for the year, paramount in the minds of many citizens is the question of our 1963 tax rate.

The real estate tax rate will always depend first, on what we can do locally to create new valuations and effect internal economies, and second, on what the state will finally do to relieve local real estate from some of its unnecessary burdens.

However much we may accomplish in the first direction, no truly substantial tax reduction can be achieved until we make real progress in the second direction.

On the local level, no matter how high our January hopes, our good intentions are at best an informed estimate of what we can actually do in June.

Such estimate must take into consideration built-in increases in anticipated expenditures and known decreases in revenues formerly enjoyed, while at the same time being limited to more or less hopeful speculation as to increased revenues and reimbursement from state sources.

On the debit side, so to speak, we have the known loss in valuations resulting from takings by the Massachusetts Turnpike Authority, amounting to some 15 million dollars, and takings by the Boston Redevelopment Authority. While these takings are made in the public interest, and will eventually result in greater substituted tax revenue for the city, the temporary loss in revenues is immediate and substantial. We also have the continuing trend of acquisitions of previously taxable property by tax-exempt institutions, averaging 3 million dollars a year. This is a serious and growing problem which requires intensified study in the interest of all citizens.

In addition, we have the built-in increases in pension costs, Blue Cross and Blue Shield expenses, and School Department costs, and some unavoidable increases in Departmental Appropriations. It is also anticipated that MDC assessments will rise. If, as I hope and intend, the Jacobs compensation and classification plan for city employees is put into effect, this will cost an additional 2 million dollars. Similarly, if, as I expect, substantial pay increases are granted to our uniformed forces, another 2 million dollars will be required. Without taking into account rising costs of public assistance, these items alone total more than 9 million dollars, and if not offset would require a tax rate increase of about 6 dollars per thousand.

On the other hand, our financial house is in good order, and we look forward to decreases in debt and interest costs, to substantial savings in the Police Department, and to increased hospital revenues. Our MTA assessment will fortunately be reduced, and 1963 will show the first significant increase in revenues from new construction.

Looking at the entire picture cautiously but hopefully, there is a very good chance that I will be able to announce, this coming June, the fourth successive tax reduction since 1959, and in an amount which may be greater than the first three combined.

There are two things on which all citizens are agreed, regardless of party persuasion or economic philosophy:

First, that the state must furnish substantial relief to the cities and towns, to the extent of at least 100 million dollars.

Second, that we must do more for education on the local scene.

Everybody agrees about these matters, but, as in the case of the weather, no one seems to do anything about them.

A way appears in which both objectives can be accomplished, to the satisfaction and with the support of all citizens concerned.

I refer to a limited tax on sales with the proceeds exclusively devoted to educational purposes in the cities and towns.

It is difficult to exaggerate the local need for tax relief for real estate. It is also difficult to exaggerate the local need of increased educational facilities and the pressure for improved standards of compensation for teachers. As matters stand, the pressure of each results in further burdens on real estate, without adequate satisfaction of educational needs.

In the City of Boston, for example, School Department expenditures will amount to nearly \$40,000,000 in 1963, or about \$28 in our tax rate. Every increase in this appropriation, no matter how necessary, defeats our efforts to minimize the real estate tax rate. If financial urgency dictates elimination or postponement of otherwise desirable educational appropriations, we almost certainly risk harm to our educational system and resources.

The situation of the City of Boston in this respect does not differ, fundamentally, from that of the other cities and towns.

A limited sales tax for local educational purposes would solve both problems: The proceeds would permit an immediate substantial reduction in local tax rates, and our expanding local economy would provide, I am confident,

a gradually but constantly increasing source of funds for our expanding educational needs.

The important thing, I submit, is that the time for action by the state is now. There is no time for further studies and reports. Fortunately, there is no need for further studies and reports.

I have the most complete confidence that all citizens will support legislation which has as its dual purposes the provision of funds for education of our children and the reduction of local tax rates.

FISCAL HIGHLIGHTS

Once again I am glad to report good progress by the city in the field of its fiscal affairs:

BUDGETS: As compared with 1959, the combined 1962 city and county budgets have hardly varied, despite the fact that we have had to absorb more than 6 million dollars (\$6,196,201) in increases in wages, holiday pay, health insurance, pension costs, and other fringe benefits. Indeed, were it not for increases in the county budget over which the Mayor and Council have minimal control, the 1962 budget would show an actual decrease from 1959.

Our success in this regard is principally due to careful adherence to the "no hire—no fire" policy with regard to city employment, under which we have succeeded, since January, 1960, in eliminating 1,063 permanent positions, 1,038 of which were in departments under the Mayor's direct control, and only 25 of which were in city and county departments not so controlled.

It is estimated that faithful adherence to the "no hire—no fire" policy has enabled us to save nearly four and one-half million dollars annually in the city's budget.

Our budgetary success rests also, however, on the care with which our department heads have managed to get the most out of each dollar, by rendering increased services at less than previous costs.

The numerous activities of our Public Works Department, for example, were carried out in 1962 at a cost which was 570,000 dollars (\$570,572) less than in 1959, and I am firm in my belief that the performance of the Public Works Department this past year was the most outstanding in a decade.

The Purchasing Division continues to find new and fertile fields for cost-cutting. The dual policies of unrestricted "open door" bidding and bulk buying have resulted in savings of as much as 50 per cent from former prices, especially in the areas of medical, hospital and food supplies.

In these connections, it is interesting to note that since April 5, 1962, when the Legislature returned budgetary and other control over the Boston Police Department to the City of Boston, the Police Department has been able to reduce its permanent staff by 138 positions, and that the Purchasing Department has been able to effect startling savings in prices, as compared with prior Police Department purchase prices.

For example, raincoats formerly costing \$12 each have been furnished for \$8.59;—tire chains costing \$7.15 have been bought for \$4.53;—lubricating oil with a previous cost of 83 cents a gallon, now costs 56 cents a gallon, and certain breathing apparatus formerly rented at an annual rental cost of \$54 is now bought outright for \$49.

Our ability to make such quick and substantial savings in costs of manpower and supplies in the Police Department certainly confirms the representations made by us to the Legislature that budgetary control of that department should be returned to the city.

I may add, in this connection, that it is the policy of the Mayor's Office essentially to leave the internal affairs of the Police Department in the capable hands of its commissioner, who has already taken steps to implement the Tamm report and whose forward strides in police management and reorganization have been widely and favorably noted.

COLLECTIONS: I am also able to report that 1962 also showed improvement in every area of collection of sums due the city for taxes and services.

Each year since 1959 has shown an improvement in the percentage of real estate and personal property taxes collected for the current year. Part of the 1962 record results from our improved billing procedures, which enabled us to send out all real estate tax bills one month earlier than in 1961, and two months earlier than in 1960. This in turn has reduced the necessity for temporary loans in anticipation of taxes, with resulting savings in interest paid.

Motor vehicle excise collections increased \$2,400,000 over 1960, and with improved methods and cooperation from the Registry of Motor Vehicles we look forward soon to becoming fully current in billing for this excise.

In the matter of collection and foreclosure of tax titles, 1962 was a banner year. The total collected in cash or in the book value of foreclosed properties was nearly 3 million 150 thousand dollars (\$3,144,688), or almost double the total realized in 1959. Of this amount, more than \$2,230,000, or 71 per cent was in cash, whereas the amount of cash collected in this manner in 1959 was less than 33 per cent of the total realized. The strict, uniform and impartial policies followed by the Law Department during the last three years have thus been successful in two important respects. They have not only brought in more dollars in total, but have saved the city further incidental expenses by proportionately reducing the number of properties which the city has been forced to take over in satisfaction of these tax obligations.

In turn, cash collected from rentals of foreclosed property have increased 19 per cent over 1959, and cash realized from sales of foreclosed property increased to nearly 650 thousand dollars (\$646,450) in 1962, or more than 4-and-one-half-times the sum realized in 1959 from this source.

Collections both of fees and rentals from parking facilities likewise showed a progressive trend in 1962.

DEBT, INTEREST COSTS AND CREDITS 1962 saw further important reductions in the city's permanent debt, with a result that the city's net debt has been decreased almost 7,814,000 dollars since 1959—or more than 7½ per cent—while the city's gross debt went down in the same period by 18,065,000 dollars, or more than 11¼ per cent.

Temporary loans issued in 1962, in the amount of 25 million dollars, were the lowest in amount since 1947, such loans, which were as high as 90 million dollars in 1957, still amounted to 55 million dollars in 1959, but have been successively reduced by 10 million dollars each year since 1959.

The resulting cost of interest has not only been correspondingly decreased, but in 1962 was more than offset by interest received by the city from temporary investments of surplus city funds in United States obligations.

This illustrates the salutary effect of legislation which the city succeeded in obtaining in 1960. Prior to 1960, if the city had surplus funds remaining on hand from time to time after redemption of temporary loans, it was nevertheless forbidden to invest such funds in income-bearing securities, but was forced to hold the same in cash. Since 1960, the city has been permitted to invest such surplus funds in treasury bills. Income received from such investment of 1962 surplus funds amounted to more than 213,000 dollars, or more than 36,000 dollars in excess of the entire cost of interest on 1962 temporary loans, which was only 176,000 dollars, as compared with 1,403,000 dollars, as recently as 1957.

1962 also marked a further improvement in the city's financial credit. The acid test of our credit is always determined by the rate of interest we have to pay on our permanent borrowings. That our credit has steadily improved in the financial community is force-

fully demonstrated by the fact that in each year since 1959, we have been called upon to pay a decreased rate of interest.

In 1959, the net interest rate to the city was 3.83 per cent—in 1960, it was 3.46 per cent and 3.38 per cent. In 1961, it was 3.14 per cent, but on October 24, 1962, it was only 2.71 per cent—lower by a full percentage point than in 1959—and the lowest rate enjoyed by the city since 1956.

Time does not permit a report, however brief, of all departmental accomplishments. A few highlights are, however of special interest.

If statistics are a test, then the reorganization of the Assessing Department and its adoption of uniform assessing standards have been successful, as judged by the fact that average abatements decreased by more than 50 per cent in the last three-year period, dropping from an average of \$12,515,000 in 1957-1959, to an average of \$6,189,000 in 1960-1962. Moreover, the number of applications for abatement fell 945 from 1961, and 2,196 from 1959—a reduction of 28½ per cent since 1959.

The Building Department reports that new construction permits more than doubled in 1962, from 37 million dollars in 1961 to nearly 79 million dollars as of December first. Taxable construction and alterations almost exactly doubled from 1961, and represented more than two thirds of the total.

The Public Works Department reports that 1962 highway reconstruction increased almost 50 per cent over 1961 and increased more than 210 per cent over 1959. It also reports that equipment modernization continued in 1962 by the replacement of approximately 75 pieces of major streetcleaning and snow-fighting equipment.

By far the major accomplishment of the past year—indeed, of the past three years—has been our performance in the fields of redevelopment and rehabilitation.

In this respect, I believe that Boston has the most outstanding, the soundest, and the most creative urban renewal program in the United States, if not in the entire world.

I congratulate the members of the Boston Redevelopment Authority, the Development Administrator, and you, the Honorable Members of the Boston City Council, on the industry, intelligence, and energy which have attended your efforts in this vastly important field.

The purpose of this program is not merely to improve the shelter and facilities of our inhabitants, but to add to their enjoyment of life itself, by adding to the social and aesthetic amenities of their environment.

But the key to the program—and the foundation of its success—is and will remain the concept of planning with the people, and for the people, and according to the people's own enlightened desires.

Moreover, the program is highlighted by these three advanced fundamentals of policy: Early acquisition, to prevent irreparable economic injury to those displaced; reimbursement of relocation costs, for those displaced; and, most important, a stepped-up program to provide, in advance, adequate, low-cost residential facilities for families unavoidably relocated.

To every program, no matter how well conceived, there will always be voices of dissent, however misinformed or insincerely influenced. We shall of course do nothing to prevent or suppress dissent, because we know, that through the democratic process of public hearing and testimony, no urban renewal program has had or will have your approval unless it is plainly in the public interest and for the public benefit and has the informed support of the public at large.

I think that in the future years, you and I will derive the greatest satisfaction from such projects as the Washington Park Urban Renewal Plan—which will involve the gradual transition of an entire area of our city from a condition of increasing blight to a condition of constantly increasing pride in citizenship in Boston. Planning with the people themselves, the redevelopment area will provide better

homes, better schools, better neighborhood facilities for those very people, and within their means.

Similar projects, involving advance construction of privately-financed attractive low-cost relocation housing are planned for Charlestown and other areas of the city—but always, in consultation and planning with the people affected.

Other plans are in process for other districts, such as the South Cove, the South End, the Central Business District, the North Terminal area, the Waterfront and others. Indeed, there is hardly a section of the city that is or will remain untouched by the beneficial effects of rehabilitation, redevelopment, and renewal.

Examples already exist—and soon will abound—of the favorable results to the city from the union of initiative, enterprise, and cooperation which has created a new spirit in Boston.

Just a few years ago, and because of many technical difficulties, it seemed that the hopeful plans for the Prudential Center would never get off the boards. Nevertheless, thanks to the determined cooperation of numerous public and private agencies, we today can see the Prudential tower reaching skyward.

Just a few years ago, it seemed that the Charles River Apartment Project would never get off the ground. Yet today, the first two units in that project are completed and rented, and two more are under construction—further evidence of the vitality of the city.

Numerous other privately-financed buildings are under construction throughout the city, adding perceptibly to our taxable property.

Just last month the White Fund Trustees received first payment of rent on Tremont Street property which had been untenanted for more than half a decade, but which now not only is productive of income to the White Fund but has also been restored to the city's tax rolls, as the site of a new 25-story apartment and specialty-shop building.

Construction is expected in 1963 of the new British-sponsored building on Pearl street.

These are examples of private construction that have been stimulated by the new spirit in Boston. As our plans proceed, we can look forward with confidence to additional private construction running into the hundreds of millions of dollars in the next decade.

Our new municipal auditorium and convention hall will be well under construction in 1963. Already 26 national groups have selected this building for future conventions.

At the same time, 1963 will see the start of construction, in our great new government center, of a new federal building, a new state office building, and a new city hall—each a source of permanent architectural pride and a monument to the people of Boston.

Boston has a special character, a special spirit, a special pride. It always will. Bostonians know it, and non-Bostonians acknowledge it. I think, perhaps, they also envy it.

Boston has great universities, great hospitals, great museums, and a great symphony orchestra. Boston is also unique among large cities—as recently noted—in having no racial violence, little juvenile gang warfare, and little teenage narcotics traffic.

Boston has a special tradition and a special character because it has special people.

These people—regardless of race, religion, economic background or party affiliation—want what's best for Boston. They believe in the programs that have come before you. They are grateful to you for speeding these programs on their way.

But they are as watchful as they are hopeful. This year, there will come before your Honorable Body numerous new and necessary proposals. These proposals have been carefully planned and worked out with the people themselves—otherwise they would not be permitted to come before you.

Neither you nor I can permit any harm or delay to befall these great proposals—nor to let them sink into the graveyard of indifference and indecision, or into the mire and

morass of petty or personal politics—lest we incur the peoples censure or disapproval. I am confident that you and I share our citizens' concern, and will not disappoint them in their plans and hopes for our beloved city.

As the new municipal year begins, we pray once more to Almighty God, for guidance and inspiration, and devoutly express our gratitude for the efficacy of our prayers during the past three years. (Applause.)

Mayor Collins—May I break protocol by making one or two other comments here? We have a number of very distinguished guests, and I would like publicly to introduce them.

We have a couple of rather unusual circumstances that brings this young lady in the hall, my daughter, Peg. She is not skipping school. She went to school and the Sister sent her home because she wasn't feeling well, and she is on her way to the doctor but she wanted to listen to this. (Applause.)

I also wanted to call attention to the fact that we have a rather distinguished gentleman with an intimate knowledge of financing relationship between state and city who is here, I suspect, as an observer, and an extremely welcome one, Mr. Richard Capeless, former Commissioner of Corporations and Taxes. (Applause.)

Once again, my personal as well as official thanks to all of you for your help and your cooperation. (Applause.)

Chairman COFFEY—Thank you, Mr. Mayor, for a very fine address. The Chair now appoints Councillors Kerrigan and Iannella to escort his Honor from the chamber. (Short recess.)

Chairman COFFEY—The Council will be in order.

The Chair awaits the pleasure of the Body.

ELECTION OF PRESIDENT.

APPROPRIATION FOR HOSPITAL AND INSURANCE PLAN.

The following was received:

City of Boston,
Office of the Mayor, January 7, 1963.
To the City Council.
Gentlemen:

Under date of April 30, 1962, your Honorable Body voted to accept chapter 32B exclusive of sections 9A and 11A, of the General Laws.

I submit herewith an order requesting the appropriation of \$1,700,000 for the Hospital and Insurance Plan for Employees together with a letter from the Supervisor of Budgets explaining the reason therefor.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Budget Division, January 7, 1963.
Hon. John F. Collins,
Mayor of Boston.

Dear Mr. Mayor:

In accordance with chapter 32B exclusive of sections 9A and 11A of the General Laws authorizing the group life and accidental death insurance and for insurance covering hospital, surgical and medical benefits for employees and their dependents there will be required in the fiscal year 1963, the sum of one million seven hundred thousand dollars (\$1,700,000). Presently, approximately seventeen thousand city, county, and school employees are covered by this plan.

Therefore, I recommend that an order be submitted to the City Council to appropriate the following amount for the purposes specified:

Hospital and Insurance Plan for
Employees\$1,700,000

Respectfully,

HENRY T. BRENNAN,
Supervisor of Budgets.

Ordered, That the sum of one million seven hundred thousand dollars (\$1,700,000) be appropriated to the Hospital and Insurance Plan for Employees and to meet said appropriation the sum of one million seven hundred thousand dollars (\$1,700,000) be, and hereby is, to be raised by taxation.

Hospital and Insurance Plan for
Employees\$1,700,000

On motion of Coun. IANNELLA, the rules were suspended and the order was passed, yeas 9.

APPOINTMENT OF DR. JOHN T. FOLEY.

Notice was received from the Mayor of the appointment of John T. Foley, M.D., 36 Kingston road, Newton, to be temporary Health Commissioner for a period of sixty days from the date hereof due to the resignation of Health Commissioner F. Robert Freckleton, M.D.

Placed on file.

DESIGNATION OF JOHN J. RILEY, JR.

Notice was received from the Mayor of the designation of John J. Riley, Jr., 270 Parker Hill avenue, Roxbury, to serve ex officio on the Board of Review in the Assessing Department, at the pleasure of the Mayor, during the current municipal year ending December 31, 1963.

Placed on file.

ESTABLISHING MINIMUM ANNUAL WAGE FOR FIRE FIGHTERS.

The following was received.

City of Boston,
Law Department, January 3, 1963.
To the Honorable the City Council.

Gentlemen:

This is written to inform you and at the same time make a matter of public record that I have this day written the Director of Administrative Services as follows:

"This is in answer to yours of December 20, 1962, concerning the following order, which was passed by the City Council on November 19, 1962, returned by the Mayor on December 3, 1962, with his objections thereto in writing, and notwithstanding the disapproval of the Mayor, again passed by the City Council on December 17, 1962, by seven yeas and no nays:

"Ordered, That chapter 520 of the Acts of 1962 entitled 'An Act Establishing a Minimum Annual Compensation for Fire Fighters in Certain Cities and Towns' be, and hereby is, accepted."

"St. 1948, c. 452, s. 17D, as appearing in St. 1951, c. 376, s. 1, gives the City Council power to override Mayor's vetoes except the veto of an order, ordinance, resolution or vote 'authorizing a loan or appropriating money or accepting a statute involving the expenditure of money.' Chapter 520 of the Acts of 1962 is clearly a statute involving the expenditure of money; for its acceptance would make it mandatory for the city to pay fire fighters higher salaries. In my opinion, therefore, the City Council had no power to override the Mayor's veto of the above-quoted order accepting St. 1962, c. 520, and that order is a nullity."

Respectfully,

ARTHUR G. COFFEY,
Corporation Counsel.

Placed on file.

INCREASED WATTAGE OF STREET LIGHTS IN ROXBURY-DORCHESTER AREA.

Coun. PIEMONTE offered the following:
Ordered, That the Street Lighting Division of the Public Works Department be, and is hereby, directed to increase the wattage of the street lights in the Roxbury-Dorchester area; and further that

Additional street lights be provided in the Roxbury-Dorchester area.

Passed under suspension of the rules.

CITY OF BOSTON

Proceedings of City Council

Monday, January 14, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., Councillor Coffey, Senior Member, presiding, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Eternal God, our Father, by Thy province these Thy servants have been summoned as councillors of our city and to them Thou hast entrusted the orderly government of its citizens. Bless them, we pray Thee, with Thy grace and Thy favor that they may discharge the duties and responsibilities of this high office with pure and steadfast devotion. May Thy divine benediction descend upon all our citizens that we may live in peace and happiness together. We pray also that the weak, misguided recreants who have cast a shadow of fear over the women of this city may be called back from their evil; humble and penitent, back to righteous living. May the police in these trying times be guided, helped, protected, as they fearlessly and bravely watch over our lives. May the strikes, the crimes, the heartbreaks by Thy goodness diminish. We ask this in the full realization of the truth uttered by the ancient psalmist "Unless the Lord guard the city they guard in vain who guard it." Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Constable with authority to serve civil process upon filing of bond for the term ending April 30, 1963:

James C. Jackson, Jr., 24 Alpine street, Roxbury.

Referred to the Committee on Confirmations when appointed.

LOAN IN ANTICIPATION OF REVENUE.

The following was received:

City of Boston,

Office of the Mayor, January 14, 1963.

To the City Council.

Gentlemen:

I am in receipt of the attached communication of the City Auditor. In accordance with the recommendations contained therein, I submit herewith an order authorizing the issuance during 1963 of temporary loans in anticipation of revenue to an amount not exceeding \$35,000,000.

I respectfully recommend adoption of this order by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Auditing Department, January 14, 1963.
Hon. John F. Collins,
Mayor of Boston.

Dear Sir:

In order to provide for the financing of the operation of the municipal government during the fiscal year 1963, it is necessary to submit to the City Council at an early meeting an order authorizing the issuance as needed during the year of temporary loans in anticipation of revenue receipts. This method of financing is made necessary by the fact that under the Massachusetts municipal tax calendar, the major portion of the city's revenue receipts is received late in the year.

By authority of section 4 of chapter 44 of the General Laws, the city could issue in 1963 in anticipation of revenue receipts temporary loans which would not exceed, in the aggregate, the total tax levy of the fiscal year 1962 together with the corporation and income tax distributions received from the Commonwealth in the same year. This would total \$162,316,460.61. In 1962, a total of \$45,000,000 was authorized by the City Council and approved by the Mayor. During the year it was necessary to issue \$25,000,000. At the present time it appears that the 1963 requirements for this type of financing will be \$35,000,000.

I respectfully recommend therefore, that an order in the amount of \$35,000,000 be submitted to the City Council for consideration and adoption.

Respectfully,

JOHN T. LEONARD,
Temporary City Auditor.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1963, the Collector-Treasurer be, and hereby is, authorized to issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, not exceeding \$35,000,000 in the total, in anticipation of the revenue of the financial year that all such notes or certificates of indebtedness be made payable with the interest thereon within one year of their date and bear interest from their date until the same are made payable at such rate as the Collector-Treasurer and the Mayor may determine. The said Collector-Treasurer is hereby further authorized to renew or refund any such notes issued for a shorter period than one year, under the provisions of section 17 of chapter 44 of the General Laws.

Referred to the Executive Committee when appointed.

PETITIONS REFERRED.

3-Minute "Top-Off" Sparks Hub's Big Year '63 to Set All-Time Building Record

The sun—sullen or absent for days—came out with June-like brilliance. The winds for a few hours, at least, withheld their bite and even the temperature climbed a few begrudging degrees.

That was Boston on the morning of January 29. That's the day they lifted a big length of steel off the ground to the very top of the Prudential Tower. The beam was dressed up. It had an immaculate coat of white paint and it carried a fluttering American flag.

A color guard of Marines offered a musical salute and as the beam made its three-minute journey from land level to the top floor of the tallest building in North America, outside Manhattan, a lot of land-bound watchers discovered they had a lump in the throat. Their eyes misted. They were watching history in the making.

It was what construction men call a "topping off" ceremony—the raising of a final key piece of structural steel to its final place on the top of a sky-reaching building. It wasn't a long ceremony. It was carried out with such a minimum of effort that it looked like an easy operation.

Afterward at a luncheon at the Sheraton Plaza, Mayor John F. Collins, introduced as the man who turned "Boston beans to beams," was the sole speaker. He told his audience, "The great assets of Boston have been subject to the peddlers of gloom and doom for some time. Now the eyes of the country and the world are on Boston."

Then he called for a real round of applause for "my predecessor, Johnny Hynes, sitting over there at the corner table." Mayor Hynes stood up. The applause was long, warm, and sincere.

Everybody knew the lifting did not mean the completion of the Prudential Tower. There's a lot of work to building a skyscraper, even after you've just about completed the steel skeleton that makes it stand high and proud.

The beam fitted snug and with perfect ease when they got it up there. From the ground the flag was barely discernible and even the beam's white coat failed to make it distinguishable from all the other lengths of steel which came out of the maws of giant American furnaces.

There were no deep-throated hurrahs. No hats went sealing through the air. It was too cold, for one thing. No one snake

BIT O' SKY WRITING—Governor Peabody (left) and Mayor Collins, wearing regulation steel construction helmets, wrote their autographs on a long, beflagged and white-painted steel beam used for the "topping" of Prudential Tower. Three minutes later, the beam rested in its proper place 52 stories overhead and a brief ceremony marking one of Boston's most historic days was ended.

Says 2-Hour Train Runs To New York Possible

Senator Claiborne Pell of Rhode Island has joined those advocates of stepped-up "better service" plans as an answer to the plight of American railroads. He believes that high-speed train service along the eastern seaboard would attract public support.

The Senator says that two-hour train service between Boston and New York and four-hour service between the Hub and Washington is entirely within the realm of possibility and he cites speedy train service the Japanese government is getting ready to install between Tokyo and Osaka.

Et Tu, Detroit?

In Detroit the other day officials seriously discussed the advisability of discarding the city's mounted police division. Immediately the protests started to come in. If non-racing members of the equine world thought they were without friends they would have been delighted by the tenor of the letters and telephone calls. The Detroit division is 70 years old. Nearly 50 horses are used in its mounted police work. Said a retired chief of the division: "You never see or realize all the work they do." No doubt about it. Dobbin's got his friends.

Group of 25 Outstanding Leaders Named to Combat Housing Bias

In line with provisions of Boston's Program for Community Improvement and to further the potential for an ever-increasing citizen participation in the Boston Development Program, Mayor Collins has appointed 25 members to Boston's Committee on Minority Housing.

Appointments were announced at an informal ceremony held in the Mayor's office.

At the ceremony, the Mayor spoke to the members about the opportunities for citizen participation in minority housing and other aspects of Boston's development program. Chairman of the committee, Rev. Robert F. Drinan, S.J., Dean of Boston College Law School, and Edward J. Logue, Development Administrator for Boston, also addressed the committee. Father Drinan is a leading member of the United States Civil Rights Commission.

Following the ceremony, the committee then adjourned to the offices of the Boston Redevelopment Authority. S. Davis Clark of the Office of the Administrator, U. S. Housing and Home Finance Agency, was present. He spoke on Citizen Participation and Minority Housing Opportunities.

Purpose of the committee is to provide equal opportunities and improved facilities in housing for all families and individuals in the City of Boston. The 25 members of the committee represent years of experience in real estate, banking, law, fire insurance, retail and building trades, fair housing practices, and civil rights. They include the following outstanding individuals from the Boston area under Father Drinan's chairmanship:

Robert E. Segal, Executive Director, Jewish Community Council, Boston; Rev. James Barth, Pastor, King's Chapel; Carl Dreyfus, Dreyfus & Rice, Fire Insurance, Boston; Rabbi Roland B. Gittelsohn, Temple Israel Meeting House, Boston; Rev. Samuel Tyler, Pastor, Trinity Church, Copley square; Rev. Nathan Wright, Pastor, St. Cyprian's Church, Roxbury; Mrs. Melnea Cass, Past President, Boston Branch, NAACP, Roxbury; Robert E. Mansmann, Co-chairman, National Conference of Christians

and Jews, Wellesley; Martin Berman, Berman Realty Company, Boston; Arthur Gartland, Boston School Committee; Victor Bynoe, Boston Housing Authority, and Mrs. Albert M. Sacks, Co-chairman, Housing Committee, Fair Housing Federation, Belmont.

Mrs. Mildred H. Mahoney, Chairman, Massachusetts Commission Against Discrimination, Winchester; Miss Doris Warner, Assistant Principal, Dwight School, South End; Frank W. Morris, Jr., Attorney and Director, State Housing, Dorchester; Mrs. Edna James, Chairman of Claremont Neighborhood Association, South End; Robert M. Segal, Board of Delegates, American Bar Association, Boston; David Ives, Assistant General Manager for Public Relations and Fund Raising, WGBH, Channel 2; Frank Vorenberg, Chairman, Retail Trade Board; William Chin, Chinese Benevolent Association; Harry Mook, Chinese Benevolent Association; Attorney Joseph Zallen, Boston; James H. Jones, Boston; President John Broderick, Massachusetts Building Trades Council.

Formation of the committee is a federal requirement of the city's "workable program" of urban renewal. The committee plans to meet about once a month. While specific projects have not been formulated, the members expect to exercise influence within their professions and congregations as well as in joint effort, to provide better opportunities and improved facilities for minority groups.

When Rachel Donelson married Andrew Jackson she was under the impression that her first husband, Captain Louis Robards had obtained a legal divorce. Subsequently she discovered she had been misinformed. She remarried Jackson after the divorce had gone through. The ordeal affected her spirits the rest of her life.

Hub's Big Year . . .

(Continued from front page)

danced in tribute. The tight group of watchers were a bit solemn about it all. Yet, everyone from the top dignitaries to the people huddled in the cold of the sidewalk superintendents' shelter recognized one thing—it was a real history-making three minutes for Boston.

If it did nothing else it served to focus attention on the year 1963 and the transition from drafting boards to actual construction of something like a billion-dollar construction program.

That's a program that probably hasn't been duplicated by any city in our modern civilization.

In the months immediately ahead visitors to the city may get the idea that Boston in '63 is a metropolitan center pretty much covered with a forest of steel.

If they could build a nice sidewalk superintendents' shanty on the top of that white beam they could fill the place through the entire 24 hours and still have a waiting line stretching far beyond the state borders.

Already the 1,000-room Hotel America in the Prudential complex is beginning to take shape. Nearby, too, the city's great \$12 million War Memorial Auditorium is giving evidence of what it's going to look like.

However, the tremendous center will have to share a lot of breathless attention with other parts of the city, as groundbreakings give way to foundations and foundations are obliterated by overhead construction.

Down old Scollay Square way, where sickly neons, hot dog stands, and shooting galleries were putting up their last faint resistance to the inexorable march of time only a few years back, there'll be plenty doing.

Not many weeks hence the Government Center along with the \$26 million State Office Building will begin assumption of their

final form. Ready for launching, too, will be the neighboring \$10 million private office building.

Down Tremont street a bit, the old Slattery and Coleman stores and five adjacent buildings will disappear under the wreckers' hammers to make way for a 25-story, \$10 million apartments-stores complex.

Long before the summer begins to pass its midpoint ground will be broken for Boston's \$20 million City Hall.

Ready for a summer start, too, will probably be the \$34 million triangular complex of a State center of health, education, and welfare buildings in the Bowdoin Square area.

At Pearl, Franklin, Oliver, and High streets will be under way the start of the \$32 million, 33-storied British office building.

That's only part of the over-all picture. Worthy of plenty of attention will be other phases of the urban renewal program.

As a quick, necessarily skimpy look at what's ahead, however, the

Hebrew College Parents Pay Tribute to Mayor

At its annual meeting at its headquarters at 43 Hawes street, Brookline, the Parents' League of the Hebrew Teachers' College cited Mayor Collins for his "outstanding service to the community." Principal speaker at the testimonial was Dr. Alfred L. Frechette, State Commissioner of Public Health.

President Paul Zavod of the college presided. Opening prayers were offered by Mrs. Samuel White of Brighton.

Prudential Center and the downtown projects, offer an idea of what a busy year 1963 is going to be in Boston.

It's no wonder that quick, three-minute trip of a solid piece of steel from the earth to the Prudential Tower's roof enthralled those who watched the journey that cool January morning a few days back.

Pergola Photo

THEN THE WORK WENT ON—A scene at the foot of the Prudential Tower as dignitaries, construction officials and workers gathered for the brief "topping off" ceremonies, January 29. The "topping off" was only a breather. A short time later work on the completion of the building was in full swing.

FRED SMITH HAILED FOR ROLE IN BOSTON'S PRUDENTIAL CENTER

Civic, professional, and clerical leaders gathered for a luncheon at the Ritz-Carlton Hotel the other day. The occasion was the presentation of a modestly sized illuminated scroll and a standard but freshly polished Paul Revere Bowl to the guest of honor.

The guest was a guy named Smith.

The hotel's reservation book, under the date, Monday, January 28, simply noted the occasion as—"Smith Luncheon."

All of which could add up to a pretty ordinary occasion, since scrolls, Paul Revere Bowls, and guys named "Smith," aren't exactly extraordinary items in the daily hotel routine of Boston.

This, however, was no ordinary occasion.

That's because the guest of honor happened to be a Smith named Fred. Not too far back he was a vice-president of the Prudential Insurance Company. More recently he has been more directly concerned with the rebirth of an old American city than any charted ups-and-downs traced by actuary tables.

They had a lot of good things to say about their guest. But when they went back to their offices and their daily tasks they were thinking of what Fred Smith had to say about Boston—the city that appeared to be lolling on the ropes only a few years back.

Said Mr. Smith, the guiding force behind the Prudential development here:

"Boston has an irresistible attraction for the people who are building the country."

"Boston is on its way. There is no question about it and I am delighted."

"Because fine people were thinking constructively, this (the Prudential Center) came around and they made it roll."

About Fred Smith many things were said.

Mayor Collins, co-host for the occasion, read the scroll. It hailed Mr. Smith for his "tact, foresight and initiative" which have contributed so much to the City of Boston.

"Those who have worked with Fred Smith," declared Robert B. Choate, publisher, know how truly the great Prudential Center . . . is the result of his tact and drive."

"Fred Smith," Richard Cardinal Cushing told his listeners, "is a man who could face opposition without offending anyone—a man with the great ability to back up his case."

In a telegram to the diners President Orville E. Beal of Prudential described Smith as an "ambassador for Prudential and an ambassador for Boston."

Among those attending were Robert E. Slater, senior vice-president of Prudential; Chairman William F. Callahan of the Massachusetts Turnpike Authority; President Maurice Lazarus of Filene's; Vice-President Robert G. Hoyer of Jordan Marsh; Insurance Commissioner C. Eugene Farnam; former Mayor John B. Hynes; Senate President John E. Powers; Westcott Toole; Director Edward Logue of the BRA, and former Chamber of Commerce President Ephron Catlin of the First National Bank.

Judge Lauds Officer's Courage in Capture

Patrolman John Callahan was commended by Judge Harold W. Canavan for disarming a 21-year-old youth he found prowling over a fire escape in the Knapp-Washington Street area early on the morning of January 19.

In a subsequent chase John Callahan, off duty at the time, fired a shot in the air and collared

the prowler in an alley. He took a revolver from the fugitive after telling him, "Don't make me shoot you son. It will hurt."

"I certainly want to commend you," said Judge Canavan "on your courage." "It is certainly nice," he continued, "to know men of your caliber are on the police department." The defendant was given a two-year jail sentence.

OFFICIAL CALLER — Harro Von Urstamm, who is seven years old and weighs in at a tough 90 pounds, paid an informal call on Mayor Collins after cinching himself a job on the Boston Police Force. With him was his trainer, Obermeister Hans Repenning, of the West Berlin police. The German shepherd showed himself such a good cop after his introduction here that he'll probably be joined later on by some more canine pals from West Berlin.

Rudolph Lieber Ends 40-Year Police Career

Rudolph R. Lieber, administrative officer in the office of Police Commissioner Edmund L. McNamara, retired January 22, after nearly 40 years of police service.

With the exception of a period of about a month, Mr. Lieber served his last 30 years with the department as secretary to the Police Superintendent, going to the Commissioner's office when that post was abolished.

He makes his home in Jamaica Plain. He is a past commander of the Boston Police Post, American Legion, and a past president of the Boston Police Relief Association.

Anne (Ryan) Cahill

Mrs. Anne (Ryan) Cahill, widow of the late Dr. Harry P. Cahill, Boston surgeon, died at St. Elizabeth's hospital. She was a graduate of Boston City Hospital School of Nursing and served with the Army Nurse Corps in France during World War I.

She made her home at 35 Crowninshield road, Brookline. Born in Haverhill, she was 78, and resided in the Greater Boston area for most of her life. She was a member of the William J. Comeau Post, American Legion, and the Massachusetts All Nurses Post of Boston.

She was also a member of the League of Catholic Women, the Guild of St. Rodegande of Boston, and the Friends of the Boston City Hospital. She leaves two sons, Philip H., of Wellesley Hills, and Dr. John M., of Cohasset.

Bernard J. McCabe

Bernard J. McCabe, who served as City of Boston greeter under the late Mayor Maurice J. Tobin, died January 27 at the Barnstable County Hospital at Pocasset.

He was 72 and in recent years had made his home in North Falmouth. Born in Somerville, he served as chief examiner in the Inheritance Division of the State Tax Department and at one time as inspector for the United States Internal Revenue Department. He retired in 1956.

He was a member of the Falmouth Council, Knights of Columbus; St. Alphonsus Association, Roxbury, and the Boston Lodge of Elks. He leaves two sons, Rev. Robert J. McCabe, of St. Agnes Church, Arlington, and Richard A., of Birmingham, Michigan.

Boston Consular Corps To Be Honored, Feb. 6

At a reception attended by Mayor Collins and some 500 business and civic leaders and their wives the 14 career members of the consular corps in Boston will be honored at the Sheraton-Plaza Hotel, February 6.

President Earl P. Stevenson of the Greater Boston Chamber of Commerce and President Richard A. Berenson of the World Trade Center will serve as co-hosts. Following the reception a salute will be given to the January issue of *Boston*, new monthly magazine of the Boston Chamber of Commerce, which carries a feature on the consular corps Boston members.

Dr. Joseph H. Burnett

Dr. Joseph H. Burnett, long-time consultant in orthopedic surgery at City Hospital, who ministered to the injuries of almost every outstanding Boston High School athlete over a period of 44 years, died at Mt. Auburn Hospital, Cambridge.

He saw scores of Boston school-boy football, baseball, hockey, track, and basketball players go on to collegiate and professional stardom after their days in the Hub school system. He was not only considered the dean of high school doctors through the state but was regarded as an outstanding authority on athletic injuries.

In honor of his memory Mayor Collins directed that all flags on city buildings be flown at half-staff.

VETERANS' RETIREMENTS

The Boston Retirement Board, has approved the following veterans' applications for retirement:

Kenneth J. Tirrell, 61 Hancock street, senior settlement clerk, Veterans' Services Department.

Thomas F. McClutchy, 24 Lorette street, West Roxbury, supervisor of waste collection (temporary), Sanitary Division, Public Works Department.

Patrick Joyce, 11 Gavin Way, South Boston, laborer, Highway Division, Public Works Department.

Rudolph R. Lieber, 32 Dane street, Jamaica Plain, detective first grade, administrative officer, Superintendent's Office, Police Department.

Emancipation Exhibit At Central Library

The centennial of the Emancipation Proclamation will be observed in one of the Central Library's interesting exhibits during the month of February. In the Treasure Room of the third floor of the main building manuscripts, broadsides, and books from the Library's outstanding antislavery collections will be on display throughout the month.

Other February exhibits will include:

"Simpler Charms of City Living through the Four Seasons"—to be shown on the main lobby, north and south corridors, and the Open Shelf Department of the lower level. The exhibit will include photographs taken by Rev. Wolcott Cutler, a resident of Charlestown, 1924-1960, accompanied by appropriate literary quotations. On exhibit, too, will be books from collections in the Library.

"Dante Alighieri Society"—display of handsome books illustrating the fine arts and the literature of Italy, recently acquired by the society. The display will be

on the mezzanine level, main staircase, and Puvis de Chavannes Gallery, second floor.

"Presentation of the District of Beauce to Our Lady of Chartres," by Charles Peguy, Sargent Gallery, third floor. The display includes wood engravings by L. J. Soulas, a portfolio which recently became an acquisition of the Rare Book Department.

It's A Cinch If You Know How To Do It

Did you have some trouble assembling that knockeddown tricycle you bought for little Billy on Christmas? Did you lose a few important bolts in the process? Did you have some trouble in identifying the parts described on the "clear" assembly chart that came in the box with elusive parts on the dining room table?

If you did you'll have some idea of what putting up a little building like the Prudential Tower is like. It took 450 tons of high-strength bolts of various sizes to put the steel skeleton together.

JUST A REMINDER—The above mirage was created by three extra logs in the fireplace, a large box of aspirin, a big goblet of hot lemonade, and a pair of earmuffs to shut out the wind's howl at the windows. "Shoeless Joe," in the foreground, is a feature obtained by diluting the lemonade a little. Shucks! It's February already! Can the Swan Boats be far behind?

Guided Missile Craft Commissioned Here

The United States guided missile frigate "Harry E. Yarnell" will be commissioned here February 2. The craft, first destroyer named for Admiral Yarnell, was built at the Bath Iron Works, Bath, Maine, and came to the Boston Naval Shipyard a week ago.

Rear Admiral Joseph H. Wellings, a member of the famed East Boston family of naval men, came to Boston from Bath aboard the vessel and officially accepted it for the United States Navy from John R. Newell, president of the Bath Iron Works.

Montreal's Skyscraper Mindful of Prudential

Bostonians who visit Montreal now and then will be impressed by the recently-completed Canadian Imperial Bank of Commerce in the city's downtown area and many will find themselves comparing it with Boston's own Prudential Insurance Center tower. The Canadian structure at the time of its completion was hailed as the tallest building in the British Empire.

Its prime contractor was the Perini Corporation, major contractor in the Prudential complex. The building is 43 stories high compared with 52-story rise of the Prudential tower. The Perini firm is also under contract to build Australia's tallest building, a 38-story State Office Building.

New Boston To Have Grass and Flowers

Back in the days when the new Prudential Center was still many months from the drafting board—months before the Government Center and the new City Hall had become even vague ideas—some folks worried about all this New Boston stuff. "It will shut out the sky," they feared, "They'll make the city just a jungle of steel and glass and all those other modern building materials."

They are worries without foundation. There will be more green grass, more earth for the good sun to nourish than at any time since Boston became a city. Take the Prudential Center as an example. Only 25 per cent of the project's area above ground will be occupied by buildings. Some 75 per cent of the area will be covered by attractive plazas for flowers and grass to flourish.

State Funds Provided For Stadium Studies

A check for \$100,000, the sum provided for preliminary studies, architectural services, and other expenses by the 1962 statute creating the Greater Boston Stadium Authority, was turned over to Authority members by State Treasurer John T. Driscoll on January 29.

On hand to accept the check were President William H. Sullivan, Jr., of the Boston Patriots; Msgr. George V. Kerr, a member of the National Champion Boston College football team of Sugar Bowl fame, and Robert M. Jenney.

Joseph A. Pink

Joseph A. Pink, head of the long-established South End plumbing supply firm bearing his name, and father of Miss Rose Mary Pink, City Hospital nurse and a member of the Hospital's Nursing School faculty, died recently.

He was a member of Holy Trinity parish in the South End for decades and active in many phases of the German Jesuit Church work.

Besides Miss Pink, he leaves a wife, Mathilda B. (Hohmann), another daughter, Mrs. Maryanna Mead, a son, Robert J. of West Roxbury, where the present family home is located.

Services were held at Holy Trinity Church.

James Garfield, 20th U. S. President, worked as a canal bargeman, farmer, and carpenter before embarking on his formal education. He became a professor of ancient languages and later head of Hiram College.

MDC Deficit Burden Erases Boston Gain

The Boston Municipal Research Bureau traced a \$600,000 increase in Boston's total debt to an increase in the city's share of the Metropolitan District Commission debt. Actually, the Bureau pointed out in its bimonthly publication, *Bureau Eclotter*, the city itself effected a decrease of \$1.9 million in its own direct debts.

That was wiped out and \$600,000 added when the MDC indebtedness levy on the city jumped \$2.5. While the city has been retiring bonded indebtedness, on which the deficits are based, at a fast rate, the Boston portion of the MDC indebtedness has reached an all-time high of \$163.2 million.

SEWERAGE WORKS BISMARCK STREET

Dorchester

The Mayor and Public Improvement Commission have approved the taking of land for sewerage works in Bismarck street, Dorchester.

The project is described as follows:

A parcel of land, owners unknown, being part of the private way known as Bismarck street, bounded:

Southwesterly by another portion of Bismarck street, fourteen and 00-100 feet; northwesterly by the northwesterly line of Bismarck street, one hundred seventy-one and 89-100 feet; northeasterly by Cummins Highway, sixty-nine and 58-100 feet; southeasterly by land supposed to belong to Flatley Construction Corporation, twenty-five and 33-100 feet; southwesterly by another portion of Bismarck street, eight and 00-100 feet; northwesterly by existing City of Boston sewer easement taken November, 1949, fifteen and 00-100 feet; southwesterly by existing City of Boston sewer easement taken November, 1949, six and 00-100 feet; northwesterly by existing City of Boston sewer easement taken July, 1901, one hundred forty-six and 50-100 feet; southwesterly by existing City of Boston sewer easement taken July, 1901, twelve and 00-100 feet, and southeasterly by existing City of Boston sewer easement taken July, 1901, one hundred sixty-one and 00-100 feet, containing five thousand two hundred thirty-two square feet, more or less.

January 24.

General Order No. 3.

I. LIEUTENANT JOHN F. CASS.

It is with deep regret that the Fire Commissioner announces the death on January 15, 1963, of Fire Lieutenant John F. Cass of Engine Company 42. Fire Lieutenant Cass was appointed to the department on October 16, 1940, and was promoted to the grade of fire lieutenant on April 13, 1949.

The funeral was held from the P. E. Murray Funeral Home, 2000 Centre street, West Roxbury, at 8 A.M., Saturday, January 19, 1963, followed by a Solemn Requiem High Mass in the Holy Name Church at 9 A.M.

The chief of the department made the customary detail to act as funeral escort and members of Engine 42 were excused to attend the services.

II. MARCH OF DIMES.

His Honor, Mayor John F. Collins, has appointed City Collector-Treasurer James E. Gildea to be chairman of the city employees drive for the 1963 March of Dimes Campaign. His Honor is deeply interested in the success of the campaign inasmuch as he knows from personal experience the tragedy that the onslaught of polio can bring upon a family.

Mrs. John F. Collins, wife of the Mayor, will be the Campaign Director for the Suffolk County Chapter of the National Foundation this year. This chapter receives the greatest part of their donations from the City of Boston.

During the past year the National Foundation has spent thousands of dollars in Suffolk County on old polio cases for hospitalization, physical therapy, orthopedic appliances, physical checkups, etc. Since the 1955 epidemic, there have been over one thousand new cases of polio, causing an expenditure of over one million dollars.

This appeal is part of a nationwide effort to fight polio and other viruses, arthritis, birth defects, and disorders of the central nervous system. Volunteer contributions are being solicited and members of the Fire Department are requested to respond generously to this appeal as they have done in the past.

Members contributing should place their names and addresses on the stub

end of the pledge card, which is being issued with this order and also the amount being contributed. The company commander, or other person collecting the money shall give the large portion of the card to the person contributing as his or her receipt.

Company numbers should be placed on the front right-hand corner of the stubs which are to be returned with the money to Senior Clerk and Typist Patricia E. Mulkern in the Headquarters Division. Contributions and stubs will be received from 9 A.M. to 12 noon each weekday, except Saturday, and all contributions should be delivered before January 31, 1963.

III. INVENTORY FORMS.

Form 1, Inventory Form, is being issued to the department today. These forms are to be filled out as of January 1, 1963, and returned to the office of the Fire Commissioner on or before February 15, 1963. One form is to be given to each company commander for completion.

IV. CALL'S ALARMS.

Company commanders shall add the following signal numbers to Call's running cards in this department:

Signal 332, Harvard University, 219 Western avenue. Box located in basement, rear of building. Apparatus to respond: Engine 34, Ladder 14, District 11. Nearest box is 5264.

Signal 334, Harvard University, 219 Western avenue. Box is located in Mechanical Room, center of building. Apparatus to respond: Engine 34, Ladder 11, District 11. Nearest box is 5264.

V. HIGH COMMENDATION.

At 3:02 A.M., January 15, 1963, the department responded to an alarm from Box 2161 for a fire at 43 Bower street, Roxbury. Upon arrival of the apparatus it was found that the rear section of top floor was heavily involved in fire and the entire top floor was charged with a heavy concentration of heat, smoke, and gases.

Members of Ladder Company 4 raised a ladder to the third floor and Fire Fighter Philip E. Spruill of that company went over the ladder, through a window, and after searching through a room off the main hallway, he found an unconscious woman under a bed. With great difficulty he pulled her out of the bedroom, through the hallway where he was met by Fire Fighter Joseph F. Hoar who assisted in carrying her outside to a waiting police ambulance.

Fire Fighter Spruill performed the rescue work without the use of a gas mask, before charged lines were in operation, and when only limited ventilation had been performed. His quick action undoubtedly saved the life of the woman.

Because of the fact that Fire Fighter Spruill performed this rescue work at great risk and with complete disregard

for his own safety, the Fire Commissioner is pleased to commend him highly, and his case is referred to the Board of Merit for further consideration.

When Martha Dandridge Custis was presented to her future husband, George Washington, the introducer called her the "prettiest and richest widow in Virginia." She was 27 years old, plump and small. She had hazel eyes. First thing Washington did after taking Fort Duquesne was to hurry back to Virginia and marry her.

WELFARE COSTS FOR DECEMBER

Following is a summary of the Welfare Department for December:

Departmental expenditures for December, 1962, were \$4,297,511, of which almost \$2,000,000 was paid to vendors, primarily for medical costs and services rendered. Although the amount paid was high, this was due to the influx of bills which are generally received at the end of the year. There were 1,186 applications approved and 949 cases closed, resulting in an increase of 237 cases. The departmental caseload was 28,723 as of December 31, 1962. Aside from the approvals, 286 requests for assistance were rejected or withdrawn.

Old Age Assistance: This was the only category that showed a slight decrease in the caseload even though there occurred an increase in the cost. The total expenditure amounted to \$1,260,398 paid to or in behalf of 12,218 recipients for an average of \$102.70 for December.

Medical Assistance for Aged: Just under \$1,000,000 was expended for medical care of which \$497,254 was paid to nursing homes. Acute and chronic hospital costs amounted to an additional \$437,450. Although the caseload was composed of 5,520 clients, there were 4,512 who received an average grant of \$225.74; 1,008 persons did not incur any medical expenses during the month.

Aid to Dependent Children: The largest caseload increase occurred under this program with 378 approvals and 213 closings for a net rise of 165 cases. Noticeable was the "loss of employment" which accounted for 159 cases added. If it were not for the "Aid to Dependent Children Unemployment Legislation," many of these families would have had to apply for General Relief.

Disability Assistance: There were no substantial changes in this category with expenditures of \$543,361 distributed among 3,207 recipients for an average of \$169.24 during December. There were 154 requests processed of which 104 were approved and 50 rejected or withdrawn; 102 cases were closed.

General Relief: Increases in both expenditures and caseload were reported during the month. This is not unusual as seasonal unemployment has always played an important part. Actually, there were 332 requests for assistance approved and 287 cases closed. The caseload was 1,600 as of the end of the month with the cost amounting to \$147,393.

POLICE DEPARTMENT ORDERS

(Continued from previous page)

Third Grade Detective James F. Lynch, from Criminal Investigation Division to Bureau of Inspectional Services.

Third Grade Detective Robert P. Murray, from Criminal Investigation Division to Police Commissioner's Office.

Third Grade Detective Robert Murphy, from Criminal Investigation Division to Bureau of Field Operations, Juvenile Aid.

January 15.

General Order No. 171.

The following change is hereby made relating to Public Taxicab Stands:

Abolish.

District 16, No. 199 Massachusetts avenue, three carriages allowed (day and night).

January 17.

Personnel Order No. 23.

Patrolmen Thomas H. Scott and Michael A. Boccuzzi, District 10, are hereby commended for the performance of meritorious police duty and each is granted three days' additional vacation.

About 2 p.m., on Wednesday, January 2, 1963, an unidentified man entered Bleiler's Market, 77 Minden street, Jamaica Plain, and ordered from the owner, Walter Bleiler, three bottles of Pickwick ale. When Bleiler returned from the refrigerator with the ale, the man was pointing a gun at him and ordered him to lie on the floor and give him his wallet. Bleiler gave him the bills from the wallet, at which time two more unidentified men entered the store and, while No. 1 man held the victim on the floor, rifled the cash register of its contents and the three then fled the scene. Bleiler reported this robbery to headquarters, describing the robbers, and these descriptions were broadcast from the turret to alert all police cars and wagons.

About twenty minutes after the crime occurred, Patrolmen Boccuzzi and Scott, assigned to a district patrol wagon and leaving the scene of a fire, heard the descriptions and headed toward the general vicinity of the holdup. When in Terrace street, Roxbury, they observed three men answering the descriptions, one of whom had a bulge under his jacket. On being approached by the officers, the suspects started to run toward New Heath street. With drawn revolvers, Patrolman Scott and Boccuzzi alighted from the wagon, chased these men and shortly apprehended them. A brief struggle ensued, after which the suspects were subdued and arrested at gunpoint on suspicion of armed robbery. Search of their persons revealed in the waistband of the trousers of one of the men a .45 calibre U.S. Government Colt automatic pistol containing a clip of five live cartridges and one spent shell in the chamber. This latter they accounted

for by stating it went off accidentally while they were fleeing the scene of the robbery.

The prisoners were brought to Station 10 and identified as Francis Boire, 24 years, married, of 13 Dudley street, Roxbury, on whose person the pistol was found; Ronald Boire, 26 years, married, 13 Dudley street, Roxbury; and Robert Williams, 27 years, married, 703 Belmont street, Belmont.

On Friday morning, January 4, 1963, the three subjects were arraigned in Roxbury Court before Judge Charles I. Taylor, each charged with armed robbery and conspiracy to rob. Additional complaints were sought and granted charging Francis Boire with unlawful carrying of a pistol without being licensed and for discharging a firearm within the city limits. After the evidence was presented, probable cause was found and the prisoners were bound over for the grand jury in \$25,000 bail each.

The commissioner is pleased to recognize the devotion to duty of Patrolmen Michael A. Boccuzzi and Thomas H. Scott who, by their alertness and despite the fact they knew these criminals were armed and dangerous, were successful in apprehending them within minutes of the commission of the crime.

January 18.

Personnel Order No. 24.

Patrolmen Joseph J. Borkowski, James M. Manning, Philip E. Morrison, and Lawrence J. Stanford, District 7, are hereby commended for the performance of meritorious police duty and each is granted three days' additional vacation.

About 7.29 P.M., on Saturday, January 5, 1963, Patrolmen Morrison and Stanford, assigned to the 7R car, were dispatched by radio to the Stop & Shop market, 944 Bennington street, East Boston, to investigate an A.D.T. alarm there. About five minutes later they received a second radio call stating that a holdup alarm had also been sounded at the same location. Patrolman Stanford immediately requested the assistance of Patrolmen Borkowski and Manning assigned to the 7A car. On arrival at the scene, Patrolmen Borkowski and Stanford covered the front doors, on Bennington street, and Patrolmen Manning and Morrison the rear doors, on the Saratoga Street side of the building. The latter-named officers observed two young men leaving the store and noted that one of them was carrying a blue canvas zipper bag. Patrolman Morrison shouted at them to stand still and when one of them started to run the officer discharged one shot into the air from his service revolver, bringing the culprits' flight to a halt. Patrolmen Manning and Morrison then arrested the two on suspicion of armed robbery. They were identified as William F. Fopiano, 18 years, single, of 71 North Margin street, and Daniel Puopolo, 20 years, single, 109 Endicott street, both Boston.

Investigation revealed that Felix DiRienzo, manager of the store, and his son Anthony, 12 years old, while in front of their home on Gladstone street, East Boston, at about 7 P.M., that date, were forced by Fopiano and Puopolo, at gunpoint, to return to the Stop & Shop in DiRienzo's car. DiRienzo stated that they forced him to open the front door to the store and then to open three safes from which they removed an undetermined amount of money, the day's receipts for Saturday, January 5, 1963, which they put into the blue canvas zipper bag they had brought with them. They then tied him and his son with ropes and left the office. DiRienzo

managed to free himself and his son and give the alarm.

Found in the office was a .38 calibre Smith and Wesson five-shot revolver containing two live rounds of ammunition. Felix DiRienzo identified this as the revolver used by the prisoners to force him to return to the store. Besides the money, the blue canvas bag was found to contain three plastic gloves and a 15-inch screw driver. Two sailor caps (known as watch caps) with holes or slits cut for eye vision were taken from the prisoners and in the office were found three lengths of quarter-inch sash cord.

POLICE DEPARTMENT ORDERS

(Continued from previous page)

The chief of Security for Stop & Shop, Inc., and his assistant arrived at the office and in the presence of the commanding officer of District 7 counted the money in the blue canvas bag. This amounted to \$10,431.65.

On Monday morning, January 7, 1963, William F. Fopiano and Daniel Puopolo were prosecuted in the East Boston District Court before Judge Loschi, each for: kidnapping of Anthony DiRienzo; kidnapping of Philip DiRienzo; assault by means of a dangerous weapon; attempt to commit larceny by force and threats; armed robbery; carrying a firearm without a license; and conspiracy. The case was continued to January 16, 1963, each defendant ordered held in \$25,000 surety. On that date the subjects Fopiano and Puopolo were ordered held for the grand jury in \$25,000 each.

The commissioner is pleased to recognize the devotion to duty of Patrolmen Joseph J. Borkowski, James M. Manning, Lawrence J. Stanford, and Philip E. Morrison evidenced in the above case. By their alertness and excellent judgment in procedure, exercised from the receipt of the first alarm, they were successful in the prompt apprehension of two felons who otherwise would doubtlessly continue their violent careers.

January 18.

Personnel Order No. 25.

In accordance with the provisions of chapter 32, section 58, as amended (Veterans Retirement Act), the following named member of this department is hereby retired from active duty, effective at the close of business on Tuesday, January 22, 1963: First Grade Detective Administrative Officer Rudolph R. Lieber, Police Commissioner's Office, 39 years of service.

January 18.

Personnel Order No. 26.

The following-named officer having requested retirement under the provisions of the statutes of 1892, chapter 353, as amended, for the reason he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, effective Wednesday, January 23, 1963, at 7:45 o'clock A.M.:

Sergeant-Detective Thomas F. Reedy, Criminal Investigation Division, 41 years of service.

January 21.

Personnel Order No. 27.

Sergt. Salvatore J. Ingenere, Detective Third Grade Stephen E. Flaherty, and Patrolmen Arthur N. Cardarelli, Lewis G. McConkey, Edmund H. Kasianowicz, and Charles E. Harding of District 9 are hereby commended for meritorious police duty and each is granted three days' additional vacation.

About 10:35 P.M., Tuesday, December 18, 1962, Sergeant Ingenere and Patrolman Cardarelli in space car 1, Patrolmen McConkey and Kasianowicz in spare car 2, and Detective Flaherty and Patrolman Harding in spare car W responded to a call from the Central Complaint Room to 4 Maybury street, Roxbury, on a holdup of a taxicab operator. On arrival at the above location, the officers were met by one John Andreozzi, 61 years of age, married, of 181 West Brookline street, Boston, who stated that about 10:30 P.M., while operating his ITOA taxicab with two male persons as passengers, both about 30 years of age, he was ordered to stop in front of 4 Maybury street, where he was assaulted about the face, and \$42 in currency, his leather wallet, and two coats were taken from him. The culprits then fled down Quincy street in the direction of Warren street, Roxbury.

While searching the vicinity for the two culprits, the officers observed two males in Ottawa street, Roxbury, both of whom answered the descriptions of the wanted men. As the officers approached the suspects, they ran through an open field into Bower street and behind a block of vacant houses where they temporarily eluded the officers. A search of the vacant houses began and at No. 74 Bower street, Sergeant Ingenere and Patrolmen Kasianowicz and McConkey found hiding under the inside cellar stairs a man later identified as one Richard A. Robinson, 20 years, of 35 Brannon-Harris Way, Roxbury. A continuing search of the same building by Detective Flaherty and Patrolmen Harding and Cardarelli resulted in their locating in a third-floor clothes closet one Curtis Branch, 19 years, of 11 Kensington street, Roxbury. Both men were placed under arrest on suspicion of the above robbery and brought to District 9 where they were booked.

An intensive interrogation of both suspects finally resulted in their admission that they were responsible for the robbery of John Andreozzi and accompanied the officers to a wooded area in the rear of 3 Gannett street, Roxbury, where they had disposed of the two coats and wallet which contained papers in the name of John Andreozzi.

Upon further questioning at District 9, they admitted to seven previous holdups of taxicab operators during the period of October 30, 1962, to December 17, 1962.

On December 20, 1962, Richard A. Robinson and Curtis Branch were arraigned in the Roxbury Court before Judge Samuel Eisenstadt for the aforementioned eight robberies and they were bound over for the grand jury with each defendant being held in \$10,000 bail.

The Police Commissioner is pleased to recognize the outstanding police work accomplished by the officers named in this case who, as the result of their keen observation and devotion to duty, brought about the apprehension of

two dangerous felons thereby bringing to a conclusion a number of robberies with taxicab operators as the victims.

January 17.

ADVERTISEMENT CITY OF BOSTON.

HOSPITAL DEPARTMENT.

INVITATION FOR GENERAL BIDS FOR REPOINTING AND MISCELLANEOUS REPAIRS TO MATERNITY AND CHILDREN'S BUILDINGS AT THE BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for repointing and miscellaneous repairs to Maternity and Children's Building, Boston City Hospital, 818 Harrison avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Standard Time), Tuesday, March 5, 1963, at the office of the Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$7,500. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation, will be required before commencing performance of this contract.

The general bids and the subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk

if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the office designated above, before twelve o'clock noon (Eastern Standard Time), Monday, February 25, 1963, at which time and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid is submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, through the architect, Anderson-Nichols & Co., Inc., 150 Causeway street, Boston, Mass., and any such subbid not filed on the form for subbid so furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

1. Roofing and Sheet Metal Work.....\$150
2. Lathing and Plastering.....\$100
3. Painting\$100
4. Caulking and Weathercapping.....\$350

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the architect, Anderson-Nichols & Co., Inc., 150 Causeway street, Boston, Mass., on or after noon of Monday, February 4, 1963, upon deposit of a certified check, payable to the City of Boston, in the amount of \$20 per set of plans and specifications. The amount of the deposit per set of plans and specifications will be refunded upon return of all documents in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the architect, Anderson-Nichols & Co., Inc., 150 Causeway street, Boston, Mass., not later than thirty days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

ONI to Aid Dorchester Areas Halt Blight

Mayor John F. Collins has designated two Dorchester areas as pilot projects for the Office of Neighborhood Improvement.

The two neighborhoods selected are the Harvard Street South area and the Savin Hill area. Mayor Collins said this selection was made after an exhaustive study by the Dorchester United Neighborhood Association and Salvatore J. Messina, Director of the Office of Neighborhood Improvement.

Mayor Collins declared, "The city must take effective action to prevent the spread of blight in all the improvement areas throughout the city and to eradicate the pockets of blight which exist there. In addition, we must also take whatever action is necessary to help upgrade these neighborhoods which are outside urban renewal areas."

The Office of Neighborhood Improvement was organized last year following a study and a report by the Boston Municipal Research Bureau.

JOINT ACTION!

The program, which has received strong support from community groups throughout the city, reflects the Mayor's desire to work closely with those groups interested in upgrading their community. According to the Municipal Research Bureau report, "It represents joint action by the city and the people to improve housing and neighborhoods."

President William Burke of the Ward 14 Betterment Association, said, "Close to 2,000 citizens signed a petition requesting that the Harvard Street South neighborhood be selected as the pilot project," while President John Madden of the Columbia Civic Association, observed, "The Office of Neighborhood Improvement program in the Savin Hill area was the most important step taken by the city in its fight against blight."

Mr. Messina stated that, "I intend to work very closely with the Dorchester United Neighborhood Association and with community groups in all other improvement areas of the city."

The first field office will be opened in a couple of weeks and will be located in the Harvard Street South area bounded by the New Haven Railroad, Bernard, Tonset, Westcott streets, and Talbot avenue. The Savin Hill pilot project is bounded by Sudan street, the MTA line, Bay street, and both sides of Dorchester avenue.

PLAN END OF BLIGHT—At a meeting at the office of Mayor Collins, plans for the end of blight by a city-neighborhood cooperation project were discussed. Attending were (left to right, seated): President William Burke, Ward 14, Betterment Association, and the Mayor; (standing) Chairman Richard Murphy, Dorchester United Neighborhood Association Planning Committee, and Director Salvatore J. Messina, Office of Neighborhood Improvement.

"Displaced" Get First Choice for 200 Academy Housing Apartments

On January 30, in the Mayor's office, City Hall, the team of Mark J. Walch and Carl Koch presented to Mayor John F. Collins and the Redevelopment Authority their scheme for moderate-income relocation housing on the Notre Dame Academy site of the Washington Park Urban Renewal Area.

As part of an over-all study for the development of sound housing in the renewal and relocation areas of the entire City of Boston, this plan represents another "first" in the Boston Development Program, providing new moderate-income housing with first priority to those displaced by the renewal process.

Combining new systems and techniques of design and construc-

tion, and, with maximum reliance on liberal FHA financing terms, adopted by Congress under Section 221 (d) (3) of the Housing Act of 1961, "Academy Homes" will consist of approximately 200 garden-type and row apartments of one-to-four bedrooms, with rents ranging from \$74.50 to \$105, including heat.

This housing is a key element in the renewal of existing neighborhoods. The Koch-Walch study has sought to develop housing of maximum livability and aesthetic quality consistent with the economic goals of the community.

Construction could begin early this summer.

Boston Fire Department Best in Fire Prevention

Boston's Fire Department has been awarded first place in Massachusetts for its work in the field of fire prevention by the National Fire Protection Society.

Fire Commissioner Thomas J. Griffin receiving notice of the award took occasion to praise Fire Chief John A. Martin for the Hub showing. The commissioner pointed out that the zealous work of his department just before and during the holiday season seeking to focus public attention on the danger of Christmas trees in the home was 100 per cent effective.

For the first time in the city's history, at least from the earliest year in which the Christmas tree became the all-important Yule decoration in the American home, not a single Boston fire could be traced to such a tree.

"This," said the commissioner, "is fire prevention at work."

However, Boston Fire Department fire prevention work isn't limited to any particular season of the year. It is made a year-around job. The city plays a leading role each year in dramatizing Fire Prevention Week and getting its message across 12 months a year. For its showing among cities of more than 500,000 population it was ranked third by the N.F.P.A.

LOOK MR. PRESIDENT!—When it comes to keeping fit, thousands of youngsters in Boston's Park Department recreation program are ardent devotees of healthful sport. Here two pretty girls of St. Joseph's School, Roxbury, do a bit of running with one of the instructors, of Vine Street Recreation Building as pacemaker.

Judo and Karate to Be Boston Officers' Forte

Knowledge of judo, karate, and wrestling will be a must for all Boston police in the future. Already under way are classes in those arts for 32 members of the newly-formed Tactical Patrol Squad. After two weeks of rugged training, continuing exercises will be prescribed to keep the officers in keen physical condition.

Classes will continue, according to present plans, until all members of the department have been given the training.

B & M Passenger Gains Good News for Boston

Of interest to all concerned with the steady advance of the New Boston stature is the continued gain in passenger traffic enjoyed by the Boston & Maine since the current subsidized program went into effect. The first three weeks showed a total of 147,202 passengers against 115,573 during the same period of 1962.

Important from a strictly Boston standpoint was the fact that so-called off-hour increases were due in a large measure to shoppers bound for Boston stores. Beyond that was the general over-all tendency to cut down highway congestion.

A similar program designed to lure commuters back to the bankrupt New Haven Railroad is expected to go into operation March 1 and will also be closely watched.

WELL=TRAINED

According to Mr. Messina, "The appointment of the code enforcement officers was followed by an intensive and vigorous training program." A Washington official, who recently visited the Office of Neighborhood Improvement, described the training program as "One of the best in the country."

It has included a three-day seminar on Rodent Control and Extermination, conducted by John W. Peterson of the United States Bureau of Fisheries and Wildlife; a concentrated seminar on the Fire Code by Capt. Raymond Favret, and lectures on the Building Code by the chief plumbing inspector and the chief electrical inspector, both of the Building Department.

Training in the Sanitary Code was conducted by the ONI Code enforcement supervisor, Thomas Kelley, former senior environmental sanitation inspector with the Health Department.

All training has been followed by field trips where actual violations have been pointed out by instructors.

The men have also been briefed in the types of home improvement loans available by Vice-President John H. Guluzian, Home Savings Bank of Boston, and by James Delaney, Chief Evaluation Officer for Veterans' Administration.

Mr. Messina declared, "We will do everything possible to obtain voluntary compliance from violators, but with scofflaws, the majority of whom are absentee landlords, vigorous legal action will be taken."

He added, "The Office of Neighborhood Improvement code enforcement officers have found over 8,000 violations throughout the city and 80 per cent of these violations were corrected through voluntary compliance. The remaining violations were referred to departments involved for legal action."

While he carried out a surveying task in the West Indies with his half brother, Lawrence, George Washington suffered smallpox which left him scarred for life.

Sound Financial Policy Mayor's Budget Aim

Mayor Collins, on February 4, submitted his 1963 budget to the City Council. His message read as follows:

To the City Council.

GENTLEMEN:

I submit herewith budgetary allowances for the year 1963 for the City, County, and Revenue Departments totaling \$126,837,807.

These allowances represent an increase over the appropriations for 1962 of \$10,561.51. This figure, however, does not reflect the appropriation already granted by your Honorable Body this year for \$1,700,000 to cover the cost to the city for the year 1963 of the Hos-

pital and Insurance Plan covering all city, county, and school employees which became effective in August of 1962. In addition, a request for \$70,000 was presented as a special appropriation for the Boston Redevelopment Authority.

The budget allowance for the Sanatorium Division, Hospital Department, as the result of the passage of Chapter 608 of the Acts of 1961, has been set up as an Income Department. Implementation of this legislation, negotiations for which are presently under consideration, will result in the State Department of Public Health entering into a contract with the city whereby the Commonwealth will assume almost 50 per cent of the cost of the Sanatorium. The city's share of this program amounting to \$1,250,000 is appropriated herein as a special budget appropriation under the control of the city Health Department.

City Departments indicate a decrease of \$2,935,298.81, however, if the appropriations enumerated above were incorporated herein, the net reduction of allowances of city departments under 1962 appropriations would be approximately \$1,165,298.81.

County Departments, again, show an increase over the previous year by an amount slightly less than \$250,000. It should be noted that the major factor causing this increase resulted from the passage of legislation by the General Court over which the County Departments had no control.

Income Departments also showed an increase of approximately \$325,000, exclusive of the Sanatorium budget. In addition to a substantial rise in the Water Division allowances, the establishment of the Data Processing Division reflects a part of this increase. As the appropriations for these departments will be met from the revenues of the respective divisions, this increase will not affect the 1963 tax rate.

It is interesting to note that at the time of the submission of the 1960 budget recommendations and

So. Boston Parade to Be Held on Mar. 18th

South Boston was assured of a two-day celebration of its annual St. Patrick's-Evacuation Day observance this year when Mayor Collins after deliberation and consultation with various committee representatives concerned with the program ordered the Big Parade for March 18. This year the 17th falls on Sunday.

Leo J. Sullivan

Leo J. Sullivan, former legislator, Register of Deeds for Suffolk County, and Boston police commissioner, died January 31.

He was 57, and made his home in South Boston. He leaves Mrs. Sullivan, the former Evelyn Barry; two sons, Leo J., Jr., a student at Boston College, and Barry, a student at St. John's Preparatory School, and a daughter, Ellen, a student at Regis College.

Funeral services were held at the Gate of Heaven Church, South Boston, February 4, with a solemn requiem Mass. Six Boston police deputy superintendents and eight sergeants served as honorary pall bearers and the police drill team and color guard formed part of the funeral cortege. Interment was at St. Joseph's Cemetery, West Roxbury.

in each succeeding year, there was considerable skepticism, even doubt, that the city could function efficiently and provide the services which its citizens had been accus-

tomed to receiving under those budgets. However, the fact is that no essential service has been curtailed, rather in many instances such services have been improved and increased. Nevertheless, I was mindful of the fact, that many of the service agencies of the city had

been adversely affected by deferred budgeting of equipment needs which had been the practice for many years. Today, one has only to look about to see new equipment which has been purchased. This was made possible first, by the authorization of your Honorable

Body in March of 1961 for the city to borrow \$3,000,000 for departmental equipment and secondly, by the inauguration in the 1962 budget of a policy of replacing equipment on an annual basis. This year again, the practice is being followed and, in fact, whereas the 1962 appropriations for equipment for City, County, and Income Departments was \$762,841, the allowance submitted herein totals \$971,-323. It is my desire to see this policy continued.

As a direct result of the business-like program which this Administration has stressed since January 1, 1960, the upward trend of the tax

rate has been reversed. Instead of a 1963 tax rate in the vicinity of \$132, projected on the average increase of \$7.85 per year prior to 1960, Boston has been able to realize three successive tax rate reductions and is looking forward hopefully to the fourth.

Today, under a strict policy in budgetary matters and a knowledge that it is imperative to strive toward economy in government, Boston can justly claim that "it has put its house in order." But, we are all aware that the financial recovery of the city cannot fully be realized without assistance from the Commonwealth. It is hoped

that now that we have demonstrated our ability to administer our city government in an efficient manner that the General Court will see fit to act favorably on legislative proposals presently before them beneficial to the restoration of Boston to the position of leadership it must attain as the Core City of New England.

I respectfully recommend to your Honorable Body adoption of the accompanying appropriation and tax orders.

Respectfully,

JOHN F. COLLINS, Mayor.

Tiny Ad Brings Big Response To City Hospital Research Appeal

Boston City Hospital's renown can't be buried in a few lines of agate type 'way over on the classified ad pages. When Dr. Richard A. MacDonald, a research pathologist at the Hospital's Mallory Institute, sought wine bottled between 1933 and 1943 through a classified ad in one of the Boston papers he was overwhelmed by the response.

Helen Hayes, Guest of Mrs. Collins at City Hospital Tea

Helen Hayes, First Lady of the Theater, will be the guest of Mrs. Mary Collins and a group of mothers who participated in the recent, highly successful, March of Dimes, at the Vose House of Boston City Hospital, Tuesday, February 12.

A tea from 2.30 to 5 P.M. and a visit to the Bill Cunningham Birth Defects Center at the hospital will mark the occasion. The Cunningham Center, now nearing the start of its second year, was made possible by grants made to City Hospital by the National Foundation's Suffolk and Middlesex County chapters.

Miss Hayes, whose daughter, Mary MacArthur, was a victim of polio during the pre-Salk epidemics, has been a devoted supporter of the work of the National Foundation. She graciously accepted the invitation of Mrs. Collins, Suffolk County chairman of this year's March, to meet the women who helped make the 1963 drive here successful.

She has expressed interest in the work of the Cunningham Center at City Hospital, believed to be the first of its kind in the nation.

Friends of the Boston City Hospital will aid Mrs. Collins at the tea.

Miss Hayes with Maurice Evans will present "Program for Two Players," which opens at the Shubert Theater, February 11.

In his study of a rare disease called hemochromatosis, a type of cirrhosis of the liver, he found one phase of his research a bit stymied because of his inability to find any California wines bottled during the decade started in 1933. Wines of that period coming from California were known to have an unusual sediment content of iron.

He flew to California to track down samples. He found none available. He decided to try the want ad idea right here in Boston.

Within a short time after the ad appeared he was getting results. "We received," he said, "more than three cases of rare wines. In all we received or have been promised 40 bottles. These wines included the California wines we needed so much, some Spanish wines of rare vintage and some French wines I've been anxious to get my hands on for years."

Best of all, most of the donors refused any recompense. "If it's for work at City Hospital," one donor announced, "I'm glad to donate it." Such is the reputation of a great research institution.

'Big Mamie' Souvenirs In Waterfront Shrine

Boston will be recipient of many important and historic items from the decommissioned battleship U.S.S. "Massachusetts," before she's sent to the junk yards for the scrap she'll yield.

The great fighting vessel, known as "Big Mamie" to those who served aboard her during World War II, established an outstanding record on several naval war theaters.

Such items as a mast, a propeller, an anchor and chain and other of the ships appointments will, according to Chairman Arthur F. Snyder of the Military Affairs Committee of the Greater Boston Chamber of Commerce, be included among exhibits of the Maritime Museum of the proposed new Boston waterfront.

Academy Apartment High Lights

The nationally-prominent housing design and construction team of Carl Koch and Mark Waltch have prepared plans which will provide for the construction of 200 units of moderate-income relocation housing beginning in early summer of 1963. This new rental housing would be built on the park-like grounds of the present Notre Dame Academy site, between Washington street and Columbus avenue, near Egleston square, in the Washington Park Urban Renewal Area. Here are the high lights of the Koch-Waltch study:

WHO IS ELIGIBLE?

1. First preference, moderate-income families displaced by the urban renewal program.
2. Second preference, any other moderate-income family.

RENTAL COSTS

Rents, including heat, will range from \$74.50 for a one-bedroom apartment to \$105 for a four-bedroom apartment. The exact schedule follows:

One bedroom, \$74.50, including heat.

Two bedrooms, \$85, including heat.

Three bedrooms, \$95, including heat.

Four bedrooms, \$105, including heat.

Some five-bedroom apartments will also be available.

APARTMENT TYPES

Approximately 70 per cent of the 200 apartment units available will have three or more bedrooms. Plans feature large (12 by 16) modern kitchen and family room combined, in addition to a 14 by 16 living room. Generous closet space will be provided in each bedroom as well as storage for bulky items on the first floor.

There will also be a large outdoor storage space for baby carriages and other outdoor equipment.

CONSTRUCTION

Houses will be of masonry construction with brick endwalls and will be fireproof, soundproof, well-lighted and cheery as a result of modern construction methods. Many apartments will have sliding-glass doors opening onto private patio gardens. Building heights will range from two to four stories. So that no resident will have to climb more than two flights to reach his own apartment, some four-story buildings will be superimposed duplex apartments. In other cases, the rolling building site will permit entry directly into the second story.

PLAY AREA

Paved entry courts will provide an area for airing babies, small children's sandbox play, and sitting in the sun. Convenient tot-lots for slightly older children, and the existing playground immediately across Ritchie street for youngsters and adults will amply service the recreational needs of all age groups.

PARKING FACILITIES

One permanent off-street parking space for each apartment will be provided convenient to each apartment.

CONVENIENCES

Local shopping will be provided within easy walking distance of all the apartments. Academy Homes will also be convenient to schools and churches, and to the neighborhood shopping center and branch library at Egleston square. They will be within a short 15 to 20 minute ride by bus, car, or rapid transit from downtown Boston.

LANDSCAPING

The many large, beautiful trees on the Notre Dame Academy site will be preserved wherever possible. New landscaping will also be planted to shade entry courts, and to provide privacy where it is needed.

Although February 22 is observed all over the United States as Washington's birthday, the First President was actually born on February 11. At that time the Old Style Calendar was still in effect.

Ex-Post Writer Named BHA Aide

Miss Helen J. Popkavich, former feature writer and moving picture critic for the old *Boston Post*, has been named public relations director of the Boston Housing Authority, it was announced by Chairman Edward D. Hassan.

She is a graduate of Radcliffe College and served as an assistant press secretary during Governor Furcolo's administration and later was with the federal Health-Education and Welfare Department.

Speedy Pupil Evacuation In Trade School Blaze

More than 800 pupils and teachers were evacuated from Boston Trade School in one minute and 10 seconds when a rapidly spreading fire in the basement filled the building with smoke and caused \$50,000 damage.

Prompt sounding of an alarm from a master box by guidance counsellor Frank Harrigan and speedy orders for the complete evacuation of the building won praise of fire and police officials.

The fire was confined to a basement supply room but smoke and water contributed to the heavy damage.

Prenatal Work at City Hospital Aided

Aid for expectant mothers suffering from heart ailments was contained in a \$25,344 grant made to Boston City Hospital this week by the U. S. Public Health Service. The grant, it was announced in joint statement from the offices of Senators Kennedy and Saltonstall, is "for the care of pregnant cardiac patients with special emphasis on management in her home environment."

It will serve to strengthen the already far-reaching program at the Boston hospital for prenatal care. For years much of the research of outstanding clinical studies at the hospital has been devoted to this work.

Waterfront Project Gets Important Okay

Boston received a highly important and encouraging vote of confidence for its waterfront-Faneuil Hall Market area development from the Federal Urban Renewal Administration in Washington the other day.

That agency announced its approval of the \$858,000 grant for advanced planning and survey work over an area of some 100 acres along Atlantic avenue and the Faneuil Hall district. The renewal venture will be undertaken by the Boston Redevelopment Authority and the Downtown Waterfront Corporation, a subsidiary of the Greater Boston Chamber of Commerce.

In addition to the expenditure of public funds an estimated \$100 million investment of private capital is expected in carrying out the huge project which will include high-rise apartment buildings, town houses, a maritime museum, recreational areas, and office buildings.

Research Bureau Adds Four New Directors

The present slate of officers of the Boston Municipal Research Board headed by Maynard L. Harris, president of the Suffolk Savings Bank, as chairman, was re-elected at the Bureau's 31st annual meeting. Four new directors were also chosen:

They are Gilbert H. Hood, Jr., president of H. P. Hood & Sons; Carl N. Schmalz, president and director of R. H. Stearns Company; C. Russell Todd, vice-president and director of United Shoe Machinery Corporation, and C. Vincent Vappi, president of Vappi & Co.

Joseph R. Barresi is executive secretary.

Henry A. Donovan

Henry A. Donovan, of South Boston, retired Boston Police Department detective, died at the Jamaica Plain Veterans' Hospital at the age of 71. He retired three years ago after 40 years of service in the department. He was con-

nected for many years with the arson squad and the shoplifters squad of the department's Bureau of Criminal Investigation.

He was a member of the Thomas Fitzgerald Post, Veterans of Foreign Wars, and Michael A. Perkins Post, American Legion. He leaves Mrs. Donovan, and a son, James, of Boston, and two daughters, Mrs. Patricia A. Watts, of Boston, and Mrs. Marjorie Jones, of Randolph.

A Requiem Mass was celebrated at St. Brigid's Church, South Boston.

"Yarnell" Joins Navy

The U. S. S. "Harry E. Yarnell," the Navy's 12th guided missile frigate, was commissioned February 2 at Boston Navy Yard within a short distance of the famed U. S. S. "Constitution." The 533-foot craft, modern in every aspect, dwarfed "Old Ironsides" which was considered the very last word in fighting ships when she was launched in 1797.

Mrs. E. S. Pelton

Mrs. Elizabeth S. (Sullivan) Pelton, 83, widow of Dr. Charles H. Pelton, long-time assistant superintendent of Boston City Hospital, died January 30. She made her home in recent years at 39 Barker road, Scituate. Funeral services were held at St. Mary's of the Nativity Church, Scituate.

Kitchen Surgery By Ex-City Hospital Doctor

Dr. Jack Remington, who served as a resident physician at Boston City Hospital before going to California a short time ago, attracted newspapers and medical men generally in the Palo Alto, California area recently.

He saved the life of a 12-week-old baby with an open chest heart massage performed in the makeshift surroundings of a household kitchen.

The baby, who had seemingly stopped breathing underwent the emergency operation, as an ambulance and resuscitator crew were on the way to the home.

Civic Center's First Private Building Plans

Construction of the first privately-financed building in the Government Center will get under way August 1, Treasurer Robert Leventhal of the Center Associates told Mayor Collins in a meeting at the Mayor's office.

The structure to be developed by the Center Associates will cost \$20 million and will be known as "One Center Plaza." It will house retail outlets and offices.

Eight stories high, it will front the Suffolk County Courthouse and face Boston's new City Hall. Its curved front will follow the arc of Cambridge street, from Tremont street to Somerset street.

Fitz Foils Fire Last Day on Job

Patrolman David Fitzgibbon, 62, with 37 years of police work behind him reported right on time for his last day on the job. At its completion he was due to begin a well-earned retirement. It was a quiet day. He made his rounds of the City Hall Annex with complete attention to all the routine demands of the task.

It's well that he did. Going through the basement he detected the odor of smoke. He traced it. It was in a pile of waste paper. He sounded an alarm. The potentially dangerous fire was snuffed out even as it was reaching out for more combustibles on which to feed.

What's Texas Got We Can't Top?

The new Humble Oil and Refining Company skyscraper in Houston, Texas, could be an exact twin of Boston's Prudential tower. Its architectural features, ground coverage, etc., are strikingly similar.

However, the typical Texan boast of "biggest of everything" doesn't quite hold true when you start counting floors. The big Houston structure has 44 stories. The Prudential counts 49.

Name's Barry But He Uses German Accent

Conni, Gitta, Dibba, Anka, Bessi, and Barry arrived at Logan International Airport last Sunday. You'll be hearing more about them in the future. A coterie of newshawks and cameramen—worthy of the arrival of such a distinguished delegation—was on hand to greet them.

The sextet will join Harro, another West German trainee, brought here to establish the Police Department's new K-9 Corps. The German Shepherds, have already undergone training as police dogs and will be given further preparation for their work here.

Bessi made a bid to capture the headlines by bolting from the landing area at Logan and after leading police and others on a merry chase calmly and voluntarily trotted back. The romp accomplished her purpose. She grabbed the front page heads next day.

There was no immediate explanation as to how Barry got

City Hospital Surgeon Developed Transfusion

Dr. Arthur R. Kimpton, head of the First Surgical Service at Boston City Hospital from 1928 to 1941, who died recently in Wolfeboro, New Hampshire, was a co-developer of the Kimpton-Brown Transfusion Tube which eliminated arm-to-arm blood transfusions.

The noted surgeon who was born in Charlestown, became the first to make motion pictures of a surgical procedure. He was a professor of clinical surgery at Tufts Medical School from 1913 to 1928 and served at Boston City Hospital from 1914 to 1941.

his name. He looked real German, barked with a guttural accent and nodded sagely when Hans F. Repenning of the West Berlin police, here to train the dogs and their handlers, greeted him in German. However, he made himself right at home in Boston which may or may not prove something.

General Order No. 175.

The Rules and Regulations of the Boston Police Department are hereby amended, effective as of 12.01 A.M., Monday, February 4, 1963, as follows:

RULE 40—"ARRESTS AND PRISONERS."

On Page 60 of the Department Rules and Regulations under the caption, "Arrests and Prisoners" (Rule 40, section 7), strike out paragraph 3 and in place thereof substitute the following:

"The name, address, age and if possible the date of birth of every person arrested and the charge will be immediately telephoned to the Identification Section of the Records and Communications Division of the Bureau of General Services, where a booking number will be obtained. This number will be used on District arrest books and indexes. No other booking number will be used by the Districts but that obtained from the Identification Section of the Records and Communications Division.

"The information received in the Identification Section will be recorded, the files searched to learn whether or

not the arrested person is wanted for a crime or for questioning in connection therewith and the arrest indexed."

Calls from the districts to the Identification Section in compliance with the above rule shall be made on line 370, a special line set aside for reporting arrest information. All calls reporting arrest information under Rule 40, section 7, paragraph 3, shall be made within thirty minutes after the booking of a prisoner in the district.

TRAFFIC RULINGS

Temporary

The Traffic and Parking Commissioner has promulgated the following rulings:

During the period of activities in connection with the extension of the Massachusetts Turnpike estimated to be one (1) year, the following temporary traffic regulation is effective when and where official signs are in place, beginning January 31, 1963:

Parking of vehicles is prohibited in the following street:

Berkeley Street, Boston Proper.

From Columbus avenue to Chandler street.

For a period of thirty (30) days, the Traffic Rules and Regulations of the City of Boston are amended as follows, effective January 29, 1963:

Article IV, Section 3, Part 2 (Prohibition of Parking), is amended by striking out the following: Herald Street, Boston Proper.

North side, from Shawmut avenue to Harrison avenue, 24 hours.

South side, from Shawmut avenue to Mayo street, 24 hours.

Both sides, from Harrison avenue to Albany street, 24 hours.

Article IV, Section 3, Part 2 (Prohibition of Parking), is amended by inserting in its proper place in the alphabetical arrangement under the caption "Boston Proper" the following:

Herald Street.

Both sides, from Shawmut avenue to Albany street, 24 hours.

During the period of demolition of buildings in connection with the extension of the Massachusetts Turnpike estimated to be one (1) year, the following temporary traffic regulation is effective when and where official signs are in place, beginning January 30, 1963:

Parking of vehicles is prohibited in the following street:

Huntington Avenue, Boston Proper.

Southeast side, from Garrison street to Irvington street.

Hannah Hoes and Martin Van Buren were schoolday sweethearts. They were married 30 years when he became President.

Andrew Johnson, 17th President of the United States, was the son of a North Carolina inn porter and church sexton. Johnson himself once worked as a tailor.

CONTRACTS AWARDED

The Mayor has approved the award of the following contracts to the lowest eligible bidders:

CITY OF BOSTON AUDITORIUM

DEAR MR. MAYOR:

In developing the original plans for construction of the City of Boston auditorium in the Prudential Center, it was decided to build over two large important sewers constructed in 1878 and located in Dalton street which was discontinued and made part of the auditorium site.

One of these sewers is the west side interceptor serving all of the northerly area of downtown from the West End to Kenmore square. The other, almost as large, serves a substantial section of the Back Bay.

As excavation for the auditorium has progressed, portions of the shallow sewer have been exposed and examined. Both the Auditorium Commission architects and Public Works engineers agree that the original plans for building over were not the wisest and that at this time, before construction pro-

gresses much further, a new section by-passing the auditorium should be built in the location of the new Dalton Street Bridge.

The engineering firm of Metcalf & Eddy is now preparing the bridge construction plans for this department and is completely familiar with the site, its soil conditions, and the problem of controlling ground water. Consequently, I believe they could complete the sewer engineering work in a minimum of time which is essential to our project.

I therefore respectfully request your approval to dispense with public advertising and award a contract to Metcalf & Eddy, 1300 Statler Building, Boston, to provide engineering services for the relocation of the Dalton Street sewer from Boylston Street to Scotia street in an amount not to exceed \$14,562. The estimated cost of sewer construction is \$236,000.

Respectfully,

JAMES W. HALEY,
Commissioner of Public Works.

ENGINEERING WORK

DEAR MR. MAYOR:

Reference is made to my letters of April 16, 1962, and December 6, 1962, regarding

the preparation of plans for Public Works in the Government Center Project—Mass. R-35. On May 29, 1962, with your approval, a contract for preparation of master plans was awarded to the William A. Fisher Company, Inc., 185 Devonshire street, Boston, and we are now awaiting your approval to amend the Fisher contract to include preparation of highway construction drawings and specifications.

The Government Center program has now reached a stage where engineering work must be done on the preparation of plans, cost estimates and specifications for construction of sanitary sewers, storm drainage and water distribution systems.

Professional engineering services are customarily secured without public advertising for bids, and after careful consideration, we have selected the firm of Camp, Dresser & McKee, 18 Tremont street, Boston, to perform the services required in connection with the preparation of plans referred to above. This firm is highly competent and has satisfactorily completed a number of important and difficult assignments, including the design of the Prudential twin 30-inch siphon,

BUILDING PERMITS

The Building Department has issued the following permits for the week ending January 12.

the reconstruction of our 10-foot 6-inch main interceptor in Dorchester, and rate studies for the current water and sewer charges. The firm has an excellent staff particularly familiar with the Boston utility systems and, therefore, well-qualified to undertake the Government Center Project, the estimated cost of which is \$1,225,000.

Accordingly, your permission is requested to dispense with public advertising and to award a contract to Camp, Dresser & McKee, 18 Tremont street, Boston, to prepare plans, cost estimates and specifications for the construction of sanitary sewers, storm drainage and water distribution system in the Government Center area for a fee of 6 per cent of actual construction cost not to exceed \$75,000.

Respectfully,

JAMES W. HALEY,
Commissioner of Public Works.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the award of contracts, without advertising, based on the following communications:

ADMINISTRATIVE SERVICES DEPARTMENT.

KEYPUNCH AND ACCOUNTING MACHINE OPERATORS

DEAR MR. MAYOR:

On October 15, 1962, your Honor approved the award of a contract to Plus New England Services, Inc., 77 Summer street, Boston, Mass., for the furnishing of keypunch and accounting machine operators in the amount of \$8,910. The services to be performed consisted in the conversion of existing Public

Works Department files to IBM cards and the preparation of the 1962 Sewer Use Charge Commitment, prior to December 31, 1962.

At the time that this contract was under consideration, it was anticipated that the work to be done would be completed before December 31, 1962, and that the contractor's personnel could be replaced by city employees prior to that date. However, the necessity for more extensive preliminary coding than was foreseeable, coupled with the recent change in the minimum sewer charge has added materially to the volume of work to be done under the contract and necessitates a substantial increase in the number of hours of work required for its performance in order that the outside date for its completion, December 31, 1962, may be achieved.

Since it is in any event particularly unlikely that another contractor would be able to furnish a sufficient number of operators to

VACUUM APPLICATOR

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Traffic and Parking Department for one Val-4, 5 x 12, "Scotchlite" brand, vacuum applicator with sign materials. The manufacturer of this equipment, Minnesota Mining & Manufacturing Company, has submitted an informal written quotation.

Inasmuch as the aforementioned company is not only the sole manufacturer but is also the sole supplier of the equipment requested, authority is requested to dispense with public advertising for bids and award a contract, without public advertisement, to Minnesota Mining & Manufacturing Company. In my opinion, the best interests of the city will be served by awarding the contract as requested.

Approximate total amount of contract will be \$7,819.94, less \$150 unit credits making a net total of \$7,669.94.

Respectfully yours,
MICHAEL A. DESIMONE,
Purchasing Agent.

AUDITORIUM COMMISSION.

DEAR MR. MAYOR:

One of the appurtenances of Boston's Municipal Auditorium now under construction is a tunnel through which New York Central trains will run after the auditorium is completed. The two walls of this tunnel and the slab over it were completed by the contractor last Thursday, December 12, only 12 days after the December 1 target date specified in the contract. When the contract was put out for bid it was anticipated that within one month after completion of this tunnel, the railroad company would relocate its tracks therein. Excavations made in the course of constructing the auditorium have disclosed that a main sewer of the City of Boston is located at a higher level than was believed and substantially interferes with the anticipated relocation of the railroad tracks. On the other hand, continuance of the railroad tracks in their present location substantially interferes with continued construction of the auditorium. Study of the dilemma has revealed that an interim relocation of the railroad tracks would permit work on the auditorium to progress. While it is recognized that this work will cost the city a sum not to exceed \$16,128, the Auditorium Commission has determined that it is more important that work on the auditorium continue to progress.

Since relocation of the railroad tracks is work which must be done by the railroad itself and so is not work for which the city can invite competitive bids, this commission requests your Honor's authorization to dispense with advertising in awarding a contract to the New York Central Railroad Company for temporarily relocating approximately 1,000 linear feet of each of its two tracks through the auditorium site at a cost not to exceed \$16,128. The relocation would be achieved in part by shifting and in part by removal and relay. The proposed contract is to provide for payment at actual cost to the railroad but in no event to exceed the aforementioned sum of \$16,128.

Very truly yours,
WILLIAM D. IRELAND, Chairman.

BUILDING DEPARTMENT. CONDEMNED HOUSES

DEAR MR. MAYOR:

The following houses have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12 Malbon place, Ward 9, Roxbury.

Accordingly, in conformity with the provisions of chapter 479, Acts of 1938, as amended, particularly section 116a thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the structures.

Bidders were requested to submit an aggregate bid for the entire lot of houses, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs incurred against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

Mystic.—1 Malbon place, \$150; 2 Malbon place, \$675; 3 Malbon place, \$770; 4 Malbon place, \$770; 5 Malbon place, \$770; 6 Malbon place, \$1,095; 7 Malbon place, \$1,095; 8 Malbon place, \$940; 9 Malbon place, \$940; 10 Malbon place, \$940; 11 Malbon place, \$875; 12 Malbon place, \$875; total, \$9,895.

Central.—1 Malbon place, \$150; 2 Malbon place, \$745; 3 Malbon place, \$745; 4 Malbon place, \$745; 5 Malbon place, \$745; 6 Malbon place, \$745; 7 Malbon place, \$745; 8 Malbon place, \$745; 9 Malbon place, \$745; 10 Malbon place, \$745; 11 Malbon place, \$745; 12 Malbon place, \$745; total, \$8,345.

Berardi.—1 Malbon place, \$775; 2 Malbon place, \$775; 3 Malbon place, \$775; 4 Malbon place, \$775; 5 Malbon place, \$775; 6 Malbon place, \$775; 7 Malbon place, \$775; 8 Malbon place, \$775; 9 Malbon place, \$775; 10 Malbon place, \$775; 11 Malbon place, \$775; 12 Malbon place, \$775; total, \$9,300.

Lyons.—1 Malbon place, \$350; 2 Malbon place, \$350; 3 Malbon place, \$350; 4 Malbon place, \$350; 5 Malbon place, \$350; 6 Malbon place, \$350; 7 Malbon place, \$350; 8 Malbon place, \$350; 9 Malbon place, \$350; 10 Malbon place, \$350; 11 Malbon place, \$350; 12 Malbon place, \$350; total, \$4,200.

Will.—\$6,000.

Lyons Wrecking Company has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance and it has done satisfactory work for this department in the past.

Bids for the demolition of individual houses were not requested because it would be a practical physical impossibility for several different wreckers to conduct efficient wrecking operations simultaneously in individual houses. Under such conditions, there would be much mutual interference, and each wrecker would be exposed to severe hazards not under his control, by the operations of adjacent wreckers. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the lot, and that handling the houses as one unit results in lower administrative costs to the city than would result from handling the houses as separate bids and contracts. Unit handling results, however, in this case, in a contract price of \$2,000 or over the statutory limitation upon awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for the awarding, without advertising, as required in the city charter, of a contract in the sum of \$4,200 to the Lyons Wrecking Company.

Very truly yours,
R. E. YORK,
Building Commissioner.

FIRE DEPARTMENT. ALTERATIONS, REMODELING, ETC., FIRE STATION

DEAR SIR:

As the result of an inspection made by me and other officials of the Fire Department, it has been determined that alterations, remodeling, and repairs must be made in the following fire station in order to keep it in safe and livable condition:

Engine 13, Ladder 23, 36 Washington street, Dorchester, \$47,310.

It is proposed that this project will be advertised in the *City Record*.

Your Honor's approval is requested to dispense with public advertising and to engage the services of Charles Quigg Associates, 6 Long Wharf, Boston 20, Mass., as architect for the proposed alterations, remodeling, and repair work to be performed in the foregoing fire station in accordance with the terms of the contract.

The architect shall be paid a fee equal to 10 per cent of the actual cost of the work to be done. The rate to be paid the architect is in accordance with the schedule of rates compiled by the "American Institute of Architects" for such services.

In view of the nature of the professional services involved, no benefit would be gained by publicly advertising for bids.

Very truly yours,
THOMAS J. GRIFFIN,
Fire Commissioner.

HOSPITAL DEPARTMENT. CONVERSION FROM D.C. TO A.C.

DEAR MR. MAYOR:

After public advertising, on July 18, 1961, a contract in the sum of \$848,000, and which was revised to \$894,933.04 under the authority of the applicable General Law, was entered into by the Board of Trustees in charge of the Hospital Department, and M. B. Foster Electric Company, 368 Congress street, Boston, Mass., for d.c. to a.c. conversion (Phase 2), Boston City Hospital.

Your authorization is respectfully requested to dispense with public advertising at this time, and to further amend the aforesaid contract in the sum of not to exceed \$11,737 to cover the cost of the following changes and additions in and to the contract work, all of which are incidental to the principal project:

1. Furnishing and installing new panel board enclosures to replace existing enclosures unsuitable for re-use due to manufacturer's improved design of panel board components since original project surveyed and designed, for Old Surgical Building No. 17A.

2. Same as above for Out-Patient Building No. 18.

3. Furnishing and installing conduit, wire transformer and switchboard section for X-ray Unit for Dr. Ingelfinger which was not in the original plans, for Pavilion III Building No. 19.

4. Conduit, wire, and two additional circuit breakers not in original contract, for Power Plant Building No. 20.

5. Conduit, wire, and ground bus not included in original contract, for Shortell Building No. 21.

6. Increase in conduit and wire sizes for added load requirements for South Department Administration Building No. 22.

7. Furnish and install new panel board enclosure, same as Item 1 for South Department Annex Building No. 23.

8. Furnish and install new panel board enclosure, same as Item 1 for South Department Laundry Building No. 25.

9. Furnish and install new panel board enclosures, same as Item 1 and relocate existing compressor control for Surgical Building No. 29.

10. Furnish and install new conduit in new floor slab for future requirements in Wards F, G and H, Vose House and Linda Richards areas.

11. Remove unsafe and defective brick wall and replace with new brick for switchboard wall for Pavilion III, Switchboard Room, Building No. 19.

For your information the contract has been hitherto amended in the sum of \$46,933.04 to provide for the performance of other necessary additional work.

The extra work now proposed is not covered by the said contract because the Awarding Authority could not foresee that this additional work would be required.

Public advertising for these enumerated items of added work would not in my view, be a practical course to pursue; nor would such procedure be in the best interests of the City of Boston.

Respectfully yours,
WILLIAM H. ELLIS, Jr.,
President.

PUBLIC WORKS DEPARTMENT.
STREET AND UTILITY IMPROVEMENTS

DEAR MR. MAYOR:

On May 29, 1962, with the approval of your Honor, a contract for the preparation of master plans of street and utility improvements in the Government Center Project—Mass. R-35 was awarded to the William A. Fisher Company, Inc., 185 Devonshire street, Boston.

Because of the many indeterminate aspects of this engineering work, payment was established on the basis of hourly rates for engineers and draftsmen not to exceed \$50,000. As this work is approaching completion, it is now apparent that our original estimate fell short of the total time required. The contractor's performance has been satisfactory.

Much more time than originally contemplated has been consumed in planning conferences with the many agencies involved and in detailing the planning and scheduling of both public and private utility lines. The work has been further extended by delays in preparation of the final redevelopment land use plans. In the meanwhile, however, demolition work has gone on at a good pace, MTA subway relocation is about to begin and the construction of several major public buildings is scheduled for the early part of 1963.

Preparation of highway construction design, drawings and specifications of some streets—Congress Street Extension, for example, must be begun without delay. Our original intention was to award a separate contract for the construction design work. Now, however, in view of the additional time spent on the basic work and the necessity for increasing the contract amount therefore, it would be expedient at the same time to extend the scope of the original contract to include the preparation of highway construction drawings and specifications. The additional cost for the original work is estimated to be approximately \$18,000. The cost of highway construction drawings and specifications is estimated to be \$24,000.

Accordingly, your permission is requested to dispense with public advertising, to amend the existing William A. Fisher contract for engineering services to include the preparation of highway construction design plans, cost estimates and specifications, and to increase the amount thereof from \$50,000 to \$92,000.

Respectfully,

JAMES W. HALEY,
Commissioner of Public Works.

SUFFOLK COUNTY
COURT HOUSE.
WINDOW CLEANING

DEAR MAYOR COLLINS:

Because of the satisfactory service rendered over a period of years by the W. C. Holmes Cleaning Company, of Boston, in supplying window cleaning service in the Suffolk County Court House, the Court House Commission believes that it would be for the best interest for the City of Boston and County of Suffolk to continue this service with the W. C. Holmes Cleaning Company, and requests your authority for awarding the contract, without advertising, to the W. C. Holmes Cleaning Company, for the period commencing April 1, 1963, and ending March 31, 1964.

At your request three years ago, the Court House Commission publicly advertised in the *City Record* for this service, and one other bid was received in addition to W. C. Holmes Cleaning Company, and this bid was considerably higher than that proposed by W. C. Holmes Cleaning Company. In 1961 and 1962 the Commission also advertised and the only bid received was from the W. C. Holmes Cleaning Company. In view of this the Commission is of the opinion that nothing is to be gained by advertising for this service.

The total amount contemplated for expenditure under the proposed contract is \$3,160.

The aforesaid company carries the required Public Liability and Workmen's Compensation Insurance.

The W. C. Holmes Cleaning Company has all the necessary equipment and the necessary experience enabling it to perform this service with the least possible disturbance to the daily functions at the Court House.

Respectfully yours,
COURT HOUSE COMMISSION,
By ARTHUR L. SANTRY,
Chairman.

TOWEL SERVICE

DEAR MAYOR COLLINS:

Because of the satisfactory service rendered by the Federal National Linen Service Company, of Boston, in supplying towel service to the Suffolk County Court House, the Court House Commission believes it would be for the best interest of the City of Boston and the County of Suffolk to continue this service with the Federal National Linen Service Company, and requests your authority to dispense with advertising and to award a contract to the Federal National Linen Service Company, on the basis of supplying one thousand, two hundred (1,200) towels weekly for the period commencing April 1, 1963, and ending March 31, 1964.

At your request in 1960 the Court House Commission publicly advertised in the *City Record* for bids for this service, only one other bid was received at that time, and the price was nearly double of that being paid to Federal National Linen Service Company. In 1961 and 1962 the Commission also advertised in the *City Record* and the only bid received was from Federal National Linen Service Company. On the basis of this experience the Commission is of the opinion that nothing would be gained by publicly advertising and therefore, requests your authority to renew this contract with the Federal National Linen Service Company, for the period commencing April 1, 1963 and ending March 31, 1964.

The total amount contemplated for expenditure under the proposed contract is \$3,168, the rate being \$264 per month.

The deliveries and collections of towels at the Suffolk County Court House have been made with the utmost cooperation and efficiency. The Federal National Linen Service Company owns the towels, bears the losses and replacements, and guarantees the suitability of the towels furnished, and undertakes to save the County from any claims arising through the performance of the service.

Respectfully yours,

COURT HOUSE COMMISSION,
By ARTHUR J. SANTRY, Chairman.

REGISTRY OF DEEDS.
IBM EQUIPMENT

YOUR HONOR:

The Suffolk County Registry of Deeds is presently leasing and using the IBM equipment for which the International Business Machines Corporation has submitted informal written quotations, as itemized below.

Inasmuch as the above-mentioned company is the manufacturer and distributor, it is my opinion that no advantage would be gained by publicly advertising for prices.

Therefore, I respectfully request your Honor's permission to dispense with publicly advertising for bids, and following the effective date of the 1963 budget, to enter into a contract for the period April 1, 1963, to March 31, 1964, inclusive, with the International Business Machines Corporation for the leasing and servicing of the following equipment:

One No. 407 Accounting Machine at \$710 per month (two months), \$1,420.

One No. 826 Typewriter Card Punches at \$360 monthly, \$4,320.

Three No. 822 Tab Features at \$9 monthly, \$108.

One No. 026 Key Punch at \$60 monthly, \$720.

One No. 38 Alternate Program Devisor at \$3 monthly, \$36.

One No. 506 Interspersed Gang Punch Devisor at \$10 monthly, \$120.

One No. 082 Sorter at \$55 monthly, \$660.

One No. 085 Numeric Collator at \$125 monthly, \$1,500.

Transportation charge of 407 accounting machines to Registry of Deeds, Court House, Boston, Mass., and single use charge; also changing punching action for additional No. 826, \$344.

Total amount of above contract not to exceed the sum of nine thousand, two hundred and twenty-eight dollars (\$9,228).

Yours truly,

JOSEPH D. COUGHLIN,
Register of Deeds.

SEWERAGE WORKS
EDSON STREET

Hyde Park

The Mayor and Public Improvement Commission have approved the taking of land for sewerage works in Edson street, Hyde Park.

The project is described as follows:

A parcel of land, supposed to belong to Wm. Merola, Inc., bounded:

Northeasterly by Norton street, eleven and 37-100 feet; southeasterly by land supposed to belong to owners unknown (Edson street), eighteen and 63-100 feet, and northwesterly by the northwesterly line of Edson street, twenty-two and 29-100 feet on a curve of nineteen and 66-100 feet radius, containing sixty-one square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Edson street, bounded:

Southwesterly by Chesterfield street, fifty-one and 69-100 feet; northwesterly by the northwesterly line of Edson street, by two measurements, eighteen and 62-100 feet on a curve of thirteen and 00-100 feet radius and three hundred ninety and 82-100 feet; again northwesterly by land supposed to belong to Wm. Merola, Inc., eighteen and 63-100 feet; northeasterly by Norton street, sixty-three and 56-100 feet, and southeasterly by the southeasterly line of Edson street, by two measurements, nineteen and 48-100 feet on a curve of thirteen and 00-100 feet radius and four hundred six and 01-100 feet, containing sixteen thousand eight hundred thirty-four square feet, more or less.

The sewerage works to be constructed are as follows: 320 linear feet of 10-inch pipe sewer, 315 linear feet of 36-inch pipe surface drain, and three catch basins at an estimated cost of \$14,154.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said Edson street will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; said parcels in the amounts hereinafter respectively set against them; said parcels and the supposed owners thereof being shown on the aforesaid plan and on file in the office of this department.

Parcel.	Amount.
1. Wm. Merola, Inc.....	\$2,140 80
2. Domenica Scagnoli.....	428 16
3. Continental Builders, Inc.....	1,284 48
Total.....	\$3,853 44

ACTION ON DAMAGES

Voted, That this commission determines that the undermentioned person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes and the construction of sewerage works in Edson street, Hyde Park district, from Chesterfield street to Norton street, under an order of the commission of January 8, 1963, in the amount hereinafter respectively set against it, and awards said amount therefor.

Wm. Merola, Inc., 61 square feet, \$1.
Owners unknown (Edson street), 16,834 square feet, nothing.

The City of Boston, acting by the Board of Trustees in charge of the Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for providing, during the period beginning April 1, 1963, and ending March 31, 1964, maintenance services, including certain repairs and replacements, as required, and inspection services, upon designated elevators at the Boston City Hospital, including East Boston Relief Station, Boston, Mass.

General bids will be received until two o'clock P.M. (Eastern Standard Time), Wednesday, February 27, 1963, at the office of the Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed and plainly marked with the description of the work to be done. One copy of the bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's check issued by, a responsible bank or trust company, payable to the City of Boston, in

the sum of \$2,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of the bids.

No bidder may withdraw his general bid within thirty days after the actual date of the opening of bids (Saturdays, Sundays, and legal holidays excluded).

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Forms of general bid, including the form of contract and specifications, may be obtained at the second floor of Sears Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., on and after Monday, February 11, 1963.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth of Massachusetts and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws as amended.

LIBRARY DEPARTMENT.

INVITATION FOR GENERAL BIDS FOR THE ERECTION AND COMPLETION OF A BRANCH LIBRARY BUILDING ADJACENT TO No. 11 PARMENTER STREET, BOSTON, MASS.

The City of Boston, acting by the Trustees of the Public Library, hereinafter referred to as the Awarding Authority, invites sealed general bids for the erection and completion of a branch library building adjacent to No. 11 Parmenter Street, Boston, Mass.

General bids will be received until twelve o'clock noon, Tuesday, March 12, 1963, at the office of the Awarding Authority, in the Central Library Building, Copley Square, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the forms for general bid furnished by the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of fourteen thousand dollars (\$14,000). The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of the general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of the General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority as designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of

plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address before twelve o'clock noon, Tuesday, March 5, 1963, at which hour and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Waterproofing, Dampproofing, and	
Caulking	\$100
Metal Windows.....	\$150
Miscellaneous Metals.....	\$100
Roofing and Sheet Metal.....	\$150
Cabinet Work.....	\$500
Glass and Glazing.....	\$125
Resilient Flooring.....	\$225
Lathing and Plastering.....	\$150
Ceramic Tile.....	\$100
Painting and Finishing.....	\$300
Electrical	\$550
Heating, Ventilating, and Cooling.....	\$1,500
Plumbing	\$700

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the day fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade, by the general bidder selected as the general contractor.

Plans and specifications may be obtained on and after twelve o'clock noon, Monday, February 11, 1963, at the Business Office, third floor, Central Library Building, Boston, Mass., upon receipt of a certified check payable to the City of Boston in the amount of \$50 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the Business Office not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth of Massachusetts and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do.

The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Metropolitan Planning Needed for Good of All

Mayor Collins has recognized the urgent need for the creation of a planning council to provide studies and undertake planning of the Boston metropolitan area, Boston Legislative Counsel Paul Burns declared in urging passage of House Bill 1994 calling for the creation of such a council.

Also impressing the great need of such a council before the Legislative Committee on Metropolitan Affairs was Benjamin R. Alexander, chairman of the subcommittee on Metropolitan Planning of the Greater Boston Chamber of Commerce.

"We can only be assured that all our growth and redevelopment will be in the best interest of the metropolitan area if we adopt the necessary planning mechanism—a metropolitan planning district and council," Mr. Alexander told the Legislative Committee.

"Some very tangible evidence exists that demonstrates this need for comprehensive planning in our metropolitan area. Only this year we witnessed the successful completion of coordinated land use and transportation planning by a host of local metropolitan, state, and federal agencies in the North Terminal area. It is not too difficult to surmise that similar planning efforts could take place in countless other areas in this metropolitan area.

The 1960's will also produce a growing number of interlocal agreements and joint participation of cities and towns in providing certain municipal services. Certainly comprehensive planning will play a large role in developing local cooperation.

Millions of dollars will be spent in new construction, both public and private, in the next ten years. Some of this construction may possibly include such important facilities of the new space age, the continuing spin off of our scientifically based industries, and certainly not too improbable, a site for a world's fair. In the midst of all this construction we must also

Kennedy Post Entrant Tops Big Essay Field

The Joseph P. Kennedy Post, Veterans of Foreign Wars, which includes in its membership rolls many City of Boston executives and workers, took real pride recently when a 16-year-old schoolboy it sponsored swept the boards for top honors in the annual national essay contest of the Veterans of Foreign Wars.

Young winner of the regional tests in the race for five national scholarship awards ranging from \$1,000 to \$10,000 was Robert Penella, all-A Junior at Boston College High School. He took first place in competition among 1,500 Boston College High students and then topped all comers in District 2 as entry for the Kennedy Post.

Rev. Kevin Doherty, S.J., is English instructor and coordinator for the Boston College High students. Louis Poto, veteran head of the M. and S. Service at City Hospital, is commander of the Kennedy Post.

Mrs. Blake Seeking 500 City Hospital Volunteers

Before a meeting of the hospital's social workers recently, Mrs. Jean W. Blake, deputy superintendent for Volunteer Services at City Hospital, outlined plans for a campaign to obtain 500 volunteer workers to assist patients and personnel.

She expressed confidence that by acquainting community and social groups in the metropolitan area with the great work of the Hospital and with the opportunities for young and old to serve in worth-while volunteer capacities to enhance that work, the campaign could be completely successful.

"I am sure," said Mrs. Blake, "that among women's and men's organizations, church groups, schools, educational groups, banks, insurance companies and business establishments generally, there are many who would welcome an opportunity to give of their talents and spare time in such a field of true human charity."

She pointed out that in September 70 volunteers had given 997 hours of volunteer service to the hospital. In November 95 volunteers gave a total of 2,241 hours of such service.

She pointed out further that students from Harvard, Wellesley, Simmons, Wheelock, Radcliffe, and Garland Colleges are among the most faithful and devoted volunteers. "I'm sure that in the coming year many others from all fields of endeavor will assist us," she said.

City Hospital Readies Lobby Modernization

Bids were opened this week for the expansive renovation work which will modernize the lobby of the City Hospital Administration Building and its public waiting room. Lighting, decor, and facilities which will greatly enhance the hospital's service to both visitors and its employees will be the best available, according to Deputy Superintendent C. J. D'Amato.

While the work on the lobby proceeds, other extensive modernization projects through the entire hospital will have been concluded or will go on apace. These include the massive Phase II d.e.-a.c. conversion project; extensive kitchen-cafeteria alterations; modernization of the emergency floor entrance area, and other extremely important items on the hospital's capital improvements program.

State Obligation for General Relief Funds

Vice-President William J. Furlong of the Metropolitan Affairs Committee of the Greater Boston Chamber of Commerce urged favorable action on House Bill 2112 at a hearing before the Joint Legislative Committee on Public Welfare on January 31.

House Bill 2112 calls for the Commonwealth to assist the cities and towns by providing sufficient funds to place General Relief on the same fiscal basis as other public assistance programs.

Under existing law, cities and towns across the Commonwealth must assume the total financial burden for all locally settled cases of General Relief. He pointed out the cost of this welfare program differs from Aid to Dependent Children; Old Age Assistance; and Disability Assistance in that neither the state nor federal governments participate financially.

There is no basis in logic for denying state assistance to this program, while at the same time the state, in conjunction with federal grants, provides upwards of 75 per cent of total local burden for the three other welfare programs.

Although the number of General Relief cases is low when compared with the other assistance programs, they still represent a significant financial obligation on the local communities. During the past few years, in times of increasing reliance on the local property tax, the local cost of General Relief in the Commonwealth amounted to approximately \$6 million annually.

The Commonwealth can no longer fail to meet its total financial responsibilities for public welfare assistance.

The economic causes for General Relief do not recognize city and town boundaries. No community should be completely responsible for its unemployed citizens. Welfare assistance is a state responsibility and, therefore, should be state financed.

Freezing May Revolutionize Ulcer Treatment

City Hospital Finds Initial Results "Highly Pleasing"

A simple procedure which may prove to be medicine's answer to one of man's most baffling, modern afflictions—the stomach ulcer—is undergoing an extensive study at Boston City Hospital. So far the results have been so completely satisfying that doctors are whispering to themselves, "It's almost too good to be true."

Tried for the first time, it is believed, in this area, the technique introduced and developed a couple of years back by Dr. Owen H. Wangensteen and his associates at Minneapolis, has resulted in almost immediate "satisfactory" results for three patients at City Hospital.

The research preparatory to clinical use at the Boston hospital was started months ago in Dr. Ralph A. Deterling's Tufts Surgical Service by a team headed by Dr. Donald C. Nabseth, associate director, with Doctors Jules Seletz, Kelanthes Apostolou, and Oddvar Eiken.

Basis of the procedure is the near-freezing of the inner wall of the stomach. The near-freezing, it is found, reduces the acid-producing capacity of the stomach to a minimum. Overproduction of acid is a basic cause of peptic ulcers.

A complicated machine—about the size of small cabinet TV set—is the heart of the equipment used in the procedure. Most important of the auxiliary equipment is a Lastex balloon, much the same as a child's toy, except that it is in the exact shape of the human stomach. Two tubes are used—one with a double channel.

The deflated balloon is swallowed by the patient. The attached double-channeled tube is swallowed with it, and the second tube is introduced to the stomach through the nose. The free ends of the tubes are connected to the machine.

A quantity of ethyl alcohol—chilled to 20 degrees Centigrade

BALLOON AND FREEZER PUMP—Doctors Jules Seletz (left) and Donald C. Nabseth of the Tufts Surgical Service at City Hospital stand by the machine which may revolutionize treatment of gastric peptic ulcers. Dr. Seletz holds the Lastex balloon, shaped like the human stomach, used in the technique first introduced by Dr. Owen H. Wangensteen at University of Minnesota Medical School.

(about 4 degrees below zero Fahrenheit)—is pumped to the balloon until it is inflated and all its area in contact with the stomach walls. About 600 cc. of alcohol is used.

Throughout the procedure the balloon is kept inflated. The alcohol is kept circulating through the double tube, from the balloon and through the machine. The machine is equipped with apparatus which keeps the alcohol at the required 20-degree Centigrade level. Otherwise the heat of the body would tend to raise the temperature to a higher degree.

Research has shown that a 60-minute duration of the "freezing" technique is advisable. A more prolonged period could actually freeze and "kill" the stomach.

The tube inserted through the nose is merely a precautionary measure. If the balloon for any reason should burst—a most unlikely event—the alcohol could be evacuated from the stomach almost instantly by use of the tube.

X-rays have confirmed the "freezing" has taken from the stomach its overacid-making po-

tential. The ulcers have been reduced and for all practical purposes eliminated.

Will a single use of the procedure affect a permanent cure? City Hospital doctors are not as yet prepared to say. However, Dr. Wangenstein who has treated well over 200 patients records only a very small number knowing peptic ulcer recurrences.

Dr. Nabseth at this time advances no definite claims. "We must make further research and clinical study," he says. "We can only say that as far as we have gone very satisfactory results have been obtained."

Three patients have received the treatment at City Hospital. The first was a 74-year-old retired Boston fire fighter. The second was a 48-year-old man who has thrice undergone surgery for peptic ulcers. The third was a 50-year-old woman.

All suffered massive hemorrhages, prior to use of the technique.

The fire fighter is good-natured, easy-smiling James J. Donovan of 169 Williams avenue, Hyde Park. He served 34 years in the Fire Department previous to his retirement. The last long stretch of his service was as an aide to five successive fire commissioners.

He tells of the operation. "They had me between two electrically-heated blankets. Wanted to keep me warm I guess. They only wanted the inside of my stomach cold. I felt no discomfort at all. In fact, from the very second the balloon was inflated I felt wonderful. I've been feeling good ever since.

"Once during the hour—I guess five minutes had gone by—Dr. Nabseth took my hand and placed it against my stomach. It was stone cold. Like a cake of ice. I pulled it back to the warmth of the blankets.

"Since, I've eaten everything they've brought me. I don't think I ever felt better," he concluded. And his looks bore out his words.

Memorial High Reunion

The 1942 class of the old Roxbury Memorial High School will hold its 25th anniversary reunion at Valle's in Newton, May 2. The committee in charge is headed by Sam Geffin, 15 Greendale road, Mattapan. He may be contacted for tickets. Other committee members are David Krasner, treasurer; Irving Spellman, secretary, and Frank Oshry.

Presently the technique will be limited to so-called "bad risk" surgery cases, patients for whom surgery is considered inadvisable.

Dr. James V. Sacchetti, assistant superintendent of the hospital and head of its surgical services, makes no definite claims at this time for the "freezing" technique. It was significant, however, when he said, "We have on order a new and even more modern machine for its use."

Met. Planning . . .

(Continued from front page)

maintain a suitable living environment for all of our citizens. Can we do this without comprehensive metropolitan planning?

The Greater Boston Chamber of Commerce wishes to be recorded in favor of House Bill 1994 and Senate Bill 414 now being considered by this committee. In addition, the Chamber finds acceptable all of the metropolitan planning bills being considered here today in that they create both a metropolitan planning district and council. This planning council will perform three major functions: (1) conduct professional anticipatory research on virtually every aspect of the metropolitan environment; (2) review and comment on all capital improvement programs of all state and local agencies, and (3) provide essential planning assistance to individual cities and towns when requested.

Yet, in every instance the powers of this council would be purely advisory and its recommendations could be ignored or rejected by individual cities or towns.

The advisory powers of the council would be considerably enhanced by the most unique feature of this metropolitan planning council—local participation. Witnessed to some degree in the North Terminal Area study planning, but heretofore absent in all other comprehensive planning efforts, the establishment of a metropolitan planning council provides for local representation and actual participation in the decision-making process that inevitably follows the development of planning recommendations."

City Hospital Nears 1.8 Million Mark

Within the next few weeks City Hospital will record its 1,800,000th patient since its opening on June 1, 1864. As this month got under way the hospital was within 1,800 of the mark, according to Deputy Superintendent Joseph P. Lally.

Urge State Participation In Vets' Benefits Program

Assistance of the Commonwealth in providing cities and towns with sufficient additional funds to increase state participation in the financing of the Veterans' Benefits Program was advocated by Charles W. Bresnahan of the Metropolitan Affairs Committee of the Greater Boston Chamber of Commerce.

Before the Joint Legislative Committee on Military Affairs he called for passage of House Bill 1718.

Seek State Aid for Student Fare Burden

The Greater Boston Chamber of Commerce was recorded in favor of House Bill 1269 and other bills which call for the Commonwealth to reimburse certain cities and towns for part of the cost of transporting pupils via public transportation systems at reduced fares.

"Under existing law, certain public transportation facilities may not charge students more than one half of the regular fare, legislative Counsel William F. Malloy told a legislative committee." While such a requirement on the part of the Commonwealth is a valid contribution toward promoting education, the Commonwealth should recognize that the transportation of persons—commuters or students—is at best a marginal operation with the cost set at per passenger rather than classification as to commuter, shopper or pupil, resulting in a substantial loss for carrying students, thus increasing the deficit operation presently experienced by most public transportation carriers with the resulting deficit apportioned on local tax rates.

Yet, the Commonwealth seems to have recognized this financial burden in similar cases by providing for state reimbursement to cities and towns for the cost of transporting students in excess of \$5 per pupil based on net average membership. While this is a significant contribution to local student transportation, costs in low density areas where such transportation (the school bus variety) is the only source and thus such costs far exceed the basic minimum local expenditure.

"This bill calls for the Commonwealth to assist cities and towns by providing sufficient additional funds to increase state participation in the financing of the Veterans' Benefits program," he told the committee.

"Under the present Veterans' Benefits law, the state reimburses the local communities for 50 per cent of the cost of such benefits in settled cases. The remaining burden is entirely a responsibility of the cities and towns, as there is no federal participation such as in other public assistance programs.

"At the present time, the cities and towns pay only 25 per cent of the cost of Old Age Assistance, Aid to Dependent Children, and Disability Assistance. The balance is provided jointly by state and federal reimbursements. Enactment of these bills would place Veterans' Benefits on a comparable level and would reduce the local community's financial burden.

"During the past few years, in times of increasing reliance on property taxes for revenue, the local cost of Veterans' Benefits amounted to approximately \$5.8 million annually.

"The Commonwealth can no longer fail to meet its total financial responsibility for this program, which is basically similar to other state and federally aided assistance programs.

"State reimbursement for 75 per cent of the cost of Veterans' Benefits would shift an estimated \$3 million in such costs from the cities and towns to the Commonwealth. At the same time, the local communities would share an equivalent amount of property tax relief."

DESIGNATING MARTIN A. FULTON
ACTING CITY AUDITOR.

DEAR SIR:

Under the provisions of section 22 of chapter 3 of the Revised Ordinances, I shall, with your approval, designate Martin A. Fulton to serve as Acting City Auditor in my absence from the office at any time during the four-week period beginning January 28, 1963.

Very truly yours,

JOHN T. LEONARD,
Temporary City Auditor.

Praise for Boy Scouts

In a "Dateline Boston" TV program recently Mayor Collins paid high tribute to the Boy Scout movement. "Our families, our churches, and our schools are the very essence of our being," he said. "There is something of all of them contained in this wonderful organization, a binding element, if you will, that serves to tie them to our concept of the real America."

Lots of Skyscrapers Needed Says Architect

Chairman Robert S. Sturgis of the Committee of Civic Design of Boston Society of Architects told a meeting of local Rotarians the other day that Boston to attain its place as one of the great cities of the world must have a "frame" of high buildings.

"This frame," he told the luncheon group at the Statler-Hilton, "must be made up of high spine (tall buildings as big as the Prudential) stretching from the harbor to Massachusetts avenue and to the south of Boylston street.

Mayor Urges Solid Heart Fund Support

Mayor Collins has sent out the following circular letter to all department heads:

The Annual Drive for Funds for the Massachusetts Heart Association is now in progress and we in the city government are called upon to contribute to the end that research and education to prevent heart disease, which takes the lives of so many people each year, both young and old, may go forward.

Heart diseases threaten us all and no one is immune from the nation's number one health enemy but we have the Heart Fund as our number one defense. Research to seek new ways to treat, control, and prevent all forms of heart and blood vessel disease may be continued only as additional funds are voluntarily contributed.

Last year's drive was most successful and the persons named as collectors in your department did a splendid job on behalf of the Heart Fund. If possible, I would appreciate their services again. Please appoint one or more persons in your department to handle collections.

I have designated John P. McMorrow as Chairman of this drive and sincerely and respectfully urge that department heads and collectors make a special effort to make this year's contribution by the city and county employees a successful achievement. Returns should be made to John McMorrow.

40-Story Building For Downtown Cleveland

Another city going in for the high-rise skyscraper type of building is Cleveland, which is making a 40-story Erie-view Tower the center of its new downtown redevelopment program.

The structure, Cleveland's answer to our Prudential Tower, is 12 stories short of the Prudential's 52 floors. It will be the dominant factor in Cleveland's new \$250 million commercial and residential complex right in the heart of downtown.

5,000 Hoop Players in Park Dept. Winter Program

Next time you hear someone putting up a big beef about juvenile delinquency you might direct attention to a Boston program and the smooth operation of 50 basketball leagues with 5,000 boy and girl devotees of the art of Bob Cousy.

Or if you get to worrying about the implementation of President Kennedy's appeal for better physical fitness plans for the nation's youth—talk it over with the good nuns at St. Joseph's School, Roxbury. They know. Or the girls of many office staffs. Or the boys and girls, young men and women, of every Boston neighborhood, who take part in one of the nation's top indoor, winter-long sports program.

It's a program conducted by the Parks and Recreation Department under Commissioner Martin F. Walsh and his aides, Leagues Director George J. Taylor and Recreation Director Patrick J. Ryan.

It's a six-day-a-week program and there's action almost every minute right up to 9.30 at night when trained instructors make ready to close up shop for the night.

The Park Department operates 13 indoor recreation centers from

the end of the outdoor season in the fall to its resumption in the spring. They include Paris Street, East Boston; Lexington Street, Charlestown; Tyler Street, South End; West Brookline Street, South End; Tobin Gym, Roxbury Crossing; Cabot Street, Roxbury; Vine and Dudley Streets, Roxbury; Benet Street, North End; Columbia Road, Dorchester; Curtis Hall, South Street, Jamaica Plain; Washington Street, Roslindale and West Roxbury; Logan Square, Hyde Park; and Pinebank, the recreation headquarters in Jamaica Plain.

All are under capable supervision. There are special times for special classes; special times for boys' programs and for girls' programs.

About every form of competitive and noncompetitive sports and exercise is available, under skilled direction.

They may come in groups or as individuals. There are special classes, for instance, twice a week for the pupils of St. Joseph's School at the Vine Street center. The nuns have such confidence in the setup they make it a "must" for their charges.

ACTION—A scene at the Vine Street, Roxbury, Recreation Center, as girls of St. Joseph's School get a workout in a volleyball game.

Lane Photo

Groups of girls who pound typewriters, operate the intricacies of modern office machinery or file away papers all day long, find healthful fun and exercise.

Among the 50 basketball leagues is one made up entirely of nurses attached to local area hospitals. They have a basketball league all of their own. Perhaps it's the only thing of its sort in the country. The league includes quintets from City Hospital, Beth Israel, New

England Baptist, Whidden Memorial, Naval Hospital, and St. Elizabeth's.

It would take a good-sized book to list all the activities and all the participants. You can get an idea of what a really dynamic thing Commissioner Martin and his staff have going on these wintry days and nights by dropping in on any one of those recreation centers.

It's quite a bit on the amazing-inspiring side.

Site Office Opened At Washington Park

Mayor Collins, Development Administrator Edward J. Logue, and civic, financial, business and political leaders attended ceremonies marking the opening of the rehabilitation site office of the Washington Park Urban Renewal area, February 5.

The office is located at Elm Hill avenue and Homestead street, Roxbury.

Purpose of the office is to serve residents of the sections of Washington Park scheduled for "early rehabilitation." It marks the first step to provide technical assistance and services to home owners on all matters concerned with home and property improvement.

Persons seeking home improvement loans will be able to get direct assistance toward obtaining the loans. On hand will be a full-time representative of the banking and loan industry to expedite applications for FHA insured and conventional home improvement and rehabilitation loans. Local banking interests have pledged \$5 to \$6 million for residential rehabilitation. Assistance and consultation on structural design and cost estimation will be available from staff members.

Greatest Aquarium For Hub Waterfront

Everything from lobster and crabs to squid, from amoebae to whales, along with some acrobatic stars like porpoises and human skin divers, will be combined to give Boston the greatest aquarium in the world around 1966.

That's the promise of Lee C. Finneran, curator-director of the \$2 million aquarium, planned as part of the New Boston's multimillion-dollar waterfront face lift.

He sees the aquarium as one of the Hub's outstanding attractions of the future with some 400,000 visitors annually. It is befitting, he says, that Boston, one of the great fishing ports of the world, should have such a marine zoological exhibit.

HEALTHY FUN—These two pictures made by John Lane show (above) three basketballers of St. Joseph's School, Roxbury, taking deadly aim on a basket at the Vine Street Recreation Center, and (below) a full class of girls from the school going through a lively calisthenics session. It's the sort of daily scene that could be found in any one of the city-wide system of up-and-coming recreation centers under trained Parks and Recreation Department directors.

Joseph A. Ready

Joseph A. Ready, 87, who served as headmaster of public schools in East Boston, Roxbury, and Dorchester, before his retirement in 1944, died recently in St. Petersburg, Florida.

He was born in Roxbury and prepared for his teaching career at Bridgewater Normal School, Boston University, M.I.T., and University of Chicago. He leaves a son, Joseph, Jr., of Westport, Connecticut.

Mary A. McMahon

Miss Mary Alice McMahon, 79, one-time superintendent of nurses at Boston City Hospital, died February 5, at St. Luke's Hospital, Pittsfield, after an extended illness. She was retired.

She was a native of Pittsfield and a graduate of Boston City Hospital School of Nursing. After extended service at City Hospital she became superintendent of nurses at Boston State Hospital and later personnel director at St. Margaret's Hospital, Dorchester.

She was secretary-treasurer of the Guild of St. Radegonde for 40 years and a charter member of the Massachusetts Nurses Association. She leaves a sister, Mrs. Leo Quinlan of Pittsfield and a brother, Walter, of New York.

E. A. Kinley

Dr. Edward A. Kinley, 76, of Newtonville, long-time member of the staff at Boston City Hospital, and a pioneer in the field of dental X ray, died February 6, at Newton Wellesley Hospital.

He was a graduate of Tufts Dental School and a practicing dentist in Boston for 40 years. He lectured on dental X-ray techniques at many dental and medical conventions. He leaves a wife, Mrs. Josephine (Flemming), two daughters, Barbara and Susan, of Newtonville, a sister, Mrs. Edith Finnegan, of Stoneham, and a brother, Arthur, of Wakefield.

Washington Park Social Planning Unit Formed

Mayor Collins announced on February 11 the formation of a 13-member Special Advisory Committee on Social Planning in Washington Park Renewal Area.

He said the committee would insure that the social needs of Washington Park residents receive as much attention as that given to the area's physical needs by the Urban Renewal Authority.

"Expanded educational and economic opportunities and social services are as vital to the well-being of

this area as new buildings," the Mayor asserted.

The Mayor has already appointed to the committee, Police Commissioner Edmund L. McNamara; William F. Lally, Director of Public Welfare; Henry A. Scagnoli, Director of Administrative Services; Judge Elwood S. McKenney of the Roxbury District Court, and Edward D. Hassan, Chairman of the Boston Housing Authority.

He has also asked Dr. Harry C. Solomon, Commissioner of Mental Health, Commonwealth of Massachusetts, and School Committeeman Arthur G. Gartland to serve as committee members.

In addition, Cardinal Cushing, United Community Services, the Boston Council of Churches, Combined Jewish Philanthropies, the Greater Boston Chamber of Commerce, and the Regional Office of the U. S. Department of Health, Education, and Welfare have been asked to appoint a representative to the committee.

The committee is to make recommendations to Development Administrator Edward J. Logue and through him to officials and boards of public and private agencies. Its purpose will be to put into operation a comprehensive plan of public and private services in Washington Park.

Mayor Collins said the committee will be asked to strengthen the total community effort in Washington Park for expansion of educational and economic opportunities and for improving public and private services.

He said it will stimulate the adoption of new approaches and methods by public and private agencies for dealing with social problems, which if unresolved, may hinder, interrupt, or blight the full impact of the renewal program in Washington Park.

He asked that the Advisory Committee focus attention on short-range demonstration possibilities in education, housing, health, recreation, and welfare services that can be implemented quickly. And he asked for a long-range review of the social needs of the area and a comprehensive plan to meet them.

Don't Grand Bank Cod Know War's Over?

Last August the Japanese stern trawler "Aoi Maru II," left her home port of Nagasaki around the 17th anniversary of the dropping of our second combat A-Bomb which led swiftly to the end of World War II. She arrived in the North Atlantic's Grand Fishing Banks around mid-October and immediately went to work.

Recently, the Boston *Blue Sheet*, publication of the U. S. Bureau of Commercial Fisheries, records she transhipped through the Island of St. Pierre to Gloucester a catch of nearly 660,000 pounds of cod, halibut, flounder, haddock and hake, along with some lobsters and shrimp.

In December, according to the *Blue Sheet*, the "Aoi Maru's" master laconically reported the cod catch wasn't up to his expectations.

Associates in Tribute To Margaret Wogan

Mrs. Margaret Wogan, head social work supervisor for the East Boston District, who retires this month after 40 years of service, was tendered a testimonial buffet on February 12 by her associates of the Boston Welfare Department.

She became affiliated with the city's Welfare Department in 1922 and has headed the East Boston office since 1951. She is a member of the Catholic Women Social Workers and the Frances Willard Homes board. She makes her home at 478 Jamaicaaway, Jamaica Plain.

Elimination of Fort Point Channel Step Nearer

The long-plotted end of the Fort Point Channel in the South Bay area loomed nearer this week with the announcement of officials that a contract had been granted for the \$5 million project which will convert it to worth-while use.

Actually the first phase of the project got under way when ashes from the nearby municipal incinerator were used as fill for the nonaesthetic open ditch running from Dover street to Massachusetts avenue. However, it's not a question of fill alone. That would be easy. Engineering problems concerned with the installation of a culvert to serve for the draining of a wide area offer a tougher problem.

'Where to Park' Guide Published by Chamber

A revised edition of the pamphlet "Where to Park in Downtown Boston" has been published by the Greater Boston Chamber of Commerce and is available to the general public on request, it was announced by James G. Roberts, Chamber Executive Vice President.

Mr. Roberts said the Chamber last year distributed 25,000 of the handy parking guides as a public service.

The pamphlet contains a map of the downtown area showing the location and capacity of the off-street parking areas. It also contains information on tow areas, the illegal parking fine schedule, and parking lot rates.

In general there are approximately 25,000 legal parking spaces at curbs and in off-street lots and garages in the downtown area.

About 65 per cent of the spaces are filled prior to 10.30 A.M. by automobile commuters. More than 10,000 spaces, or about 35 per cent, are available for short-term parkers visiting downtown Boston.

Pamphlets can be obtained by calling or writing the Greater Boston Chamber of Commerce, 125 High street, Boston 10, Tel. HA 6-1250, Ext. 55.

Abigail Scannell

Miss Abigail A. Scannell who taught English in Boston public schools for almost half a century died February 5 at 103 Babson street, Mattapan, where she lived most of her life. She was 89.

A graduate of the old Boston Normal School she entered the Boston school system in 1894 and retired in 1943. During her career she served as master's assistant at Mary Lyon School, Tileston School, and Solomon Lewenberg Junior High School. She leaves a sister, Marion L. Scannell.

A nephew, Rev. Martin M. Scannell, O.P., was celebrant of a Solemn Requiem Mass at St. Angela's Church, Mattapan.

Dr. R. P. McCarthy

Dr. Ralph P. McCarthy, 55, team physician for the Boston Red Sox for 20 years, who gained part of his medical internship at Boston City Hospital, died February 7, at his Peabody home.

He was medical examiner for the Eighth Essex County District.

He began his study of medicine at Georgetown University Medical School after playing one year with the Toronto Club of the International League. At Georgetown and previously at Peabody High School he was an outstanding football and baseball star.

Hyde Park Lists No Auto Fatalities in '62

Hyde Park led all other parts of the city in highway safety during 1962, according to reports of the Traffic Commission. Hyde Park was the only section to boast not a single traffic fatality during the 12-month period.

On the whole, 1962 wasn't a good year as far as traffic mishaps were concerned. A total of 88 deaths were listed in more than 12,000 accidents on city streets. The fatality list included 14 pedestrians. Speeding was adjudged the major factor in 13 of the fatal accidents.

Easy To Remember His Auto Registration

Rev. Kenneth B. Murphy, head of Rescue, Inc., the nonprofit, nonsectarian organization devoted to the prevention of suicide, won't have any trouble remembering his 1963 registration number. It's not a number. It's made up of letters—"R-E-S-C-U-E."

Lieutenant Governor Francis X. Bellotti presented Father Murphy with his new plates at the State House. Rescue, Inc., maintains its central office at Boston Fire Department Headquarters. It also has an office at Boston City Hospital.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

NOTICE TO CONTRACTORS.

INVITATION FOR GENERAL BIDS FOR ADDITIONS AND ALTERATIONS TO ADMINISTRATION BUILDING, THE BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for additions and alterations to Administration Building at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Standard Time), Tuesday, March 19, 1963, at the office of the Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the forms for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$35,000. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation, will be required before commencing performance of the contract.

The general bids and the subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Director of Hospitals designated above and bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the office designated above, before twelve o'clock noon (Eastern Standard Time), Monday, March 11, 1963, at which time and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed en-

velope with the following plainly marked on the outside: title of work, subtrade for which subbid is submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, through the architect, Whitney, Atwood, Norcross Associates, Incorporated, 256 Boylston Street, Boston, Mass., and any such subbid not filed on the form for subbid so furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following list for the respective subtrades shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

Roofing and Flashing.....	\$250
Metal Curtain Walls.....	\$2,400
Waterproofing, Dampproofing, and Caulking	\$150
Glass and Glazing.....	\$375
Miscellaneous and Ornamental Iron, Furring, Lathing, and Plastering.....	\$350
Acoustical Tile.....	\$600
Plumbing	\$1,400
Heating, Ventilating, and Air Conditioning	\$5,000
Electric Work.....	\$4,300
Tile Work	\$250
Resilient Flooring.....	\$650
Painting	\$450
Elevator	\$1,250
Dumb-waiter	\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the architect, Whitney, Atwood, Norcross Associates, Incorporated, 256 Boylston Street, Boston, Mass., on or after 9 A.M., Monday, February 18, 1963, upon deposit of a certified check payable to the City of Boston in the amount of \$100 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to Whitney, Atwood, Norcross Associates, Incorporated, not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

Proceedings of City Council.

Monday, January 21, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HINES in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Heavenly Father, we pray this day for Thy blessing and Thy favor upon the new president and the members of this Council—our prayers are ever an appeal for the sensitive minds to listen, teachable minds to learn, and humble wills to obey Thy voice.

Along the road of this day and for the days to come, let some revelation of Thy light, O God, fall upon our darkness; some guidance from Thy wisdom save us in our bewilderment; some power from Thy infinite resources help us in our need.

Help us, O Lord, when we want to do the right thing but do not know what it is—but more urgent is Thy help when we know perfectly what we ought to do and do not want to do it. Amen.

The meeting was opened with the salute to the Flag.

VISIT TO CITY COUNCIL OF FATHER JOHN M. HEEKIN.

In behalf of the City Council, Councillor Piemonte extended to Monsignor Griffin the sincere gratitude of the Council for having taken the time to invite Father John M. Heekin, 26 Midland avenue, Glen Ridge, New Jersey, to attend the opening meeting of the Council.

APPROPRIATION OF \$70,000 FOR BOSTON REDEVELOPMENT AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor.

To the City Council.
Gentlemen:

Under the provisions of section 3A of the City Charter, City and County officers which are authorized to make expenditures for the period after the expiration of any fiscal year and before the regular appropriations have been made by the City Council are restricted in incurring liabilities during such interval in excess of funds spent for similar purposes during any one month of the proceeding fiscal year. This limitation would make it impossible to carry out the functions of the City Planning Board, which was incorporated into the Boston Redevelopment Authority under chapter 652 of the Acts of 1960.

I am forwarding herewith an order appropriating \$70,000, which, it is estimated, will provide for these expenditures until the passage of the regular budget. In order that there be no delay in payment of payrolls and other current expenses of this department, I recommend immediate consideration and adoption of this order by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

Boston Redevelopment Authority.

January 17, 1963.

Hon. John F. Collins,
Mayor of Boston.

Dear Mr. Mayor:

The Boston Redevelopment Authority has authorized me to request your Honor to initiate an appropriation in the City Council for \$70,000 for the purpose of meeting the pay-

roll and sundry expenses of the Planning Section of the Authority until the 1963 budget is approved by the City Council.

Very truly yours,
EDWARD J. LOGUE,
Development Administrator.

Ordered, That the respective sum of money specified for the Boston Redevelopment Authority, in the schedule hereinafter set out be, and hereby is, appropriated for the purpose hereinafter specified, said sum to be raised by taxation on the polls and estates of the City of Boston, and that all orders heretofore or hereinafter passed by the City Council relating to appropriations, taxes, and interest thereon apply to the appropriations and taxes herein provided for.

Boston Redevelopment Authority.

Special Appropriation:
Planning Department Purposes.....\$70,000
Referred to the Committee on Appropriations and Finance.

APPROVAL OF URBAN RENEWAL AND COOPERATION AGREEMENT FOR WASHINGTON PARK PROJECT.

The following was received:

City of Boston,

Office of the Mayor, January 18, 1963.
The Honorable City Council,
City of Boston.

Gentlemen:

On January 14, 1963, the Boston Redevelopment Authority held a public hearing with respect to a proposed urban renewal plan for the Washington Park Area. At the hearing, an overwhelming majority of the 1,200 people in attendance asked to be recorded in favor of the plan as presented. Moreover, they expressed a strong desire to have the Authority move with all deliberate speed to implement the plan. I am pleased to report that with such community sentiment in mind, the Authority acted at its first meeting thereafter, on January 16, 1963, to approve the plan and related documents.

Transmitted herewith are the Urban Renewal Plan and Relocation Program for the Washington Park Project, together with the appropriate resolution which must be adopted and approved by the Boston City Council. Pursuant to Section 26ZZ of Chapter 121 of the Massachusetts General Laws, as amended, no urban renewal plan shall be submitted to the division of urban and industrial renewal unless it has been approved by the Mayor with the approval of the City Council after due notice and a public hearing. Therefore, it is respectfully recommended that the Honorable City Council hold a public hearing on the urban renewal plan after giving fifteen (15) days' notice of such hearing.

I also respectfully request that the Honorable City Council grant authorization to execute a cooperation agreement with the Boston Redevelopment Authority in order to provide for the necessary local grants-in-aid in an amount equal to not less than one third of the actual net cost of the project to cover the required city's share of the cost of carrying out the Urban Renewal Plan. This amount is presently estimated to be \$11,367,370.

The estimated net project cost for carrying out the urban renewal plan for the Washington Park Urban Renewal Area is \$27,661,982, which is to be shared, according to the prevailing formula, by the city and the federal government. Since, however, the total estimated value of the city's local grants-in-aid equalling \$11,367,370 must be assigned to cover the city's customary one-third share of net project costs, the city may anticipate (1) a total federal grant of \$16,546,957, and (2) a "pooling" credit of some \$2,146,709 toward urban renewal projects subsequently undertaken in other areas of the city.

Your cooperation in moving this project into execution as quickly as possible will be genuinely appreciated.

Respectfully,
JOHN F. COLLINS, Mayor.

RESOLUTION OF CITY COUNCIL OF THE CITY OF BOSTON APPROVING THE URBAN RENEWAL PLAN AND THE FEASIBILITY OF RELOCATION FOR PROJECT No. MASS. R-24.

Whereas, Under the provisions of Title I of the Housing Act of 1949, as amended, the Housing and Home Finance Administrator is authorized to provide financial assistance to Local Public Agencies for undertaking and carrying out urban renewal projects; and

Whereas, It is provided in such Act that contracts for financial aid thereunder shall require that the Urban Renewal Plan for the respective project area be approved by the Governing Body of the locality in which the project is situated and that such approval include findings by the Governing Body that: (1) the financial aid to be provided in the contract is necessary to enable the project to be undertaken in accordance with the Urban Renewal Plan; (2) the Urban Renewal Plan will afford maximum opportunity consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise; (3) the Urban Renewal Plan conforms to a general plan for the development of the locality as a whole; and (4) the Urban Renewal Plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan; and

Whereas, The Boston Redevelopment Authority (herein called the "Local Public Agency") has entered into planning contracts for financial assistance under such Act with the United States of America, acting by and through the Housing and Home Finance Administrator, pursuant to which federal funds were provided for the urban renewal project (herein called the "Project") identified as "Washington Park Urban Renewal Area" and encompassing the area specifically bounded and described as set forth in chapter I of the Urban Renewal Plan, in the City of Boston, Commonwealth of Massachusetts (herein called the "Locality"); and

Whereas, The Local Public Agency has applied for additional financial assistance under such Act and proposes to enter into an additional contract or contracts with the Housing and Home Finance Agency for the undertaking of, and for making available additional financial assistance for, the Project; and

Whereas, The Local Public Agency on November 19, 1962, entered into a temporary loan contract with the United States of America under such Act for the purpose of financing early land acquisition and related activities in the Washington Park Urban Renewal Area pursuant to Section 26Q of Chapter 121 of the Massachusetts General Laws, as amended; and

Whereas, The City of Boston, acting by and through its Mayor, with the approval of the Boston City Council, on August 14, 1962, executed a covenant with the Local Public Agency whereby the City of Boston shall bear in accordance with the applicable law, any and all loss that may arise as a result of such early land acquisition and related activities in the event that the land so acquired or so acquired and cleared is not used for urban renewal purposes because an urban renewal plan for the Washington Park Urban Renewal Area is not approved, or is amended to omit such land, or is abandoned for any reason; and

Whereas, The Local Public Agency, with the consent of the City of Boston acting by and through the Mayor with the approval of the Boston City Council, has assigned any

and all of its rights under said covenant to the United States of America; and

Whereas, The Local Public Agency has made detailed studies of the location, physical condition of structures, land use, environmental influences, and social, cultural, and economic conditions of the Project area and has determined that the area is a substandard and decadent area. It is an area wherein dwellings predominate which by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, and a combination of these factors, are detrimental to safety, health, morals, welfare, and sound growth of the Boston Community, and that it is an area which is detrimental to safety, health, morals, welfare, and the sound growth of the Boston Community because of the existence of buildings which are out of repair, physically deteriorated, obsolete, or in need of major maintenance and repair, and because buildings have been torn down and not replaced and in which under existing conditions it is improbable that the buildings will be replaced, and because of a substantial change in business and economic conditions, and because of inadequate light, air, and open space, and because diversity of ownership, irregular lot sizes, and obsolete street patterns make it improbable that the area will be redeveloped by the ordinary operations of private enterprise. The members of this Governing Body have been fully apprised by the Local Public Agency and are aware of these facts and conditions; and

Whereas, There has been prepared and referred to the City Council of the Locality (herein called the "Governing Body") for review and approval an Urban Renewal Plan for the Project area, dated January 14, 1963, and consisting of 33 pages and three exhibits, data, and recommendations, which material, data, and recommendations are not a part of said Urban Renewal Plan:

PART I: APPLICATION FOR LOAN AND GRANT

Resolution of the Authority approving the Urban Renewal Plan and conditions under which Relocation Payments will be made.

Whereas, Said Urban Renewal Plan has been approved by the Governing Body of the Local Public Agency, as evidenced by the copy of said Body's duly certified resolution approving said Urban Renewal Plan, which is attached thereto; and

Whereas, A general plan has been prepared and is recognized and used as a guide for the general development of the Locality as a whole; and

Whereas, The Boston Redevelopment Authority which is the duly designated and acting official planning body for the Locality, has submitted to the Governing Body its report and recommendations respecting said Urban Renewal Plan for the Project area and has certified that said Urban Renewal Plan conforms to the said general plan for the Locality as a whole, and the Governing Body has duly considered said report, recommendations, and certification of the planning body; and

Whereas, Said Urban Renewal Plan for the Project area prescribes certain land uses for the Project area and will require, among other things, changes in zoning, the vacating and removal of streets, alleys, and other public ways, the establishing of new street patterns, the location and relocation of sewer and water mains and other public facilities, and other public action; and

Whereas, The Local Public Agency has authorized the execution of a Cooperation Agreement by and between the Local Public Agency and the City of Boston providing for the making by the City of Boston of local grants-in-aid in accordance with Title I of the Housing Act of 1949, as amended,

and in accordance with a loan and grant contract to be entered into by and between the Local Public Agency and the United States of America, which local grants-in-aid are to equal at least one third of the actual net project cost for the Washington Park Urban Renewal Area as finally determined and approved by the Housing and Home Finance Administrator of the United States of America in accordance with such Act, Cooperation Agreement and loan and grant contract; and

Whereas, The Local Public Agency has prepared and submitted proposals for the relocation of families that may be displaced as a result of carrying out the Project in accordance with said Urban Renewal Plan; and

Whereas, There have also been presented to the Governing Body information and data respecting the proposals for relocation which have been prepared by the Local Public Agency as a result of studies, surveys, and inspections; and

Whereas, The members of this Governing Body have general knowledge of the conditions prevailing in the Project area and of the availability of proper housing in the locality for the relocation of families that may be displaced from the Project area and, in the light of such knowledge of local housing conditions, have carefully considered and reviewed such proposals for relocation; and

Whereas, It is necessary that the Governing Body take appropriate official action respecting the proposals for relocation and said Urban Renewal Plan for the Project, in conformity with the contracts for financial assistance between the Local Public Agency and the United States of America, acting by and through the Housing and Home Finance Administrator.

Whereas, The Governing Body is cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with federal financial assistance under Title I, including those prohibiting discrimination because of race, color, creed, or national origin; now, therefore be it

Resolved, By the City Council of Boston as follows:

1. That it is hereby found and determined that the Project is a substandard and/or decadent area and qualifies as an eligible Project area under Chapter 121 of the Massachusetts General Laws.
2. That said Urban Renewal Plan for the Project aforementioned, having been duly reviewed and considered, is hereby approved, and the Mayor of Boston be, and hereby is, authorized to approve said Plan and the City Clerk be, and is hereby, directed to file said copy of said Urban Renewal Plan with the minutes of this meeting.
3. That it is hereby found and determined that said Urban Renewal Plan for the Project area conforms to said general plan of the Locality.
4. That it is hereby found and determined that the financial aid provided and to be provided pursuant to said contract for federal financial assistance pertaining to the Project is necessary to enable the Project to be undertaken in accordance with the Urban Renewal Plan for the Project area.
5. That it is hereby found and determined that the above-mentioned Urban Renewal Plan for the Urban Renewal Area will afford maximum opportunity, consistent with the sound needs of the Locality as a whole, for the urban renewal of such areas by private enterprise.
6. That it is hereby found and determined that the Urban Renewal Plan for the Urban Renewal Area gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan.

7. That it is hereby found and determined that the proposals for the proper relocation of the families displaced in carrying out the Project in decent, safe, and sanitary dwellings in conformity with acceptable standards are feasible and can be reasonably and timely effected to permit the proper prosecution and completion of the Project; and that such dwellings or dwelling units available or to be made available to such displaced families are at least equal in number to the number of displaced families, are not generally less desirable in regard to public utilities and public and commercial facilities than the dwellings of the displaced families in the Project area, are available at rents or prices within the financial means of the displaced families, and are reasonably accessible to their places of employment.

8. That in order to implement and facilitate the effectuation of the Urban Renewal Plan hereby approved it is found and determined that certain official action must be taken by this Body with reference among other things, to changes in zoning, the vacating and removal of streets, alleys, and other public ways, the establishment of new street patterns, the location and relocation of sewer and water mains and other public facilities, and other public action, and, accordingly, this Body hereby: (a) pledges its cooperation in helping to carry out such Urban Renewal Plan; (b) requests the various officials, departments, boards, and agencies of the Locality having administrative responsibilities in the premises likewise to cooperate to such end and to exercise their respective functions and powers in a manner consistent with said Urban Renewal Plan; (c) stands ready to consider and take appropriate action upon proposals and measures designed to effectuate said Urban Renewal Plan; and (d) authorizes and empowers the Mayor of the City of Boston to execute and deliver in the name and behalf of the City of Boston a Cooperation Agreement by and between the City of Boston and the Local Public Agency providing for the making by the City of Boston of local grants-in-aid in accordance with Title I of the Housing Act of 1949, as amended, and in accordance with a loan and grant contract to be entered into by and between the Local Public Agency and the United States of America, which local grants-in-aid are to equal at least one third of the actual net project cost for the Washington Park Urban Renewal Area as finally determined and approved by the Housing and Home Finance Administrator of the United States of America in accordance with such Act, Cooperation Agreement and loan and grant contract.

That additional financial assistance under the provisions of Title I of the Housing Act of 1949, as amended, is necessary to enable the land in the Project area to be renewed in accordance with the Urban Renewal Plan for the Project area, and, accordingly, the filing by the Local Public Agency of an application or applications for such financial assistance under said Title I is hereby approved.

COOPERATION AGREEMENT BY AND BETWEEN CITY OF BOSTON AND BOSTON REDEVELOPMENT AUTHORITY.

This Cooperation Agreement, entered into as of the _____ day of _____, 1963, by and between the City of Boston, a municipal corporation of the Commonwealth of Massachusetts (hereinafter referred to as the "City") and the Boston Redevelopment Authority, a public body politic and corporate created under the laws of said Commonwealth (hereinafter referred to as the "Authority").

Witnesseth That:

Whereas, The Authority has on _____, 1963, adopted an Urban Renewal Plan (hereinafter referred to as the "Plan") for the Washington Park Urban Renewal Area, Project No. Mass. R-24 (hereinafter referred

to as the "Project"), in the City of Boston, and said Plan has been approved on _____

, 1963, by the Mayor with the approval of the City Council, of the City of Boston; and

Whereas, The Plan provides for the acquisition, demolition, and removal of structures in the Washington Park Urban Renewal Area (hereinafter referred to as the "Urban Renewal Area"), the installation of site improvements and public facilities and the disposition of land in the Urban Renewal Area for uses in accordance with the Plan; and

Whereas, The Authority will need financial assistance from the United States of America under Title I of the Housing Act of 1949, as amended (hereinafter referred to as Title I), and also local grants-in-aid in order to carry out and complete the projects; and

Whereas, Under Title I such local grants-in-aid may consist of, among other things, cash grants; donations at cash value of certain real property, in the Urban Renewal Area; demolition or removal work in the Urban Renewal Area; demolition or removal work in the Urban Renewal Area at the cost thereof; installation of site improvements and the provision at their cost of public buildings or other public facilities which are necessary for carrying out the urban renewal objectives of the Project in accordance with the plan; and

Whereas, The Authority has applied for financial assistance from the United States of America, under Title I, in the form of loans and grants; and

Whereas, The City of Boston acting by and through its Mayor, with the approval of the Boston City Council, on August 14, 1962, executed a covenant with the Authority whereby the City of Boston shall bear any and all loss that may arise as a result of such early land acquisition and related activities in the event that the land so acquired or so acquired and cleared is not used for urban renewal purposes because an urban renewal plan for the Washington Park Urban Renewal Area is not approved, or is amended to omit such land or is abandoned for any reason; and

Whereas, The Local Public Agency, with the consent of the City of Boston acting by and through its Mayor with the approval of the Boston City Council, on November 21, 1962, assigned any and all of its rights under said covenant to the United States of America; now, therefore,

In consideration of the benefits to accrue to the City from the carrying out of the Project and of the mutual covenants herein contained and for other good and valuable consideration, the parties do hereby covenant and agree as follows:

1. The Authority will undertake the Project in accordance with the Plan and will commence and carry out as expeditiously as possible each successive phase of the Project as funds are made available.

2. To help defray the cost of the Project, the Authority will comply with all necessary conditions; statutory or otherwise, to obtain a capital grant from the United States under Section 103 of Title I, in the maximum amount allowed by law.

3. The City will make local grants-in-aid (as heretofore defined) to the Authority in a total amount which, together with all other local grants-in-aid made to the Project, will equal at least one third of the actual net project cost of the Project as finally determined and approved by the Housing and Home Finance Administrator of the United States in accordance with Title I, and in accordance with a loan and grant contract to be entered into by and between the Authority and the United States of America, which amount is currently estimated at \$11,367,370.

4. After the execution of said loan and grant contract, the City, upon request by the Authority after the vacation and laying

out of appropriate streets and public ways in accordance with the Plan, will commence construction of, and thereafter diligently prosecute to completion, improvements and supporting facilities as required by the Plan for the Project in accordance with a reasonable schedule for the commencement of construction, which schedule shall be established and seasonably communicated by the Authority, acting by and through the Development Administrator, to the Mayor and to the appropriate board, officer or agent of the City. If, during the course of the Project it appears that such construction schedule, and/or the costs related thereto, are inappropriate or inaccurate, such schedule and costs may be amended by the joint agreement of the Development Administrator of the Authority and Mayor. The locations indicated for the site improvements are to be determined by reference to the Plan for the Project.

5. After the execution of said loan and grant contract between the Authority and the United States, the City, acting by its Mayor, will recommend to the proper board or officer the construction of such supporting facilities as, in the opinion of the Authority, may be necessary or desirable in the execution of the Plan in accordance with a reasonable schedule established by the Authority acting by the Development Administrator.

If during the course of the Project it appears that the construction schedule, or the costs related thereto, is inappropriate or inaccurate, such schedule may be amended in each case by the joint agreement of the Development Administrator of the Authority and the Mayor or appropriate board or officer involved.

If the City, acting by the Mayor, appropriate board, officer, or agent thereof, should fail to take appropriate actions to construct such supporting facilities by the date or dates set forth in such schedule (or by such other dates as shall be mutually agreed upon as aforesaid), or shall fail diligently to prosecute said work to completion, then the City shall upon demand by the Authority, pay to the Authority two thirds of the sums of money which according to said schedule are the estimated costs to be credited to the Project with respect to each item of work or portion thereof to which such failure relates, which sums of money shall be considered as cash local grants-in-aid to the Project.

6. If during the course of the project, revised estimates of net project cost are determined and approved by HHFA which make necessary additional local grants-in-aid to the Project, the City will, upon demand by the Authority, pay to the Authority such amounts of money as will, together with all other local grants-in-aid made or to be made to the Project in accordance with the previously approved estimate of net project costs, total one third of such revised estimate of net project cost.

7. Upon completion of the Project by the Authority and the final determination and approval as aforesaid of the actual net project cost thereof, the City will make such additional cash payment, if any, as may be necessary to bring the total local grants-in-aid for the Project up to an amount equal to one third of said actual net project cost as so finally determined and approved; and if upon such final determination and approval, the local grants-in-aid theretofore made to the Project shall total an amount in excess of one third of said actual net project cost as so finally determined and approved, such portion of the excess as was paid in cash shall be refunded, without interest, by the Authority to the City.

8. The City, acting by its Mayor, will recommend to the proper board or officer the vacating of such streets, alleys and other public rights-of-way within the Urban Renewal Area as may, in the judgment of the Authority, be necessary or desirable in carrying

out the Plan, and the laying out as public streets or ways of all streets and ways, with their adjacent sidewalks, within the Urban Renewal Area in accordance with the Plan; and the Authority further agrees not to sue the City for any damages incurred by reason of any such vacating or laying out; and the Authority further agrees to reimburse the City for any damages recovered by others under Chapter 79 of the General Laws of Massachusetts, as amended, by reason of such vacating or laying out.

9. The City, acting by its Mayor, will recommend to the proper boards or officers such action as may be necessary to waive, change or modify, to the extent necessary or desirable, in the judgment of the Authority, to permit carrying out the Project, the statutes, ordinances, rules and regulations regulating land uses in Boston and prescribing health, sanitation and safety standards for buildings in Boston.

10. The Authority recognizes that the City, in accordance with Section 26R of Chapter 121, may require payments in lieu of taxes, betterments and special assessments on all property held by the Authority as part of the Project. The City hereby agrees that if such payments are required pursuant to said Section 26R they shall not be required in excess of the amount of such payments eligible as project costs under the applicable regulations of the Housing and Home Finance Administrator in effect from time to time, and further agrees that any such payments required will be based upon assessments in the tax year 1961.

11. The City shall continue to maintain the "workable program" heretofore adopted by it, and shall cooperate with the Authority by such other lawful actions and in such other lawful ways as may be necessary in connection with the undertaking and carrying out of the Project in all its phases, including the relocation of families to be displaced from the Urban Renewal Area.

12. The City will take steps appropriate to assure that no member of its Governing Body, and no other City official who exercises any functions or responsibilities in the review or approval of the Project shall, prior to the completion of the Project, voluntarily acquire any personal interest, direct or indirect, in any property included in the Urban Renewal Area, or in any contract or proposed contract in connection with the carrying out of the Project.

13. The City agrees that each public facility provided as a non-cash local grant-in-aid shall be open to all persons without regard to race, creed, color, or national origin.

14. This Agreement shall take effect as a sealed instrument.

In Witness Whereof the City of Boston and the Boston Redevelopment Authority have respectively caused this Agreement to be duly executed as of the day and year first above written.

SURVEY AND PLANNING APPLICATION FOR SOUTH COVE URBAN RENEWAL PROJECT.

The following was received:

City of Boston,

Office of the Mayor, January 21, 1963.

Honorable City Council,

Gentlemen:

President Kennedy's Executive Order No. 11063, "Equal Opportunities in Housing," and the related regulations of the Housing and Home Finance Agency and the Urban Renewal Administration require certain action by this city in connection with pending applications for Survey and Planning funds. These regulations also require a statement by our city that public facilities to be provided Urban Renewal Projects as noncash grants-in-aid will be open to all citizens.

Action required by federal regulations has already been taken by the Boston Redevelopment Authority. Accompanying this letter are the supplementary resolutions required for the Waterfront and Central Business District Survey and Planning Applications now pending in Washington, and a new and amended set of resolutions for the South Cove Survey and Planning Application which is pending before the City Council. A resolution affirming the city's determination to keep all public facilities open without discrimination is also included.

As you well know, this federal requirement indicating our city's support of the President's mandate to create equal opportunities in housing for all citizens will require no change in our city's public policy. It will, however, give us an opportunity to indicate our support of the program against discrimination in housing and strengthen our resolve to provide the equal opportunities which are the birthright of all Americans.

I trust this matter will receive your early attention, so that applications now pending before the federal government can be processed without undue delay.

JOHN F. COLLINS, Mayor.

APPLICATION FOR SURVEY AND PLANNING.

South Cove Urban Renewal Project,
Boston Redevelopment Authority,
Boston, Mass.

**RESOLUTION OF GOVERNING BODY OF LOCALITY—
CODE NO. R-145.**

Whereas, Under Title I of the Housing Act of 1949, as amended (herein referred to as "Title I"), the Housing and Home Finance Administrator is authorized to extend financial assistance to local public agencies in the elimination and prevention of the spread of their slums and urban blight through the planning and undertaking of urban renewal projects; and

Whereas, It is desirable and in the public interest that the Boston Redevelopment Authority make surveys and prepare plans, presently estimated to cost approximately seven hundred fifty-one thousand, one hundred fifty-eight dollars (\$751,158), in order to undertake and carry out an urban renewal project of the character contemplated by Section 110 (c) of Title I, in that area proposed as an Urban Renewal Area, situated in the City of Boston, County of Suffolk, and State of Massachusetts, which is described as follows:

Beginning at the intersection of Stuart and Clarendon streets and running easterly and southerly along Stuart and Kneeland streets to the intersection of Kneeland street with the Massachusetts Turnpike Authority right of way; thence turning and running southerly and westerly by the Massachusetts Turnpike Authority right of way to the intersection of said right of way with Clarendon street; thence turning and running by Clarendon street to the point of beginning; and

Whereas, The Tufts University School of Medicine, the Tufts University School of Dental Medicine, the Boston Dispensary and Rehabilitation Institute, the Boston Floating Hospital for Infants and Children, the Pratt Clinic, New England Hospital Center are institutions meeting the eligibility requirements of Section 112 of the Housing Act of 1949, as amended; and

Whereas, These institutions, acting jointly as the Tufts-New England Medical Center, have undertaken plans and studies for their necessary expansion in the area and have proposed and submitted a Development Plan for approval, in accordance with the provisions of said Section 112, by the Boston Redevelopment Authority and the Boston City Council after public hearings; now, therefore, be it

Resolved, By Boston City Council:

1. That the proposed Urban Renewal Area described above is a slum, blighted, deteriorated, or deteriorating area appropriate for an urban renewal project and that the undertaking by the Boston Redevelopment Authority of surveys and plans for an urban renewal project of the character contemplated by Section 110(c) of Title I in the proposed Urban Renewal Area is hereby approved.

2. That the financial assistance available under Title I is needed to enable the Boston Redevelopment Authority to finance the planning and undertaking of the proposed project.

3. That it is cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with federal financial assistance under Title I, including those prohibiting discrimination because of race, color, creed or national origin, and those relating to the relocation of site occupants, to the provision of local grants-in-aid, and to the requirement that as a condition to the execution of a contract for a loan or capital grant for an urban renewal project the locality presents to the Housing and Home Finance Administrator a Workable Program, as set forth in Section 101(c) of Title I, for utilizing appropriate public and private resources to eliminate and prevent the development or spread of slums and urban blight; and that it is the sense of this body (a) that a feasible method for the relocation of families displaced from the urban renewal area, in conformity with Title I, can be prepared, and (b) that local grants-in-aid can and will be provided in an amount which will be not less than one-third of the net project cost of the project and which, together with the federal capital grant, will be generally equal to the difference between Gross Project Cost and the proceeds or value of project land sold, leased, or retained for use in accordance with the urban renewal plan.

4. That the filing of an application by the Boston Redevelopment Authority for an advance of funds from the United States of America to enable it to defray the cost of the surveys and plans for an urban renewal project in the proposed Urban Renewal Area described above is hereby approved.

5. That the Development Plan dated September, 1962, proposed and submitted by the Tufts-New England Medical Center on November 5, 1962, be, and hereby is, approved, and it is hereby found and determined that said Development Plan conforms to the General Plan for the development of the City of Boston, that in addition to the elimination of slums and blight from the Urban Renewal Area described above, and the adjoining New York Streets Land Assembly and Redevelopment Area, the undertaking of urban renewal projects in such areas has and will further promote the public welfare and proper development of the Boston community by making land in such areas available for disposition for uses in accordance with any urban renewal plan, to Tufts-New England Medical Center, for redevelopment in accordance with the use or uses specified in such plan, and/or by providing, through the redevelopment of these areas, in accordance with any such urban renewal plans, a cohesive neighborhood environment compatible with the functions and needs of said Tufts-New England Medical Center.

CITY COUNCIL OF THE CITY OF BOSTON SUGGESTED RESOLUTIONS.

1. That the City Council of the City of Boston is cognizant of the conditions that are imposed in the undertaking and carrying out of Urban Renewal Projects for the federal financial assistance under Title I of the Housing Act of 1949, including those prohibiting discrimination because of race, color, creed or national origin, and will abide by such conditions in carrying out the planning activities contemplated by the Survey and Planning Applications currently pending for the Waterfront Urban Renewal Project (Mass. R-77), and the Central Business District Urban Renewal Project (Mass. R-82).

2. That every public facility provided as a noncash local grants-in-aid for Urban Renewal Projects within the City of Boston will be open without regard to race, color, creed or national origin to all occupants of the project area concerned after renewal and, if the facility is provided on project land, to all others.

Proceedings of City Council

Monday, January 28, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HINES in the chair, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Most merciful and gracious God, Thou art always near and always giving of Thyself to be a companion to walk with us when we are lonely; to be our guide and counsellor when we are confused; to be our refuge and our strength in trials and sorrows.

Having received so much from Thee let us now as councillors of this city try to give ourselves to others—bearing the burdens of the weak; sharing our blessings with the needy; manifesting a spirit of compassion, kindness, and helpfulness to all. May the duties of this day be fulfilled with the reassuring sense of Thy presence, Thy power, Thy benediction. This we ask through Christ our Lord and Redeemer. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

AMEND LAW ON EMINENT DOMAIN TAKINGS RE URBAN RENEWAL AREAS.

Coun. FOLEY offered the following:

Be it Resolved, That the Corporation Counsel be respectfully requested, through his Honor the Mayor, to study the possibility of amending the Massachusetts Law of eminent domain with respect to takings in Urban Renewal Project Areas so as to provide:

1. That the fair value of property taken be established as of the date when the City Council votes authorization for the preparation of plans and surveys rather than the date of the filing of the eminent domain taking.

2. That upon the taking, a percentage of the assessed value of the property be immediately paid the owner thereof without any prejudice to him to further pursue his rights; be it further

Resolved, That said study be completed if at all convenient by March 30, 1963.

Passed under suspension of the rules.

ADJOURNMENT IN HONOR OF COUNCILLOR PIEMONTE.

URBAN RENEWAL ASSISTANCE GRANTS FOR NEW YORK STREETS AND WEST END PROJECTS.

The following was received:

City of Boston,
Office of the Mayor, January 28, 1963.

To the City Council,
Gentlemen:

Enclosed herewith for your consideration and approval are two Resolutions for Urban Renewal Assistance Grants for the New York Streets and West End Projects.

The City of Boston is eligible for this financial assistance for these projects pursuant to Sections 8 and 10 of Chapter 776 of the Acts of 1960 (G. L., Chapter 121, Sections 26 DDD to 26 FFF) and Chapter 543 of the Acts of 1961, Item 2604-04, which provide for the Urban Renewal Assistance Grant payments by the Commonwealth of Massachusetts to the Division of Urban and Industrial Renewal.

In accordance with procedures set forth by the Division of Urban and Industrial Renewal, the filing of the Application for this financial assistance requires the approval of your Honorable Body.

Respectfully,
JOHN F. COLLINS, Mayor.

RESOLUTION AUTHORIZING FILING OF AN APPLICATION FOR STATE URBAN RENEWAL ASSISTANCE GRANT BY THE BOSTON REDEVELOPMENT AUTHORITY NEW YORK STREETS PROJECT UR MASS. 2-1.

Resolved:

Section 1. The following described area in the municipality of Boston was previously declared to be a substandard and decadent area and was a land assembly and redevelopment area within the land assembly and redevelopment laws of the Commonwealth.

The project boundary starts at the intersection of the centerlines of Dover and Albany streets and runs in a westerly direction along the centerline of Dover street to the intersection of the centerlines of Dover street and Harrison avenue; thence in a northerly direction along the centerline of Harrison avenue to the centerline of Dover street, between Harrison avenue and Washington street; thence along the centerline of Dover street in a westerly direction to its intersection with the centerline of Washington street; thence in a northerly direction along the centerline of Washington street to the intersection of the centerline of Washington street and the southerly side of the retaining wall on the south side of the South End Cut which is used by the New York, New Haven & Hartford Railroad Company; thence along the southerly side of said retaining wall in an easterly direction to its intersection with the centerline of Albany street; thence in a southerly direction along the centerline of Albany street to the point of origin of the boundary line.

Section 2. The existence of said area was impairing and arresting the sound growth and development of the Municipality and was inimical to the public health, safety, morals and welfare of the inhabitants thereof and of the Commonwealth.

Section 3. The Municipality has undertaken a land assembly and redevelopment project in said area, hereinafter called Project New York Streets, UR Mass. 2-1, under and pursuant to the federal housing act of 1949, as amended.

Section 4. The development of the Project was essential to the sound growth and development of the Municipality and to the welfare of the inhabitants thereof.

Section 5. It is necessary and in the public interest that the Municipality avail itself of the Urban Renewal Assistance Grant provided by the land assembly and redevelopment or urban renewal laws of the Commonwealth for the purpose of carrying out and financing the Project.

Section 6. The Municipality hereby expresses its intent and recognizes its responsibility to do whatever is necessary or appropriate to carry out the Project.

Section 7. The Boston Redevelopment Authority is hereby authorized and directed to file an application in the form of application prescribed by the Division of Urban and Industrial Renewal of the State Housing Board, for a State Urban Renewal Assistance Grant for the project in a total amount not to exceed \$797,383.50 which sum represents the Commonwealth's responsibility for this project, namely one half of the Municipality's contributions, said sum to be paid on an annual basis, each such annual payment not to exceed one twentieth of the total liability of the Commonwealth for its share of such project.

RESOLUTION AUTHORIZING FILING OF AN APPLICATION FOR STATE URBAN RENEWAL ASSISTANCE GRANT BY THE BOSTON REDEVELOPMENT AUTHORITY WEST END PROJECT, UR MASS. 2-3.

Resolved:

Section 1. The following described area in the municipality of Boston was previously declared to be a substandard and decadent area and was a land assembly and redevelopment area within the land assembly and redevelopment laws of the Commonwealth.

The project area is bounded by Allen street, Blossom street, Cambridge street, Staniford street, Lowell street, a portion of the State Surface road connecting the Metropolitan Transit Authority's viaduct and Charles street.

Section 2. The existence of said area was impairing and arresting the sound growth and development of the Municipality and was inimical to the public health, safety, morals and welfare of the inhabitants thereof and of the Commonwealth.

Section 3. The Municipality has undertaken a land assembly and redevelopment project in said area, hereinafter called Project West End, UR Mass. 2-3, under and pursuant to the federal housing act of 1949, as amended.

Section 4. The development of the Project was essential to the sound growth and development of the Municipality and to the welfare of the inhabitants thereof.

Section 5. It is necessary and in the public interest that the Municipality avail itself of the Urban Renewal Assistance Grant provided by the land assembly and redevelopment or urban renewal laws of the Commonwealth for the purpose of carrying out and financing the Project.

Section 6. The Municipality hereby expresses its intent and recognizes its responsibility to do whatever is necessary or appropriate to carry out the Project.

Section 7. The Boston Redevelopment Authority is hereby authorized and directed to file an application, in the form of application prescribed by the Division of Urban and Industrial Renewal of the State Housing Board, for a State Urban Renewal Assistance Grant for the project in a total amount not to exceed \$2,736,485, which sum represents the Commonwealth's responsibility for this project, namely one half of the Municipality's contributions, said sum to be paid on an annual basis, each such annual payment not to exceed one twentieth of the total liability of the Commonwealth for its share of such project.

Severally referred to the Committee on Urban Redevelopment, Rehabilitation and Renewal.

3,500 Senior Citizens In BHA Housing Units

Approximately 3,500 elderly people, single individuals and couples, now live either in regular low-rent public housing or in the newly constructed housing for the elderly operated by the Boston Housing Authority. Chairman Edward D. Hassan of the BHA points out an average of one of every four available apartments in the Authority's public housing program is occupied by a senior citizen.

The figures will be revised appreciably upward within the next year as new housing developments, especially and exclusively designed for elderly people, are opened for occupancy.

Progress on work on the new Bay View development indicates that it will be completed in time to receive new tenants in April. This federally-aided project will add 96 dwelling units for the elderly to the total of 384 now under the management of the Boston Housing Authority.

A state-aided development, adjacent to the one already occupied in Franklin Field, is scheduled for completion in August with 80 units available.

Within the past year, five federally-aided developments, as well as the first state-aided development constructed at Franklin Field, were completed and occupied at Elm Hill, Roxbury; Pond street, Jamaica Plain; Ashmont street in South Dorchester; Annapolis street in North Dorchester, and Bickford street in Jamaica Plain.

With few exceptions, all apartments have one bedroom. All are equipped with special facilities such as emergency signals, handgrips in bathrooms, and other conveniences for older people.

In a progress report on housing for elderly, Chairman Hassan noted that six additional sites for housing already have been submitted for federal approval.

In addition, four federally-aided developments containing 268 units and two state-aided developments with a total of 140 units now are in the advanced planning stages. It is expected that these six developments will be completed and ready for occupancy in 1964.

Boston Tightens Up On Political Posters

Under an ordinance signed into law by Mayor Collins, political posters must be taken down in Boston within a month after elections. Candidates themselves will be responsible for the removal from utility posts and public places. Each violation will constitute a separate offense and fine liability up to \$20 is attached to the new ordinance.

FROM THE HEART—FOR THE HEART—Surprise callers at Mayor Collins' office as the Heart Fund drive got under way were John Fallon, six, and his sister, Mary Ellen, four. They carried heart-shaped boxes containing nickels, dimes, and quarters they had saved for the Drive. When John was only two, Mayor Collins, then Suffolk Register of Probate, signed papers which permitted John's adoption by the Fallon family.

Clubhouse Addition for Franklin Park Golfers

Plans for an addition to the Franklin Park Golf Course clubhouse which will make the municipal facility compare favorably with any operated by nearby cities and towns or by the MDC have been announced by Mayor Collins.

The addition—construction bids for which will soon go out—will form an L-shaped structure enclosing 2,000 square feet of new floor space. A 500 square foot area will also be covered by a porch. A spacious lounge and snack room will be made possible, with room for 60 persons.

Sanitary facilities for men and women will be included in the new design.

Mayor Collins, declaring the improvement long overdue, pointed out that the addition will not come from city funds and cause no reflection on the tax rate. Necessary appropriation will be available from the George F. Parkman Fund and in a way will pay further honor to the memory of that benefactor. He left \$5 million to the city for the improvement and maintenance of services within the park system.

The Franklin Park course is believed one of the oldest and finest in the nation. First match held there was on December 13, 1890, when a foursome of Donald, Wright, Craig, and Mansfield made its rounds—stopping in their play to bore their own holes.

Columbia Pt. Study By Consultants to BHA

The firm of Adams, Howard and Greeley of Cambridge will provide consultant services in connection with the improvement of the Co-

lumbia Point housing development, it was announced by Chairman Edward D. Hassan of the Boston Housing Authority.

The consultants will relate their efforts to the Boston Redevelopment Authority's program for development of the surrounding area.

The Cambridge firm developed the original plan for the new Government Center and served as consultant to the former City of Boston Planning Department and in the development of the General Plan and the new Zoning Ordinance.

All partners of the firm are associated with the City and Regional Planning Department of the Massachusetts Institute of Technology headed by Professor Howard.

The contract for consultant services extending over a six-month period was authorized by the Public Housing Administration.

New Haven to Cut Fares Next Month

Even as the Boston & Maine continued to hold its own under Massachusetts Transportation Project, announcement was made that the New Haven Railroad will get federal assistance in a tryout program of reduced fares and better service. The improved service plan is expected to go into effect March 10 after clearing a number of technical and legal hurdles.

Under its contract the New Haven will be paid \$100,000 a month for a period not to exceed 12 months.

MAKING HOSPITAL STUDY—Mrs. Judyth Smith and Miss Elizabeth Ann Connor, Wheelock College students, are making part of their semester study at Boston City Hospital. They are finding a wealth of information in determining the city's important place in the community it serves.

B. U. to Honor Mayors Collins and Hynes

Boston University's College of Business Administration will celebrate its 50th anniversary March 13 by presenting "New Boston" awards to Mayor Collins and former Mayor Hynes. Presentation will be made at a banquet of the Boston University's College of Business Administration Alumni Association at Sheraton Plaza Hotel.

Others to be honored at the same banquet will be announced later. It is expected that more than 1,000 alumni will attend and that all former deans of the college will be able to be present.

DIRECTIVE NO. 3 HEALTH INSURANCE PLAN

February 18, 1963.

*To All Department Heads and
County Officers.*

This is to call your attention to my Directive No. 27, dated September 26, 1962, and to direct that the procedure outlined below be followed, in order to protect the interest of permanent employees desiring coverage under the Health Insurance Plan.

Notification of the following actions must be sent to Mr. Paul J. McIrney, co-ordinator of the Health Insurance Plan, Room 52, City Hall, Boston:

1. The appointment of new permanent employees.
2. The granting of leaves of absence, without pay, to permanent employees *for any reason*.
3. The reinstatement, transfer, retirement, termination, resignation, suspension, discharge, death, or change of name of any permanent employee.

It is of the utmost importance that this information be forwarded to Mr. McIrney so that employees *will not suffer any loss of coverage* due to the changes mentioned above.

Mr. McIrney may be contacted at Room 52, City Hall, or on Extension 208, LA 3-5100.

HENRY A. SCAGNOLI.

Welfare Dept. Opens Columbia Pt. Office

Mayor Collins cited the recent opening of a new Columbia Point office of the Boston Welfare Department as a new step in Boston's efforts to provide service rather than support for the city's welfare recipients.

The Mayor pointed out the office is designed to make welfare services more accessible to project residents and will also serve to reduce travel time needed by social workers for home visits.

"Time thus saved," the Mayor concluded, "will be utilized in providing more intensive casework services, which have proved an effective deterrent not only to the high financial cost of welfare, but more importantly to the human costs as well."

The new unit, a branch of the Hancock Street welfare office, is made possible through the cooperation of the Boston Housing Authority, which has supplied office space for the welfare staff.

Seven district offices are now operated by the Boston Welfare Department, directed by a 10-member voluntary citizen board appointed by the Mayor and headed by Director William F. Lally.

Four Specialists to Aid Hub's ABCD Program

Appointment of four program specialists to the staff of Action for Boston Community Development, Inc., was announced by Dean Charles I. Schottland of Brandeis University, ABCD President.

The new staff members are Arthur T. Noren, assistant manager of the Boston Regional Office of the Veterans Administration; Henry J. Mascarello, former executive director of the United Prison Association of Massachusetts; Edward Stone, director of the Social Services Unit for United Community Services in the Government Center Project; and Louis D. Carter, mental health coordinator for the Division of Legal Medicine of the State Department of Mental Health.

The four will work with Robert Perlman, Director of Program Development for ABCD, and Daniel I. Cronin, Director of the Boston Youth Opportunities Project, on a wide range of programs in education, employment, and social welfare.

Income Ceilings for BHA Elderly Program

Maximum income limits, in terms of income for the federally-aided housing for elderly program, are \$3,600 for a single individual or couple with a continued occupancy limit of \$4,950. The maximum income limits for the state elderly program are \$2,500 for a single person and \$3,000 for a couple, with a continued occupancy limit of \$3,125 and \$3,750, respectively.

While rental charges in public housing are related to the income of each tenant, the minimum rental charge is \$45 in federally-aided housing for the elderly. In the state-aided development for the elderly now occupied at Franklin Field, the minimum rental is \$57.

Minimum rents are gross rental charges and include the cost of heat, continuous hot water, electricity for lighting, and electricity or gas for cooking and refrigeration.

DISCONTINUANCE OF WASHINGTON STREET

Boston Proper

The Mayor and Public Improvement Commission have approved the discontinuance of Washington street, Boston Proper district, as a public highway, from Haymarket square to Cornhill.

The project is described as follows:

The highway named Washington street is hereby discontinued from Haymarket square to Cornhill.

Said Washington street as hereby discontinued is bounded:

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Washington street, Boston Proper district, as a public highway, from Haymarket square to Cornhill, under an order of the commission of February 5, 1963, and awards no damages.

Prudential to Attract 13,000 Each Workday

More than 13,000 men and women will be at work or using the facilities of the Prudential Center every day it opens, according to an estimate by Arthur O'Day, leasing executive for the 75 stores and service areas to be built there.

He broke the total down into 5,000 to 6,000 persons working in the Prudential Tower; 1,000 guests in the Hotel America; 5,800 convention-goers in the meeting rooms and War Memorial Auditorium, and 1,000 retail employees working in the Center's stores.

Mr. O'Day said the Prudential Center will actually create "a new downtown for Boston."

He is an officer of Theodore W. Berenson Associates, the firm chosen to handle all commercial space leasing in the Center.

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Norman street, Boston Proper district, as a public highway, from Green street to Merrimac street, under an order of the commission of February 5, 1963, and awards no damages.

New Downtown Look To Be "Very Exciting"

A rough concept of downtown Boston's appearance in the future will soon be made available for the public, according to Executive Director Brinley Hall of the Committee for the Central Business District.

Before a meeting of the Greater Boston Real Estate Board, Mr. Hall said graphic plans drawn by the Victor Gruen architectural and planning firm, will be available soon.

While not rigidly specific, the concept-on-paper will permit a good idea of the future downtown and "will come as a very exciting thing for us," said Mr. Hall.

The Gruen firm has been conducting a planning study under contract with the committee, which was formed by the business community to work with the Boston Redevelopment Authority in developing a revitalization plan for the 160-acre downtown area.

The BRA will take over Phase 2 of the planning with the Gruen firm, said Mr. Hall, under a \$174,000 contract which will lead to a final plan. Approval of some \$1.5 million in federal survey and planning funds is expected from the Urban Renewal Administration soon.

Brandeis Fellowship To Hub Police Officer

Patrolman Thomas R. Francis, member of the Boston Police Department since 1945, and a member of the Mayor's Committee for Civic Unity for more than two years, has been named a Francis Lasker Fellow at Brandeis University.

The fellowship will enable the veteran officer to study constitutional law, psychology, economics, and history in a minimum academic program which will permit ample time for work on personal research projects.

Lasker Fellows are selected from men and women throughout the country whose professional careers are directly or indirectly connected with the preservation of civil liberties and civil rights.

Space Heater Danger Warning Is Renewed

Fire Commissioner Thomas J. Griffin has re-emphasized his warning to the public on the use of space heaters with no flue connection, after the Fire Department's Fire Prevention Council traced several fires recently to this type of heating equipment, now banned by law.

The commissioner directed attention to the number of lives which have been lost through its use—a death toll which eventually led to its outlawing.

Also in a special warning, the commissioner drew attention to the advice of the Fire Prevention Council on the dangers of refilling range burner oil tanks with chilled fuel oil. The Council pointed out the great danger of explosion by such a procedure.

New Bridge Forces Clarendon St. Detour

Closing of the Clarendon Street Bridge in the Back Bay for a period of about six months has been made necessary to permit construction of a new bridge to span the Massachusetts Turnpike Extension route.

Traffic on Clarendon street will be detoured outbound to Stuart street which will be made one way, from Clarendon street to Huntington avenue. Dartmouth street will become one way, from Stuart street to Columbus avenue, South End.

Boston Among Tops In Shoe Manufacture

Boston, not generally recognized as one of the nation's top shoe producers, especially by residents of Brockton and Lynn, has 18 shoe establishments employing 3,061 workers, according to figures compiled for the New England Shoe and Leather's most recent annual analysis of census reports.

The Hub payroll for this important manufacturing industry totaled \$12 million. Haverhill—not Lynn or Brockton—led the state with 4,498 workers with a total payroll of \$14.6 million. Haverhill has 22 factories.

W. H. Ellis to Head Drive to Aid Scouts

President William H. Ellis, Jr., of the City Hospital Board of Trustees, has been appointed chairman for the Sagamore District 1963 Sustaining Membership Enrollment of the Boston Council, Boy Scouts of America.

"The Membership Enrollment Plan," said Mr. Ellis, head of the W. H. Ellis & Son Company, one of the nation's oldest pier and wharf construction firms, "is a method by which scouts, parents of scouts, former members and friends of scouting may actively maintain and extend the scouting influence in the Back Bay, Brookline, and the Brighton-Allston area and Greater Boston."

It will be an opportunity for many to renew their membership in the Boston Council. Their membership will help scouting move ahead in order that today's boys may have the satisfying experience, which they themselves had in scouting.

ELDER STREET WIDENING

Dorchester

The Mayor and Public Improvement Commission have approved the widening and construction of Elder street, Dorchester district, at the northeast corner of Humphreys street.

The project is described as follows:

The highway named Elder street is hereby widened at the northeast corner of Humphreys street, and ordered constructed.

For the making of the aforesaid improvement an easement for highway purposes is hereby taken in the following-described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Mary and Marie Feroli, bounded:

Westerly by Humphreys street, five and 95-100 feet; southwesterly by the northeasterly line of Elder street as it existed prior to this order, five and 95-100 feet, and northeasterly by the northeasterly line of Elder street as widened under this order, nine and 38-100 feet on a curve of six and 00-100 feet radius, containing eight square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty (30) days following the city's entry for construction purposes.

Said Elder street as hereby widened is bounded:

Westerly by Humphreys street, five and 95-100 feet; southwesterly by the northeasterly line of Elder street as it existed prior to this order, five and 95-100 feet, and northeasterly by the northeasterly line of Elder street as hereby widened, nine and 38-100 feet on a curve of six and 00-100 feet radius.

No betterments are to be assessed for the making of the aforesaid improvement.

ACTION ON DAMAGES

Voted, That this commission determines that the undermentioned persons sustain damages in their estate by the making of the public improvement consisting of the widening and construction of Elder street, Dorchester district, at the northeast corner of Humphreys street, under an order of the commission of February 5, 1963, in the amount hereinafter respectively set against it, and awards said amount therefor.

Mary and Marie Feroli, 8 square feet, \$1.

DISCONTINUANCE OF CHARDON COURT

Boston Proper

The Mayor and Public Improvement Commission have approved the discontinuance of Chardon court, Boston Proper district, as a public highway, from Chardon street approximately 100 feet southeasterly.

The project is described as follows:

The highway named Chardon court is hereby discontinued, from Chardon street approximately 100 feet southeasterly.

Said Chardon court as hereby discontinued is bounded:

Northerly by the southerly line of Chardon street as discontinued under an order of the Public Improvement Commission and Mayor dated February 5, 1963, twenty-one and 12-100 feet; easterly by the easterly line of Chardon court as hereby discontinued, by three measurements, eighty and 01-100 feet, 03-100 feet, and twenty-one and 95-100 feet; southerly by the southerly line of Chardon court as hereby discontinued, thirty-three and 78-100 feet; westerly by the northerly between westerly and northerly lines of Chardon street as hereby discontinued, by seven measurements, eight and 97-100 feet, two and 67-100 feet, five and 01-100 feet, twelve and 05-100 feet, seven and 91-100 feet, one and 38-100 feet, and seventy-eight and 21-100 feet, containing two thousand two hundred square feet, more or less.

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Chardon court, Boston Proper district, as a public highway, from Chardon street approximately 100 feet southeasterly, under an order of the commission of February 5, 1963, and awards no damages.

Dwight Eisenhower was a first lieutenant with the infantry when he took Mamie Geneva Doud as his bride at Fort Sam Houston on July 1, 1916. Their first child, Dwight Doud Eisenhower, died in infancy.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR REPAIRING AND REFINISHING FURNITURE IN VARIOUS SCHOOLS IN DISTRICT 4. (DISTRICT 4 INCLUDES VARIOUS SCHOOLS IN THE ROXBURY SECTION OF BOSTON.)

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for repairing and refinishing furniture in various schools in District 4.

General bids will be received up until twelve o'clock noon, Monday, March 11, 1963, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time thereafter.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Superintendent of Construction of the Department of School

Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid specifications and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the specifications furnished to the bidder is a true and complete copy of the specifications on file as aforesaid.

Specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bids shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,250. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation, will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and bidders will act at their own risk

if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address, before twelve o'clock noon (Eastern Standard Time), Wednesday, March 13, 1963, at which hour and place they will be publicly opened and read aloud. Every such subbid must be submitted in a sealed envelope with the following plainly marked on the outside: title of work, subtrade for which subbid is submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

1. Painting\$100
2. Special Coatings.....\$250
3. Resilient Flooring.....\$100
4. Electrical Work.....\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders, may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the subbidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the office of the Awarding Authority, second floor of the Sears Building at the Boston City Hospital, 818 Harrison Avenue, Boston, Mass., on or after Monday, February 25, 1963, upon deposit of a certified check payable to the City of Boston in the amount of \$25 per set of plans and specifications. The amount of the deposit, per set of plans and specifications, will be refunded upon return thereof in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the Awarding Authority, not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON

Proceedings of City Council

Monday, February 4, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., Councillor Coffey, Senior Member, presiding, and all the members present.

The Right Reverend Christopher P. Griffin, chaplain of the City Council, was escorted to the rostrum.

INVOCATION BY THE RIGHT REVEREND CHRISTOPHER P. GRIFFIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Eternal Father, we acknowledge Thy majestic sovereignty over all men and all nations. Grant unto us the calm assurance in all the conflicting and warring elements of our social order that this whole universe as well as this venerable city is under the divine control of an omnipotent and of an omniscient ruler who has not abdicated His throne and Whose plans and purposes can never be defeated.

Our City has problems clamoring for solution. Our city has councillors equipped and dedicated to their solution. But before beginning we ask humbly to be made ready for the challenge with the inexhaustible and invincible resources of Thy divine wisdom and strength. This we ask through Christ, our Blessed Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Constables with authority to serve civil process upon filing of bond for the term ending April 30, 1963:

Phillip J. Barkas, 251 Cambridge street, Allston; Harold B. Sparr, 115 Hunting road, Needham.

Weigher of Goods for the term ending April 30, 1963:

Harold M. Standing, 651 Commercial street, Weymouth.

Severally referred to the Committee on Confirmations.

IMPROVEMENTS TO BOSTON COMMON AND PUBLIC GARDEN RE BOSTON ARTS FESTIVAL.

The following was received:

City of Boston,

Office of the Mayor, February 1, 1963.

To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Parks and Recreation relative to your resolution of January 21, 1963, with reference to improvements on the Boston Common and Public Garden for the Boston Arts Festival.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Parks and Recreation Department,

January 28, 1963.

Mr. Albert Kramer,

Administrative Assistant, Mayor's Office.

Dear Sir:

I am acknowledging herewith your memo of January 24 which includes an order of the City Council of January 21 filed by Councillor Foley regarding improvements on the Boston Common and Public Garden for the Boston Arts Festival.

I appreciate the kind offer of Councillor Foley and his suggestions will receive the full consideration of the Parks and Recreation Commission.

Very truly yours,

MARTIN F. WALSH, Commissioner.

Referred to the Committee on Public Lands.

INCREASED WATTAGE OF STREET LIGHTS IN ROXBURY-DORCHESTER AREA.

The following was received:

City of Boston,

Office of the Mayor, January 31, 1963.

To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Public Works concerning your order of January 7, 1963, relative to increasing the wattage of the street lights in the Roxbury-Dorchester area and further that additional street lights be provided in same area.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,
Public Works Commissioner,
January 28, 1963.

Albert I. Kramer,

Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following City Council order:

"Ordered, That the Street Lighting Division of the Public Works Department be, and is hereby, directed to increase the wattage of the street lights in the Roxbury-Dorchester area, and further that additional street lights be provided in the Roxbury-Dorchester area."

This department began a street lighting modernizing program in 1956. Since that time, 5,380 street lights have been replaced with new units with an estimated average lumen increase of 50.2%, plus 4,607 additional lighting units.

This year, our plans call for re-lighting 100 miles of streets with an average lumen increase of 300% provided adequate appropriations are approved.

In 1962, we were quite disappointed when the City Council saw fit to eliminate from our budget appropriations a very modest increase of \$50,000. Obviously, this reduction curtailed to some degree our lighting improvement plans.

Our 1963 plans will give particular attention to the Roxbury-Dorchester areas.

JAMES W. HALEY, Commissioner.

Placed on file.

REORGANIZATION OF POLICE DEPARTMENT NOT TO AFFECT SALARY OF FORMER SUPERINTENDENT.

The following was received:

City of Boston,

Office of the Mayor, January 25, 1963.

To the City Council.

Gentlemen:

I transmit herewith communication from the Police Commissioner concerning your resolution of January 14, 1963, relative to the salary of former Superintendent Francis J. Hennessy not being affected by the abolition of the post of Superintendent.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Police Department, January 23, 1963.

Albert Kramer,

Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following resolution of the Boston City Council, dated January 14, 1963, relative to the salary of former Superintendent Francis J. Hennessy:

Whereas, The laws of the Commonwealth in recognition of the protective rights of individuals employed by city, town and state governments under Civil Service provide that classification or salary of an individual under Civil Service can be changed only with his consent or after a hearing provided by law; and

Whereas, The position of Superintendent of Police has been abolished under the reorganization; and

Whereas, Such position was not covered by Civil Service; and

Whereas, In the abolishing of the position of Superintendent the salary of the person holding such office is being affected; and

Whereas, The individual holding that position, Francis J. Hennessy, held the office of Superintendent with distinction; now therefore be it

Resolved, That the Boston City Council, in meeting assembled, on this 14th day of January, 1963, request his Honor the Mayor, that in keeping with the spirit of the law governing Civil Service employees that the salary of former Superintendent Francis J. Hennessy not be affected by the abolition of the post of Superintendent.

In order to implement the recommendations of the Field Service Division of the International Association of Chiefs of Police, Inc., for modernizing the organizational structure of the department, the duties of the Superintendent of Police and all other department activities now function

under four (4) separate bureaus. Deputy Superintendent Hennessy is in command of the Bureau of General Services.

A request for legislative amendment is now being prepared for submission to the General Court which will provide for an increase in his salary status.

Very truly yours,
EDMUND L. McNAMARA,
Police Commissioner.

In connection with the foregoing Councillor Piemonte offered the following motion:

Moved, That the Council favor any legislation necessary to raise or uphold the salary of Superintendent Hennessy and urge on the Massachusetts Legislature immediate passage.

The motion was carried.

The foregoing communication was placed on file.

POLICY POSITION ON INCREASED COMPENSATION FOR POLICE OFFICERS.

The following was received:

City of Boston,
Office of the Mayor, January 28, 1963.
To the City Council.
Gentlemen:

I transmit herewith communication from the Police Commissioner concerning your resolution of January 14, 1963, regarding legislation for increased compensation for police officers.

Respectfully,
JOHN F. COLLINS, Mayor.

City of Boston,
Police Department, January 23, 1963.
Albert Kramer,
Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following resolution of the Boston City Council, dated January 14, 1963:

Be it Resolved, That the policy position of the Boston City Council adopted October 23, 1961, by resolution appearing on page 220 of the Proceedings of the City Council for that year entitled Favoring Legislation for Increased Compensation for Police Officers, be most respectfully invited to the attention of the Police Commissioner of the City of Boston and to his Honor the Mayor, indicating that the policy position of the City Council favors increased compensation for members of the Police Force.

As Police Commissioner, I also favor increased compensation for our police officers, but recognize that any such increase must be governed by the city's financial ability to pay the same.

His Honor the Mayor of the city has indicated that he plans to make salary adjustments at an early date.

Very truly yours,
EDMUND L. McNAMARA,
Police Commissioner.

SUFFICIENT UNIFORMED OFFICERS FOR ADEQUATE POLICE PROTECTION.

The following was received:

City of Boston,
Office of the Mayor, January 25, 1963.
To the City Council.
Gentlemen:

I transmit herewith communication from the Police Commissioner concerning your resolution of January 14, 1963, relative to publicly stating whether the Boston Police Department has sufficient uniformed officers to provide adequate police protection to all sections of the City of Boston.

Respectfully,
JOHN F. COLLINS, Mayor.

City of Boston,
Police Department, January 23, 1963.
Albert Kramer,
Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following resolution of the Boston City Council, dated January 14, 1963, requesting that the Police Commissioner state

whether the Boston Police Department has sufficient uniformed officers to provide adequate police protection for all sections of the City of Boston:

Be it Resolved, That the Police Commissioner of the City of Boston be respectfully requested to publicly state whether the Boston Police Department has sufficient uniformed officers to provide adequate police protection to all sections of the City of Boston.

As a career law enforcement officer, I accepted the position of Police Commissioner keenly aware of my responsibility to provide the highest quality of law enforcement for the City of Boston consistent with sound, modern police practices.

The number of men on a Police Force is not of primary concern in creating an efficient law enforcement agency. An updated training program, proper utilization and deployment of manpower and their mobility of action are the major considerations in the development of an effective police organization.

In reply to your request, it is my considered judgment that the present numerical strength of uniformed officers in the Boston Police Department is sufficient to provide adequate police protection for all sections of the City of Boston.

Very truly yours,
EDMUND L. McNAMARA,
Police Commissioner.

NUMBER OF ROUTE PATROLMEN ON CERTAIN DAYS.

The following was received:

City of Boston,
Office of the Mayor, January 25, 1963.
To the City Council.
Gentlemen:

I transmit herewith communication from the Police Commissioner concerning your order of January 7, 1963, relative to the number of route patrolmen on foot in uniform on duty on each of the first half, morning watch, and day tour on each of the following days, January 1, 2, 3, 4, 5, 6, and 7, 1963.

Respectfully,
JOHN F. COLLINS, Mayor.

City of Boston,
Police Department, January 23, 1963.
Albert Kramer,
Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following order of the Boston City Council, dated January 7, 1963:

"Ordered, That the Police Commissioner of the City of Boston be requested, through his Honor the Mayor, to state within three weeks under the provisions of Chapter 17F of the City Charter the number of route patrolmen on foot in uniform on duty on each of the first half, morning watch, and day tour on each of the following days, January 1, January 2, January 3, January 4, January 5, January 6, and January 7, 1963."

I am enclosing herewith a chart reflecting the duty assignments of uniformed foot patrol officers for the period specified.

I have also included figures indicating the number of patrolmen who were engaged in the annual Police Listing of Residents during that period whose usual assignment would have been patrol duty.

Very truly yours,
EDMUND L. McNAMARA,
Police Commissioner.

In connection with the foregoing, Councillor Piemonte offered the following motion:

Moved, That this communication be referred to the Committee on Public Services, and that the committee call a meeting at the earliest mutual time for the Police Commissioner and the committee, inviting the Police Commissioner to be present, and to have with him such other personnel as may be needed to discuss the coverage of police protection of the city at the current time and future plans.

The motion was carried.

The foregoing message was referred to the Committee on Public Services and Recreation.

City of Boston,
Administrative Services Department, February 4, 1963.

Hon. John F. Collins,
Mayor of Boston.

Dear Sir:

In accordance with the provisions of section 3 of chapter 4 of the revised city ordinances, I have prepared, under your direction and in consultation with the Director of Administrative Services, in segregated form, the annual budget for the City, County, and Income Departments, for submission, by you, to the City Council for the year 1963.

The allowances recommended herein for City Departments indicate a decrease under 1962 appropriations of \$2,935,298.81. This appears to be a substantial reduction from 1962 appropriations, however, this budget does not contain \$1,700,000.00 for the Hospital and Insurance Plan for City, County, and School employees which became effective in 1962, nor a special appropriation presently before the City Council for the Boston Redevelopment Authority amounting to \$70,000.00. In addition, the Sanatorium this year will be an income department with a reduction reflected in the city department appropriations of approximately \$900,000.00. This saving was realized by the enactment of Chapter 608 of the Acts of 1961 whereby the State Department of Public Health will subsidize almost 50 per cent of the Tuberculosis Program of the Commonwealth previously borne in its entirety by the cities and towns.

Departmental request for 1963 amounted to \$134,979,737.00. After careful scrutinization of the individual accounts these recommendations have been reduced to \$126,837,807.00 or a decrease of \$8,141,930.00 under the original proposals of the Department Heads.

A summary of appropriations for City, County, and Income Departments is indicated herewith:

	1962	1963	1963
	APPROPRIATIONS	REQUESTS	ALLOWANCES
CITY	\$113,355,504 81	\$117,312,665 00	\$110,420,206 00
COUNTY	8,399,167 68	9,013,619 00	8,647,880 00
INCOME	5,072,573 00	8,653,453 00	7,769,721 00

CITY BUDGET

Temporary Employees. The inauguration of Women School Crossing Guards, employed by the Police Department, has increased this appropriation account by \$130,000.00.

Contractual Services. Increased over 1962 by some \$194,000.00. This is reflected by additional sums being made available for street lighting and also for higher contractual charges for garbage and waste disposal.

Equipment. An additional \$100,000.00 was made available in the Police Department to implement the mobility of the Force. The balance will be expended in the replacement of equipment in the Public Works Department.

Land and Improvements. Parks and Recreation Department increased \$35,000.00 primarily for improvement of recreational facilities throughout the City.

COUNTY BUDGET

County budgets indicate an increase of \$248,712.32 over 1962 appropriations.

Personal Services. Legislative action resulted in salary increases for Clerks of Court, Assistant Clerks of Court and Justices of the Court over which the city had no control.

Contractual Services. A greater number of jury sessions will require additional funds in 1963 as will the expenditures for repair and maintenance of buildings.

Supplies and Materials. The increase in postal rates in 1963 plus increased costs of materials and supplies will necessitate an additional appropriation of funds in this category.

Current Charges. Increased cost of surety bonds for personnel and rental charges will represent added expenditures of \$4,500.00.

Equipment. Office equipment needs will cause appropriations to rise about \$9,500.00.

INCOME DEPARTMENTS

Although the over-all budget for this category indicates an increase of \$2,697,148.00, it should be remembered that this year, for the first time, the Sanatorium Division of the Hospital Department will be appropriated in this section. This will also apply to a portion of the Data Processing Unit which is a new installation this year. There are also funds provided for the extension and improvement of water mains in the Water Department.

Respectfully,

HENRY T. BRENNAN,
Supervisor of Budgets.

APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1963

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1963, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriation for Water Service, current expenses, and the payment to the Metropolitan Water District Commission, Commonwealth of Massachusetts, and for the interest and debt requirements for water purposes be met by the income of said service, and any excess over income, from taxes, as provided for by chapter 488 of the Acts of 1895; that the appropriation for Sewer Service current expenses, payment of maintenance assessments to the Metropolitan District Commission, Commonwealth of Massachusetts, and for the interest and debt requirements for loans issued for sewer purposes be met by the income of said service, and any excess over income, from taxes, as provided for by section 16 of chapter 83 of the General Laws as amended by chapter 311 of the Acts of 1961; that appropriations for the maintenance and operation of parking meters and the regulation of parking and other traffic activities incident thereto, be met by the income from parking meter fees; that the other appropriations hereinafter specified be met by the amount of available funds in the city treasury as certified on January 1, 1963, in accordance with the provisions of section 23 of chapter 59 of the General Laws, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation; by the income of the financial year beginning January 1, 1963; by taxes on the polls and estates in the City of Boston; and by the proceeds of any duly authorized loans.

Ordered, That the appropriation for the Cemetery Division, Parks and Recreation Department, in accordance with the provisions of chapter 13 of the Acts of 1961 be, and hereby is, appropriated from the General Cemetery Fund, to be expended under the direction of the Commissioner, Parks and Recreation Department for the Cemetery Division, the expense of maintenance, improvement and embellishing said cemeteries as is not met by the income of deposits for perpetual care on hand December 31, 1962.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof, including such sums as may be appropriated for the Sewer and Water Divisions of the Public Works Department and so designated in said appropriations as a proper allocation to the Public Works Department General or any subdivision thereof.

Ordered, That all taxes raised to meet the appropriations of the city, and all taxes assessed for meeting the city's proportion of the state tax for the year 1963, or for any other taxes or assessments payable to the Commonwealth, shall be due and payable on July 1, 1963. Interest shall be charged at the rate of 4 per cent per annum and computed from October 1, 1963, on all real estate and personal property taxes remaining unpaid after November 1, 1963, and assessed and payable in the year 1963, before said November 1, 1963, until such taxes are paid. All interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

INFORMATION ON RENEWAL COSTS.

The following was received:

Boston Redevelopment Authority.

January 18, 1963.

Hon. Peter F. Hines, President, Boston City Council.

Dear Mr. President:

In considering urban renewal matters in the current year I think you may find helpful the following information on the local costs of the Boston Development Program and specifically the status of Chapter 121 bond authorizations.

As you know, under existing federal and state law the federal government pays two thirds of the net cost of a renewal project. (There are occasions when a different formula is used, but so far this has not seemed advantageous to Boston.) The net cost is the difference between the total cost of doing a project, i.e., acquisition, planning, overhead, streets, utilities, schools, etc., and the amount received from the disposition of land in the renewal project area. The federal government also pays 100 per cent of relocation payments which the Authority makes to families and business concerns which are required to move out of a project area.

The city's obligation is to provide for one third of the net project cost. Under existing federal law the city may put up its one third of the net project cost in the form of a direct cash contribution or in the form of noncash contributions based upon expenditures for schools, parks, playgrounds, streets, utilities and other facilities or improvements which serve or support the project area. In addition, the city may donate land and buildings in a project area and receive credit for the approved value. (This does not include streets.) There is no one financing pattern which applies to all renewal projects. The financial plan is determined on the basis of whether it is a residential or commercial area and on many other factors as well.

There are obviously major advantages to the city in coordinating its capital improvement program for needed community facilities with its renewal program so that the city's capital expenditures do double duty; that is, they not only provide needed improvements but serve as well to finance the local cost of urban renewal.

There are several means by which the city can provide its share of the costs of urban renewal.

However, before I discuss these in detail, I should like to draw your attention to five major sources of funds which can help reduce the city's direct expenditures for its one third share of net project cost. These are important because the city is not required to provide all the local share from its own resources. Instead, under the law, the city is encouraged to provide funds creditable to the local share from other sources.

1. The use of certain institutional expenditures.

Under section 112 of the Housing Act of 1949, as amended, a community may count as if it were its own expenditures certain moneys spent for land acquisition by eligible hospitals and educational institutions, provided the land involved is used for educational or hospital purposes and is subject to the provisions of an urban renewal plan or approved institutional development plan.

For every dollar of eligible institutional expenditure the city is entitled to two dollars of federal capital grant money.

The city may collect its credits in one project area of the city where they are concentrated and use whatever surplus is not required in that project in other projects. This is known as pooling.

The Authority engaged a consultant to analyze the potential funds involved from this source and his report was submitted to the Authority on November 28. It indicates a total of approximately \$30 million of creditable renewal expenditures. These funds can obtain for Boston \$60 million of federal capital grant funds.

2. Expenditures by other public agencies.

The city may claim credit for expenditures by other public agencies which support urban renewal projects. For example, the MDC skating rink and swimming pool authorized for Charlestown can be counted as if it were a city expenditure in the Charlestown urban renewal financial plan. Certain DPW highway expenditures can also count. It is very difficult to make accurate projections for the total amount of creditable expenditures from this source, but every effort is being made to integrate our program with those of other agencies.

3. Municipal parking garages.

Under existing federal law the city may provide parking garages as part of the local share of project cost. There are many project areas, Government Center being one, where such garages are a necessity if the urban renewal plan is to be successful. The city may build the garages and lease them at rentals sufficient to pay off its capital costs. Thus, this portion of project cost is essentially self liquidating.

4. School Construction.

City expenditures for school construction are partially reimbursed by the Commonwealth. Under existing state legislation Boston bonds for the full cost of a school and then receives, as financial assistance from the Commonwealth over the life of the bonds, 30 per cent of each principal payment. This has a further effect in reducing the city's share of renewal costs. I believe the 30 per cent formula is unfair to Boston and other cities and towns and should be revised upward in recognition of the large volume of school construction which the city faces. Legislation to improve the formula has been presented to the Legislature for its consideration as part of Mayor Collins' 1963 legislative program.

5. Chapter 121 of the General Laws.

Under chapter 121 of the General Laws, the Commonwealth has accepted an obligation to pay up to one half of the local share of urban renewal projects. This statutory provision is in line with legislative action in Connecticut, New York, and a few other states.

Under Massachusetts law the city again must first provide for its full share of the expenditure and then receive back, over a 20-year period, one half of the local share.

We believe this law should be construed to mean that this one half is for the full one half of the local share of a project's cost and is not reduced by whatever credits the city is able to obtain from creditable institutional expenditures, state payments for school construction or for that matter, state or metropolitan expenditures for creditable improvements. Any other interpretation would have the Commonwealth nullifying the local financial assistance allowed by the Congress and by the Commonwealth itself.

Chapter 643 of the 1962 Acts authorized a fund of \$30 million and annual appropriations of \$1.5 million. This estimate was arrived at on the basis of payments the Commonwealth expected to be required to make on projects then programmed.

As the renewal program expands and accelerates in the cities and towns of the state an increase in the amount of the fund will be required if the Commonwealth is to carry out its commitments.

To sum up, considering all five possibilities listed above for reducing the city's own costs, the city should never be in a position of paying more than one sixth of the net cost of an urban renewal project, and in some cases less.

There may be those who will think that this makes Boston's burden too light. However, I should like to call your attention to the fact that the full benefits of these aids can be made available only if we undertake a very large-scale program of the kind now contemplated.

Except for direct state urban renewal aid, a more modest program would not bring these other aids into use. At the same time, with the great extent of blighted areas in Boston, with the deterioration of the tax base and other problems confronting the city, a more modest program will simply not meet Boston's needs.

It is necessary, therefore, if we are to undertake and carry out a program of the scope and dimension required that every effort be made to maximize financial assistance from every quarter.

There may be those who will believe that we lay too much stress on this effort to get financial assistance. It is, of course, sometimes more time consuming, but considering the amount of funds attainable the effort is, in my judgment, very worth-while. Certainly, I think we would all agree that if Boston could afford it, it would be simpler, quicker, and much easier to undertake the whole program without outside money and entanglements. This is not a realistic course. In fact, I think we should all realize that these aids made possible by federal and state legislation are simply a recognition of the inability of cities across the country to renew themselves without outside financial help.

There are two ways in which the city may provide the funds it is required to provide directly. One is by bonding and the other is by direct appropriation from currently available funds. We do not contemplate recommending appropriations from currently available funds except for minor projects until and unless the city receives substantial increases in state aid for nonurban renewal purposes generally or until the state assumes some of the burdens now borne locally here.

There are four principal types of bond authorizations for financing the city's local share.

1. Section 26CC of Chapter 121.

Section 26CC of Chapter 121 authorizes so-called 20-year redevelopment bonds up to 2.5 per cent of the city's assessed valuation, with the approval of the Emergency Finance Board. (Boston has outstanding \$6.5 million of these bonds.) The unused authorization is \$31 million.

2. Section 7 of Chapter 44.

Section 7 of Chapter 44 authorizes general obligation bonds for municipal purposes. Local noncash grants-in-aid such as municipal buildings, police and fire stations, community centers, libraries, sewers and streets can be financed under this section. These bonds vary in maximum length from 10 to 30 years depending upon the purpose for which they are authorized. The limit is 5 per cent of assessed value, and the city's present unused authorization is about \$9 million. The city is retiring existing debt under this category at the rate of approximately \$5 million per year.

In addition to local approval by the City Council, the approval of the Emergency Finance Board is required for use of this authorization.

3. Chapter 645 of the Acts of 1948, as amended.

School construction may be financed outside the debt limit under the provisions of Chapter 645 of the Acts of 1948, as amended. In addition to local approvals these bonds authorizations must have approval of the School Building Assistance Commission and the Emergency Finance Board.

4. Chapter 474 of the Acts of 1946.

Off-street parking garages may be financed outside the debt limit from bonds authorized by Chapter 474 of the Acts of 1946 as amended. The approximately \$6 million remaining in this authorization will be almost entirely committed to the Haymarket Square garage in the Government Center. Legislation increasing this authorization has been submitted for consideration by the 1963 General Court.

With the exception of the parking garage limit, existing statutory authorizations have both sufficient flexibility and sufficient margin for Boston to undertake its share of the expenditures called for in the existing redevelopment program. However, additional light may be thrown on this by the capital budget now being prepared for consideration by the Redevelopment Authority. In conjunction with the capital budget preparation we will also present to the Authority the latest and best estimates available of the amount, kind and scheduling of local capital expenditures called for under the redevelopment program.

In my judgment, it might well be in the public interest for a new comprehensive bonding authorization to be substituted for the various separate alternatives now available. In this connection I think consideration should be given to recent

C. of C. Finds Hub's Economic Muscles Gaining Vast Strength

Boston's fast-growing economic stature is found reflected strongly in a tremendous surge of new business properties by the Greater Boston Chamber of Commerce.

The Chamber's president, Earl P. Stevenson, points out that a recent survey showed a record of \$175 million during 1962. The rate of growth, he said, was 23 per cent greater than in 1961 and 285 per cent over 1957.

The Chamber's research and development department has assembled figures showing that building permits issued during 1962 accounted for \$44.6 million of the new construction. The remaining \$130.4 million represented construction projects announced but not formalized to the permit application stage. Major projects announced by 163 different companies during 1962 cost between \$100,000 and \$15 million.

"Boston will realize \$89.9 million or 51.1 per cent of this new business development," Stevenson said. "This is an increase of \$16.6 over 1961.

"The constant upward trend in major new business development in Greater Boston over the past six years is a definite indication of the economic vigor of the new Boston," he said.

The report of the Chamber's research department showed the major new business development in the Boston metropolitan area for the last six years as follows:

	Million
1957.....	\$61.5
1958.....	\$60.5
1959.....	\$82.4
1960.....	\$96.6
1961.....	\$142.0
1962.....	\$174.9

The Chamber's research unit included in its statistics only major new business development costing a minimum of \$100,000.

Excluded were highways, hospitals, schools, residential construction, and public works.

Of the \$175 million total in 1962, the report showed 22.4 per cent directed to new industrial plants.

The remainder included 21.2 per cent for new office buildings including banks and laboratories, 18.1 per cent for hotels, motels, and restaurants, 17.6 per cent for shopping centers, 12.9 per cent for new stores, 7.1 per cent for warehouses, and .7 per cent for amusement facilities.

21 Police Promotions Include 4 New Captains

Four members of the Boston Police Department were advanced to the rank of captain and four others were promoted to lieutenants by Police Commissioner Edmund L. McNamara on February 26. The advance of 13 patrolmen to the rank of sergeant was announced the following day.

Named to captaincies were:

Lieut. Andrew C. Bulens of 22 Mitchell street, South Boston, attached to Milk street district; Lieut. John T. Hanlon of 59 Birchcroft road, Mattapan, commander of the Tactical Patrol Squad; John T. Corkery of 167 Hamilton street, Dorchester, Back Bay station; and Edward F. Hamilton of 719 Cummins Highway, Mattapan, West Roxbury district.

Those advanced to the rank of lieutenant were:

Sergts. Oscar T. Dubois of 23 Norris road, Hyde Park, East Boston district; Ignatius F. Lukosi of 50 Royal street, Allston, Dudley street station; Herbert C. Rodday, Jr. of 662 Cummins Highway, Mattapan, South Boston district, and Jeremiah E. Ahern, Jr. of 27 Woodhole avenue, Mattapan, Back Bay district.

Commissioner Orders Key Shop Raid Probe

A Board of Investigation has been named by Police Commissioner Edmund L. McNamara to investigate all matters pertinent to the arrests made at Swartz's Key Shop, 364 Massachusetts avenue, and also as regards the TV production, "Biography of a Bookie Joint" to determine whether or not there was any departmental procedural defects or violations of the Rules and Regulations of the Department.

This Board shall have full power to call department personnel before them for examination and shall have complete access to all department records.

The Board of Investigation will consist of the Senior Deputy Superintendent from each department bureau.

The Senior Deputy Superintendents are:

Dennis F. Dalton, Bureau of Inspectional Services; John J. Danehy, Bureau of General Services; John J. Slaterry, Jr., Bureau of Field Operations; Arthur C. Cadegan, Jr., Bureau of Personnel and Training.

Deputy Superintendent John J. Danehy is the senior member of this Board and has been designated as Chairman.

South End Building Revitalization Hailed as Pacemaker for Area

On Monday, February 25, at a little ceremony at City Hall, an FHA-backed loan for \$14,300 was processed. The ceremony was brief. The loan—as loans in this day of high-financing go—was not of a considerable amount.

Yet, it was the conviction of those present, it was the most significant made in Boston that day. Stripped of legal verbiage the papers merely said the money was to be advanced to Mr. and Mrs. William Heisler for the purpose of "doing over" property they own at 127 Pembroke street, South End. Repayment of the loan will be over a 20-year period at the FHA standard rates.

Simple as that. The ceremonial aspect came from the fact that the loan marks an important first step in the rehabilitation of the South End. It marks the cooperation of several city, state, and federal agencies in a sort of "do-it-yourself" plan to aid residents of what is potentially one of the city's top residential areas to push aside the present and past.

Mr. and Mrs. Heisler, long residents of the South End, own the Pembroke Street property. Presently, it is used as a rooming house. When the sun's in the West it's in the shadow of the Prudential Center. It shares with most of the South End a blight which came to the areas many decades back.

The Heislars plan to convert it into a modern, up-and-coming, four-apartment structure that will set the pace for similar properties elsewhere through the South End.

They plan to recondition the entire structure to conform with existing building codes and FHA standards. New utilities; new fixtures; a new interior; a new external face.

The mortgage, financed through the Boston Penny Savings Bank, will include refinancing of a present mortgage on the property. President Richard J. Gardner of the

Boston Penny in granting it, reaffirms his institution's continuing confidence in the city's revival—a confidence shared by the Boston banking community generally.

This initial South End rehabilitation action is part of a pilot demonstration program in the area, bounded by Pembroke and West Brookline streets, Tremont street, and Warren avenue. The pilot program is sponsored jointly by the BRA and the South End Urban Renewal Committee, the

citizens' advisory group to the Authority in the South End. Royal Cloyd, 42 Union park, is chairman of this committee.

The precedent-setting loan to the Heislars has resulted from the close cooperation between the staffs of James A. Feeley, Chief Underwriter for the Boston FHA office, and Mr. Dominic Iadonisi, the BRA's Field Director for Rehabilitation in the South End, in developing acceptable rehabilitation standards for FHA loans. These will undoubtedly serve as the housing criteria for all such rehabilitation loans, under the renewal program, throughout Boston.

Mayor Collins hailed the first FHA-insured renewal loan as, "An outstanding example of cooperative, progressive action and a significant advance toward the achievement of better neighborhoods throughout the city."

Parking Commission, BRA Eye Parking Site

The site of the old Boston Technical High School on Dalton street, practically abutting the Prudential Center, is being eyed closely for a parking facility which will be called upon to handle the great demand to be created when the \$100 million Center is completed.

A study by the BRA and the Boston Traffic Commission indicates that both by geographical

location and ease of access the site offers a potential answer to the problem.

To handle the heavy parking demand not alone of the Center but the new Boston Civic Auditorium as well it is anticipated that a \$1 million 500-car facility will be needed. Initial studies would indicate a five-level municipally-owned ramp on the Dalton Street site could meet the demand.

The Prudential Center will have considerable parking space available as will nearby facilities. However, some 7,000 to 8,000 workers in the Center will place a heavy space levy on these areas and Traffic Commissioner Thomas F. Carty must anticipate overflow demands stemming from big conventions, etc.

The Prudential Tower will have some 1,200 underground spaces with the possibility of 800 more surface spaces. Hotel America will have several hundred underground and surface level spaces but will require them for hotel use only.

The Mayor expressed the hope that the same degree of cooperation and enthusiasm will prevail as the program moves forward and, again, called upon all citizens to take an active part in the renewal process and thereby participate "in the realization of a better community, a better life, and a more promising future."

Muddy River Faces Curbs and Cleanup

Muddy River — the appealing little stream with the nonappealing name — is in for a cleanup and the imposition of a few curbs to quell some of its spring and fall urges toward delinquency.

After a conference with Boston and Brookline officials concerned with the river, the MDC has agreed to set up a crash program which will include dredging and diking operations.

At its best the river attracts landscape artists and camera fiends. At its worst it kicks up shenanigans commonly associated only with larger rivers.

For instance, when it escaped its banks last fall it was accused by the MTA of flooding its Kenmore Station and knocking that important transit facility out of action for a week. It cost the MTA \$300,000 to get back to normal.

The officers, all veterans of the force, were Frederick D. McLean (19 years), Paul Snow (17 years), George Holmes (14 years), and Daniel Flood (35 years).

After an intense, day-and-night investigation following the girl's murder on January 5, the officers took into custody a 15-year-old boy, now being held on a murder charge, on January 16.

The award is the second coming to Detective McLean since it was established. In February, 1958, he was cited for capture of a man wanted for the shooting of a Wareham police officer.

Leo J. McCarthy of Roslindale, a teacher in the Boston school system for 40 years, died at the Lemuel Shattuck Hospital. He served at Boston Latin School for the past 12 years.

He was a graduate of Latin School, Boston College, and attended Gonzaga College, Seattle. His home was at 95 Walter street, Roslindale.

He leaves his wife, two sons, Gerard and Stephen, and a daughter, Mary, all of Dorchester, and two sisters, Sister Mary Agatha, S.C.N., and Sister Etienne, S.C.N., both of Kentucky.

Services were held February 25, with a Solemn Requiem Mass at Sacred Heart Church, Roslindale.

Topping for Hartford Hotel America All Set

Recently, Hartford, Connecticut, had a topping ceremony of its own. The occasion was the lift of a steel beam to the 12th and top floor of the city's new Hotel America in Constitution Plaza. Boston which already has had one topping (Prudential Tower) and is booked for a number in the not too distant future was interested in the Hartford ceremony.

Its own Hotel America (29 stories high) will be among them. And to keep the record straight a third Hotel America is also under construction in Houston, Texas.

Chamber Urges Curbs On Hub's Jaywalkers

The Greater Boston Chamber of Commerce urges Boston acceptance of a proposed ordinance which would authorize the Traffic and Parking Commission to set up rules to control jaywalking.

William L. Hyland, appearing for the Chamber at a Council hearing, said "in the absence of pedestrian safety laws the number of pedestrian deaths and injuries in Boston have been considerably higher than those of comparable cities having such laws."

"Delay in establishing a workable pedestrian control law for Boston," he added, "can only mean needless loss of life."

Cities enjoying greatest success in curbing jaywalking, according to Mr. Hyland, are those which do not rely on law enforcement alone, but give considerable attention to a pre-enforcement period of public education. The Chamber endorsed the program of citizen education outlined by the Mayor's Citizens Traffic Advisory Committee.

The Chamber also offered its cooperation in any public education efforts that would be made in conjunction with the adoption of pedestrian safety laws.

John J. Mahoney

John J. Mahoney, 73, principal of the Barnes Junior High School, East Boston, for the last two decades, died suddenly February 22 at his home, 15 Eustis street, Chelsea.

He was educated at Boston College and Boston State College and was associated with the public school system in East Boston for half a century. He served as a teacher at the Adams and McKay schools and as principal of the Blackinton School before taking over the principalship of Barnes.

He was chairman of the board of trustees of the Chelsea Public Library and a member of the Chelsea Park Commission.

A Solemn Requiem Mass was celebrated at St. Rose Church, Chelsea, February 25.

Mayor's Hike Plan to Date from March 6

On Monday, March 4, Mayor Collins will submit to the City Council a schedule calling for pay raises totaling \$4.5 million for more than 10,000 City of Boston and Suffolk County workers. The raise will date from March 6.

The Mayor said the plan would not adversely affect his pledge to affect a \$1.50 tax cut reduction in 1963.

The schedule calls for \$400 across-the-board raises for patrolmen and privates of the Police and Fire Departments. Officers of the two departments will be recipients of 7 per cent raises.

Other city and county workers will receive raises of \$15 a week down to less than \$1 in a few cases. Under these provisions 3,200 city workers and 800 Suffolk County employees reclassified by the Jacobs report will be affected. Some 2,800 will get 10 per cent raises under the plan.

Kenya's Bishop Wins Instant Friends Here

The Most Reverend Caesar Gatimus, Roman Catholic Auxiliary Bishop of Kenya, came to Boston the other day and almost immediately went native. The soft-spoken Bishop impressed everyone he met. A devoted churchman he radiated an inner piety and concern for his fellow man that commanded universal respect.

And he wasn't without a delightful sense of humor as well.

He was invited by President Peter F. Hines to deliver the invocation at a Council meeting. He did so. President Hines then asked if he would address a few words to the chamber.

"I have been in this country just a little more than 48 hours," said the Bishop modestly, "and so have a lot to learn." Then he brought the house down.

"In a few moments," he added, "I am going to learn about a great American institution. Father Sullivan is going to take me down to Joe and Nemo's for a hot dog."

Boston Gaining in Long Fight on Tuberculosis

The Boston Health Department, City Hospital, and other hospitals of the city were accredited with carrying out an excellent job in detecting many incipient cases of tuberculosis in the last two or three years by Dr. David S. Sherman, medical director of the Boston Sanatorium.

TB remains a very serious health problem, despite the belief of many that the deadly disease is on the wane, Dr. Sherman told a recent City Council hearing. Today Boston ranks sixth in the nation in the incidence of the White Plague. "We were No. 1 not too long ago," Dr. Sherman pointed out.

McGrimley Helps Plan E.H.S. '38 Anniversary

Thomas J. McGrimley, member of the Boston Retirement Board, heads the committee planning for the 25th anniversary of the 1938 class of English High School at Hotel Somerset, Thursday, April 25. He may be contacted at his City Hall office or at his home, 3710 Washington street, Jamaica Plain. Other committee members who may be contacted are Frank Calarese, George Brennan, and Seymour Epstein. The E.H.S. 25-year class plans to make the gathering one of the best of alumni reunions.

Joseph H. Curley

Patrolman Joseph H. Curley, 60, a member of the Boston Police Department for 33 years, whose assignment for the past several years was at City Hall, died at his home at 260 Gallivan Boulevard, Dorchester.

Survivors include two brothers who are members of the Boston Police Force, George, a detective at the Roxbury Crossing Station, and Paul, a traffic officer at South Station.

Other survivors are his mother, Mrs. Catherine Curley, a sister, Mary A., both of Dorchester, and two other brothers, Arthur and John Curley, both of Boston.

9 Retiring Assessors Honored by Associates

Nine assessors of the City of Boston, with an accumulative record of service totaling well over 250 years, were honored recently at a banquet marking their retirements. Oldest in point of service was Frank A.

Duggan, who had served the city since 1920. Youngest was James J. Boyle, with 20 years of assessing work behind him.

In point of numbers it is believed the nine retirements at one time is the largest exodus at any one time from a major municipal department. It was caused, in part, by the Assessing Department's reorganization following the ending of part-time assessing practices.

The banquet, held at Hotel Vendome, was sponsored by the City of Boston Assessors Association. Chairman of the function was President Emmett J. Kelly of the Association.

Each guest was presented with a gift and President Kelly was joined by Assessing Commissioner Adolph H. Brauneis in paying a warm tribute to the dedicated work of the group over a long span of years. Both Mr. Kelly and the commissioner expressed their regrets over the loss of the highly-experienced experts and each extended hearty wishes for the retiring officers' health and happiness.

Honored were Frank A. Duggan, William F. Morrissey, Albert Soosman, George A. Maloney, Frank H. Whelan, Thomas P. O'Connor, James R. Farrell, John Lanning, and James J. Boyle.

John J. Brennan

John J. Brennan, retired history department head of Girls' Latin School, died at his home, 57 Parsons street, Brighton, at the age of 63. His death was unexpected. He retired in 1954.

A Solemn Requiem Mass was celebrated at St. Columbkille's Church, Brighton, by his brother, the Rev. Thomas Brennan, S.J., of Immaculate Conception Church, South End.

Rita M. Muldoon

Miss Rita M. Muldoon, retired teacher of the Andrew Jackson Elementary School, Allston, died at her home, 705 Cambridge street, Brighton, February 23. She was 64.

Miss Muldoon was a member of the National Retired Teachers Association. She was the daughter of the late Sergeant Michael J. Muldoon of the Boston Police Department. Funeral services were held at St. Columbkille's Church.

TWO HUNDRED AND FIFTY TWO YEARS:—That's the total number of years of service recorded by these retiring members of the Boston Assessing Department. They're shown here with Assessing Commissioner Adolph H. Brauneis at a banquet in their honor at Hotel Vendome. Left to right (back) James R. Farrell (1937); George A. Maloney (1931); Frank H. Whelan (1933); William F. Morrissey (1922); James J. Boyle (1943); Thomas P. O'Connor (1931); (front) President Emmett J. Kelly of the Boston Assessors Association; Commissioner Brauneis; John Lanning (1937); and Frank A. Duggan (1920).

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws, (Ter. Ed.), chapter 149, sections 26-27D, as amended, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids will be deemed to relate to that signed set of specifications for the project on file at the office of the Awarding Authority as designated above and bidders will act at their own risk if any variance exists between the aforesaid set of specifications and the set (or sets) of specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of specifications furnished to the bidder is a true and complete copy of the set of specifications on file as aforesaid.

Specifications and other contract documents may be obtained at the office of the Awarding Authority, on and after 11 A.M., Monday, March 4, 1963.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities. The Awarding Authority also reserves the right to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D of chapter 149 of the General Laws, as amended.

DEPARTMENT OF SCHOOL BUILDINGS.

INVITATION FOR GENERAL BIDS FOR ADDITIONS AND ALTERATIONS TO HEATING SYSTEM IN THE LONGFELLOW SCHOOL, SOUTH STREET, ROSLINDALE, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed general bids for additions and alterations to heating system in the Longfellow School, South street, Roslindale, Mass.

General bids will be received up until twelve o'clock noon, Tuesday, March 12, 1963, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on the form for general bid obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority, at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded), from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible general bidders may be withdrawn prior to execution and delivery of the general contract, unless an award has been made upon expiration of the prescribed time therefor.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful general bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

The general bids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Superintendent of Construction of the Department of School Buildings designated above and bidders will act at their own risk if any variance exists between the aforesaid plans and specifications and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the plans and specifications furnished to the bidder is a true and complete copy of the plans and specifications on file as aforesaid.

Plans and specifications and other documents may be obtained at the office of the Awarding Authority.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do, in accordance with section 44D, chapter 149, of the General Laws, as amended.

TRAFFIC RULINGS
Permanent
OFFICIAL ADVERTISEMENT
TRAFFIC AND PARKING DEPARTMENT

February 13, 1963.

Whereas, The Traffic and Parking Commission is not in session. Now, therefore, under the authority granted to me under St. 1929, c. 263, s. 2B, as amended, I hereby promulgate the following:

That the Traffic Rules and Regulations of the City of Boston are amended as follows, effective March 2, 1963:

Article I. Section 1 (Definitions), is amended by striking out the following:

AUTHORIZED EMERGENCY VEHICLES. Boston Traffic Department, Parks and Recreation Department, Police Department, Fire Department and United States mail vehicles, fifteen (15) vehicles being used by Special Delivery Messengers of the United States Post Office for the delivery of United States mail and bearing suitable identification cards signed by the Postmaster of the Boston Postal District, one (1) vehicle of the Boston Housing Authority bearing suitable identification, repair and emergency vehicles of municipal, state and public service corporations, and ambulances.

ANY VEHICLE BEING USED BY THE MAYOR OF BOSTON.

LOADING ZONE. That portion of a roadway adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials, indicated by yellow paint applied to the adjacent curb, marking the limits of the reserved area, as authorized by the Boston Traffic Commission.

OFFICIAL CURB MARKING. That portion of a curbing, the painting of which has been authorized by the Commissioner of Traffic and Parking, and which has the written approval of the Department of Public Works, Commonwealth of Massachusetts.

OFFICIAL STREET MARKING. Any painted line, legend, marking or marker of any description painted or placed upon any way which purports to direct or regulate traffic and which has been authorized by the Boston Traffic Department and which has the written approval of the Department of Public Works, Commonwealth of Massachusetts.

OFFICIAL TRAFFIC SIGNALS. All signals, conforming to the standards prescribed by the Department of Public Works, Commonwealth of Massachusetts, and placed or erected by authority of the Boston Traffic Department, for the purpose of directing or warning traffic.

OFFICIAL TRAFFIC SIGNS. All signs, markings and devices, other than signals, which conform to the standards prescribed by the Department of Public Works, Commonwealth of Massachusetts, and placed or erected by authority of the Boston Traffic Department for the purpose of guiding, directing, warning or regulating traffic.

Article I, Section 1 (Definitions), is amended by inserting in its proper place in the alphabetical arrangement each of the following:

AUTHORIZED EMERGENCY VEHICLES. Traffic and Parking, Police, Fire and Civil Defense Departments, any vehicle being used by the Mayor of Boston, United States mail vehicles, fifteen (15) vehicles being used by Special Delivery Messengers of the United States Post Office for the delivery of United States mail and bearing suitable identification cards signed by the Postmaster of the Boston Postal District, one (1) vehicle of the Boston Housing Authority bearing suitable identification, repair and emergency vehicles of municipal, state and public service corporations, and ambulances.

INTERSECTION. The area embraced within the extensions of the lateral curb lines, or, if none, then the lateral boundary lines, of intersecting ways as defined in Section 1 of Chapter 90 of the General Laws, including divided ways.

The rules and regulations herein contained governing and restricting the movement of vehicles at and near intersecting ways shall apply at any place along any way at which drivers are to be controlled by traffic control signals whether or not such place is an intersection as herein defined.

LOADING ZONE. That portion of a roadway adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials, indicated by yellow paint applied to the adjacent curb, marking the limits of the reserved area, as authorized by the Commissioner of Traffic and Parking.

OFFICIAL CURB MARKING. That portion of a curbing, the painting of which has been authorized by the Commissioner of Traffic and Parking, and which has the written approval of the Department of Public Works, Commonwealth of Massachusetts.

OFFICIAL STREET MARKING. Any painted line, legend, marking or marker of any description painted or placed upon any way which purports to direct or regulate traffic and which has been authorized by the Commissioner of Traffic and Parking and which has the written approval of the Department of Public Works, Commonwealth of Massachusetts.

OFFICIAL TIME STANDARD. Whenever certain hours are named herein they shall mean standard time or daylight-saving time as may be in current use in this city.

OFFICIAL TRAFFIC SIGNALS. All signals conforming to the standards prescribed by the Department of Public Works, Commonwealth of Massachusetts, and placed or erected by authority of the Commissioner of Traffic and Parking, for the purpose of directing or warning traffic.

OFFICIAL TRAFFIC SIGNS. All signs, markings and devices, other than signals, which conform to the standards prescribed by the Department of Public Works, Commonwealth of Massachusetts, and placed or erected by authority of the Commissioner of Traffic and Parking, for the purpose of guiding, directing, warning or regulating traffic.

PRIVATE ROAD OR DRIVEWAY. Every way or place in private ownership and used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.

Article III is amended by striking out the following:

Section 3. Obedience to Traffic Signs and Signals.

When obedience is required by the provision of these regulations, no driver of any vehicle, streetcar, or trackless trolley shall disobey the instructions of any official traffic control signal, parking meter, sign, marker, or legend, unless otherwise directed by a police officer.

Article III is amended by adding each of the following:

Section 3. Obedience to Traffic Signs, Signals and Markings.

The driver of any vehicle or of any streetcar shall obey the instructions of any official traffic control sign, signal, device, marking or legend unless otherwise directed by a police officer.

SECTION 5. EXEMPTIONS.

The provisions of these rules shall not apply to drivers operating in conformity with the direction of an officer, to drivers actually engaged in work upon a highway closed to travel or under construction or repair when the nature of their work necessitates a departure from any part of these rules, to officers when engaged in the performance of public duties which necessitate a departure from any part of these rules, nor to drivers of emergency vehicles while operating in an emergency and in performance of public duties which necessitate a departure from any part of these rules. These exemptions shall not, however, protect the driver of any vehicle from the consequence of a reckless disregard of the safety of others.

Article III, Section 4 (Traffic Signs), is amended by striking out the following:

(1) Sections 2, 3, 7, 8, 11, 12, 13, and 14 of Article IV relating to parking and sections 3, 4, 5, 6, and 7 of Article IVA relating to parking and sections 10, 11, 12, and 14 of Article VI concerning turning and sections 2, 3, 4 and 5 of Article VII relating to the exclusion of vehicles, shall be effective only during such time as official signs are installed and maintained in each block designating the provisions of such sections.

Article III, Section 4 (Traffic Signs), is amended by adding the following:

(1) Sections 2, 3, 7, 9, 11, 12, 13 and 14 and Part 1 of section 18 of Article IV relating to parking and sections 3, 4, 5, 6, and 7 of Article IVA relating to parking and sections 10, 11, 12, and 14 of Article VI concerning turning and sections 2, 3, 4, and 5 of Article VII relating to the exclusion of vehicles, shall be effective only during time as official signs are installed and maintained in each block designating the provisions of such sections.

Article IV, Section 1 (General Prohibitions), is amended by striking out the following:

No person shall allow, permit or suffer any vehicle registered in his name to stop, stand or park in any street, way, highway, road or parkway

under the control of the city in violation of any of the rules and regulations of the Traffic Commission of the City of Boston.

(7) In front of a private driveway.
(8) On a bridge or viaduct, provided signs are erected notifying of such regulation and restriction.

Article IV, Section 1 (General Prohibitions), is amended by adding each of the following:

No person shall allow, permit or suffer any vehicle registered in his name to stop, stand or park in any street, way, highway, road or parkway under the control of the city in violation of any of the rules and regulations of the Traffic and Parking Commission and/or the Commissioner of Traffic and Parking of the City of Boston.

HOSPITAL DEPARTMENT.

INVITATION FOR GENERAL BIDS FOR CONSTRUCTION OF NUTRITION LABORATORY IN THE BASEMENT OF THE VOSE HOUSE "C" BUILDING, BOSTON CITY HOSPITAL, 818 HARRISON AVENUE, BOSTON, MASS.

The City of Boston, acting by the Board of Trustees in charge of its Hospital Department, hereinafter referred to as the Awarding Authority, invites sealed general bids for construction of a new nutrition laboratory for students within the basement of the Vose House "C" Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass.

General bids will be received up until twelve o'clock noon (Eastern Standard Time), Wednesday, March 27, 1963, at the office of the Director of Hospitals, Room 204, Administration Building, Boston City Hospital, 818 Harrison Avenue, Boston 18, Mass., at which time and place they will be publicly opened and read aloud.

General bids must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the general bid shall be completely filled in, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy of the general bid shall be filed with the Awarding Authority at the office designated above, accompanied by a bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,350. The other copy of the general bid shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of general bids.

No general bid may be withdrawn after the time limit for filing general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the opening of the general bids. In addition, no general bid filed by the three lowest responsible and eligible bidders may be withdrawn prior to execution and delivery of the general contract, unless no award has been made upon expiration of the prescribed time therefor.

The rate per hour of wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, sections 26-27D, inclusive, as amended, a schedule of which rates appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

The general bids and subbids will be deemed to relate to that signed set of plans and specifications for the project on file at the office of the Awarding Authority designated above and the bidders will act at their own risk if any variance exists between the aforesaid set of plans and specifications and the set (or sets) of plans and specifications furnished to the bidder by the Awarding Authority. In short, each bidder has the burden of checking to make certain that the set (or sets) of plans and specifications furnished to the bidder is a true and complete copy of the set of plans and specifications on file as aforesaid.

All subbids for a subtrade designated in Item 2 of the general bid form shall be filed with the Awarding Authority, at the above office address, before twelve o'clock noon (Eastern Standard Time), Wednesday, March 20, 1963, at which hour and place they will be publicly opened and read. Every such subbid must be submitted in a sealed envelope with the follow-

ing plainly marked on the outside: title of work, subtrade for which subbid is submitted, subbidder's name, subbidder's business address.

All such subbids must be submitted on the form for subbid furnished by the Awarding Authority, and any such subbid not filed on the form for subbid furnished by the Awarding Authority shall be rejected.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subtrades as listed below, shall be submitted by each subbidder with his subbid as filed with the Awarding Authority:

1. Electrical Work.....\$125
2. Air Conditioning.....\$375
3. Plumbing\$100

No subbid may be withdrawn after the time limit for the filing of subbids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) from the date fixed for the opening of the general bids. In addition, neither the subbids filed by the three lowest responsible and eligible subbidders for a subtrade nor the subbids for the same subtrade as shown on the general bids of the three lowest responsible and eligible general bidders may be withdrawn after the opening of the general bids and for five (5) days (Saturdays, Sundays, and legal holidays excluded) after presentation of a subcontract to the bidder selected for that subtrade by the general bidder selected as the general contractor.

Plans and specifications and other contract documents may be obtained at the second floor of the Sears Building, Boston City Hospital, 818 Harrison Avenue, Boston, Mass., on and after Monday, March 4, 1963, upon deposit of a certified check payable to the City of Boston in the amount of \$25 per set of plans and specifications. The full amount of the deposit will be refunded upon return of all documents in good condition to the Awarding Authority with the general bid, or upon return thereof in good condition to the Awarding Authority, not later than 30 days after the opening of general bids (Saturdays, Sundays, and legal holidays excluded).

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any or all general bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject any subbid on any subtrade if it determines that such subbid does not represent the subbid of a person competent to perform the work as specified or that less than three such subbids were received and that the prices are not reasonable for acceptance without further competition, in accordance with section 44D, chapter 149, of the General Laws, as amended.

CITY OF BOSTON

Proceedings of City Council

Monday, February 11, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M.. President HINES in the chair. Absent, Councilor Coffey.

The Reverend Lawrence J. Poetz, S.V.D., of the Divine Word Missionaries, was escorted to the rostrum.

INVOCATION BY REVEREND
LAWRENCE J. POETZ.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Eternal God, by Whose mercy we are permitted to assemble, be at our side to guide and direct us. Grant us a share in Thy wisdom. We pray that this erring world, with its oppression and misery, may cease to follow the paths of greed and selfishness.

Dear Lord, we ask Thee to relate our lives to the welfare of all the people whom we serve. Keep us close to Thee, that by industry and intelligent devotion to high purpose, we may always act and think as men and women who believe in God and in the ultimate triumph of honesty and justice. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

DUMPING AT COLUMBIA POINT
SECTION.

The following was received:

City of Boston,

Office of the Mayor, February 11, 1963.
To the City Council.
Gentlemen:

The resolution adopted by your Honorable Body on February 4, 1963, to the effect that I take immediate steps to give full force and effect to the 1962 act forbidding dumping in the Columbia Point section of Boston prompts me to inform you that Dr. John T. Foley, Temporary Health Commissioner, has advised me that on February 7, 1963, he revoked, effective forthwith, the permit he had issued on January 3, 1963, to Mile Road Corporation to dump ashes and house refuse on vacant land located on the southeast side of Mt. Vernon Street Extension, Dorchester, pending the adjudication by the Supreme Judicial Court of Massachusetts of the constitutionality of the statute in question, namely, chapter 583 of the Acts of 1962.

Respectfully,

JOHN F. COLLINS, Mayor.

SALE OF PORTIONS OF HARTFORD AND
WENDELL STREETS TO BOSTON
BRITISH PROPERTIES, INC.

The following was received:

City of Boston,

Office of the Mayor, February 11, 1963.
To the City Council.
Gentlemen:

I transmit herewith communication received from James W. Haley, Chairman of the Public Improvement Commission, recommending the sale of approximately 9,153 square feet of land, more or less, being portions of Hartford street and Wendell street, Boston Proper, to Boston British Properties, Inc., for the sum of \$137,000.

Boston British Properties, Inc., have acquired all of the abutting land with the exception of one parcel and contemplate the erection of a new commercial building which would be the largest such building constructed in downtown Boston in recent years. Boston British Properties, Inc., emphasize that its proposed new structure would include the parcels of land now discontinued.

I transmit herewith order authorizing the sale of 9,153 square feet of land, more or less, to Boston British Properties, Inc., and recommend the speedy adoption of the same by your Honorable Body.

Respectfully,

JOHN F. COLLINS, Mayor.

January 10, 1963.

Hon. John F. Collins,
Mayor of Boston.

Dear Mr. Mayor:

On October 25, 1962, the Public Improvement Commission received a petition from Boston British Properties, Inc., for the discontinuances, as public highways, of Hartford street, from High street to Wendell street; and Wendell street, from Hartford street to Oliver street, in the Boston Proper district, together with a request to purchase the City of Boston's interest in the discontinued areas of the streets.

A public hearing was held November 27, 1962. The Boston British Properties, Inc., at this hearing pointed out that they had acquired all of the abutting land, except one parcel, in the process of assembling a site for the erection of what would be the largest new commercial building in downtown Boston in many years. The attorney representing the only other abutter, Wolfers, Inc., appeared at the hearing and was in favor of the discontinuances. The petitioner explained that its proposed site included both Hartford and Wendell streets and title to each would be necessary before the project could be completed.

On January 8, 1963, the Public Improvement Commission voted to discontinue both streets and its orders are forwarded herewith for your approval. The commission has also determined that the land lying within the discontinued areas of Hartford and Wendell streets is no longer required for public purposes and its fair value is \$137,000 and recommends that a sale be made for this sum.

Respectfully,

JAMES W. HALEY, Chairman,
Public Improvement Commission.

Whereas, By an order of the Public Improvement Commission of the City of Boston dated January 8, 1963, Hartford street, from High street to Wendell street; and Wendell street, from Hartford street to Oliver street, in the Boston Proper district, were discontinued as public highways, subject to the approval of the Mayor of Boston; and

Whereas, Boston British Properties, Inc., desires to acquire said parcels of land and has offered to pay therefor the sum of one hundred thirty-seven thousand (\$137,000) dollars; and

Whereas, The Public Improvement Commission of the City of Boston has determined that said parcels, containing nine thousand one hundred and fifty-three (9,153)

square feet of land, more or less, are no longer required for public purposes; now, therefore, it is hereby

Ordered, That the Mayor of the City of Boston be, and he hereby is, authorized to sell a certain parcel of land situated on Hartford street, from High street to Wendell street, bounded and described as follows:

Southeasterly by High street, twenty-nine and 72-100 feet; southwesterly by the southwesterly line of Hartford street as hereby discontinued, by two measurements, one hundred thirty-two and 22-100 feet and fifty-three and 53-100 feet; northwesterly by Wendell street as discontinued under an order of the Public Improvement Commission and Mayor dated January 8, 1963, twenty-nine and 17-100 feet, and northeasterly by the northeasterly line of Hartford street as hereby discontinued, one hundred seventy-seven and 97-100 feet, containing five thousand two hundred thirty square feet, more or less.

Also another parcel of land situated on Wendell street, between Hartford street and Wendell street, bounded and described as follows:

Northeasterly by Oliver street, twenty-seven and 24-100 feet; southeasterly by the southeasterly line of Wendell street as hereby discontinued, by two measurements, fifty-four and 02-100 feet and sixty and 48-100 feet; again southeasterly by Hartford street as discontinued under an order of the Public Improvement Commission and Mayor dated January 8, 1963, twenty-nine and 17-100 feet; southwesterly by the southwesterly line of Wendell street as hereby discontinued, twenty-seven and 37-100 feet, and northwesterly by the northwesterly line of Wendell street as hereby discontinued, one hundred forty-one and 97-100 feet, containing three thousand nine hundred twenty-three square feet, more or less.

The above-described parcels of land are shown on a discontinuance plan, "Hartford Street, Wendell Street, Boston Proper, January 7, 1963, John J. McCall, Division Engineer."

And to execute and deliver an instrument in writing satisfactory in form to the Corporation Counsel of the City of Boston to Boston British Properties, Inc., a corporation duly organized and existing under the laws of the Commonwealth of Massachusetts, with a principal place of business in Boston, Massachusetts, conveying all the City of Boston's right, title, and interest in and to the parcels of land hereinbefore described.

Referred to the Committee on Public Lands.

Proceedings of City Council.

Monday, February 18, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HINES in the chair. Absent, Councilors Coffey, Piemonte, and Tierney.

The Reverend Peter A. Shakalis, Curate at St. Joseph's Rectory, Allen street, West End, was escorted to the rostrum.

INVOCATION BY THE REVEREND PETER A. SHAKALIS.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Eternal God, mindful of Thy presence here in our midst we bow our heads in suppliant adoration. We thank Thee for Thy gracious bounty and ask forgiveness for having transgressed Thy laws.

We pray for Thy blessing on all those who are here today. May Thy grace enlighten our intellects and strengthen our wills that as we deliberate on the issues before us, we may always act in a manner pleasing to Thee, our eternal Judge. Thus we may be worthy of Thy continued beneficence of peace and freedom ever preserved in our beloved City of Boston.

In this spirit of dependence on Thy divine providence, we pray Thy will be done on earth as it is in heaven. Amen.

STEPS TO CHECK EROSION OF HILL AT WINDHAM ROAD DEVELOPMENT.

The following was received:

City of Boston,

Office of the Mayor, February 13, 1963.

To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Public Works concerning your order of January 21, 1963, with reference to the erosion of the dirt hill at the Windham Road Development in Hyde Park.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Public Works Department,

February 6, 1963.

Albert Kramer,

Administrative Assistant, Mayor's Office.

Dear Sir:

Reference is made to the following City Council order dated January 21, 1963:

"Ordered, That the Public Works Commissioner be, and is hereby, requested to take any and all steps and actions necessary to curb the erosion of the dirt hill at the Windham Road Development in Hyde Park and repair any and all damages done thus far by such erosion."

The erosion complained of is in land neither owned, operated, or controlled by the Public Works Department. I feel that "to take any and all steps and actions necessary to curb the erosion of the dirt hill" and "repair any and all damages done thus far by such erosion," is beyond the scope of the powers of the Commissioner of Public Works, as outlined in chapter 21 of the Revised Ordinances of 1961.

At the request of the Real Property Commissioner, this department is in the process of preparing a plan and estimated cost which, when completed, will be submitted to the Real Property Commissioner.

Respectfully,

JAMES W. HALEY, Commissioner.

Referred to the Committee on Public Services and Recreation.

STATISTICAL DEPLOYMENT OF UNIFORMED BRANCH OF POLICE DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, February 14, 1963.

To the City Council.

Gentlemen:

I transmit herewith communication from the Police Commissioner relative to your resolution of February 4, 1963, with reference to the statistical deployment of the uniformed branch of the Police Department during the month of October, November, and December, 1962.

Respectfully,

JOHN F. COLLINS, Mayor.

City of Boston,

Police Department, February 14, 1963.

Albert Kramer,

Administrative Assistant, Mayor's Office.

Dear Sir:

In response to the attached Council order dated February 4, 1963, reading as follows:

"Resolved, That the Police Commissioner, through his Honor the Mayor, be directed to submit forthwith to the Boston City Council the statistical deployment of the uniformed branch of the Police Department during the month of October, November, and December 1962."

I submit herewith, in triplicate, figures covering the deployment, on a daily basis, of the uniformed branch of this department during the months of October, November, and December 1962.

Very truly yours,

EDMUND L. McNAMARA,

Police Commissioner.

(The statistics referred to in the foregoing communication are annexed hereto.)

LEGAL OPINION ON PAYMENT OF OVERTIME TO CERTAIN EMPLOYEES.

The following was received:

City of Boston,
Law Department, February 14, 1963.
To the Honorable the City Council.
Gentlemen:

This is written to inform you and at the same time make a matter of public record that I have this day written the Director of Administrative Services as follows:

"This is in answer to yours of February 7, 1963, concerning a purported amendment of Chapter 3 of the Revised Ordinances of 1961 passed by the City Council on June 25, 1962, returned by the Mayor on July 5, 1962, with his objections thereto in writing, and notwithstanding the disapproval of the Mayor, again passed by the City Council on February 4, 1963.

"In my opinion, this purported amendment of chapter 3 of the Revised Ordinances of 1961 is ineffectual for several reasons. In the first place, the vital words 'Be it ordained by the city council of Boston, as follows' are lacking. See St. 1881, c. 229, s. 3. Rev. Ord. (1961), c. 1, s. 2. Second, the subject covered by the purported amendment was already

completely and comprehensively covered by G. L. c. 149, s. 33B (which is in force in Boston having been accepted by an order passed by the City Council on December 28, 1950, and approved by the Mayor on January 12, 1951), so that there is no room for an ordinance. *Commonwealth v. Wolbarst*, 319 Mass. 291, 295. Third, the purported amendment, if given effect, would interfere in the conduct of the executive or administrative business of the City in contravention of St. 1948, c. 452, s. 17G, as appearing in St. 1951, c. 376, s. 1."

Respectfully,
ARTHUR G. COFFEY,
Corporation Counsel.

Placed on file.

INVITATION FROM BOSTON PUBLIC WORKS EMPLOYEES, LOCAL 445.

A communication was received from Boston Public Works Employees, Local 445, extending an invitation to the City Council to attend its meeting on Monday, February 18, 1963.
Placed on file.

REPORT OF COMMITTEE ON CONFIRMATIONS.

Coun. IANNELLA, for the Committee on Confirmations, submitted the following:

1. Report on appointments by the Mayor (referred February 11) of Gaetano Silverio and Julius Lishe as constables with authority to serve civil process upon filing of bond for the term ending April 30, 1963—recommending that the appointments be confirmed.

2. Report on appointment by the Mayor (referred February 11) of James P. Cronin as constable with authority to serve civil process upon filing of bond for the term ending April 30, 1963—recommending that the appointment be confirmed.

3. Report on appointment by the Mayor (referred February 11) of Samuel J. Smyth as weigher of goods for the term ending April 30, 1963—recommending that the appointment be confirmed.

The reports were accepted, and the appointments were severally confirmed.

REPORT OF COMMITTEE ON URBAN REDEVELOPMENT, REHABILITATION AND RENEWAL.

Coun. McDONOUGH, for the Committee on Urban Redevelopment, Rehabilitation and Renewal, submitted the following:

1. Report on message of the Mayor and two resolutions (referred January 28) for application for State urban renewal assistance grants for New York Streets and West End projects—recommending that the resolutions be adopted.

The report was accepted, and the resolutions were severally adopted.

2. Report on message of the Mayor and resolution (referred January 21) approving urban renewal plan for Washington Park project. The committee reports as follows:

The Committee on Urban Redevelopment, Rehabilitation and Renewal to whom was referred on January 21, 1963, a resolution approving a plan for the Washington Park Project area and a relocation program concerning the same project area reports as follows:

The Washington Park Project area is now going downhill at such a pace one questions whether at this date anything can be done to make it a decent place in which to live. It is your committee's belief, after a number of on-site inspections of the area that governmental action alone cannot reverse the rapid rate of deterioration of existing housing stock no matter how many tax dollars are expended there. There is a feeling among committee members that the problem of the Washington

Park area is far greater than the Urban Renewal Program alone is equipped to deal with.

Anything more than the most casual observation of the area reveals a need for enforcement of the basic health and sanitation laws so as to prevent the continued milking of tenements by absentee landlords, as well as a more vigorous effort on the part of the city to keep streets and other properties owned by the city in a tolerably clean condition. Without an enthusiastic and intense effort to face up to and overcome the later problems, this project cannot succeed despite the glowing hopes which in large measure are inspired by the publicity in which this project has been and continues to be bathed.

In summary, your committee feels that this plan can work only if there is a total commitment to make it work on the part of the city, the property owners, and the people who live in the project area.

In the hope that with these commitments a speedy implementation of this Urban Renewal plan can make the Washington Park area a more desirable place in which to live, work and play, your committee recommends the adoption of the resolution.

For the Committee,

PATRICK F. McDONOUGH, Chairman.

The report was accepted, and the foregoing resolution was adopted.

3. Report on message of the Mayor and two resolutions (referred January 21, 1963) on Urban Renewal Projects within the City of Boston will be open to all occupants without regard to race, color, creed, or national origin. The report was accepted, the resolutions were severally adopted.

REPORT OF COMMITTEE ON CLAIMS.

Coun. McDONOUGH, for the Committee on Claims, submitted the following:

1. Report on petition of Louis A. Vangel (referred February 11) to be reimbursed as a result of an execution issued against him on account of his acts as an employee of the Public Works Department—recommending passage of the accompanying order:

Ordered, That the sum of two hundred seventy-six dollars and twenty-five cents (\$276.25) be allowed and paid to Louis A. Vangel in reimbursement for amount of execution issued against him on account of his acts as an employee of the Public Works Department, said sum to be charged to the appropriation for executions of Court, Damage Claims and Reimbursements.

The report was accepted, the order was passed.

RESTRICTIVE POLICIES OF MASSACHUSETTS PORT AUTHORITY AT LOGAN AIRPORT.

Coun. FOLEY offered the following:

Be it Resolved, That the Boston Redevelopment Authority as it is the Planning Board of the City of Boston be requested to consider the impact upon the economy of the City of Boston because of the restrictive policies adopted by the Massachusetts Port Authority. Boston ranks 112 nationally with respect to general aviation activities at Logan International Airport.

The resolution was adopted under suspension of the rules.

Adjourned at 3.20 P.M., on motion of Councillor Iannella, to meet on Monday, February 25, 1963, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

Mayor Urges Action on President's Transit Aid Plan

Mayor Collins headed a delegation of Boston spokesmen to urge at a Washington hearing before the House Committee on Banking and Currency favorable action on President Kennedy's \$500 million urban transportation program.

Mayor Collins played a dual role when he spoke before the committee. He not only expressed the official municipal position of Boston in connection with the program but he also acted as vice president of the American Municipal Association.

He was accompanied to Washington by Attorney Richard Sullivan, of the Greater Boston Chamber of Commerce Transportation Committee.

Mayor Collins warned that "the growing plight of public transportation can no longer be ignored. Transit companies and commuter railroads, whether privately or publicly operated, are carrying fewer people paying more for a slower ride, for the most part."

What is needed, he said, "is the combined effort on all levels of government and the complete co-operation of all the carriers."

To help solve the increasingly critical commuter transportation problem now facing most major American cities, the Mayor recommended that:

1. A national policy be established by Congress for a balanced and coordinated transportation system.

2. Federal, state, and local governments be asked to develop equitable tax policies for mass-transportation systems.

3. Grants-in-aid be provided on a two-thirds federal and one-third local matching basis, for communities or duly constituted public bodies "which have a sound plan for the permanent improvement of commutation or other intracity transportation facilities, both publicly and privately owned."

4. Federal loans be made available to cities "or publicly constituted bodies" for new equipment and improved facilities.

Federal assistance to high-speed transit and commuter railroads "should not have the effect of increasing the base by which rates are determined nor should any exclusive state or local assistance to

such carriers increase the carriers' liability for federal income taxes," Mayor Collins said.

He told the committee that the legislation under consideration "contains the basic ingredients" to meet these objectives.

"The nation cannot give up public transportation. We must provide buses, rapid rail facilities, and commuter railroads as a public service," Mayor Collins emphasized.

In discussing the situation in Boston, the Mayor told the committee that the "existing mass-transportation network is not adequate and continually threatens to hold back the economic upsurge" of the area.

Best Seller Hails Work of John Boyle O'Reilly

By EMMETT KELLY

No greater advocate of freedom and no better servant of the cause of man's liberty ever lived than John Boyle O'Reilly. Soldier and journalist; poet and editor—he gave a lifetime to the cause of man.

Yet, his name would have been lost to history if the prison the English built in Fremantle, Australia, back in the mid-1800s had lived up to the escape-proof guarantee of which its planners had boasted. It didn't. John Boyle O'Reilly not only escaped its walls—he lived to preach his gospel of freedom.

He was born in 1844 and died in 1890. In between he packed some action the like of which is given to few men.

The Fenian Brotherhood was a secret society formed in New York in 1856. It was exported to Ireland the following year. It was a society of men of Irish blood who delved deep into Erin's history to find its guiding principles—way back to the warrior days of Finn Mac Cool.

In 1865, when he was only 21, John Boyle O'Reilly was an active member of the Fenians—so active that he and seven other Fenians found themselves one day aboard a British vessel under sentence of a lifetime of servitude in the Australian penal institution.

With the aid of a priest and a wandering American whaler he escaped the escape-proof penitentiary and reached Boston.

In 1875 he conspired with John Devoy of the Fenian Brotherhood to purchase the barque "Catalpa" moored in East Boston for the rescue of his six Irish compatriots languishing in Australia. Sailing out of New Bedford under Capt. George S. Anthony with clearance as a whaler, the ship rendezvoused off the Australian coast with a land party headed by John Breslin. With aid through the same priest, who helped his own escape, the prisoners were liberated and rushed aboard the "Catalpa."

An English gunboat pursued and fired at the Yankee whaler. Captain Anthony defied the British to shoot again and risk an international incident. The British held fire and the "Catalpa" sailed to America.

This stirring saga of the sea is narrated in "The Emerald Whaler" a factual, historical adventure novel written by William J. Laubenstein, Boston newspaperman. The book has been published in England and Australia, has been serialized in Ireland and will soon see print in Germany.

USS "Boston" Gets Gala Welcome on Return

The USS "Boston," the nation's first guided missile cruiser and her complement of 1,400 officers and men, was tendered a real reception when she came up Boston Harbor recently after a seven-month tour of duty in the Mediterranean.

In honor of her arrival at her South Boston pier, Mayor Collins proclaimed "USS Boston Day." During her tour abroad the cruiser visited 13 ports and delivered \$100,000 worth of hospital and other equipment to institutions in lands bordering on the Mediterranean.

She left Boston, August 3. She will remain here for an overhaul at Boston Naval Shipyard.

Nine District Chiefs Named for Fire Dept.

Fire Commissioner Thomas J. Griffin announced his appointment of nine captains of the Boston Fire Department to the rank of district chiefs on March 5. The promotions were the largest in point of numbers made at any one time in the department's history.

The nine captains headed the Civil Service list from which they were chosen. The Fire Department now has 46 district chiefs.

The new district chiefs and their assignments are:

William T. Kenneale, 360 Silver street, South Boston, to the Special Service Unit; Angelo Corolla, 35 Charter street, North End, to East Boston and Charlestown fire districts; Ralph H. Reis, 19 New Haven street, West Roxbury, to Special Service Unit; Daniel L. McCarthy, 9 Van Winkle street, Dorchester, to Headquarters.

Also, Frank A. Sikora, 74 Clement avenue, West Roxbury, to Headquarters; William H. Pineo, 16 Greylock road, Allston, to Headquarters; Stephen F. McMahon, 48 Lexington avenue, Hyde Park, to Headquarters; James J. Hartnett, 64 Arlington street, Hyde Park, to Brighton and Roxbury fire districts, and Richard J. Lane, 51 Avalon road, West Roxbury, to Headquarters.

Colorful AF Band in Big March 18 Parade

The colorful 579th Air Force Band, USAF, from Stewart Air Force Base, New York, has accepted Chief Marshal Joseph W. Walker's invitation to participate in this year's March 18th Evacuation-St. Patrick's Day parade.

Band Commander Vernon E. Proctor, CWO-W4, USAF, will lead the outstanding Air Force musical unit as it marches for the second consecutive year in South Boston.

Mayor Heads Delegation Seeking "EI" Demolition

Mayor Collins headed a delegation of nearly 1,500 persons representing government, business, labor, churches, the MTA, and the man-on-the-street at a hearing before a legislative committee considering bills for abolition of the Charlestown overhead Elevated structure.

The hearing, conducted at the Gardner Auditorium of the State House on the night of March 4, was on bills which would not only abolish the structure between North Station and Everett but permit the MTA to extend rapid transit service to Malden, Medford, Melrose, and beyond.

"The structure," Mayor Collins told the committee, "has been a curse upon the town." He said that the bills represented the most important transport legislative proposals due to come before the General Court this session.

"The State is not asked to spend a dime," said his Honor. "It is only called upon to authorize the communities of the MTA district to share approximately one half the costs of this improvement."

"You owe this to us," the Right Rev. Gerard Shea of St. Catherine's Church, Charlestown, declared. "This is just a case of restitution for planting this horrible monstrosity on us in the first place."

Among others joining the Mayor in pleading for favorable action were a representative of Governor Peabody, MTA General Counsel Edward L. McLaughlin, Mayor Philip J. Crowley of Everett, Mayor Walter Kelleher of Malden, The Greater Boston Chamber of Commerce, North Station businessmen, the Charlestown Federation of Organizations composed of 52 Charlestown organizations with 18,000 members, Rep. Frank Tanner, whose district takes in sections of Wilmington, Reading, and Woburn, and the legislative delegations from Cambridge, Malden, Somerville, and Everett.

MDC Plans Overpass In Charlesgate Area

Basic plans for a \$3½-million overpass designed to ease a major traffic bottleneck in the Charlesgate area have been approved by the MDC. The plans call for an overhead structure which will run from Storrow Drive over Beacon street, meeting with the MDC's Fenway road system.

According to MDC engineers the new link would enable motorists attempting to leave and enter Storrow Drive in both inbound and outbound traffic patterns to avoid the present cross traffic at Storrow Drive, Beacon street and Commonwealth avenue.

An integral part of the plans would bring about the creation of a large traffic circle in the

City Wins Decision on South Station Taxes

The City of Boston has won its tax battle with the railroad-owned Boston Terminal in collecting back taxes for the years 1957 through 1959.

The state Supreme Court upheld the decisions of the Appellate Tax Board to which the New Haven and New York Central Railroads

appealed, validating over \$3-million in taxes levied by Boston on the South Station and adjacent property.

John J. Riley, Jr., of the Boston Assessing Department, said the action of the state Supreme Court was "a clear-cut victory for the city."

He said the matter would now be placed in the hands of the city Law Department, to determine ways and means of collecting the taxes. The New Haven Railroad has been in bankruptcy for several years.

Mr. Riley also disclosed that "several big cases," involving tax abatements, petitions on other railroad properties owned by the New Haven Railroad, would be coming before his board.

J.P.H.S. Star Wins 1st Burnett Sports Award

First award of the Dr. Joseph C. Burnett Sportsmanship Award, named for the late City Hospital staff member who was associated with schoolboy sports in Boston for many decades, has been made to Wayne Burke of the Jamaica Plain High School hockey team. Present at the presentation was Chairman Joseph Tomasello of the Arena Authority and High School Director of Athletics Joseph McKernan and Mrs. Burnett.

Dr. David Scannell

Dr. David Scannell, former chairman of the Boston School Committee and long associated with the faculty of the Harvard Medical School and the staff of Boston City Hospital, died on March 3.

Born in the North End he prepared for Harvard and Harvard Medical School at Boston Latin. At Harvard he won his letters in football and baseball, gaining all-American rating for his work on the diamond.

He began his medical career with an internship at Boston City Hospital. He was appointed to the staff in 1903 and served until 1936, the last five years as surgeon-in-chief.

He was a member of the Harvard Medical School faculty from 1905 to 1917 and was an assistant professor of clinical surgery at Tufts Medical School from 1910 to 1912.

In World War I, Dr. Scannell served in the Army Medical Corps in this country and in Europe. He spent six months as head of a camp hospital in France. He left the service as a colonel.

In World War II he served as a voluntary consultant to several draft boards.

New Fire Fighter Tests To Be Held March 23d

Massachusetts Civil Service examinations for the Boston Fire Department will be held Saturday, March 23, it was announced.

Deadline for filing applications for the exam was March 4.

Minimum salary for fire fighters is \$4,880 per annum and the maximum \$5,500 per year.

All applicants must be between the ages of 22 and 35 years of age at the time of filing for an application.

Dr. Peer Johnson

Dr. Peer P. Johnson, former member of the Boston City Hospital staff and a retired surgeon-in-chief of the Beverly Hospital, died at the latter hospital at the age of 87. He graduated from Vermont Medical School in 1900 with highest honors in his class and came directly to City Hospital where he served until he joined the Beverly Hospital staff.

He was a veteran of both the Spanish-American War and World War I.

City Registrar's Report for February

City Registrar Charles H. Mackie announced the monthly figures on Boston births, marriages, and deaths for February, as follows:

	1963	1962
Births.....	1,675	1,506
Marriages.....	334	382
Deaths.....	1,140	1,022
Totals for two months, January and February, are as follows:		
	1963	1962
Births.....	2,729	2,886
Marriages.....	759	800
Deaths.....	2,185	2,032

The above figures refer to births, marriages, and deaths, which occurred in Boston regardless of official places of residence.

Travelers Aid Society Welfare Dept. Guests

Mrs. George Kahn, Board of Overseers Chairman of the Boston Welfare Department, hosted a luncheon on February 26 for the case committee of the Travelers Aid Society of Boston, Inc.

The meeting, held at the Welfare Department's Hawkins Street office, included a briefing on welfare policies and procedures by Public Assistance Director William F. Lally and a tour of the Temporary Home for Women and Children on Chardon street.

Mrs. Kahn, also a member of the Travelers Aid Society Board, suggested the meeting as a means to better acquaint this agency with public welfare facilities available in Boston. Travelers Aid sometimes utilizes the facilities at the Chardon Street Home in their efforts to aid stranded travelers, but for most of the eleven members of the case committee, this was their first look at the Home.

Plaster for Every Floor of Prudential

Hundreds of thousands of people will be going through the Prudential Center, while thousands of persons will be employed within the buildings, particularly the 52-story skyscraper. Boston, it is true, must equip itself fire equipment-wise, to meet this high-rise challenge; but owners like Prudential owe it to the city, its employees, and the general public, to make certain that all possible safeguards are taken during the period of construction.

The designers of the Prudential Tower have done just that by specifying lath and plaster in great abundance.

It is expected that more than two million dollars will be expended on lath and plaster in the Prudential Center buildings before the structures are finally completed.

Plaster will be used on every floor of the 52-story building.

General Order No. 5.

I. RETIREMENTS.

The following retirement, in accordance with the provisions of section 7 of chapter 32 of the General Laws, which will become effective at 8 A.M., March 1, 1963, is hereby announced:

Fire Fighter William F. Galvin, 119 M street, South Boston, of Engine Company 55.

The following retirement, in accordance with the provisions of section 6 of chapter 32 of the General Laws, which will become effective at 5 P.M., February 28, 1963, is hereby announced:

Gardening Laborer Jeremiah H. Doucette, 21 Mt. Vernon street, Brighton, of the Fire Alarm Division.

Fire Fighter Galvin was appointed to the department on January 29, 1947, and Gardening Laborer Doucette was appointed to the department on July 13, 1949. Both of these men leave the department with the best wishes of their associates.

II. HEART FUND DRIVE FOR 1963.

The 1963 Heart Fund Campaign is now under way, and his Honor Mayor John F. Collins has asked the cooperation of all city employees in donating to this worthy cause.

Heart Fund envelopes are being issued to the department today, one envelope for each member. Company commanders and heads of branch divisions shall contact members of their respective commands concerning the drive. Members contributing should place their donation in the envelope provided, print name, address and amount contributed in the space designated on the envelope, and seal the envelope.

The envelopes containing contributions should be forwarded to Principal Clerk Joseph P. Cawley in the Headquarters Division on or before March 5, 1963. Envelopes will be received from 9 A.M. to 12 NOON on all weekdays except Saturdays.

III. FIRE ALARM BOXES INSTALLED.

The following fire alarm boxes, which were established in General Order No. 45, dated November 20, 1962, have been installed and connected as follows:

14-1481, New England Medical Center, Farnsworth Building, 171 Harrison avenue, circuit No. 78.

15-1481, New England Medical Center, Pratt Clinic, 30 Bennet street, circuit No. 4.

16-1481, New England Medical Center, Floating Hospital, 20 Ash street, circuit No. 78.

Company commanders will add above boxes to circuit cards as noted.

IV. CHANGE IN NEAREST BOX FOR A.D.T. SIGNALS.

Due to the removal and discontinuance of Fire Alarm Box 7145, the nearest box for the following A.D.T. Signals will be changed from 7145 to 7143:

A.D.T. Signals 14, 3216, 3217, 3218, 3232, 3363, 3475.

V. FIRE ALARM BOXES DISCONTINUED

The following fire alarm boxes have been removed from service and discontinued permanently:

7145, Stop & Shop, Inc., 393 D street circuit No. 33.

13-4162, James A. McDonald School, Polk street, near Medford, circuit No. 43.

14-4162, Prescott School, Elm street near Medford, circuit No. 44.

Company commanders will return assignment card for Box 7145 to Headquarters and delete the box from the circuit card.

Box 13-4162 and Box 14-4162 will be deleted from assignment card for Box 416 and also from circuit cards indicated.

VI. A.D.T. ASSIGNMENT.

Company commanders shall add the following signal number to running cards of the A.D.T. Company in this department:
Signal 3298, Jordan Marsh Company, unit No. 2, Chauncy and Summer streets. (Sprinkler.) Apparatus to respond: Engine 25, Ladder 8, District 3. Nearest box is 1443.

VII. BOSTON AUTOMATIC ASSIGNMENTS.

Notice has been received from the Boston Automatic Fire Alarm Company that the following signals have been discontinued:

Signal 247, 151-153 Tremont street.

Signal 269, 39-49 Sudbury street.

Signal 524, 68-78 Portland street.

Company commanders shall add the following signals to running cards of the Boston Automatic Fire Alarm Company in this department:

Signal 524, 224 Commonwealth avenue (Sprinkler and Manual.) Apparatus to respond: Engine 33, Ladder 15, District 4. Nearest box is 1577.

Signal 29, 20 Washington street. (Sprinkler.) Apparatus to respond: Engine 13, Ladder 23, District 7. Nearest box is 3352.

Signal 364, Northern avenue, New York, New Haven & Hartford, house No. 4, first floor only. Springmeier Shipping Company. Apparatus to respond: Engine 39, Ladder 18, District 6. Nearest box is 7116.

VIII. HIGH COMMENDATION.

At 8.08 P.M., February 7, 1963, the department responded to Box 2132 for a fire in the dwelling house at 225 Dudley street, Roxbury.

Upon arrival of Engine Company 13, members were ordered by Deputy Fire Chief Frederick P. Clauss to go to the fourth floor of the building and remove the occupants who had been seen from the street. Members proceeded over the front stairway to the fourth floor and entered an apartment which was heavily charged with heat, smoke, and gases.

Fire Fighter William T. Hagerty of Engine Company 13 found two children in a bedroom, carried them to the front hallway, and other members of the company removed the children to the street.

Fire Fighter Hagerty performed this rescue work under very difficult conditions, without regard for his own safety, and his prompt action, in all probability, saved the lives of the children. He suffered severely from inhalation of heat, smoke, and gases.

The Fire Commissioner is pleased to highly commend Fire Fighter Hagerty, and his case is referred to the Board of Merit for further consideration.

During the same fire (Box 2132, February 7, 1963), Joseph F. Hoar of Ladder Company 4 went over the front stairs to the third-floor apartment which was heavily charged with heat, smoke, and gases. He proceeded through the apartment to a rear bedroom and found a woman partially overcome and removed her from the apartment by way of the

rear stairway inasmuch as the front of the apartment, since his entrance, had become fully involved in fire.

Fire Fighter Hoar, in all probability, saved the life of the woman. He was removed to the Boston City Hospital and treated for smoke inhalation and extreme exhaustion.

Because of the fact that Fire Fighter Hoar performed this rescue work under most adverse conditions, at great risk to himself, and without regard for his own safety, the Fire Commissioner is pleased to commend him highly and his case is referred to the Board of Merit for further consideration.

At the same fire (Box 2132, February 7, 1963), Fire Fighter Vincent P. Hurley of Ladder Company 4 climbed a 35-foot extension ladder to the fourth floor of the left side of the building. He entered the apartment, which was heavily charged with smoke and heat and found a two-year-old girl. He brought her back to the ladder and passed her to other fire fighters.

The life of the child was probably saved through the quick action of Fire Fighter Hurley. Due to the severe conditions under which Fire Fighter Hurley performed this rescue work, it was necessary to remove him to the Boston City Hospital where he was treated for smoke inhalation and exhaustion.

Because of the fact that Fire Fighter Hurley made the rescue at great risk and with complete disregard for his own safety, the Fire Commissioner is pleased to commend him highly, and his case is referred to the Board of Merit for further consideration.

All the foregoing rescues were accomplished without the use of gas masks by the members involved.

CONTRACTS AWARDED

The Mayor has approved the award of the following contracts to the lowest eligible bidders:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

PORTLAND CEMENT

For furnishing Portland cement to the various city departments from April 1, 1963, to March 31, 1964, inclusive, awarded to William C. Norcross Company, in the amount of \$5,200, less 20 cents per barrel if invoice is paid within 15 days from receipt of material.

PUBLIC WORKS DEPARTMENT.

HIGHWAY RECONSTRUCTION

For highway reconstruction in Beaumont street, Becket street, Evans street, Franconia street, Fremont street (part), Magdala street, Middleton street, Milton avenue (part), Oakton avenue, Santuit street, Whitridge street, Wilcox road, and Wollaston terrace, in Public Works District 7, Dorchester, awarded to S. J. Tomasello Corporation, in the amount of \$193,865.85.

Other bid was: Charles Todesca, \$212,911.50.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the award of contracts, without advertising, based on the following communications:

DEPARTMENT OF SCHOOL BUILDINGS.

FIRE, BOSTON TRADE HIGH SCHOOL

DEAR MR. MAYOR:

On Tuesday, January 29, 1963, at approximately 9:20 A.M., a fire was discovered in the area at the front of the building below the main offices of the Boston Trade High School. Due to the perishable nature of the contents, by the time the fire fighting was completed a great deal of damage was caused, not only to the combustible matter located there, but to all of the mechanical services incorporated in that portion of the building, and also because of the great intensity of the heat the plaster ceiling and the clay tile portions of the floor slab above cracked and spalled off.

Electrical conduits, some of them very large, including six, 3-inch in diameter, were found bowed and hanging about half way between floor and ceiling, with the insulation fused and dripping out through joints in the pipe. The remaining insulation on the wires was amalgamated so much that it was impossible to pull the wires out of the conduits.

The insulation on the electrical cables from a point as far as 80 to 90 feet from the fire area all melted, and a great part of the rubberized material dripped down on the floor below. In several instances, in sections two

or three rooms away from the room where the fire occurred, insulation around the wires oozed out over the floor, even though one or more doorways intervened. There are no evidences of fire in these rooms or the other intervening room.

In order to insure that the school could be restored to operating condition in the fastest possible time, it became necessary to employ the services of a competent electrical installation firm to replace practically all of the wiring in the fire area, and in the adjacent affected areas, as the main conduits covering the entire building, including the shops, pass through this and adjacent rooms. Due to the fact that the intense heat melted all of the insulation around the above wiring, all of which was encased in steel conduits, it has become necessary to renew all of this equipment.

As it is not practicable to advertise for public bids for work of this type because of the long delay which must ensue before bids are received and the work started, I instructed M. J. Griffin, of 65A Dartmouth street, Boston, a responsible electrical contractor, to begin the work of restoration of the electrical equipment.

Due to the great urgency of the situation and the fact that it is not possible to operate the school because all of the main wiring which serves the shops and lighting is inoperative and must be replaced, I am asking your Honor's permission to dispense with public advertising and negotiate a contract with M. J. Griffin, 65A Dartmouth street, Boston, with the understanding that the cost of the work will not exceed the sum of sixty-two hundred dollars (\$6,200).

A report will be kept of all costs and an inspector stationed full time at the job during the performance of the work.

I am certain that such procedure will be in the best interests of the City of Boston.

Very truly yours,

WILLIAM A. MCPHERSON,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

ALTERATIONS AND ADDITIONS TO AMBULANCE ENTRANCE

DEAR MR. MAYOR:

After public advertising, on May 23, 1962, a contract in the sum of \$99,970, and which was automatically revised to \$106,512.33 by operation of statute, was entered into by the Board of Trustees in charge of the Hospital Department, and J. A. Singarella Company, 15 Bay street, Dorchester 25, Mass., providing for alterations and additions to ambulance entrance, Boston City Hospital.

Your authorization is respectfully requested to dispense with public advertising at this time, and to amend the aforementioned contract in a sum not to exceed \$1,374.70 to cover the cost of work in addition to that covered by the contract but which is both necessary and incidental thereto, the cost of which is considered fair and reasonable. The extra work will consist of revisions to forms and reinforcing; addition of preformed joint filler over existing steam tunnel, as recommended by Boston Building Department; new lighting circuits to be installed to existing panel; install Exit sign and Fire Alarm Station, as required by Boston Fire Department; and will also include installation of a gate in fence between Albany street and Ambulance Entrance Building.

This addition of \$1,374.70 to cover the cost of the aforementioned additional work will result in a new contract price of \$107,887.03.

Respectfully yours,

WILLIAM H. ELLIS, JR.,
President.

DAILY BUS SERVICE

DEAR MR. MAYOR:

I respectfully request your authorization to dispense with public advertising and to award a contract to the Eastern Massachusetts Street Railway Company, a Massachusetts corporation, with offices at 216 Tremont street, Boston, Mass., providing for the furnishing of daily bus service from the rapid transit station at Fields Corner to Long Island Hospital, Boston, Mass., commencing with April 1, 1963, and ending March 31, 1964, at a cost not in excess of \$44,000. The proposed contract will contain the same reasonable rates as they are

currently charging the city for these services.

The aforementioned firm has operated on this bus service since its beginning in the summer of 1951 and has performed the work efficiently and satisfactorily.

On the basis of the foregoing and as this company holds the franchise over the route and since it proposed to continue its service under the existing terms and conditions, it is my opinion that public advertising for performance of the subject bus service would be of no avail.

Respectfully yours,
WILLIAM H. ELLIS, JR.,
President.

SUFFOLK COUNTY.

REGISTRY OF DEEDS.

PHOTOGRAPHIC PAPER

DEAR MR. MAYOR:

I hereby respectfully request from your Honor, written authority to dispense with publicly advertising for bids, and, following the effective date of the 1963 budget, to enter into a contract with Xerox Corporation of 2-20 Haloid street, Rochester, New York, for:

160 rolls, 11 1/2 inches x 300 feet, Grade HH, Photographic Paper Fast Record Duplex, at \$62.25 per roll.

Grade HH, Photographic Paper Fast Record Duplex, shall be coated on Linen Ledger Watermarked stock, 100% White Rag.

Said contract being for the period commencing April 1, 1963, and ending March 31, 1964.

The approximate amount contemplated for expenditure under the proposed contract is \$9,960.

The aforementioned firm, Xerox Corporation, has supplied the Suffolk Registry of Deeds with the same materials for the past several years. Their product has been consistently of the very highest quality. The price quoted for this year's material has not been increased over last year's price. The Xerox Corporation also has agreed to supply all necessary parts and service for the photographic machines with no additional charge.

For the above-mentioned reasons, it is my opinion that no advantage would be gained by publicly advertising for bids.

Yours truly,
JOSEPH D. COUGHLIN,
Register of Deeds.

BLANKBOOK BINDINGS

DEAR MR. MAYOR:

I respectfully request your authorization to dispense with publicly advertising and to engage the services of Thomas Groom & Co., Inc., 105 State street, Boston, Mass., by contract in the total sum not to exceed five thousand twenty-one dollars (\$5,021), to bind in blankbook bindings, whip or cross-stitch for single sheets and for folded sheets, 20 pages to a folder, certain books and indexes, as requested, during the period April 1, 1963, to March 31, 1964, inclusive, in the quantities and at the prices set forth below:

Ninety 1963 Record Books at \$28.75 each, \$2,587.50.

Ten 1963 Registered Land Books at \$35 each, \$350.

Eight 1962 Grantor Classified Indexes on IBM Forms with Jackets at \$34.50 each, \$276.

Five 1962 Grantee Classified Indexes on IBM Forms at \$27.50 each, \$137.50.

Forty 1951-1960 Consolidated Indexes (Hand-written) at \$34.50 each, \$1,380.

Rebinding Old Records, \$290.

Total, \$5,021.

This company has carried out this kind of service in behalf of the Suffolk Registry of Deeds for over fifty years and is presently doing this type of work for other registries in the Commonwealth.

At the present time I am convinced that no other firm in this area is equipped to offer these services. If Thomas Groom & Co., Inc., does not perform these services, it will be necessary for me to hire binders at a large additional expense to the Suffolk Registry of Deeds. For these reasons I feel that no advantage would be derived by publicly advertising for proposals for this work.

Very truly yours,
JOSEPH D. COUGHLIN,
Register of Deeds.

MUNICIPAL COURT, CITY OF BOSTON.

TRAFFIC VIOLATION TAGS

DEAR SIR:

In accordance with the provisions of chapter 216 of the Acts of 1950 and chapter 182 of the Acts of 1951, I respectfully request permission to award a contract for traffic violation tags to the General Manifold and Printing Company, Franklin, Pennsylvania (Boston office, 80 Boylston street, Boston), without advertising, for the balance of the year of 1963.

Reference is made to my letter of November 1, in which I pointed out that the Legislature in 1962 through chapter 788 amended the Parking Violation Law to provide that starting January 1, 1963, parking violation tags be affixed to the motor vehicle rather than mailed to the owner.

As was pointed out also in my letter to you on November 1, this office has been in communication with leading companies of the country qualified to print this type of ticket. The only complete bid received conforming to specifications was from the above-mentioned General Manifold and Printing Company.

At that time a contract was given them for 100,000 tags, although it was indicated in the November 1 letter that we estimated that a total of between 300,000 and 400,000 would be needed for the entire year of 1963. It was deemed advisable to limit the first order to one hundred thousand in case changes were to be made.

We are requesting authority to contract for 250,000 additional tags at a price of \$25.60 per thousand.

This price is made possible because at the same time an order for 262,000 sets of tags is being ordered for the courts in Roxbury, East Boston, Brighton, West Roxbury, South Boston, Dorchester, and Cambridge Courts and also the Massachusetts Port Authority.

The total amount involved in the order for this court, namely 250,000, at \$25.60 a thousand, is \$6,400.

Sincerely yours,
DANIEL J. LYNCH,
Clerk of the Court.

DISCONTINUANCE OF ELM STREET

Boston Proper

The Mayor and Public Improvement Commission have approved the discontinuance of Elm street, Boston Proper district, as a public highway, from Washington street to Dock square.

The project is described as follows:

The highway named Elm street is hereby discontinued from Washington street to Dock square.

Said Elm street as hereby discontinued is bounded:

Westerly by the easterly line of Washington street as discontinued under an order of the Public Improvement Commission and Mayor dated February 5, 1963, forty-one and 19-100 feet; northerly by the northerly line of Elm street as hereby discontinued, by four measurements, twelve and 78-100 feet, thirty-five and 00-100 feet, fifty-five and 38-100 feet, and eighty-three and 49-100 feet; easterly by Dock square, thirty-one and 88-100 feet; southerly by the southerly line of Elm street as hereby discontinued, by two measurements, five and 40-100 feet and one hundred sixty-three and 03-100 feet, containing five thousand ninety-five square feet, more or less.

ACTION ON DAMAGES

Noted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of Elm street, Boston Proper district, as a public highway, from Washington street to Dock square, under an order of the commission of February 5, 1963, and awards no damages.

TRAFFIC RULINGS

That in accordance with the provisions of chapter 117 of the Acts of 1947, permission is hereby granted to Chester Mickunas to prepare for public travel Irena road, Dorchester district, from Adams street approximately 160 feet northwesterly and westerly, provided that the construction of said Irena road shall be in accordance with the City of Boston plans and specifications for the construction of private ways opened for public travel, Class C, as shown on a plan entitled "Details and Specifications for Construction of Private Ways Opened to Public Travel, December 1, 1960, Frederick L. Garvin, Acting Division Engineer, Engineering Division, Public Works Department," in accordance with the lines and grades as shown on a plan dated September 29, 1962, by John E. Brosnahan, Surveyor, filed in the Engineering Division, Public Works Department, City of Boston.

Permission is hereby granted to O'Malley & O'Toole Construction Company, Inc., to open for public travel Gould street, West Roxbury district, between Belle avenue and Northdale road, as constructed in accordance with the direction, width, lines, and grades as shown on a plan by Joseph Selwyn, Civil Engineer, dated July 13, 1957, and on file in the office of the Engineering Division, Public Works Department.

That the amount of \$6,700 is awarded to the City of Boston, Trustee under the will of Lucy Bullman, for all damages sustained under the order of the Public Improvement Commission and Mayor of October 9, 1962, for the taking in fee of land adjacent to Cambridge street, Boston Proper district, containing 1,709 square feet of land, for Fire Department purposes.

That the award of \$6,700 to Overseers of Public Welfare, Trustees under the will of the Lucy Bullman Fund, voted by the Public Improvement Commission and Mayor on October 9, 1962, for the taking in fee of land adjacent to Cambridge street, Boston Proper district, containing 1,709 square feet of land, for Fire Department purposes, be, and the same hereby is, revoked.

That permission be granted to Worcester Gas Light Company, 1176 River street, Hyde Park, to lay and maintain an underground structure (875 feet of 6-inch welded steel high pressure gas main) in Sprague street, Hyde Park district, from the Dedham-Hyde Park Boundary Line northeasterly to No. 60 substantially as shown on a plan marked "Plan Showing Proposed Extension of 875 Feet of 6-Inch Welded Steel High Pressure Main in Sprague Street, Hyde Park, Worcester Gas Light Company, 1176 River Street, Hyde Park, February, 1963," and on file in the office of the Commissioner of Public Works.

That the name of the following private way be, and the same hereby is, changed as follows: Beaver street, Hyde Park district, from Braeburn road to Austin street. New name: Braewood street.

To be effective March 1, 1963.

That the name of the following private way be, and the same hereby is, changed as follows: Braxton street, West Roxbury district, from Dale street to Glenclyff road. New name: Glenclyff road.

To be effective March 1, 1963.

That the name of the following private way be, and the same hereby is, changed as follows: Tracy Way, Boston Proper district, from Blossom street to Staniford street. New name: William O'Connell Way.

To be effective March 1, 1963.

Whereas, On November 6, 1957, permission was granted to prepare for public travel Gould street, West Roxbury district, between Belle avenue and Northdale road; and

Whereas, On November 6, 1957, O'Malley & O'Toole Construction Company, Inc., entered into an agreement with the City of Boston relative to the installation of sewer and water facilities and the construction of said Gould street, between Belle avenue and Northdale road; and

Whereas, O'Malley & O'Toole Construction Company, Inc., deposited with the City of Boston the amount of \$1,200 in accordance with the provisions of said agreement; and

Whereas, Said Gould street was properly completed in accordance with Paragraph 2 of said agreement; it is therefore

Voted, That the sum of \$1,200 be paid to O'Malley & O'Toole Construction Company, Inc.

Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law, so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

ATTENTION IS CALLED TO CHAPTER 316 OF THE ACTS OF 1959, WHICH MUST BE STRICTLY COMPLIED WITH. The Commissioner reserves the right to reject any and all proposals or any item or items of the proposal should he deem it to be for the best interest of the city so to do.

JAMES W. HALEY,
Commissioner of Public Works.

Proceedings of City Council

Monday, February 25, 1963.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HINES in the chair. Absent, Councillor Coffey.

The Most Reverend Caesar Gatimu, Auxiliary Bishop of Kenya, East Africa, was escorted to the rostrum.

INVOCATION BY HIS EXCELLENCY
BISHOP CAESAR GATIMU.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Eternal God, under Whose benign Providence I am privileged to be in the United States of America, send down Thy blessings upon us all together.

Thou hast made us all according to Thy Infinite Wisdom. Each of us has his dignity and his destiny. From the dust of the earth, Thou hast created us. There is a great deal of clay in all of us and what makes that clay something sacred is Your Divine Life in each of us.

All that we are and all that we have is from Thee. We openly acknowledge our great debt to Thee, Our Creator.

Today I am honored to pray in the presence of the leaders of the City of Boston. We pray in these days so serious in their demands that Thy special blessings may rest upon the President and the members of the Boston City Council, that these, Thy servants, walking in the fear of the Lord, thinking clearly and acting courageously may preserve the high ideals of beloved America and of the great City of Boston (so I'm told) "The Hub of the Universe."

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

Heads of Nation's Largest Police Depts. Discuss Crime

Police Commissioner Edmund L. McNamara was one of the heads of police departments of 14 of the country's largest cities called for an unprecedented one-day conference in Chicago to discuss the nationwide increase in crime. The top officers of their respective departments represented a combined population of more than 22 million.

New York Commissioner Michael J. Murphy stressed the country-wide nature of the crime increase; the unreliability of mere statistics as a basis for comparison and the importance of a common front attack on crime.

His address follows:

"This unprecedented meeting stemmed from our concern over the increase in crime throughout the country. We felt it necessary for us to meet informally to exchange ideas on methods to combat this increase. We have established procedures for the orderly exchange of ideas and information on administrative matters in the operations of our departments.
